(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter XVI—Production and Marketing Administration, Department of Agriculture

[Defense Food Order 3, Sub-Order 2,
Amdt. 2]

DFO 3—AGRICULTURAL IMPORTS

SO 2—POLICY STATEMENT RE IMPORT AUTHORIZATIONS FOR CERTAIN DAIRY PRODUCTS

Sub-Order 2 containing a statement of the policies relating to the issuance of import authorizations for certain dairy products (16 F. R. 7936, 8273) under Defense Food Order 3, as amended (16 F. R. 7934), is hereby amended pursuant to the authority vested in me by said Defense Food Order 3, as amended. Consultation with industry representatives concerning this amendment has been rendered impractical. It is necessary to make the policies relating to issuance of authorizations under Defense Food Order 3, as amended, known to the public promptly to facilitate the proper operation of said Defense Food Order. This amendment affects numerous segments of the economy and time is not available to permit consultation with all affected segments. Accordingly, consultation with industry representatives has been omitted.

Sub-Order 2 under Defense Food Order 3, as amended, is hereby amended by deleting section 1 (b) and (c) thereof and substituting therefor the following paragraphs respectively:

(b) *Cheese.* Import authorizations will be issued for cheese as follows: (1) Any importer who is desirous of securing import authorization for any type of cheese and who imported such cheese in the three-year base period January 1, 1948, through December 31, 1950, must submit documentary evidence satisfactory to the Director showing by country of origin the imports of such cheese through customs made in his own name as the importer of record during the specified base period. Authorizations will be issued to such an importer, limiting the quantity of the particular type of cheese to be imported during the period beginning with August 9, 1951, through December 31, 1951, to an amount not in excess of five-twelfths of the average annual quantity of such type of cheese he actually imported during the specified base period. In case any such importer did not import a particular type of cheese at any time in 1948, an adjusted quota will be established for him, taking into consideration the percentage which his imports of such cheese constituted of the total imports of such cheese during the remainder of the base period beginning with the calendar quarter in which he began such importations, and such other factors as must be considered to avoid inequities. Such adjusted quotas will be established only if the application submitted by the applicant shows that he did not at any time in 1948 import the particular type of cheese for which application is made.

(2) Any importer who is desirous of securing authorization to import any type of cheese prior to December 31, 1951, and whose application shows he did not import such cheese at any time during the specified base period, but who did import such cheese in the period January 1, 1951, through August 8, 1951, must submit documentary evidence satisfactory to the Director showing by country of origin the imports of such cheese through customs made in his own name as the importer of record in the period January 1, 1951 through August 8, 1951. In issuing such authorizations, consideration will be given to the percentage which the applicant's imports of such cheese prior to July 1, 1951, constituted of the total imports of such cheese during the part of the period January 1, 1951, through June 30, 1951, beginning with the calendar month in which he began such importations, and such other factors as must be considered to avoid inequities.

(3) Authorizations totaling not in excess of 100,000 pounds will be granted for importation of cheese from particular countries prior to December 31, 1951, to small independent enterprises which are in the business of importing dairy products other than cheese and which have not received any import authorizations under subparagraph (1) or (2) of this paragraph. The amount authorized for any applicant under this paragraph will not exceed 1,000 pounds. Applications for authorization under this paragraph must state the country from which the applicant intends to import the cheese and the type of cheese to be imported and must include a statement concern-
