~~Dear~~ Mr. Berry, RSK 1-9-00

Hello I am the mother of 3 wonderful part-Hawaiian children and here is a list of ways I think we could ~~make~~ make some reconciliation between the "Native americans" (Hawaiians) and the people of the U.S.

1) free tuition waivers for any part-Hawaiian (No blood quantam) for college (old or young)
2) Monthly stipends (Based on need - if married, single, # of dependents ect.)
3) Also there should be strict requirements met - a declared major and no GPA Below 2.0 - or you loose stipend ect..
4) A possibility of "Not to pay" any State tax - as the state of Hawaii has benefited enormously from these "Ceded lands"

Mostly if we could further educate young and old the state of Hawaii would be in a win/win situation - No more generations addicted to welfare - possibilities for greatness through brillant minds are endless

Sincerely
Mrs Denise Sanborn
