Good morning Ray -

See the message below. The Washington Office of BLM doesn't have any responsive documents for this FOIA request. The Montana State Office has already responded to Mr. Trow about this subject matter.

Perhaps we can refer Mr. Trow to the book mentioned below.

Good morning Amy.

I've talked with Tom Deiling, Cadastral Survey Chief here in Montana. Mr. Trow has received everything that we have in this office, and he has probably received it more than once.

Tom did suggest that you talk with Mr. Don Buehler, the Chief Cadastral Survey of the US Government. (This is not a BLM, or DOI employee. We have no contact information for Don Buehler.)

There is a book entitled *Initial Points of the Rectangular Survey System* written by C. Albert White, Chapter XXVI, Principal Meridian, Montana. The book states that additional copies can be obtained from **The Publishing House, P.O. Box 215, Westminster, CO 80030.**

Hope that this helps. Let me know if you need anything else.

Good morning Debbie -

I rec'd a request from the Department asking for documents concerning "records that establish astronomically the [current] Montana Initial Point."

Please see the e-mail below. It briefly describes the request. If you have responsive documents for this please let me know.

Thanks!!

Amy,

I left you a voicemail message last week regarding Mr. Trow's FOIA request (OS-2003-00764), which was forwarded to your office for a file search on July 10, 2003. We have received USGS's response, but have yet to hear anything regarding the status of this request within BLM. The statutory due date for responding to this request, with the 10 working-day time extension, was August 19, 2003.

Have you located any responsive documents? If so, please let us know. If not, please indicate approximately how long it will be before you will be able to determine whether or not you have any records responsive to this request.

I have attached a copy of our files below my name. See the attached letter (00764aa) for the subject of this request.

Thanks for your cooperation.
