

**MODERNIZATION
PROGRAM
LIAISON OFFICE**

DEFINITIONS:

MECHANICAL, ELECTRICAL, PLUMBING (MEP) :

Before demolition the area is made safe for the activity by checking duct work (M), shutting off electrical breakers and cutting wire for affected areas (E), or shutting off plumbing valves and checking for leaks (P).

(GLOVE BAG) : When removing a small quantity of ACM (asbestos containing material) a tubular plastic bag, with plastic gloves attached is secured around the object such as a pipe so the worker can place their hands in the gloves and safely remove the ACM, allowing it to remain in the bag.

What is SMACNA?

SMACNA is an acronym for the Sheet Metal and Air Conditioning Contractor's National Association. NIOSH has requested that construction complies with these guidelines. It is important to note that no industry standard exists for the percentile of compliance. GSA conducts a daily checks of the construction area to ensure the contractor is in compliance with these guidelines.

**GSA CONTRACTOR'S
COMPLIANCE WITH
SMACNA GUIDELINES.**

Behind the Barricade

Plan of the Week

VOLUME 1, ISSUE 60 - AUGUST 22 - 28, 2008

Modernization Activities Wing 4

WING 3

- Remove carpet and substrate
- Select demo in restrooms
- Make safe secure/prepare plumbing/mechanical and electrical for demolition
- Salvage stone base
- Isolate cut/cap sprinkler
- Demo/cut/cap closet sinks

6th Floor

- Remove carpet and substrate
- Select demo in restrooms
- Make safe secure/prepare plumbing/mechanical and electrical for demolition
- Salvage stone base
- Isolate cut/cap sprinkler
- Demo/cut/cap closet sinks

M-Level

- Cut, cap pipes, duct
- Isolate cut/cap sprinkler
- Erect barriers and secure area
- Start selective demolition
- Mobilize and start HAZMAT containment

Cafeteria

- Demolition of kitchen walls, ceiling, counter tops, etc.

5th Floor

- Salvage door hardware, doors, blinds
- Make safe secure/prepare plumbing/mechanical and electrical,
- Salvage stone base
- Select demo in restrooms
- Remove carpet and substrate

4th Floor

- Erect barriers, make safe secure/prepare plumbing/mechanical and electrical, salvage stone base
- Install doors at chute/hoist
- Install floor protection in Wing Corridors

3rd Floor

- Survey existing conditions doors, hallways, rooms

2nd Floor

- Survey existing conditions doors, hallways, rooms

1st Floor

- Survey existing conditions doors, hallways, rooms

18th/19th Street

- Scaffold and hoist
