Subject: Make your Retreat reservations!

Good morning,
NCTC is ready to hear directly from you regarding your reservations for the Secretary's Team Retreat. As a reminder, you should plan to arrive at NCTC by noon on Friday, November 19. We will spend the night there and wrap-up by noon Saturday. More detail on the agenda will be forthcoming.

Here is how to make your arrangements. Please do this right away.

1) Call Hotel Reservations at 304-876-7900 to reserve your room.
2) Prepare your travel authorization to reflect a $128 cost per person for lodging and food. Your lodging and meals will be charged to your government charge card (or a personal card if you do not have one).
3) If you are NOT spending the night for any reason, you still need to let NCTC know you are attending as a "commuter" and what meals you will join for.

Thanks all.
Laura

THE SECRETARY OF THE INTERIOR
WASHINGTON

MAR 22 2011

Mr. Tom Hunter, Ph.D.
12231 Academy Road, NE
#301-259
Albuquerque, New Mexico 87111

Dear Dr. Hunter:

On April 14, 2011, I am convening a one-day Ministerial Forum on Offshore Drilling Containment (Forum). The Forum will provide an opportunity for energy ministers, offshore oil and gas regulators, and experts from industry and the scientific and academic community to exchange information on lessons learned, best practices, and the best path toward promoting the development of cutting-edge, effective containment technologies in offshore exploration.

I would like to invite you to join me at this important meeting by participating on a panel discussion on "Promoting Next Generation Well Containment Technologies." Each panelist will have the opportunity to deliver a brief presentation, followed by a discussion with other Forum participants. We would be delighted to hear your thoughts on the role of the new Ocean Energy Safety Advisory Committee in strengthening capabilities for containing potential deepwater blowouts of oil and gas wells, and promoting international collaboration and R&D on offshore containment technologies.

As recent events have made clear, this topic deserves vigilant focus and attention. In the past two years, the world has seen not one, but two major blowouts: the Deepwater Horizon blowout in the Gulf of Mexico, and only eight months previously, the Montara well blowout off the coast of Western Australia. These tragic events exposed the fundamental shortcomings in existing containment technologies. They also underscored the global scope of the problem. Oil companies have ventured into deeper waters throughout the world and developed more sophisticated drilling technologies, while practices and technologies available for containing spills have trailed behind.

It is our collective responsibility to change this status quo and ensure that the appropriate regulatory measures and resources are in place so that offshore petroleum and natural gas activities will be conducted safely going forward. I hope that the Ministerial Forum on Offshore Drilling Containment will be only one of many occasions to engage in a discussion on this important issue.

Attached you will find a draft agenda for the Forum. If you have any questions or need assistance, please do not hesitate to contact Ms. Raya Bakalov at (202) 208-3715 or Raya.Bakalov@boemre.gov.

Sincerely,

Ken Salazar
