REPORTING REQUIREMENTS

The conferees direct the Secretary of Defense to provide a report to the congressional defense committees within 30 days after the date of enactment of this legislation on the allocation of the funds within the accounts listed in this chapter. The Secretary shall submit updated reports 30 days after the end of each fiscal quarter until funds listed in this chapter are no longer available for obligation. The conferees direct that these reports shall include: a detailed accounting of obligations and expenditures of appropriations provided in this chapter by program and subactivity group for the continuation of the war in Iraq and Afghanistan; and a listing of equipment procured using funds provided in this chapter. The conferees expect that in order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The conferees direct the Department of Defense to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this chapter.

Additionally, the conferees direct that the reporting requirements of section 9010 of Public Law 109–148, the Department of Defense Appropriations Act, 2006, regarding military operations and stability in Iraq shall apply to the funds appropriated in this Act.

ARMY COMBAT BRIGADES AND LONG-TERM EQUIPMENT REPAIR COSTS REPORTS

The conferees agree on the House requirements for reports to be submitted to the congressional defense committees on Army Combat Brigades and Long-Term Equipment Repair Costs. The conferees direct that the reports shall be submitted not later than July 7, 2006.

NATIONAL GUARD AND RESERVE

The House report directed that not less than $3,571,083,000 of the funds provided in this bill shall be provided for the National Guard and Reserve forces to prosecute the Global War on Terror.
The conferees agree that within the funds provided in the conference report, the National Guard and Reserve should receive not less than the President’s budget request for these activities.

**stryker upgrades**

The conferees urge the Department of the Army to initiate Block 2 upgrade programs for existing Stryker brigades undergoing reset maintenance using funds available in this Act.

**classified programs**

Recommended adjustments to classified programs are addressed in a classified annex accompanying this report.

**Military Personnel**

The conference agreement recommends $10,282,131,000 for the military personnel accounts, instead of $9,933,381,000 as proposed by the House, and $10,204,007,000 as proposed by the Senate. The conference agreement on items addressed by either the House or Senate is as follows:

**COMPREHENSIVE COMBAT CASUALTY CARE CENTER IN SAN DIEGO**

The conferees are pleased that the Navy has made funds available to open the Comprehensive Combat Casualty Care Center in San Diego and that the Navy has agreed to continue financing this center in future budgets. The creation of this center will help marines, sailors and soldiers assigned to the West Coast return to their commands, families and communities, while ensuring that their rehabilitation continues without interruption.

**OPERATION AND MAINTENANCE, DEFENSE-WIDE**

The conference agreement includes $5,000,000 for emergencies and extraordinary expenses instead of $10,000,000 as proposed by the House. The Senate did not address this matter.

The conference agreement includes $740,000,000 in coalition support funding as proposed by the Senate instead of $1,200,000,000 as proposed by the House.

The conference agreement amends Senate language providing that up to $75,000,000 shall be transferred to the Coast Guard for...
operating expenses. The House bill addressed this matter in the Operation and Maintenance, Navy account.

**BORDER SECURITY INITIATIVE**

On May 18, 2006, the Administration submitted a revised supplemental request for a border security initiative. The revised request provided an additional $1,900,000,000 to the Departments of Defense, Justice and Homeland Security for this initiative. The additional amount for the President’s border security initiative was offset by a corresponding reduction to the Department of Defense’s funding for the Global War on Terror.

The conferees recommend $708,000,000, instead of $756,000,000 as proposed by the Administration, for the Department of Defense to fund the incremental military personnel and operation and maintenance costs of deploying up to 6,000 National Guard personnel to the U.S. border for one year in support of the Department of Homeland Security.

The funds recommended for the Department of Defense are addressed in Title V of this Act.

**COUNSELING AND TRANSITION ASSISTANCE**

The conferees remain concerned about the effects of combat operations on the emotional and psychological well-being of our military forces returning from war. This concern is borne out by a recently released Veterans Administration (VA) report that indicates almost 30,000 Operation Iraqi Freedom/Operation Enduring Freedom veterans have reported to VA hospitals with effects from post traumatic stress syndrome (PTSD). To address this issue, the conferees agree to include $93,000,000 for family support counseling and transition assistance, an increase of $50,000,000 over the request. The conferees believe the Department of Defense should redouble its efforts to understand the counseling and transition assistance needs of our returning troops and seek sufficient funding for programs that address these needs.

**FORMER SOVIET UNION THREAT REDUCTION ACCOUNT**

The conference agreement provides $44,500,000 for the Former Soviet Union Threat Reduction Account.

**AFGHANISTAN AND IRAQ SECURITY FORCES FUNDS**

The conference agreement provides $1,908,133,000 for the Afghanistan Security Forces Fund, as proposed by the Senate, instead of $1,851,833,000 as proposed by the House; and provides $3,007,000,000 for the Iraq Security Forces Fund, as proposed by the House, instead of $3,703,000,000, as proposed by the Senate. The conferees agree that funds may be made available for infrastructure for the security forces in both countries that are being trained and equipped by the United States and its coalition allies, including police and military forces.

While the conference agreement does not provide full funding as requested by the President for these funds, the conferees note that it would not have been possible for the requested funds to be
fully obligated and expended in the remaining months of fiscal year 2006. The reduction is taken without prejudice.

The conferees endorse language as proposed by the House regarding reporting requirements for the Afghanistan and Iraq Security Forces Funds.

The conferees are concerned that Iraq’s neighbors in the Middle East have not provided sufficient resources to ensure security and stability in that country. Many of these nations have experienced greatly increased revenue flows due to the rise in oil prices. While the United States and its coalition allies have borne the predominant burden of combat operations, supporting free elections, and helping establish a permanent government, Arab and other nations in the region now need to greatly enhance their assistance for the new Iraqi security forces. The conferees strongly urge the Department of Defense and the Administration to renew efforts to solicit contributions from these nations so that in the future the United States is not the primary source of funds for the modernization of the Iraqi security forces.

**COMMANDER’S EMERGENCY RESPONSE PROGRAM**

The conferees provide $423,000,000 for the Commander's Emergency Response Program (CERP), as proposed by both the House and the Senate. The conferees endorse language as proposed by the House that amends current CERP reporting requirements. The conferees also recognize that military commanders in the field are the first line of contact with the civilian population and therefore direct that the CERP funds remain under the operational control of the military commanders.

**CONDOLENCE PAYMENTS**

The conferees agree with the intent of the Senate language on condolence payments to civilians who have suffered injuries, or to the families of those who have died, as a result of combat operations. In addressing Department of Defense condolence payments, the report should only address activities funded under the CERP program. Recommendations on funding mechanisms for condolence payments should include a consideration of funding through other Federal Agencies.

**JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND**

The conferees provide $1,958,089,000 for the Joint Improvised Explosive Device Defeat Fund, as proposed by the Senate. The conferees endorse the Senate language which directs the Department of Defense to provide an initial report on the organization, funding, and other matters related to the Joint Improvised Explosive Device Defeat Fund. The initial report shall be provided to the congressional defense committees within 60 days of enactment of the accompanying Act. In addition, the Department is to provide subsequent reports not later than 30 days after the end of each fiscal quarter to the congressional defense committees.
The conference agreement provides a total of $15,028,313,000 for various procurement appropriations, instead of $17,679,451,000 as proposed by the House and $15,456,598,000 as proposed by the Senate.

TITLE III
GENERAL PROVISIONS AND TECHNICAL CORRECTIONS

Instead, the conferees agree to address this issue as Sec. 1304 in Title I of this agreement.

OPERATING EXPENSES

The conferees agree to provide $26,692,000 as proposed by the House and the Senate for the United States Coast Guard’s share of enhanced death gratuity benefits and for upgrades to necessary intelligence systems.

CHAPTER 5
DEPARTMENT OF DEFENSE

Use of requested military construction funds to offset border security proposal.—The Office of Management and Budget (OMB) submitted on February 16, 2006, an emergency military construction request for the global war on terrorism totaling $484,700,000. The projects comprised by that request were deemed urgent and vital to ongoing contingency operations in Iraq and Afghanistan. On May 14, 2006, OMB submitted a border security funding proposal that included offsets from the military construction request submitted in February. Included in this list were three projects at Bagram, Afghanistan, though OMB gave no explanation as to why these projects were no longer deemed emergency requirements. The conferees do not recommend funding for these three projects, since the Administration no longer regards them as priorities. The conferees believe that emergency spending requests must be taken seriously and deserve to be reviewed and acted upon in good faith. Such consideration becomes more difficult, however, when emer-
ergency requests are revoked without any apparent reason related to changing facts on the ground in the theater of operations.

**MILITARY CONSTRUCTION, ARMY**

The conferees agree to provide $187,100,000, instead of $287,100,000 as proposed by the House and $214,344,000 as proposed by the Senate. The conferees agree to include a provision as proposed by the House to prohibit the obligation or expenditure of funds for Counter IED/Urban Bypass Roads in Iraq until the Secretary of Defense submits a detailed plan for the construction of such roads. The Senate bill contained no similar provision. The conferees also agree to make the funds available until September 30, 2007, as proposed by the House, instead of September 30, 2010, as proposed by the Senate. Funds are provided as follows:

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

The conference agreement provides $33,881,000 for the Defense Health Program, as proposed by the House and Senate, for health care costs associated with active duty personnel and beneficiaries who previously received care at Keesler Medical Center.
and now are receiving health care and pharmaceuticals through private sector contracts.

Office of the Inspector General

The conference agreement provides $326,000 for the Office of the Inspector General, as proposed by the Senate. The House did not provide funding in this account.

General Provisions—This Chapter

The conferees agree to retain and amend section 2201, as proposed by the Senate, which provides the Secretary of Defense authority to transfer up to $150,000,000 of funds made available in this chapter and in chapter II of title I of this Act.

The conferees agree to retain section 2202, as proposed by the House and Senate, which prohibits funds provided in this chapter to finance programs or activities denied by Congress, or to initiate a new start program without prior notification to the congressional defense committees.

The conferees agree to amend section 2203, as proposed by the Senate, to allow for the use of funds appropriated to the Navy for certain specified activities.

Chapter 3

Department of Defense—Civil

Department of the Army

Corps of Engineers—Civil

The Committee recommendation provides emergency funding to address water resource needs related to Hurricane Katrina and other emergency needs.

Investigations

Funds totaling $3,300,000 are provided for the Corps to develop a comprehensive plan, at full Federal expense, to deauthorize deep draft navigation on the Mississippi River-Gulf Outlet, Louisiana. The plan shall include recommended modifications to the existing authorized current use of the Outlet, including what navigation functions, if any, should be maintained and any measures for hurricane and storm protection. The plan shall be developed in consultation with St. Bernard Parish, the State of Louisiana, and affected Federal Agencies. An interim report summarizing the plan shall be forwarded to the appropriate House and Senate authorizing and appropriations committees within six months of enactment of this Act and final recommendations shall be integrated into the Louisiana Coastal Protection and Restoration Plan, due to Congress in December 2007.

Additionally, the Secretary is directed to undertake an analysis to determine the amount of vertical settlement or subsidence that has occurred since levee system components were built, versus levee grade deficiencies due to the application of new storm data. The Plan shall address how these changes affect compliance with
100-year floodplain certification and standard project hurricane requirements. A report on the findings of this analysis shall be forwarded to the appropriate authorizing and appropriations committees within 90 days of enactment of this Act.

CONSTRUCTION

Funds totaling $549,400,000 are provided for Construction. The Conferees are aware that the wetlands surrounding the greater New Orleans metropolitan area operate as a natural buffer to lessen storm impacts, and are an important part of the overall storm damage reduction system. Nourishing and rebuilding these wetlands will increase the effectiveness of the levees and floodwalls of New Orleans. Therefore, the Conferees recommend bill language directing the Corps to use $20,200,000, at full Federal expense, to reduce the risks of storm surge and storm damage to the greater New Orleans metropolitan area by restoring the surrounding wetlands, and to aid in the reduction of risk to both loss of life and damage to homes, businesses, and local infrastructure in the metropolitan area. The Corps is further directed to use these funds in the following manner: $10,100,000 to modify the Caernarvon Freshwater Diversion structure or its operations; and $10,100,000 to protect the shoreline along the Barataria Basin Landbridge in Jefferson Parish, Louisiana. Of the funds provided, at least $495,300,000 shall be available, consistent with cost sharing provisions, to raise levee heights and otherwise improve the existing Lake Pontchartrain and Vicinity and the West Bank and Vicinity projects.

Additional funds of $1,500,000 are provided to address storm damages to North Padre Island, Texas, caused by Hurricane Emily, and $2,000,000 is provided for Hawaii water systems technical assistance program.

In recognition of flood threats to the Sacramento area, the Conferees have included $7,100,000 for South Sacramento Streams, California, and $23,300,000 for the Sacramento Bank Protection Project, California. The Corps is further directed to use up to $400,000 of previously appropriated funds to continue the operation of the Chicago Sanitary and Ship Canal Demonstration Barrier.

The moratorium on the execution of project cooperation agreements contained in P.L. 109–275 shall not apply to continuing authorities program projects for which funding was provided, or is otherwise available, to fully fund the construction phase of the project. For those projects where the local sponsor's cost share will be lost due to the inability to sign a project cooperation agreement, the Corps may sign project cooperation agreements with the explicit consent of the House and Senate Committees on Appropriations. For any project for which an exception is made due to this circumstance, the local sponsors of such projects should be aware that the construction of the project remains contingent upon future appropriations which are not guaranteed.

Further, requirement that the Corps institute cost sharing for Sections 206 and 1135 projects was not intended to change the cost share structure of projects currently in the feasibility phase.
OPERATION AND MAINTENANCE

Funds totaling $3,200,000 are provided to restore Federal navigation channels and harbors along the Texas Gulf Coast to pre-storm conditions affected by Hurricane Katrina and other hurricanes of the 2005 season.

FLOOD CONTROL AND COASTAL EMERGENCIES
(INCLUDING RESCISSION OF FUNDS)

Funds totaling $3,145,024,000 are recommended to continue repairs to flood and storm damage reduction projects. These projects are to be funded at full Federal expense.

The Conferees provide the full request of $1,584,000,000 to replace all floodwalls within Orleans East Bank Algiers, Jefferson East Bank/St. Charles, Jefferson West Bank, New Orleans East, St. Bernard/Lower Ninth Ward, Belle Chasse/Algiers East hydraulic areas of the existing Lake Pontchartrain and Vicinity project and the existing West Bank and Vicinity project, not including lower Plaquemines Parish. However, the Conferees recognize this cost estimate is a “worst case” scenario and assumes the replacement of all flood walls. Therefore, the funds provided are contingent upon site-specific engineering assessment and analysis that determines replacement is necessary to maintain the integrity of the system. Further, these funds are not available for any other project, program, or activity without the approval of the House and Senate Committees on Appropriations.

The Conferees provide $530,000,000 for construction of permanent closures and pumping plants at the 17th Street, Orleans, and London Avenue Canals. Further, the Corps is directed to provide adequate temporary pumping capacity to evacuate expected flows from the existing pumping stations in the three drainage canals in order to minimize interior flooding.

Additionally, the Conferees include: $170,000,000 for levee and floodwall armoring; $350,000,000 to construct navigable closures on the Inner Harbor Navigational Canal, one near Seabrook and another on the Gulf Intracoastal Waterway; $215,000,000 for incorporation of non-Federal levees on the west bank of the Mississippi River in Plaquemines Parish in order to provide improved storm surge protection and to protect evacuation routes; $250,000,000 for storm proofing interior pump stations to ensure their reliability during hurricanes, storms and high water events; and $30,024,000 for repairs to non-Federal levees in Terrebonne Parish.

Within the funds provided, $16,000,000 shall be used to restore previously appropriated emergency funds for flood protection projects damaged in previous disasters in Pennsylvania. Funds for these projects were withdrawn shortly after Katrina struck the Gulf Coast to address immediate needs.

The Conferees also rescind $15,000,000 previously provided in P.L. 109–148 for the Grand Isle, Louisiana project. It is the Conferees’ understanding that the project is not economically justified and therefore the funds appropriated to accelerate construction are no longer required.
DEPARTMENT OF THE INTERIOR
BUREAU OF RECLAMATION
WATER AND RELATED RESOURCES

The Conference recognize that snowpack amounts in many areas of the Southwest are at historic lows and precipitation forecasts are not favorable for improving the situation. Runoff in many river basins in the West is expected to be one quarter of normal or less. The Conference note that the communities of Ruidoso, Ruidoso Downs and Las Vegas, New Mexico, are already operating under stringent water restrictions.

Therefore, the Conference have provided $9,000,000 for drought emergency assistance. The Conference expect Reclamation to undertake drought contingency planning, to provide emergency potable water sources for eligible communities and to provide other drought emergency assistance within their authorities to help stricken communities.

GENERAL PROVISIONS—THIS CHAPTER

Sec. 2301. The conference agreement includes a provision related to the use of unexpended funds and waives the requirements of the Uniform Relocation Assistance and Real Property Act.

Sec. 2302. The conference agreement includes a provision that states that the funds provided in division B, chapter 3, Investigations, of Public Law 109–148 are not subject to any non-Federal cost sharing requirement and changes the amount contingent upon the enactment of a single levee board.

Sec. 2306. The conference agreement includes a provision extending the Drought Relief Act through 2010.

Sec. 2307. The conference agreement includes a provision clarifying the availability of funds for the purposes of reprogramming actions.

Sec. 2308. The conference agreement includes a provision that prohibits the use of any funds in fiscal year 2006 through April 1, 2007 to affect bond repayment.
Sec. 2309. The conference agreement includes a provision relating
to the Chicago Sanitary and Ship Canal Demonstration Bar-
rier.

CHAPTER 4

DEPARTMENT OF HOMELAND SECURITY

OFFICE OF INSPECTOR GENERAL

The conferees agree to provide $2,000,000 for the Department
of Homeland Security's Inspector General instead of $13,500,000 as
proposed by the House for transfer to other federal departments
and agencies and no funds as proposed by the Senate. Funds are
available until September 30, 2007. Funding for federal depart-
ments and agencies is addressed in other chapters of this con-
ference agreement.

CUSTOMS AND BORDER PROTECTION

SALARIES AND EXPENSES

The conferees agree to provide $12,900,000 as proposed by the
House and the Senate for necessary expenses related to the con-
sequences of the Gulf Coast hurricanes.

CONSTRUCTION

The conferees agree to provide $4,800,000 as proposed by the
House and the Senate for necessary expenses related to the con-
sequences of the Gulf Coast hurricanes.

UNITED STATES COAST GUARD

OPERATING EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The conferees agree to provide $88,970,000 instead of
$14,300,000 as proposed by the House and $90,570,900 as proposed
by the Senate. Of this total, $7,350,000 is for cleanup and repair
of damaged facilities; $7,400,000 for increased temporary logistics;
$3,483,000 for basic housing allowances; and $70,000,000 for en-
ergy costs. In addition, the conferees have included bill language
allowing transfers of up to $267,000 to the “Environmental Compli-
cance and Restoration” appropriation for Coast Guard facilities in
the Gulf Coast region and $470,000 to the “Research, Development,
Test, and Evaluation” appropriation for additional costs to reposi-
tion the State of Maine vessel. Funds are available until September

ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

The conferees agree to provide $191,730,000 instead of
$80,775,000 as proposed by the House and $191,844,000 as pro-
posed by the Senate. Of this total, $80,800,000 is for the recon-
struction of the Integrated Support Command Center in New Orle-
ans; $103,930,000 is for Katrina-related costs associated with mate-
rials, equipment, facilities and labor; and $7,000,000 is for the rela-
cation of the Gulfport Coast Guard Station. The conferees direct the Coast Guard to ensure that the Defense Contract Audit Agency audits Katrina-related cost increases associated with pre-Katrina contracts. Funds are available until expended.

**FEDERAL EMERGENCY MANAGEMENT AGENCY**

**ADMINISTRATIVE AND REGIONAL OPERATIONS**

The conferees agree to provide $71,800,000 as proposed by the Senate instead of $70,000,000 as proposed by the House. Of this total, $70,000,000 is included for necessary expenses related to the consequences of the Gulf Coast hurricanes and $1,800,000 is included for the Office of National Security Coordination.

**PREPAREDNESS, MITIGATION, RESPONSE, AND RECOVERY**

The conferees agree to provide $10,000,000 for Preparedness, Mitigation, Response, and Recovery, as proposed by the House and the Senate. Of this total, $3,000,000 is included to immediately review and revise the National Response Plan (NRP) and the National Incident Management System (NIMS); $1,000,000 for the logistics management system; and $1,000,000 for the Enterprise Content Management System. FEMA is to brief the House and Senate Committees on Appropriations no later than 45 days from the date of enactment of this Act on the hiring initiatives to meet its staffing requirements and its staffing plan.

**DISASTER RELIEF**

The conferees agree to provide $6,000,000,000 for Disaster Relief, instead of $9,548,000,000 as proposed by the House and $10,400,000,000 as proposed by the Senate. The conferees do not specify the purposes for these funds, except $400,000,000 of this amount is made available to carry out section 2403 of this chapter.

The conferees agree to include bill language proposed by the Senate that each county or parish eligible for assistance under the disaster declaration of September 24, 2005, will be treated equally for purposes of cost-share adjustments.

The conferees note the Department of Homeland Security (DHS), in conjunction with the Federal Emergency Management Agency (FEMA), recently issued interim policy guidance clarifying that charter schools are eligible for FEMA’s Public Assistance Program. The conferees believe this policy should be quickly finalized so it can be distributed to FEMA officials throughout the country as expeditiously as possible, and encourage DHS and FEMA to continue working with the relevant Congressional committees on implementation of this policy.

The conferees concur with language proposed by the House regarding the weekly Disaster Relief Report and the lack of information regarding the assumptions DHS is using to estimate total disaster relief funding needed this fiscal year. Beginning immediately, the conferees direct DHS to include an explanation of the methodology used to calculate estimated yearly allocations by program area and program name. This explanation shall include the total yearly cost estimate, the amount allocated and obligated to date,
and a written explanation of the assumptions and methodology used to estimate the total yearly cost.

DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

The conferees agree to provide $279,800,000 to subsidize not to exceed $371,733,000 in loans for the Special Community Disaster Loans Program authorized in the Community Disaster Loan Act of 2005, P.L. 109–88, instead of $301,000,000 ($150,000,000 by transfer) as proposed by the House and $301,000,000 as proposed by the Senate. Of this total, $1,000,000 is included for administrative costs. The conferees include bill language proposed by the Senate specifying that loans may be equal to not more than 50 percent of the annual operating budget of the local government in cases where that government has suffered a loss of 25 percent or more in tax revenues due to Hurricanes Katrina or Rita.

GENERAL PROVISIONS—THIS CHAPTER

Sec. 2401. The conferees agree to include bill language as proposed by the House and Senate authorizing FEMA to pay for utility costs for those leases negotiated by State and local governments on FEMA’s behalf.

Sec. 2402. The conferees agree to include bill language as proposed by the House and Senate amending P.L. 109–90 to allow the National Flood Insurance Fund to pay sufficient interest on the amounts the program has borrowed from the Treasury.

Sec. 2403. The conferees agree to include and modify bill language as proposed by the Senate allowing the Secretary of Homeland Security to consider eligible for funding the costs of alternative housing pilot programs in the areas hardest hit by Hurricane Katrina and other hurricanes of the 2005 season.

CHAPTER 5

DEPARTMENT OF THE INTERIOR

UNITED STATES FISH AND WILDLIFE SERVICE

CONSTRUCTION

The conference agreement provides $132,400,000 for “Construction”, as proposed by both the House and the Senate, for cleanup and facility repair needs at National Wildlife Refuges related to the consequences of Hurricane Katrina and other hurricanes of the 2005 season. The managers agree that the Service shall, as proposed by the House, repay funds that were transferred from projects that have yet to be completed. These funds were transferred on an emergency basis for initial hurricane response needs and must be repaid so that projects from which they were borrowed can be completed. A technical correction has been made to the repayment language proposed by the House.
The conference agreement provides $43,000,000 for the “Historic Preservation Fund” instead of $3,000,000 as proposed by the House and $83,000,000 as proposed by the Senate. Of the funds provided, $3,000,000 is for Section 106 assistance and $40,000,000 is for disaster relief grants for the preservation, stabilization, rehabilitation, and repair of historic properties listed on or eligible for the National Register of Historic places, and for planning and technical assistance.

These funds are available for obligation until September 30, 2007, as proposed by the House, instead of being available until expended as proposed by the Senate.

As proposed by the Senate, funds for historic preservation grants are available for areas with a Presidential disaster determination associated with Hurricanes Katrina or Rita; are not subject to a non-Federal matching requirement; and no more than 5% may be used for administrative expenses.

The managers expect the National Park Service to award the Section 106 assistance funds to the States without any delay. Of the $3,000,000 available for Section 106 assistance, at least $1,500,000 shall be available for the Mississippi State Historic Preservation Officer. The remaining $40,000,000 is for grants to State Historic Preservation Officers (SHPOs) as described below.

The managers expect the National Park Service to award disaster relief grant funds to SHPOs in accordance with existing Historic Preservation Fund policies and procedures, except as modified herein, and only after a State has submitted, and the National Park Service has reviewed, an Action Plan Narrative that describes the major tasks to be undertaken with the supplemental grant funds. Each task statement shall describe the major services provided by the State Historic Preservation Officer, the problems to be addressed, a preliminary list of proposed projects and their estimated costs, and the expected results.

The National Park Service shall undertake its review of each plan and shall award funds as expeditiously as possible. Preference in making awards shall be given to plans that include: (1) properties located within designated National Heritage Areas; (2) owner-occupied houses; and (3) a demonstrated ability to spend the funds expeditiously. The managers intend that these funds be awarded with an emphasis on individuals who are committed to rebuilding their communities and who otherwise cannot afford the additional costs often associated with historic preservation.

No State shall receive more than 65% of the total available for these grants. There is a 5% limitation on administrative costs. Of the amount available for administrative expenses, up to $550,000 is available to the National Park Service to expedite awarding and oversight of the funds.

Where they exist, state associations representing community health centers should be the primary recipient of these funds. The conferees expect this funding to be distributed by July 30, 2006 so that these systems can be in place as early as possible in the hurricane season. The Senate included $6,000,000 for this purpose. The House did not propose a similar provision.

The Senate bill proposed $20,000,000 and the House did not propose a similar provision. DEPARTMENT OF VETERANS AFFAIRS

DEPARTMENTAL ADMINISTRATION

CONSTRUCTION, MAJOR PROJECTS

The conferees agree to provide $585,919,000 for Construction, Major Projects, instead of $550,000,000 as proposed by the House and $623,000,000 as proposed by the Senate. The conferees agree that the funding provided includes $550,000,000 for construction of a medical facility in New Orleans, Louisiana. In addition, $35,919,000 is provided for debris removal and environmental clean-up of the former Department of Veterans Affairs Medical Center in Gulfport, Mississippi, and for any authorized purpose within this account.

In a report issued to Congress on February 28, 2006, the Department of Veterans Affairs identified its preference to rebuild the medical center in New Orleans as a “shared facility” with its academic partners. The conferees are supportive of this effort and en-
courage the Department to continue to work with its affiliates to develop the shared facility concept. However, the conferees caution the Department not to enter into any agreement in which it pays for more than its share in the name of collaboration.

RELATED AGENCY

ARMED FORCES RETIREMENT HOME

The conferees agree to provide $176,000,000 for construction of a new facility in Gulfport, Mississippi, as proposed by the Senate. The House bill contained no similar provision. The conferees note that cost estimates provided in a report to Congress on February 28, 2006, included significant expenses which should not be incurred for construction of a facility of this type and have adjusted the funding accordingly. The conferees have also included a general provision which consolidates $64,700,000 of previously appropriated funding which is to be used for this construction project. The conferees believe that the total funding available is sufficient to build a new replacement facility, fully compliant with all relevant laws, regulations, and standards for a retirement domicile, on the existing site in Gulfport, Mississippi.

GENERAL PROVISIONS—THIS CHAPTER

(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

The conferees agree to include a provision (Sec. 2701), as proposed by the Senate, to waive a Federal funding limit on Guard and Reserve military construction projects appropriated in this chapter. The House bill contained no similar provision.

The conferees agree to include a provision (Sec. 2702), as proposed by the Senate, which allows funds previously appropriated for the Department of Veterans Affairs, Medical Services account, to be transferred to other accounts upon notification to the Committees on Appropriations of both Houses of Congress. The provision also extends the availability of the funds beyond the current fiscal year. The House bill contained no similar provision.

The conferees agree to include a provision (Sec. 2703), as proposed by the Senate, which directs the Secretary of the Department of Veterans Affairs to clean up and transfer property in Gulfport, Mississippi, to the city of Gulfport, Mississippi. The House bill contained no similar provision.

The conferees have not included a provision, as proposed by the Senate, which would authorize site acquisition and construction of medical facilities in New Orleans, Louisiana, and Biloxi, Mississippi. The House bill contained no similar provision.

The conferees agree to include a provision (Sec. 2704) which consolidates unobligated balances of the Armed Forces Retirement Home, to be used for the planning, design, and construction of a new facility in Gulfport, Mississippi, as proposed by the Senate. The conferees have modified the Senate proviso to this provision which designates the General Services Administration, in consultation with the Naval Facilities Engineering Command and the Armed Forces Retirement Home, as the agent for all matters with
regard to planning, design, construction, and contract administration. The House bill contained no similar provision.

CHAPTER 8
DEPARTMENT OF JUSTICE
LEGAL ACTIVITIES
SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The conference agreement provides $2,000,000 for General Legal Activities, as proposed by the House instead of $3,200,000 as proposed by the Senate. Funding is provided for the Criminal Division and Civil Division for expenses to investigate and prosecute fraud cases related to hurricanes in the Gulf Coast region.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The conference agreement provides $6,500,000 for United States Attorneys as proposed by the Senate instead of $5,000,000 as proposed by the House. Funding is provided for expenses to investigate and prosecute fraud cases related to hurricanes in the Gulf Coast region.

DEPARTMENT OF COMMERCE
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION
OPERATIONS, RESEARCH, AND FACILITIES

The conference agreement provides $118,000,000 under this heading, instead of no funding as proposed by the House and $1,135,000,000 as proposed by the Senate. In addition to the amount provided under this heading, language is included in chapter one of this title to transfer $38,000,000 from the United States Department of Agriculture to NOAA for reseeding, rehabilitation and restoration of oyster reefs.

The conferees remain concerned about the ongoing recovery efforts in the Gulf of Mexico and the previous lack of attention given to the critical need for mapping the Gulf waters for debris removal. In the wake of the numerous hurricanes of 2005, which greatly disrupted the water in the Gulf of Mexico, all previous mappings of those waters are now inaccurate. To date the only areas within the Gulf of Mexico that have been remapped are the vessel channels to allow for safe passage of ships traveling through the many ports along the Gulf. The remainder of the Gulf of Mexico must also be mapped beginning with traditional fishing grounds in order to remove debris and begin the process of surveying stocks and reestablishing this element of the economy. Mapping and debris removal is a critical safety and security precaution necessary to prevent catastrophic accidents from occurring during the upcoming fishing and boating season.

The conference agreement provides $20,000,000 for the Office of Coast Survey to conduct scanning and mapping and coordinate with the Office of Response and Restoration for marine debris removal; $2,000,000 for the Center for Operational Oceanographic
Products and Services to establish Physical Oceanographic Real-Time Systems along the Gulf of Mexico; $1,000,000 for the Center for Operational Oceanographic Products and Services to repair and replace tide gauge stations in the northern Gulf of Mexico; $90,000,000 for the National Marine Fisheries Service to provide technical assistance to States and industry for oyster bed and shrimp ground rehabilitation and to undertake cooperative research to monitor the recovery of Gulf fisheries; and not to exceed $5,000,000 to assist fishermen to recover from severe economic impacts due to fisheries disasters declared in 2005.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

The conference agreement provides $32,000,000 under this heading as proposed by the Senate, instead of $11,800,000 as proposed by the House.

The conference agreement provides $20,000,000 for the National Marine Fisheries Service to complete the repair and reconstruction of the NOAA science center.

The conference agreement also provides $12,000,000 for the Office of Marine and Aviation Operations to procure a replacement emergency response mapping aircraft and sensor package to continue NOAA's capability to provide information about hurricane damage.

SCIENCE

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

EXPLORATION CAPABILITIES

The conference agreement provides $35,000,000 for repair and rehabilitation requirements at the Stennis Space Center and the Michoud Assembly Facility related to the consequences of hurricanes of the 2005 season.

RELATED AGENCIES

SMALL BUSINESS ADMINISTRATION

DISASTER LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides $542,000,000 for additional lending authority for the Small Business Administration's (SBA) disaster loan program, as proposed by the House and the Senate (excluding a transfer provision contained in both bills).

The conferees remain concerned about fluctuations in SBA's disaster lending subsidy estimates and will continue to monitor lending activity and expenditures. The conferees expect the SBA to provide weekly reports to the House and Senate Committees on Appropriations, the Senate Committee on Small Business and Entrepreneurship, and the House Committee on Small Business containing the following information on all open disaster declarations: number of loan applications received; number and amount of loans approved, denied, and disbursed; loan subsidy obligations; and the
costs associated with administering the loan program (including salaries, travel, and information systems).

In light of the National Oceanic and Atmospheric Administration’s prediction of a very active hurricane season for 2006, the conferees expect the SBA to build on the lessons learned from responding to numerous hurricanes during the 2005 season to ensure that the agency is better prepared for future disasters. The conferees expect that, no later than July 15, 2006, SBA shall submit to the House and Senate Committees on Appropriations, the Senate Committee on Small Business and Entrepreneurship, and the House Committee on Small Business a report on the status of the disaster response plan for the 2006 Atlantic hurricane season.

CHAPTER 9
DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY

The conferees agree to House and Senate language preventing the Secretary from issuing a final rule regarding foreign control of U.S. airlines for 120 days.

FEDERAL HIGHWAY ADMINISTRATION
FEDERAL-AID HIGHWAYS
EMERGENCY RELIEF PROGRAM

The conferees agree to provide $702,362,500 for the Emergency Relief Program, instead of $594,000,000 as proposed by the Senate. The conferees direct that funds shall be used for eligible projects identified under “Formal Requests” in the Federal Highway Administration table entitled “Emergency Relief Program Fund Requests—updated 06/06/06” with the exception of projects addressed in other provisions of this Act making amendments to Public Law 109–148 and otherwise funded in other appropriations Acts. The conferees include language that waives the $100,000,000 per State per disaster cap for damages caused by Hurricane Dennis and by the 2004–2005 winter storms in the State of California and provides that any excess amounts may be used for other eligible projects.

(HIGHWAY TRUST FUND)
(RESCISSION)

The conference agreement includes a rescission of $702,362,500 of the unobligated balances of funds apportioned to the states under chapter 1 of title 23, United States Code, excluding safety programs and funds set aside within the state for population areas. The conferees direct the FHWA to administer the rescission by allowing each state maximum flexibility in making adjustments among the apportioned highway programs.
The conference agreement does not include $200,000,000 for emergency assistance for public transportation, as proposed by the Senate. The conference agreement includes provisions proposed by the Senate waiving the state funding match requirement and allowing funds to be used for operations as a general provision. The conferees did not agree to include a provision waiving other grant requirements as proposed by the Senate. The House did not include funds or recommend waivers.

The conferees note that the City of Baton Rouge has absorbed a very large number of citizens as a result of Hurricane Katrina resulting in a significant boost in the demand for transit services. The conferees recognize the community of Baton Rouge as having been directly impacted by Hurricane Katrina for the purpose of these transit waivers.

The conferees do not agree to provide $700,000,000 for capital grants for rail line relocation or make other amendments to title 49, United States Code, as proposed by the Senate.

The conferees agree to report language, as proposed by the Senate, expecting that funds previously appropriated for the Deployment of Safety Overlay Technology shall be allocated for the purpose of deploying train control technology for which the Federal Railroad Administration is currently considering a product safety plan.

The conferees do not agree to provide $202,000,000, for Tenant-Based Rental Assistance, as proposed by the Senate. The conferees agree to report language, as proposed by the Senate, directing HUD to report within 180 days on the States’ efforts to address the needs of the disabled, elderly, and homeless.

The conference agreement provides $5,200,000,000 for the Community Development Fund, as proposed by the Senate, instead of $4,200,000,000 as proposed by the House. The conferees agree that no state shall receive more than $4,200,000,000. The conferees further agree that not less than $1,000,000,000 shall be available
on a pro-rata basis for the repair, rehabilitation, and reconstruction of affordable rental housing.

The conferees agree that of this amount, $12,000,000 is available for transfer to HUD's salaries and expenses account, of which $7,000,000 is for the administrative costs, including IT costs, of the KDHAP/DVP voucher program. The Senate proposed funds for this purpose under the Tenant-Based Rental Assistance account. The conferees agree that $9,000,000 is available for transfer to the Office of Inspector General. In addition, the conferees agree to transfer $6,000,000 to HUD's Working Capital Fund for the immediate enhancement of the capabilities of the Disaster Recovery Grant Reporting system by building additional electronic controls that will increase accountability while further decreasing the risk of fraud, waste, or abuse.

The conferees retain language as proposed by both the House and Senate, prohibiting the use of these funds by a State or locality as a matching requirement, share, or contribution for any other Federal program.

The conferees are aware that individuals with disabilities face unique challenges in finding accessible and affordable housing. As such, the conferees urge the states to work with HUD and the disabled community to ensure that these challenges are considered when states are developing and implementing Disaster Action plans. The conferees also urge HUD to take the necessary steps to inform the disabled community about the eligible uses of CDBG funding in addressing their needs.

INDEPENDENT AGENCIES

ELECTION ASSISTANCE COMMISSION

ELECTION ASSISTANCE

The conferees do not agree to provide $30,000,000 for the Election Assistance Commission, as proposed by the Senate.

GENERAL SERVICES ADMINISTRATION

FEDERAL BUILDINGS FUND

The conferees agree to provide $37,000,000 for the Federal Buildings Fund, as proposed by both the House and Senate.

TITLE III—EMERGENCY AGRICULTURAL DISASTER ASSISTANCE

The conference agreement provides a total of $500,000,000 for emergency agricultural disaster assistance instead of $3,944,000,000 as proposed by the Senate. This assistance is targeted to counties located in the geographic area covered by a disaster declaration related to hurricanes Katrina, Ophelia, Rita, Wilma, or a related condition. In addition, counties that are contiguous to hurricane disaster counties are eligible for this assistance.

The conferees expect the Department of Agriculture to work with eligible individuals and entities to make payments under the authority of this Act, or from section 32 pursuant to the Secretary's May 10, 2006, announcement. The conferees encourage the Depart-
ment to ensure that individuals or entities receive the higher benefit for which they are eligible.

Section 3011 of the conference agreement provides $40,000,000 to make assistance available to producers/processors of sugarcane in Florida that are located in hurricane affected counties and are eligible to obtain a loan under section 156(a) of the Federal Agriculture Improvement and Reform Act of 1996. This section also provides $40,000,000 to make assistance available to producers/processors of sugarcane in Louisiana that are located in hurricane affected counties and are eligible to obtain a loan under section 156(a) of the Federal Agriculture Improvement and Reform Act of 1996. In addition, this section provides $400,000 to provide assistance for hurricane losses for a farmer-owned sugarcane cooperative in Texas, including additional demurrage, storage and transportation costs of raw sugar resulting from hurricanes and related conditions during calendar year 2005.

Section 3012 of the conference agreement provides $95,000,000 for the Livestock Compensation Program, and $45,000,000 for the Livestock Indemnity Program. This section allows poultry and egg producers to receive assistance under this program. The conference agreement includes language that requires that all eligible applicants conduct an agricultural operation that is physically located in a hurricane-affected county.

Section 3013 of the conference agreement provides $95,000,000 to provide assistance to specialty crops and nursery crops in hurricane affected counties. This assistance shall be carried out under the same terms and conditions as the assistance that was provided in certain areas of Florida due to hurricanes Charley, Frances, and Jeanne.

Section 3014 of the conference agreement provides $17,000,000 to assist dairy producers who experienced spoilage losses and are located in hurricane-affected counties.

Section 3015 of the conference agreement provides $15,000,000 to assist producers and first-handlers of the 2005 crop of cottonseed. The conference agreement includes language requiring that all eligible applicants must be located in hurricane-affected counties.

Section 3021 provides a definition for the term “tree”, and directs that the Secretary provide assistance under the tree assistance program established under sections 10201–10203 of the Farm Security and Rural Investment Act of 2002. The conference agreement includes language requiring that all eligible applicants must be located in hurricane-affected counties. The estimated cost for this provision is $35,000,000.

Section 3022 provides an additional $100,000,000 for the Emergency Forestry Conservation Reserve Program for recovery efforts in hurricane-affected counties.

Section 3023 of the conference agreement includes language to provide clarification to the Secretary on the implementation of the Emergency Forestry Conservation Reserve Program.

Section 3031 provides $9,600,000 to cover administrative costs incurred by the Farm Service Agency directly related to carrying out disaster assistance.
Section 3032 provides flexibility for the implementation of section 32 funds that were announced by the Department of Agriculture on May 10, 2006 for aquaculture producer grants. The estimated cost for this provision is $8,000,000.

Section 3033 designates the funds made available in this title as an emergency.

Section 3034 includes provisions waiving certain rulemaking procedures and paperwork reduction requirements.

While the assistance provided by this title is limited to producers in areas affected by Gulf Coast hurricanes in 2005, the conferees fully recognize the losses suffered by farmers, ranchers, and rural communities in all parts of the nation. At such time as may be recommended by the Secretary, the conferees direct the Department to apply any unused funds from this title, and any unused funds from the May 10, 2006 announcement (71 Fed. Reg. 27188) relating to 2005 Section 32 Hurricane Disaster Programs to respond to disaster-related events including wildfires in Texas and other states, drought, flooding in Hawaii and other states, and other natural disasters.

TITLE IV—PANDEMIC FLU

DEPARTMENT OF HEALTH AND HUMAN SERVICES

OFFICE OF THE SECRETARY

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides $2,300,000,000 to prepare for and respond to an influenza pandemic, the same overall funding level as proposed by the Senate. The House bill did not include a similar provision.

The conference agreement includes provisions proposed by the Senate giving the Secretary various authorities to purchase goods for the stockpile, enter into contracts for antivirals, construct or renovate privately-owned buildings, and transfer funds to other HHS accounts.

Within the total provided, the conference agreement includes $30,000,000 to be transferred to the United States Agency for International Development (USAID) for activities related to international surveillance, planning, preparedness, and response to the avian influenza virus. Neither the House nor the Senate included a similar provision.

The conferees intend that all federally-funded international surveillance, preparedness, and response activities be planned and implemented in a coordinated manner to maximize the chances of early detection of potential pandemics. The conferees expect HHS, the Centers for Disease Control and Prevention (CDC), and USAID officials to coordinate their international pandemic-related activities at all levels by maintaining frequent contacts at the senior leadership, program management, and on-the-ground personnel levels. The conferees direct HHS and USAID to submit a joint report to the appropriate House and Senate Appropriations subcommittees, within six months of enactment, which details their
international surveillance, preparedness, and response activities and describes the manner in which they have been coordinated.

Within the total provided, the conferees have set aside $250,000,000 for state and local preparedness activities. The Senate included $300,000,000 for state and local capacity and the House did not include a similar provision. The conferees recognize that state and local public health departments play essential roles in responding to influenza outbreaks, including implementation of necessary epidemic containment measures, provision of services to homebound and disabled populations, distribution and redistribution of available antiviral medications and vaccines to high priority populations, and coordination with all other local medical and emergency response authorities. Therefore, the conferees encourage the Department to assure that distribution of pandemic influenza funds and all aspects of Federal pandemic influenza planning are consistent with operational realities at the local level and will have the intended public health results when implemented locally. The conferees further urge the Department to assure that all aspects of its pandemic influenza planning and preparations avoid duplication and inconsistency with other Federal directives affecting public health preparedness.

The conferees understand that State and local public health officials must be prepared to coordinate large-scale vaccination efforts in the case of a pandemic influenza outbreak. Therefore, the conferees encourage State and local public health departments to conduct local mass immunization exercises using seasonal flu vaccine.

Within the funds provided for upgrading state and local capacity, funds may be used for regional training meetings bringing together several states. These funds may also be used, if determined necessary by the director of CDC, to enhance flu program planning efforts and the existing preparedness training network at the established CDC centers for public health preparedness and other accredited schools of public health.

Within the total provided, the conference agreement includes $200,000,000 for CDC. These funds are intended to augment the fiscal year 2006 appropriation and expand and enhance on-going activities related to global and domestic disease surveillance, laboratory capacity and research, laboratory diagnostics, risk communication, rapid response, and quarantine. The Senate proposed a total of $250,000,000 for these activities within CDC, but included two separate provisos. The House did not include a similar provision.

The conference agreement does not include $5,000,000 as proposed by the Senate for the Smithsonian Institution to carry out domestic disease surveillance. The House did not include a similar provision.

The conferees are aware of the Department’s plan to subsidize “up to” 25 percent of the cost of 31,000,000 courses of anti-virals. The conferees note that the bill language authorizing this subsidy is flexible and does not require, nor limit the amount of the subsidy. The conferees encourage the Secretary to consider subsidizing these purchases beyond 25 percent for States whose finances have been severely affected by Hurricane Katrina and other hurricanes.
of the 2005 season. The conferees believe that access to life-saving drugs should be based on public health need, not the finances of the State in which an individual resides.

FUNDING FOR PANDEMIC INFLUENZA VACCINE INJURY COMPENSATION

The conference agreement does not include $289,000,000 for a pandemic influenza vaccine compensation fund as proposed by the Senate. The House did not propose a similar provision.

The conferees direct the Secretary of Defense to provide a report to the congressional defense committees within 30 days after the end of each fiscal quarter detailing the transfers of funds provided in this chapter until funds provided in this chapter are no longer available for transfer. The conferees direct the Secretary of the Department of Homeland Security to report to the Committees on Appropriations of the Senate and House of Representatives within fifteen days after enactment of this Act on the proposed distribution of the rescission of funds prior to its implementation pursuant to section 504 of Public Law 108–334. This report should specifically list the respective amount proposed to be rescinded by agency and appropriations account, and explain the original purpose of the appropriation and the reason why such funds are available.

The conferees agree to provide $20,000,000 for United States Secret Service Salaries and Expenses, instead of $43,620,000 as proposed by the House and no appropriation as proposed by the Senate. Of this total, $18,000,000 is provided to restore a shortfall in overtime expenses, and $2,000,000 is provided for the purchase of critical equipment.

The Senate did not include a similar provision.

DEPARTMENT OF LABOR—OFFICE OF JOB CORPS

The conference agreement deletes without prejudice language proposed by the Senate to prohibit the implementation of Secretary’s Order 09–2006. The House had no similar provision. The conferees direct the Department to implement Section 102 of Public Law 109–149 retaining in the Job Corps those program functions previously administered by the Job Corps prior to the transfer and to ensure the support necessary for oversight and management responsibilities.

The conferees further expect that, although the Office of Assistant Secretary for Administration and Management will oversee the procurement process, this arrangement shall not alter the existing authorities, duties, or activities of Job Corps as it existed prior to the transfer. The Office of Job Corps and the Assistant Secretary for Administration and Management are directed to maintain controls to assure the procurement activities are completely separate from program operations. Further, the Department is directed to report to the Committees on Appropriations in the House and Senate by August 30, 2006 on steps necessary to establish a unified chief procurement officer with responsibilities for all procurement activities in the Department. The congressional budget resolution agreed to by Congress for fiscal year 2006, and both the House and Senate versions of the fiscal year 2007 budget resolution, include provisions relating to the notification of emergency spending. The conference agreement on this bill contains emergency funding for fiscal year 2006 that is related to the global war on terror and hurricanes in the Gulf Coast region, and such spending is identified throughout the conference report. The funding is related to unanticipated needs and is for situations that are sudden, urgent, and unforeseen, specifically the global war on terror in the aftermath of 9/11, and the devastating hurricanes of 2006. These events fit the specific criteria for emergencies.
