Subject: Re: sovereignty of hawaii

thanks for following up. here is full text for you:

as a citizen of the mainland u.s. i strongly encourage you to fairly and morally resolve the issue of sovereignty of the hawaiian islands.

i believe serious consideration has to be given to the militant occupation of this land by the u.s. for the last 100 or so years, and the possibility of returning the land to its people and proper status as its own country.

this issue is under a lot of attention around the internet and in the first nations interest groups, despite the incredible lack of "press" or "media" otherwise -- please give this the attention it deserves.
