

Searchin for a brighter tomorrow

Aloha mai kaua, e mr John Berry.

I am one of too many native hawaiians who Swallowed the poison of the unknown and now are currently being incarcerated without any healing remedies to cure this deep infection.

My testimony calls for an Reconciliation in our prision systems. More Hawaiian Culture programs like History to hands-on planting Kalo (Taro) that we can use for a good cause.

This specific approach offers the inmate a sense of Self-~~hostet~~ identification and a self-healing process needed to Control the thought and behaviors that Corrupts not only families but the embodiment of present-day Society.

We also hope that when we become an independent nation we will Construct a Self-Sufficient prision, housing only the polynesians of the great pacific ocean. Reproducing our needs like fruits and vegetables with meat Coming from the cattle and pigs that graze on the lands.

Kaho'olawe or any isolated place where we will Survive independently and Spiritually Connecting with our prospering 'aina (lands). And that's how you heal internal wounds with Cultural approaches and an understanding of his own abilities are assets.

We are P.O.W's (prisoners of wars) and shackled by the wrong choices we made in life. Am

To the Counter-mind
Reconciliation

is not the pure Solution
to the Counter-mind
pollution.

"We are the evidence — not the Crime!"

"Reconciliation" is not the pure solution to the westernized pollution. The apology bill 103-150 is purly a last Scent leading the hawaiians in a Contorted Circle of Confusion. We need the total package of restitution and restoration to our future independent nation and economy. It might be a large step for American Kind but one tiny step for the natives of Hawaii. Will this need of "Reconciliation" meet our needs overtime, maybe, but for how long?

Many of those chosen Warriors that will help maintain the paradise and everlasting Kingdom is here in prisior, but without the proper approach we will remain Wanderers on our own lands and unfit to rejoin this "Salad bowl" environment we are mixed up in. Please Mr John Berry here the cries of my people inside and out and fulfill the wished dream of the Kanaka Maoli (Indigenous people of Hawaii.)

P.S. Need Sovereignty
workshops and

a self-determination approach

He ke aloha pumehana
O na pa'ahao a Halawa
Domaika'i Ke akua
Malama po'o
A hui hoo.

Sincerely,
William Kealakahiki paleka Kapuani
