Dear Honorable John Berry:

Aloha! Please forgive me; but Senators Inouye-Akaka, and Patsy Mink have been "Dishonorably-Released" — there is no State government. we are the Inheritors-Owners, of our "Sovereign Republic of Hawaii", now, Twenty-eight years ago, under the protection of the "Whistle-Blower's-Act", I Blew The Whistle on the "Three-Dozen-Dirty-Elite Americans---plus one sleazy Japanese Consul", who had the "galling-audacity of taking our

Queen's-Tribal-Sovereign Nation! Representative Neil Abercrombie has been re-instated.

I am almost finished with my "PROCLAMATION TO AMERICA---AND TO THE WORLD"- as the Introduction and excerpt in my book ---- "The Aloha Story and a Second Betrayal of the Hawaiian Nation;"

As of August, 1998, the three Congress-Persons, are out! In 1974-5, our Bill 15666 was unanimously passed in the House - by Congressman James Haley, of Sarasota, Florida.

Daniel Inouye "stole" our $1 Billion - ear-marked in our Reparations Bill ——— and channelled it into the Japanese-American Bill; And shoved us back to Hawaii's Legislature. We were denied "our-day-in-the Senate" He "jumped on Aloha's-Band-wagon"---without us, he could never bring his Japanese Bill into Passage!

He stressed in our Ten-Congressional Hearings, that "no Bill can be passed in Congress", without any Congressional Hearings ——— "YET"... he passed the Japanese Bill without any Hearings; and get this! he passed it in both-Houses-in-one-and-the-same-afternoon!

Sir, I was called, by phone, ~~in~~ to my residence, in the University of North Dakota ---by my friend Elmer Henderson, who was the "Aide" to late Sparky Matsunaga, while I was a student there (for 7 yrs.)

Mrs. Henderson said, "Louisa, we feel you should be here; 'your Aloha Bill' is going to be passed in Congress tomorrow." I did go - Elmer Henderson came back to her office and said "---he passed the Japanese Bill, instead...!

By the way, E.W. Center is on our Land - it's going to go; also Asian Pacific Center; at R.&R. Center, with their $11 Millio.

3/ funded by Senator Inouye, is going to go, also, like a "Bandit," he managed to get $7 million; then up to $8 million — and managed to get it up to $11 million.

The EW Center; and his Asian Pacific Center has been no benefit to we, Native Hawaiian People, as far back as I can remember. It is for his Japanese People only — and it is on our Lands — so they're both going to go!!

We will ban him from our Islands, permanently, if he starts anything else, I am informing all Military-People, that he no longer has any "status" at all.

The Japanese Consulate is not welcome, either — and the TELESCOPE on Hawaii, will be removed, also — The "Princess" can have it on her own "Mt. Fujiyama" — I think that's the name.

The so-called Submarine from Japan — doing their scientific — whatever) is no longer welcome in our Waters. Who invited them — Senator Inouye, No Japanese General, or any high officers, can serve in our water or Nation. All these are in my Book; "The Aloha Story — & a Second Betrayal of Hawaii!"

Mahalo,
Louisa K. Makaiwi Dea

#8 P.S.

Barber's Point has already been allocated "Posthumously," to every American buried under the U.S.S. Arizona, U.S.S. Utah; and other ships sunk in, and around Pearl Harbor. The "Next of Kin" families are the only ones entitled to live in the Barber's Point Area — and whatever, and whenever, the Navy need extra lands there, they have first-Priority. Included in this group will be those who responded: "to help bury the dead ---!" My cousin was one of them; he was Prison Guard at Oahu Prison — he hardly ever came home; so, so many dead --to be buried."

The Japanese units serving in Europe, are not to be part of Barber's Point; let Washington, D.C. honor them. "all the Military-People who saved our Hawaiian Islands," on Dec. 7 & 8 — and who are on active duty in Hawaii, now, are also welcome ---' in Perpetuity. They can never be thanked enough... but for them, we would have lost to the Japs.

Our Reparations have never been resolved yet --- H.R. 15666 should be re-submitted. your "Reconciliation whatever" is an insult — these are all facts in my up-coming book. It is not coming by, easy — I am charging $49.95 per book — but, for you, just inviting written statements, such as mine --- you may have it with my compliments!

Again — Mahalo,

Louisa DeMello

Am I too bold? Twenty-eight years of silent-shyness hasn't worked!

John - My thesis is on the deeper history of Hawaii (over 2,000 yrs) to date, and how ancient law of Aloha, the Hawaiian Islands Island National Laws, and International laws can be used ~~to~~ the process of resurgence of the Hawaiian Nation and reconciliation efforts with America. I cover transitional relationships such as a Tri-Lateral ownership-recognition ~~relationship~~ agreement pertaining to land.

There are many things in history that Hawaiian people are not willing to admit that caused disunification, opening the way for the overthrow. - These are purely Hawaiian issues that we Hawaiians need to address in private.

I will be happy to participate on your educational team - Sylvia Tuinei.
