ANNUAL REPORT OF THE COMMISSIONER OF INDIAN  
AFFAIRS.

DEPARTMENT OF THE INTERIOR,  
OFFICE COMMISSIONER OF INDIAN AFFAIRS,  
*December 8, 1913.*

SIR: I have the honor to transmit herewith the Eighty-second Annual Report of the Bureau of Indian Affairs, covering the period from July 1, 1912, to June 30, 1913.

GENERAL STATEMENT.

During the last fiscal year the Bureau of Indian Affairs was under the direction of Hon. R. G. Valentino, Commissioner of Indian Affairs, up to the time of his resignation, September 12, 1912. Thereafter, Hon. F. H. Abbott, Assistant Commissioner, was in charge as Acting Commissioner until June 4, 1913, on which date I took the oath of office as Commissioner of Indian Affairs.

Before giving a résumé of the activities of the Indian Bureau for the last fiscal year, I deem it appropriate to invite attention to a few of the larger questions which now confront this office for solution in the administration of the affairs of the Indians.

It may be interesting to note that the Indian country, under the jurisdiction of this office, covers an area almost as large as that of all the New England States and the State of New York combined.

There are about 6,000 employees in the Indian Service, who supervise the affairs of about 300,000 Indians, whose combined property is estimated to be worth nearly \$900,000,000.

There have been appropriated by Congress for the Indian Service and for fulfilling treaty stipulations with the various Indian tribes since the fiscal year 1881 the following amounts:

*Appropriations since 1881.*

1881 to 1890.....	\$53,797,649.09
1891 to 1900.....	78,883,746.47
1901 to 1910.....	93,337,617.42
1911.....	10,129,357.29
1912.....	8,957,199.04
1913.....	9,055,614.43
1914.....	9,461,819.67
Total.....	263,623,004.01

21716-14-1  
1

The Government is the guardian of this vast Indian estate. How this property shall be conserved for the benefit of the Indians and how they shall be taught to make the best possible use thereof so that they may ultimately take their rightful place as self-supporting citizens of the Republic are the great problems confronting this bureau.

A few of the administrative details yet to be worked out or completed may be mentioned as follows:

1. It is estimated that under the act of June 25, 1910 (36 Stat. L., 855) there are now pending at the various agencies throughout the Indian country, awaiting the determination of the heirs, about 40,000 heirship cases, which represent inherited lands valued at approximately \$60,000,000. There are pending in this office about 1,500 heirship cases on which final action has not been taken.

A large appropriation is needed in order to enable the office to bring this work up to date. When the heirs are determined the inherited lands will be available for sale and the proceeds can be used to improve the allotments of the heirs. Expediting the work of determining the heirs of deceased Indian allottees is one of the urgent necessities of the Indian Service.

2. The allotting of lands to individual Indians has been continued ever since the enactment of the general allotment act of February 8, 1887 (24 Stat. L., 388). It is estimated that there have been allotted to 180,000 Indians about 34,000,000 acres and there remain to be allotted about 39,000,000 acres. There are nearly 120,000 unallotted Indians. There has been expended for allotment work heretofore completed about \$4,500,000, and it is believed that it will require at least \$3,000,000 to complete the allotment work.

I find that there are a large number of the reservations which not only have not yet been allotted but which have not been surveyed. The earliest possible completion of the allotment work is desirable, as it is the main chance of perhaps 70 per cent of the Indians to become self-supporting, and this work is also preliminary to the opening of reservations. The settlement of white people in the Indian country will result in very materially increasing the value of the lands retained by the Indians as their allotments, for it will be the means of locating therein free schools, churches, good roads, and other agencies of a modern and progressive community.

3. The timber holdings of the Indians have stumpage value of more than \$80,000,000. Approximately one-seventh of this value is in timber upon allotted lands. The greater part of the unallotted timber is upon nonagricultural lands in the Rocky Mountain and Pacific States. The timber cover on these tribal lands bears a very direct relation to the regulation of a water supply for lands both within and outside of Indian reservations. Even where it is not

essential that the forest cover be maintained on tribal lands for water conservation purposes, it is frequently advisable that the forest be perpetuated as a source of fuel and lumber supply.

One of the difficult problems which confront the Indian Service is the administration of these timber lands so as to derive a sustained revenue adequate to provide for the needs of the Indians as agricultural development takes place within the Indian reservations and yet not affect unfavorably the future needs both as regard the timber and water supply. The solution of this problem will require sound business foresight, enlightened by the scientific principles which form the basis of the practice of both forestry and irrigation.

Practically nothing has yet been done in the line of valuation surveys and the preparation of working plans. The timber upon tribal lands in the Western States has heretofore been inaccessible, but railroads recently constructed or now projected will afford an outlet for a large amount of such timber. The valuable timber of the Indians should be made a very potent agency in promoting their progress.

4. Notwithstanding the fact that the Government has provided since 1876 approximately \$80,000,000 for schools among the Indians, there are to-day about 10,000 Indian children without any school facilities whatever, principally in the Southwest and more particularly among the Navajo and Papago Indians. There are also about 7,500 defective Indian children, either physically or mentally, for whom no adequate facilities are available for their care and training.

The present available appropriations for Indian schools provide for 223 Indian day schools situated on Indian reservations near the Indian homes, 76 boarding schools located on the reservations, and 35 boarding schools located off the reservations and known as non-reservation schools. Of the 65,000 Indian children of school age, these schools care for approximately 25,000. There are enrolled in mission and public schools 22,500 Indian children, leaving 17,500 normal and defective Indian children unprovided for. Efforts will be made to procure increased appropriations for Indian school work so that all Indian children may be provided with school facilities. All Government schools for Indians are largely industrial.

5. I find that the health conditions among the Indians are deplorable. Under the jurisdiction of this bureau there are approximately 25,000 Indians suffering from tuberculosis. Available Indian hospital facilities for all these patients, adults and children, will not exceed 300 beds. During the last fiscal year 1,905 Indians were reported as having died from tuberculosis. This is probably not more than 75 per cent of the total number of Indians who have died from this disease during the fiscal year. Of the whole number of deaths reported from the various Indian reservations, 32 per cent were due

to pulmonary tuberculosis, as against 11.2 per cent due to the same disease occurring in the registration area of the United States. The death rate among Indians is 32.24 per thousand, while the Census Bureau gives 16 per thousand in the registration area of the United States.

It is also estimated that there are more than 60,000 Indians in the United States who are suffering from trachoma. This eye disease is considered so serious as to cause the exclusion from this country of all immigrants who are thus afflicted. It will be remembered that the Indians are living among a very large white population, which is an added reason for taking every precaution to check and control this disease. Additional appropriations are needed to construct and equip hospitals to be located on Indian reservations and to check and control disease among Indians and to improve their health conditions generally.

6. The housing conditions of the Indians throughout the country is one of the important subjects which demand immediate consideration. It is estimated that there are approximately 8,000 Indian families without homes, who live in mud lodges, tepees, or wickiups—a large number of them on dirt floors and under the most revolting, insanitary conditions. There are thousands of other Indian families who live in one and two room shacks or cabins, under sanitary conditions that must of necessity cause the propagation and transmission of the most dangerous diseases, such as tuberculosis and trachoma.

Notwithstanding the fact that a large number of the Indians have been allotted valuable lands, ranging from 80 to 320 acres to each Indian, these deplorable housing conditions continue to exist. An Indian family owning from 400 to 1,000 acres of valuable land certainly should not be permitted much longer to live under sanitary conditions that are a serious reflection on Indian administration.

The Indians own tribal and individual timber valued at more than \$80,000,000, and as the Government has provided a large number of sawmills located on different reservations throughout the Indian country, it is my purpose to enter into a vigorous campaign to improve the housing conditions of Indians wherever practicable.

7. The Indian water-right situation on a large number of reservations is such as to demand most serious consideration. Unfortunately, legislation has been enacted by Congress which makes beneficial use of water on Indian lands within certain reservations necessary, if the water rights are to be held by the Indians. Congress has provided appropriations for constructing expensive irrigation projects on several reservations, reimbursable out of Indian funds, and the Indians are required to make beneficial use of the water on said reservations within a limited time. If this is not done they will be in danger of losing their water rights and forfeiting the same to subsequent appropriators of the water. On a large number of the reservations agri-

cultural lands are practically valueless without water. The Government holds the allotted lands in trust for the benefit of Indians for a period of 25 years, because of the fact that they are deemed incompetent to protect their property rights. It seems equally important to conserve the water rights of the Indians, at the same time encouraging them to make beneficial use of the water by farming their allotments. In this connection it should be remembered that the Indians, in a large number of cases, live far removed from railroad facilities, that they are handicapped by lack of adequate live stock and farming implements, and that they are living and working under conditions which would discourage even the most progressive white farmers who are well trained and accustomed to hard work on their farms. Legislation will probably be necessary in a number of cases to protect fully the water rights of the Indians.

I find also that Indian tribal funds have been used in construction and maintenance of irrigation projects, and that only a certain portion of the Indians have received any benefit from the irrigation systems. This is a question that will necessarily have to be worked out with great care, in order that the Indians who receive the benefits from irrigation projects shall be required to pay the cost of the same.

It is proposed to give the question of water rights of Indians very thorough and careful consideration, with the hope of fully protecting the rights of the wards of the Government.

8. I find the work of this bureau is very materially in arrears and that it is practically impossible with the present force to bring the work of the office up to date and keep it current.

The employees of this office, as a rule, are diligent, intelligent, and faithful. The records show that they did 1,522 days voluntary overtime during the last fiscal year in an effort to keep the work of the bureau as nearly current as possible.

Because of the breaking up of tribal relations and the making of individual allotments, the necessary work of the Indian Office has been very much increased during recent years without a corresponding increase in the number of employees. For example, the increase of work for 1913 over 1899 was 301.34 per cent, while the increase in employees in the Indian Office for 1913 over 1899 was only 134.65 per cent. The number of letters received in the Indian Office during the year 1899 was only 59,707, while the number of letters received during the fiscal year 1913 was 275,452. This was an increase of 23.97 per cent over the preceding year.

It is apparent that the policy of individualizing Indian property and the removing of restrictions from the Indian as fast as he demonstrates competency, together with the proper protection of incompetents and minors, will greatly increase the work of this office for several years, and that the faster these things are accomplished the

greater will be the office force required to handle allotments, sales of tribal property and allotted timber and agricultural lands, the determining of heirs, the granting of patents in fee, the handling of segregated trust funds, and the numerous other duties devolving upon this office.

I wish to emphasize the fact that the work of the Indian Bureau, handling a trust estate valued at approximately \$900,000,000 belonging to 300,000 wards of the Government, should not be crippled further because of the failure to procure an additional appropriation of approximately \$50,000 for employees whose services are absolutely necessary to keep the work of this bureau current. I shall include in the estimates for employees for this bureau a request for the additional help absolutely required.

9. The conditions existing in eastern Oklahoma among the Five Civilized Tribes in connection with the probating and handling of the estates of minor Indians in the local State courts are such as to require prompt consideration. I consider it very important that an appropriation of at least \$75,000 be procured in the next Indian appropriation act, so as to enable this office to employ probate attorneys to look after the interests of minor Indians in the Five Civilized Tribes, and to meet properly the probate situation now existing in eastern Oklahoma.

If proper action is not promptly taken, it is only a question of time until a very large number of the Indians in eastern Oklahoma will be deprived of their property, with the result that they will become charges on the local community.

10. There is undoubtedly a larger field for the improvement of existing industrial conditions of the Indians than any other activity of the Indian Service.

I find that the Indians have more than 600,000 acres of irrigable land, approximately 9,000,000 acres of other agricultural lands, more than 50,000,000 acres of grazing lands, and that the Government has expended approximately \$10,000,000 in connection with Indian irrigation projects.

Many able-bodied Indians who have valuable lands are wholly or partially without seeds, teams, implements, and other equipment to utilize properly such lands. This is particularly true in several reservations where large sums of public or tribal funds have been used in constructing irrigation systems, and is in part the reason why such large areas of irrigable and other agricultural lands are not under cultivation.

The valuable grazing lands of the Indians offer unusual opportunities for increasing the meat supply of the country, at the same time furnishing a profitable employment for the Indians as well as utilizing their valuable grazing lands. During the last year the Indians

cultivated less than 600,000 acres of their vast area of agricultural lands.

It shall be my purpose to attempt to procure reimbursable appropriations so as to advance to the Indians needed agricultural equipment in order that they may make beneficial use of their resources and become self-supporting and progressive citizens. These reimbursable appropriations, if procured and properly used, will result in ultimately decreasing the gratuity appropriations for Indians.

I find that there is need for additional legislation by Congress to meet the problems arising, such as legislation authorizing the mining on Executive-order reservations, legislation segregating tribal and trust funds in the United States Treasury, legislation authorizing the submission of claims of Indian tribes to the Court of Claims, and other additional legislation which will be prepared and ready for submission to the Congress at its regular session in December.

The foregoing are a few of the many important problems confronting this bureau. The following contains a résumé of the work of the bureau during the fiscal year ended June 30, 1913:

#### AGRICULTURAL WORK.

Agriculture has been given the first place in this report because it has received greater emphasis than any other activity of the Indian Bureau during the last fiscal year. The results of the stress placed upon this subject are shown in a general awakening to the recognition of agriculture and stockraising as the main road for the Indians' advancement toward civilization.

Realizing that each Indian is a problem, and the only hope of success is to go to each one and see what he has, what he needs, and show him how to make the best use of his resources, special efforts have been made during the year to bring the workers in the Indian Service into closer touch with the Indian's life and his everyday problems.

Reservations, in the sense in which they were formerly known, are gradually disappearing, and the Indians are taking their places on homesteads and allotments, and are finding themselves face to face with the all-important and serious problem of gaining a livelihood for themselves and families, some from the soil and others from live stock.

The reservations are now largely divided into farm or stock districts, and a farmer or stockman is stationed in each. Approximately 249 farmers and 13 assistants were employed at the various reservations during the year. They make their homes, to a large extent, in such districts, thereby keeping in the closest possible touch with the activities of the individual Indians, and advising and directing them in their operations.

Books dealing with various industrial topics have been purchased and sent to a number of schools for the use of the school and reservation employees.

Experimentation in agriculture is being carried on at Pima, San Juan, Shoshone, Pala, Colville, Kaibab, San Xavier, Shivwits, and Loupp, while efforts are being made to utilize all the reservation Indian school farms to demonstrate to the older Indians the possibilities of the soil, at the same time producing the maximum income to be used in the support of the school plant.

#### STOCK RAISING.

In addition to the farmers, 37 stockmen were employed to give special attention to this important industry. The plan, begun about a year ago, of rounding up and disposing of worthless pony stallions and other breeding stock was continued during the year. Stallions of the draft type and a good grade of bulls, cows, and heifers were purchased for a number of reservations.

Good results are being accomplished by breeding the pony mares with stallions of the draft type weighing 1,400 to 1,600 pounds. One of the greatest difficulties to be met in encouraging the Indians to farm more of their lands is the poor condition of their stock. The introduction of the larger stallions among their herds is gradually overcoming this obstacle, and the Indians are cooperating in the plan of upbreeding their stock.

#### COOPERATION OF THE DEPARTMENT OF AGRICULTURE AND OTHERS.

The Department of Agriculture and its various bureaus and also a number of the State authorities have continued to give our service much valuable advice and aid in the inspection of livestock, eradication of diseases of animals and plants, the protection of orchards, the improvement of seeds, and the promotion of improved farming methods.

The Bureau of Plant Industry has sent to Government farmers as well as to Indian farmers, bulletins on various phases of agricultural industry, and pamphlets on home topics for the women. Drought-resisting seeds were sent to Indian schools in arid and semiarid sections of the country, and a supply was also sent to 1,000 progressive Indians.

The Bureau of Entomology cooperated in the work of eradicating grasshoppers and potato bugs, and in the inspection of orchards on several reservations. Local State authorities also gave advice and aid in this work.

The Bureau of Animal Industry has been very generous in furnishing experts to assist in the purchase and inspection of breeding

stock bought for the Indians, and in the eradication of dourine, glanders, mango, ticks, and other diseases of live stock.

The dairy being an important adjunct of practically all the Indian schools, the Bureau of Animal Industry has continued its work of sending experts to the schools for the purpose of making tuberculin tests of the dairy herds and inspecting methods of dairying.

The farmers among the Five Civilized Tribes continued their cooperative work with the various organizations in the State, both national and local. The business men, railway companies, and commercial clubs of eastern Oklahoma are all aiding Indian Service farmers in the campaign for general improvement among the Indians of this section.

#### REIMBURSABLE FUNDS FOR PROMOTING AGRICULTURE.

The office has during the year continued to utilize tribal funds and funds appropriated by Congress as revolving, reimbursable funds to purchase needed live stock and farming equipment for those Indians who have neither the cash nor the credit to purchase the equipment necessary to make their lands productive. These funds are repaid by the Indians in accordance with the terms of definite written agreements.

Appropriations for the purchase of agricultural implements, wagons, and other supplies and live stock to be sold to the Indians under the reimbursable plan are being used at the following reservations: Fort Belknap, Tongue River, Flathead, Pueblo (Albuquerque, Santa Fe), Fort Mojave, Martinez, Pala, Pechanga, Soboba, San Xavier, Walker River, Shawnee, Malki, Fort McDermitt, and Salt River.

The practice heretofore in vogue of issuing implements, wagons, harness, stock, etc., to Indians in return for labor is being gradually discontinued on several reservations, the Indians being given the privilege either of paying cash for what they get, or in the case of seed, returning to the superintendent an equal value in kind. This seed is then stored at the agency and the next year it is reissued upon the same conditions to other Indians who need assistance of this character.

While the precise number of Indians benefited through these reimbursable appropriations and funds can not be stated in exact numbers, the number runs well up into the hundreds, and superintendents are unanimous in their testimony as to the good which has been accomplished. The money has been expended for the benefit of able-bodied Indians in amounts not exceeding \$600, under regulations approved by the department on November 4, 1911, which provide for the proper use and repayment of the money. The Indians for the most part are meeting their payments when due and with surprising promptness.

**AGRICULTURAL FAIRS AND ASSOCIATIONS.**

Fairs were held at Crow, Crow Creek, Fort Belknap, Fort Peck, Fort Totten, Lower Brulé, Nevada, Pima, Pine Ridge, Pala, Rosebud, Standing Rock, San Carlos, Soboba, Sac and Fox, Iowa, Santee, Sisseton, San Juan, Tongue River, Cheyenne River, and Uintah and Ouray in the fall of 1912. A joint fair for the four Cheyenne and Arapaho superintendencies in Oklahoma was held, and about 2,500 Indians visited the fair, where one of the special features was a health exhibit, with posters giving sanitary maxims, diagrams, etc.

The Indians at Camp Verde, Fallon, Fort Lapwai, Western Navajo, Kiowa, Malki, Oneida, Pawnee, Rapid City, Red Lake, Sac and Fox, Iowa, Salt River, Siletz, San Xavier, Union, Uintah and Ouray, and White Earth had exhibits at the county and State fairs.

Farmers' clubs have been organized at Malki, Sisseton, Union, Fond du Lac, Oto, Potawatomi, Ponca, Standing Rock, Tongue River, Winnebago, and Yankton. A boys' corn club was started at Red Moon. An industrial workers' association was organized at Red Cliff. Farmers' institutes for the discussion of agricultural and other topics of interest to the Indians were held at a number of places, principally at Potawatomi, Union, and Sisseton.

Many of the fairs are self-supporting, and a very gratifying feature has been the increased number of Indians taking part in county and State fairs.

**FARMING AND GRAZING LEASES.**

Under the act of Congress, dated June 25, 1910 (36 Stat. L., 855), the allottees of lands held under trust patents are authorized to lease their allotments for a period not to exceed five years, under regulations prescribed by the department. Under these regulations allottees at various agencies have been classified as competent and non-competent, the competent Indians being permitted to transact the business incidental to making their own leases and collecting their own rentals. In the case of incompetent Indians, leases of lands are negotiated in the agency office and the rentals paid through the superintendent. All leases made by Indians classified as competent are subject only to the approval of the superintendent. During the past year the privilege of negotiating their own leases was given to 1,198 Indians.

**LEASING ON THE UINTAH AND OURAY RESERVATION.**

Under the laws of the State of Utah, in order to preserve the water rights, beneficial use must be made before the summer of 1919 of water to irrigate 78,000 acres of excellent agricultural land now under ditch on the Uintah and Ouray Reservation. In order to reclaim as much as possible of this land before the expiration of this time limit,

a vigorous advertising campaign has been inaugurated offering to lessees very favorable terms for leasing land within the next two years. In some cases it is only required that the lessee clear the land of sage brush, level it, and leave buildings on the leased premises to the value of about \$500 at the expiration of the lease.

**LEASING ON THE WIND RIVER RESERVATION.**

Lands on the Shoshone Indian Reservation have been advertised for lease and sale on very liberal terms. The immediate reclamation of irrigable lands on this reservation was necessary not only to provide income for the Indians, but chiefly to comply with the State law requiring beneficial use of the water before the year 1916. Thirty-two tracts out of over 87 advertised during the last fiscal year were sold. The total irrigable area on this reservation to be reclaimed is 65,674 acres, 35,000 acres of which are already subject to irrigation, \$607,637 of Indian money having been expended on this project.

**GRAZING ON TRIBAL LANDS.**

During the fiscal year ended June 30, 1913, there was received for grazing privileges on tribal lands (exclusive of ceded lands) approximately \$435,000.

**GRAZING ON OPEN LANDS.**

One of the most important developments in the leasing policy during the last fiscal year was a decision of the department permitting the leasing of so-called ceded Indian lands, which theretofore had been grazed free of charge by stockmen. Regulations governing the use for grazing purposes of these vacant Indian lands turned over to the Government to be sold, promulgated on July 25, 1912, have been put into operation on seven reservations. During the year permits to use such lands for grazing have been issued, rentals therefrom aggregating about \$75,000.

**ROAD BUILDING.**

A systematic plan of road building and improvement is being gradually worked out under which each able-bodied Indian is required to donate a certain number of days' labor each year. At Shoshone Reservation a very comprehensive system of roads has been planned, which is a part of the national system of highways. At San Carlos, in Arizona, much road work has been done, and a new bridge has been constructed across the Black River, which divides the San Carlos from the Fort Apache Reservation. This road and bridge will enable the Fort Apache superintendency to receive its supplies from the south over a distance which is considerably less than that from the present railroad station to the north.

**SUPPRESSION OF THE LIQUOR TRAFFIC.**

The use of intoxicating liquor is an insurmountable bar between the Indian and progress. Education, health campaigns, appropriations to encourage industry, all fail so long as he uses intoxicants. Realizing this, the bureau has continued during the year with vigor the campaign against illegal sales of intoxicating liquor to Indians and its introduction into what is termed the "Indian country."

**GENERAL OPERATIONS.**

While special emphasis was laid upon the separation of Indians from whisky and not the multiplication of individual cases, there was a total of 1,054 cases instituted, and convictions were secured in 553 cases, while 114 were dismissed.

As three-fourths of the Indians in Minnesota are citizens, the Federal officers have curtailed their operations in that State, as the sale of liquor to them must be prosecuted under the State laws.

Operations in New Mexico, among the Pueblos, were restricted by the decision of the United States district court in the case of *United States v. Sandoval* (198 Fed. Rep., 539), which held that the portion of enabling act declaring the lands of the Pueblo Indians to be Indian country was unconstitutional. This case is now before the Supreme Court of the United States.

An important decision affecting the use of tulapai or tiswin was handed down during the year. The Indians of the Southwest brew this beverage, which is a fermented product made from corn and various roots. Recently the superintendent of the Salt River Reservation instituted proceedings and obtained a conviction against an Indian who had supplied other Indians with tiswin, on the charge of furnishing intoxicating liquor to Indians in violation of the provisions of the act of January 30, 1897.

An active campaign against the liquor traffic among Indians is being waged in Oklahoma. In that State during the year 179 arrests were made, 52 convictions secured, and 24,865 pints of liquor seized and destroyed. Every step has been contested in the courts, resulting in two Supreme Court decisions, three decisions of the circuit court of appeals, and six decisions of the district courts, besides the various cases taken into the State courts. One-third of the Indian population of the United States resides within the State of Oklahoma, which, owing to the great agricultural and mineral wealth of this Indian population, offers an attractive field for the bootlegger.

On September 19, 1912, Deputy Special Officer R. L. Bowman was killed, and Posseman W. R. Mayfield was wounded while in the performance of duty. Considerable liquor was being introduced into Oklahoma from Kansas, and, upon receiving information that a

shipment was being made, these officers set out to intercept, seize, and destroy it after it crossed the State line. The drivers were arrested, searched, and three loaded revolvers taken from them. Two loads of liquor had been destroyed and the greater part of the third, when Officer Mayfield went over to the fourth and commenced destroying its contents. An automobile came from the direction of the Kansas line at a rapid rate of speed, set the emergency brakes directly opposite the wagon upon which Mr. Bowman was standing, and one of the occupants opened fire with a shotgun. Mr. Bowman was killed, Officer Mayfield received three slight wounds, and an onlooker was shot in the right breast. The State authorities of Kansas and Oklahoma were asked to take immediate action, and the United States attorney at Muskogee immediately brought action against these parties. Two of them have been found guilty in the Federal court on the charge of conspiracy to deprive an officer of the rights guaranteed him by the Constitution.

**DIFFICULTIES OF THE LIQUOR SERVICE.**

The officers engaged in the work of suppressing the liquor traffic among the Indians are called upon to face situations which require the special exercise of tact and judgment; they must handle the bootlegger on the one side, and the Indian and the witnesses on the other; they must conduct their operations so as to get results and yet endeavor not unnecessarily to antagonize the best men of the local community or create a sentiment against their work. The Oklahoma situation is a striking example of the risks that the officers must take, and it is therefore essential that these men should be encouraged and afforded every possible personal safeguard. Congress (37 Stat. L., 519) extended to these officers the powers conferred by section 788 of the Revised Statutes upon marshals and their deputies. This also applies to all persons working under the supervision of the chief special officer "whose appointments are made or affirmed by the Commissioner of Indian Affairs or the Secretary of the Interior."

**USE OF LIQUOR AMONG EMPLOYEES.**

It has been found in some instances that white employees of the Indian Service have introduced liquor upon reservations under physicians' prescriptions, and although possibly none of this liquor found its way to Indians it was a direct violation of the law and guilty persons have been prosecuted. To stop absolutely this practice an order was issued to employees strictly forbidding the use by them of intoxicants even under physicians' prescriptions, and regulations were issued, after securing permission from the War Department, to govern Indian Service physicians in the use of ethyl alcohol for medicinal and scientific purposes among the Indians and employees of the Government.

**WINES FOR SACRAMENTAL PURPOSES.**

In order to overcome a hardship affecting the various churches on the reservations, Congress (37 Stat. L., 519) has provided that wines used solely for sacramental purposes under church authority could be introduced at any place within the Indian country, or any Indian reservation, including the Pueblo reservations in New Mexico.

**DENVER CONFERENCE.**

On December 30 and 31, 1912, and January 1, 1913, a conference of all the special officers and a representative of the office was held at Denver for the purpose of arriving at a better understanding as to the needs of the service and the manner of operating and conducting the work. The conference was a profitable one, resulting in a better understanding of the work and a closer cooperation of the officers of this special service and other field employees of this bureau.

**PEYOTE.**

Very careful consideration is being given to the question of the use of peyote. Much information has been submitted both by Indians who were members of so-called mescal organizations and who have pressed their petitions for permission to use it, and by missionaries, physicians in the Government service, and others interested in both sides of the question. The bureau has taken a firm stand against the introduction and use of peyote in the Indian country, and directed its liquor officers to obtain evidence of the use of this drug with a view to prosecution, on the ground that the data in the files of the bureau fully warrant the classification of peyote as an intoxicant. A full discussion of peyote was incorporated in the annual report of the Commissioner of Indian Affairs for 1911.

**FORESTRY.**

The systematic attempt to ascertain the amount and value of the timber on Indian lands, begun in 1910, has been continued. When consideration is given to the extent of the areas embraced, to the undeveloped condition of these areas, and to the very large part of these lands still unsurveyed, the magnitude of the undertaking will be readily appreciated. The timber growth varies from the scrubby mesquite and piñon on the arid plateaus of Arizona and New Mexico to the giant redwood of the Hoopa Valley region in California, and from the scattered red cedar and cottonwood of the subhumid plains and their water courses to the dense virgin stands of spruce, fir, and cedar in the Puget Sound region.

The best information available places the total amount of timber on both tribal lands and allotments at approximately 40,000,000,000 feet, with a value of about \$84,000,000.

The building of telephone lines, roads, and trails for the protection of timber has been continued, and the advantage of such means of communication has been demonstrated. A total of the forest and prairie fires reported from all reservations during the calendar year ended December 31, 1912, showed that the great majority were extinguished before any great damage was done. Approximately 900,000 feet of timber were injured, about 50,000 acres were burned over, and the total damage done by all fires was estimated at only \$10,000. A large part of this is estimated damage to forage and young growth.

Logging operations on the Bad River, Lac du Flambeau, Lac Courto Oreille, and Fond du Lac Reservations have been continued by the regular contractors. The total amount cut on each of these reservations was as follows: Bad River, 57,183,770 feet; Lac du Flambeau, 23,049,110; Lac Courto Oreille, 4,268,050 feet; Fond du Lac, 13,128,775 feet. All of this timber was cut on allotments except 12,068,620 feet cut from unpatented lands of the Lac du Flambeau Reservation, claimed by the State of Wisconsin as swamp lands, and 58,955 feet cut from tribal lands of the Bad River Reservation.

In the summer of 1910 the pine timber on the Red Lake Indian Reservation was injured by fire. An attempt to dispose of this timber in 1911 at minimum prices of \$8 for white pine and \$6 for Norway was unsuccessful. The timber was considerably damaged by standing after burning. In the autumn of 1912 it was again advertised at a lower price. During the logging season of 1912-13 there were removed 9,411,920 feet of white pine and 4,426,620 feet of Norway, for which \$71,167.80 has been received. About 1,000,000 feet still remain upon one of these tracts. This will be cut during the season of 1913-14.

Timber on allotments under the Red Cliff Indian Reservation was advertised for sale during the fiscal year 1913, but no bids were received.

On December 17, 1912, the department approved the recommendation of this office that all existing contracts between Mr. A. V. Johnson and allottees of the Grand Portage Reservation be canceled, and that no further contracts be made under the authority granted to Mr. Johnson on November 4, 1907. Very many of the original allottees of Grand Portage are deceased, and the heirs have not been determined in most instances. As soon as such determinations are made an attempt can be made to dispose of the remaining timber.

About 20,000,000 feet of timber standing on allotments under the jurisdiction of the superintendent of the Leech Lake Indian School were sold under sealed bids opened on March 28, 1912.

The tie industry on the Jicarilla Reservation has been continued with success; but the destruction by fire of the agency sawmill on May 30, 1913, interrupted the work, which had just begun to show results. Steps toward the rebuilding of the mill were taken immediately. No timber was cut on this reservation during the year under the contract with the Navajo Lumber & Supply Co. for 130,000,000 feet, consummated in 1912.

Sales of 1,500,000 feet, at \$3.25 per thousand, and 10,000,000 feet, at \$3.51 per thousand, were made from tribal lands of the Klamath Indian Reservation.

The 16 sections of pine lands in the Choctaw Nation segregated under authority of section 7 of the act of April 26, 1906 (34 Stat. L., 137), were offered for sale for cash, as required by the act, at four different times, and wide notice was given in each offering. The only bids received were rejected as not representing the value of land and timber. Realizing the impracticability of selling this land and timber for its market value at a cash sale, upon recommendation of the department, legislation was enacted as a part of the Indian appropriation act for 1913, which provided for sale under deferred payments. On August 30, 1912, the timber and land were reoffered on terms of a payment of 25 per cent of the purchase price within 60 days from acceptance of bid, 25 per cent additional within 12 months, and the remainder within two years, all deferred payments to draw interest at 6 per cent per annum from the time of the acceptance of the bid. There was a ready response to the more liberal terms of this advertisement, and after brisk bidding at public auction the land and timber were sold for \$287,000. These timber lands had been appraised by several different parties. The price received was more than \$40,000 above the highest appraisal ever placed upon them and \$120,000 above the highest offer received under any one of the earlier offerings.

#### MENOMINEE INDIAN MILLS.

The Menominee Indian mill, at Neopit, Wis., established in the spring of 1908, by the act of March 28, 1908 (35 Stat. L., 51), to manufacture into lumber the timber on the Menominee Indian Reservation, reports progress. The town of Neopit numbers over 900 people, composed largely of white and Indian laborers in the lumber industry, and contains churches, schools, stores, a music hall, and hotel. The mill has a capacity of 150,000 feet of lumber daily, beside lath, shingles, crating, and other miscellaneous products. The project owns and operates its own logging railway, about 35 miles in total length. The planing mill has recently been enlarged to double its former capacity, a new engine and new machines for finishing lumber having been installed within the last year. The total investment in the plant is over \$1,000,000.

The timber on the reservation consists of about 1,750,000,000 feet of pine, hemlock, and hardwoods, of which approximately 40,000,000 feet are cut annually, a basis which is calculated to insure a perpetual source of income for the Indians employed. In and about the mills, yards, camps, and railway are many Indians, some in skilled positions—the greater part in unskilled—all learning the value of daily employment and making social and economic progress. During the fiscal year just passed, an average of 322 Indians have been employed at an average wage of \$29.70 per month. Of this number, 271 were Menominees, an increase of 23 per cent over the number of Menominee Indians employed during the previous fiscal year. The able-bodied males of 18 years of age and over of the Menominee tribe number 408.

The deputy supervisor of forests who was recently assigned to this project has experimented in the renewal of forests by reforestation burned-over districts and establishing a nursery. Forest damage on this reservation has been reduced to a minimum through careful patrol of the forest and the installation of a telephone system and the erection of lookout towers.

#### IRRIGATION.

At the beginning of the fiscal year 1913 the office of the chief engineer was removed from Los Angeles, Cal., to Washington, D. C. The irrigation force consists of the chief inspector of irrigation, an assistant inspector of irrigation, who reports directly to the chief engineer, and six superintendents of irrigation at the head of as many districts, whose offices are convenient to the principal irrigation projects now under construction.

The legal right to the use of water is of primary importance in the work of the irrigation branch of the Indian Service. The water right for Indian lands rests upon common-law riparian rights in some cases, and in others it would appear that beneficial use of water must be made before title can be acquired. The United States Supreme Court has decided in the case of *Winters v. The United States* (207 U. S., 564) that prior appropriation by the United States and beneficial use by the Indians is not necessary, because of an implied reservation of water with and at the time of the reservation of the land sufficient for the irrigation thereof. However, the land in question had not been allotted, and the case did not involve the rights of any individual Indian but settled the right of the United States on behalf of unallotted Indians.

There is urgent necessity for looking thoroughly into all conditions pertaining to water rights on the various reservations and to protect the Indians against the loss of such rights.

There is at present no general method of procuring reimbursement for maintenance and operation expenses of the irrigation systems on the various reservations. On a majority of the reservations no provision is made for the reimbursement of this expense. Conditions on many reservations at the present time are such that it is not advisable to require that individuals pay the maintenance and operation expenses; but the time is not far distant when this method must change, and the owners benefited must bear this expense rather than allow it to be borne by the entire tribe or by the Government.

The total sum of \$624,066.54 was expended during the year in the irrigation by the Indian Service of Indian lands, of which the following amounts were expended on nine of the largest projects: Yakima, \$65,476.02; Fort Hall, \$26,146.80; Uintah, \$35,031.06; Fort Belknap, \$20,313.58; Wind River, \$31,236.65; Colorado River, \$34,561.33; Fort Mojave, \$34,978.47; Navajo and Moqui, \$83,943.04, and Ganado, \$13,420.86.

#### HEALTH.

In accordance with directions contained in the Indian appropriation act approved August 24, 1912 (37 Stat. L., 519), the Surgeon General of the Public Health Service detailed 13 officers of that service to make an investigation as to the prevalence of tuberculosis, trachoma, smallpox, and other contagious and infectious diseases among the Indians of the United States, assigning each to a separate school or reservation. This investigation began September 28, 1912, and was concluded December 30, 1912, covering the tribes of Indians in 25 States and involving the personal inspection of 39,231 Indians. Senate Document No. 1038, Sixty-second Congress, contains a complete report of the investigation as transmitted to Congress by the Secretary of the Treasury.

Comparative studies plainly show that the prevalence of tuberculosis among Indians is greatly in excess of that among the white race, and the prevention of the ravages of this disease is the most important medical problem of the bureau.

Repeated examinations with the Von Pirquet tuberculosis test have demonstrated that on many reservations tuberculosis infection exists in as many as 90 per cent of the school children, and while this of course does not mean active cases, it does indicate the excessive incidence of the disease, much of which under favorable conditions may at some time become active. On account of the high incidence of tuberculosis in pupils of Indian schools the matter of health is one of paramount importance.

The service sanatoria at Fort Lapwai, Idaho, Phoenix, Ariz., and Laguna, N. Mex., have each completed a successful year. Their success has stimulated the office to add to their number, and accord-

ingly there has been established at Toledo, Iowa, an additional sanatorium with a capacity of 65 patients, which by reason of its location will be admirably adapted for the treatment of children with incipient tuberculosis from the northernmost reservations. Besides offering them the advantages of sanatorium treatment, it will give them the benefit of a change of climate without taking them too far from home. As at the other sanatoria, a school will be provided for children able to take advantage of it.

The force of ophthalmologists has been increased to six, each of whom has been assigned to a separate district in which he will have supervision of the eye work, it being the plan to have a qualified operator within reach of each agency physician. These surgeons will be important factors in controlling the spread of trachoma.

Trachoma with an incidence approaching 70 per cent was reported among the Five Civilized Tribes, presenting such an alarming situation that an assistant medical supervisor was directed, during the fiscal year 1913, to make a survey of the whole Five Tribes country with a view of determining the medical and sanitary needs of the Indians.

During the year epidemics of certain of the more common infectious diseases occurred on many reservations—diphtheria, smallpox, scarlet fever, and measles occurring most frequently. Diphtheria visited seven reservations during the year, with but one death in 54 cases. This unusually low death rate is due to the close observation under which the school children are kept by the physicians, the immediate use of diphtheria antitoxin, and the mild form in which the disease appeared.

Smallpox occurred in a mild form excepting in the Five Tribes, where it appeared in a most virulent type. Indians generally submitted cheerfully to vaccination by and followed the instructions of service physicians.

Typhoid fever, a disease formerly so rare among Indians that many service physicians believed that there existed a racial immunity, is occurring with greater frequency, due in all probability to the closer contact of the Indians with the white race. Sufficient cases have already occurred and these have been so widely distributed among the tribes that it can be safely said that the Indian is not naturally immune to this disease.

By especially prepared lectures illustrated by stereopticon slides and motion pictures, delivered to Indians on the reservations during the past few years, appeal has been made direct to them to improve their living conditions, and they have been taught by this means how to guard against disease. These lectures have been well attended, and their influence for good has been great.

## INDIAN SCHOOLS.

There were maintained 217 Indian day schools situated on the reservations near the Indian homes, for pupils from the first to the fifth grades. The boys were also instructed in gardening and elementary carpentry and the girls in sewing and housekeeping. A noon-day lunch is served at many of these schools.

The typical Indian day school consists of a school building with a capacity of 25 to 40 pupils, a room for the serving of the noonday lunch, or for industrial training, and quarters for the employees, who are usually a teacher and his wife, the latter acting as housekeeper. There is always a garden at each school and frequently from 40 to 100 acres of land, which is used for grazing purposes.

Seventy-six reservation boarding schools were maintained. They enrolled pupils for the entire year in grades from the first to the seventh, inclusive. These schools are better equipped than the day schools to give training along industrial lines to both the boys and the girls. The pupils are housed, clothed, and fed and allowed to return to their parents during the summer vacation. Ordinarily these schools have a capacity of from 75 to 400 pupils, the plant consisting of school buildings with classrooms and assembly halls, dormitories for girls and boys, and such accessory buildings as laundry, warehouse, shop buildings, and employees' quarters.

There were 35 nonreservation boarding schools, situated off the reservations, some of them at a considerable distance from Indian communities. Pupils are brought to these schools at Government expense for periods of 3 to 5 years. These schools have more buildings and are usually better equipped than the reservation schools. There are several dormitories, large shops, increased facilities for the housing of employees, domestic science cottages, and also buildings for the electric power and heating plants. Their capacities range from 75 to 750 pupils. Nonreservation schools represent the highest class maintained for Indian pupils and furnish academic training through the eighth grade, a few doing work comparable with that given in the first year of public high schools.

Indian children were also enrolled in 45 public schools in which a tuition was paid and in several hundred public schools in which no tuition was paid, not including the 325 public schools in eastern Oklahoma among the Five Civilized Tribes where the schools are in Indian communities but under the control of the State. Sixteen mission schools under contract and 53 not under contract enrolled Indian pupils. There is no record of the number of Indians enrolled in private schools.

## VOCATIONAL TRAINING.

For all pupils in and above the third grade industrial training occupies at least one-half their time. Superintendents are giving careful attention to the selection of the kind of training taken up by the different pupils. If a boy has an allotment, he is advised not to take a regular trade course, but to take such training in carpentry, simple blacksmithing, etc., as would be of value to a farmer, for it is expected that he will return to his allotment. If a boy has no land, then he is encouraged to take up one of the trades.

The vocational training for boys includes carpentry, blacksmithing, masonry, harness making, tailoring, plumbing, tinning, steam and electrical engineering, printing, and agriculture, and for girls household economy.

Many Indian pupils are the possessors of considerable land, and the boys, unless they have no land, are taught the wholesomeness and value of agricultural pursuits. Each girl is given the actual care of a group of rooms comparable with what she might have in her own home and taught how to care for them; she prepares and serves meals, preserves foods, and cares for poultry; also the proper care of the household from a sanitary point of view is taught.

## ACADEMIC TRAINING.

Pupils are given such training as will enable them to acquire a ready use of conversational English. Many pupils come from Indian homes in which no English is spoken, and great care must be given to the first year's training in English. A satisfactory standard of acquirements has been set in many schools where pupils of this kind have learned to use, actually, at least 280 English words in one year. Two new words can be mastered each school day during the first two years by the average Indian pupil. This is the time when he can acquire more readily than at any other a knowledge of a new language; and every effort is being made to develop the pupils during this period.

Better textbooks and supplemental reading matter, more blackboards for the classrooms, and primary equipment suitable for use in the primary grades have been in use. To prevent the spread of any contagious diseases from the handling of books, superintendents have been directed to reissue no soiled book or any book which has ever been in the hands of a pupil who might have such a disease. The courses of instruction followed in most Indian schools have conformed quite closely to those used in the public schools of the State in which the school is situated.

**VISUAL INSTRUCTION.**

One feature of the work which bears upon every phase of Indian education is that of visual instruction. Stereopticons are now in use at most of the schools and careful attention was given to the selection of a complete list of topics suitable for use in the instruction of pupils in geography, history, industrial activities, manufacturing processes in connection with the production of machinery, etc. A series of lectures along moral lines was given by Dr. Milton Fairchild in a number of schools, his talks being illustrated by selected pictures.

This plan was used particularly in connection with the study of "Home building," which was the subject of essays written by the pupils of those schools maintaining grades above the second. The improvement of home conditions among Indians is of vital importance to the future health, happiness and usefulness of the Indian. About 700 prizes were awarded to those pupils preparing the best essay on the subject of "Home building." The results obtained were excellent. The Indian children took great interest in the study and no doubt gained a large fund of practical and useful knowledge relative thereto. Many pupils prepared creditable house plans, wrote descriptions of their ideal houses and their equipment, and drew word pictures of their ideal future homes.

**PHYSICAL TRAINING.**

Outdoor life being essential to the health of Indian pupils, playgrounds are available at all schools; and where homemade apparatus has not been provided, the office has authorized the purchase of ample equipment for both boys and girls. Baseball, basket ball, and other forms of athletics are enjoyed at all the larger schools. The boys are organized into military companies, and in order to effect a uniform system of drilling a pamphlet has been published for the use of employees reproducing a portion of the Manual for Infantry Drills now used by the United States Army.

**PUBLIC SCHOOLS.**

A large number of Indian pupils have been enrolled in the public schools, and the relationship between the public-school authorities and the Indians has been very satisfactory. In most communities there is but little opposition to the enrollment of healthy Indian children in these schools.

Where public-school facilities are available and Indian parents are owners of taxable property but have actually paid little or no taxes, the public-school authorities have maintained, when the district is poor financially, that children of such parents should pay for tuition in the public schools, the tuition to be paid for by the General Gov-

ernment. The office has taken the position that whenever one or the other of the parents of Indian children is an owner of taxable property in the district, tuition for such children in the public schools should not be paid. Where they are not taxpayers, however, the Indian Office has paid for tuition of Indian children in the public schools an amount approximating that necessary to furnish school facilities for white children in the same community. Indian children are frequently admitted to these schools without the payment of tuition, even though their parents pay no taxes.

**AID OF COMMON SCHOOLS IN EASTERN OKLAHOMA.**

For the fiscal year 1913 there was appropriated by Congress the sum of \$300,000 "To be expended, in the discretion of the Secretary of the Interior under rules and regulations to be prescribed by him, in aid of the common schools in the Cherokee, Creek, Choctaw, Chickasaw, and Seminole Nations in Oklahoma." The purpose of this appropriation was to aid the public schools attended by Indian children whose parents do not assist in the support of the schools by the payment of taxes on their real estate. This appropriation resulted from a recent decision by the Supreme Court which relieved a large amount of unrestricted Indian lands in the Five Civilized Tribes' country from taxation.

Pursuant to regulations approved by the Secretary of the Interior, this money has been distributed to the Oklahoma public schools, payments to each district being based in part on the number of Indian children in attendance, and in part proportioned to the needs of the districts, their revenues available for school purposes differing because of the varying amounts of nontaxable Indian lands in different districts.

**EFFICIENCY OF EMPLOYEES.**

In order to strengthen the work now being done for Indian education, careful attention has been given to the improvement of the personnel of the service. To induce teachers to continue work along professional lines, a reading circle is maintained and books bearing upon the profession of teaching are selected for study and discussion. To add emphasis to this work, teachers are asked to prepare theses on subjects designated by the office and closely related to those treated in the texts discussed in the reading circle. The theses are submitted to the Indian Office, given a rating, and placed with the status files of the individual teachers. This has induced them to do more professional reading, and the service has been directly benefited thereby.

As a further encouragement the teachers were told that those who made a record of "excellent" in their efficiency report would be given

a promotion of not less than \$2.50 per month. As a further inducement to teachers to enter the Indian service, legislation was secured providing that teachers may have, in addition to their annual leave of 30 days, 15 days educational leave with pay, this 15 days to be spent in attending summer schools, teachers' institutes, or other institutions that afford training which will directly increase their efficiency as instructors.

Another matter which will result in the increase in the compensation now received by employees is the provision in the current appropriation act authorizing the Commissioner of Indian Affairs to furnish necessary heat and light without charge to employees who are furnished quarters; such heat and light to be paid for out of the fund for heating and lighting other buildings at the same place. This amounts to a virtual increase in salary for many employees.

It has been difficult heretofore to retain in the service valuable employees in such positions as matron, industrial teachers, disciplinary teachers and others who, of necessity, are considered as being on duty at all hours of the day and night. In order to relieve this class of employees from the long hours incident to their service, superintendents have been authorized to allow them one-half day off duty each week. This relief, with such other annual and educational leave as they may be entitled to, renders service in these positions much more attractive than heretofore.

#### CONFERENCES.

A conference of supervisors and other employees of the service was held at Haskell Institute September 4 to 11, 1912; also one of employees among the Sioux Indians at Flandreau, S. Dak., November 12 to 15, 1913. These conferences have strengthened the supervision of schools and unified the activities and aims of employees in reference to the welfare of Indians.

#### MARRIAGE AND DIVORCE.

The constant efforts of this bureau for several years to overcome Indian customs as to marriage and divorce and to substitute therefor the practices recognized by law have met with considerable success, but there are certain deficiencies in the law which are embarrassing. Where Indians desire to be married according to law, they have no trouble in procuring a license and having the ceremony performed by an authorized person. However, complications are likely to arise when a divorce is sought, a number of State courts holding that they do not have jurisdiction to hear the application of noncitizen Indians residing on Indian reservations, and there is no law under which divorce suits may be taken into Federal courts. In such cases the Indians often, and naturally, follow their native custom, which is

simply the abandonment of the spouse and perhaps the immediate marrying by Indian custom or another. In cases of this kind the office finds its hands tied; it can not consistently punish the Indians for following their own customs when it has no legal and no better plan to offer as a substitute. A number of crimes were committed during the year against Indian women and girls, and in every instance the office endeavored to bring about the prosecution of the offender. In some of the cases the crimes were committed off the reservations and under the jurisdiction of the States, but in others the offenses were committed on the reservations, and because of the inadequacy of Federal statutes the offenders have remained unpunished. The necessity of further legislation regarding this important subject is apparent and urgent.

#### MURDERERS OF SUPERINTENDENT STANLEY.

A brief statement was made in last year's report of the death of Mr. Will H. Stanley, formerly superintendent of the Soboba Reservation, at the hands of the Indians under his jurisdiction. Ambrosio Apapas, Francisco Lugo, Cornelio Lubo, Pio Lubo, Pablino Lubo, and Leoncio Lugo were convicted of this murder in the United States District Court for the Southern District of California, and were sentenced on March 27, 1913, to 10 years' imprisonment at McNeil Island penitentiary. This unfortunate tragedy was the culmination of a long series of events running through a number of years in which Leoncio Lugo was the principal. For years he had been a disturbing element and was continually inciting the Indians to opposition to constituted authority. The conviction of this ringleader and his coconspirators will undoubtedly have a salutary effect on the Indians and remove from an otherwise peaceable band criminal elements of danger and discord.

#### EMPLOYMENT OF INDIANS.

Procuring employment for Indians is an integral part of the work of Indian civilization, and its immediate direction is controlled by a Supervisor of Indian Employment. The purpose of this branch of work is, briefly, to bring the Indians and the work together. Family ties and home interests, health, climate, and environment have to be considered.

The contractors for the construction of the North Platte irrigation work in Nebraska have recently made arrangements for the employment of a number of Indians for that project. The development of western beet fields gives opportunities for the employment of Indians, and the sugar companies each year grant more liberal concessions in the way of railroad rates and care of young Indian boys in times of

illness, in order to secure them as helpers in cultivating and harvesting this crop. These boys live in tents in small communities in charge of a Government employee, who sees that hygienic, moral, and social conditions are carefully looked after.

Through hearty cooperation between Indian-school superintendents and those in charge of reclamation and other projects, Indians are being given splendid opportunities for employment, of which they are availing themselves. Agreements are made with fruit growers and fruit companies for the harvesting of crops, and where cotton is grown Indians are employed for picking this staple. In fact, many fields of domestic and industrial activity are being opened for Indians under conditions which promote their general welfare.

#### PURCHASE OF SUPPLIES.

The importance and necessity of exercising economy in expenditures is receiving the greatest consideration, and the practice of inviting proposals through warehouses and locally in advance of making purchases has been followed closely. Thus the bids obtained in large distributing centers and at factories, plus freight charges to points of consumption, are compared with local bids. This results in lower prices, due to increased competition, and opportunity is afforded to utilize as far as practicable the low freight rates which apply on Government shipments over land-grant railroads.

The plan to have the disbursing officer of the Interior Department pay claims covering supplies purchased through the warehouses in lieu of their settlement through the Treasury Department, after such claims have received administrative examination in the Indian Office, has effected a saving of time in the settlement of claims.

During the fiscal year there were purchased for the Indian Service approximately \$3,160,000 worth of goods and supplies.

#### ENROLLMENT WITH INDIAN TRIBES.

Applicants for enrollment with Indian tribes are required to furnish about the same kind of evidence as would be necessary to prove an inheritance before a court. The various Indian reservations have been established by Executive orders, laws, treaties, or agreements with Indian tribes, and in many instances enrollment for participation in land or other tribal benefits is limited by treaty stipulation, agreement, or special legislation, and varies accordingly.

During the past fiscal year 128 persons have been enrolled at agencies or reservations throughout the United States, exclusive of the Five Civilized Tribes, and 441 persons denied enrollment.

In some instances tribal authorities and Indian Service officials have challenged the enrollment of persons, and these cases are now being investigated, either in the field or before the department. There

are about 260 such contested cases at the Cherokee School, North Carolina, to be passed upon before the reservation can be allotted.

At White Earth, 86 persons of mixed Chippewa blood enrolled with the tribe were challenged. Their rights have been carefully investigated by a special attorney of the department, and the record, including voluminous testimony, has been referred to the Court of Claims for findings of fact.

#### FINANCE.

The system of accounting maintained in the Indian Service is, necessarily, more complex and difficult than that of any other branch of the Government service, because of the number and variety of appropriations, as well as the large amount of tribal and individual Indian money handled. Appreciating the benefits to be derived from personal instruction of the field force in accounting methods as well as the necessity for more frequent and systematic investigation of the fiscal affairs of disbursing officers, special agents, qualified as expert accountants for that particular work, have been employed.

#### INDIVIDUAL INDIAN MONEYS.

The principal sources from which individual Indian moneys are derived are: (1) Sale of allotted and inherited lands; (2) lease accruals; (3) sale of timber; (4) oil and gas royalties; (5) earnings of outing pupils.

The total amount of deposits of moneys of this class in depositories on June 30, 1913, was approximately \$10,500,000. The Federal law, as respects individual Indian moneys, is broad and comprehensive and permits a wide discretionary authority in the administration of the trust moneys belonging to individual Indians. For administrative and accounting purposes, requests for authority to approve the disbursement of an Indian depositor's funds are submitted to this office by the local superintendent. The superintendent justifies his requests by submitting a report of the circumstances in each particular case.

Indian allottees are encouraged to use as much of their funds as necessary in building modern and sanitary homes on their lands.

On the theory that lease money represents income rather than principal, the greatest possible liberality has been exercised toward the lessor in the handling of his own rentals.

#### DEPOSITORIES FOR INDIAN MONEYS.

On March 17, 1913, the department approved a regulation, effective July 1, 1913, which provides for the payment of interest on all individual Indian funds held to the official credit of superintendents at the same rate as that paid by banks on open accounts of individual

Indians. At the same time a new system for keeping in touch with holding banks was installed. This system requires a report to this office on a specified form, by national banks when a call is made by the Comptroller of the Currency and by State banks when a call is made by the State banking departments.

Deposits of tribal and individual Indian monies at the close of the fiscal year 1913 amounted to approximately \$15,000,000, held in 450 depositories under surety bond. Two failures occurred among holding banks, but in each case the surety promptly paid to the Government the amount of the deposit with interest to and including the date of payment.

#### SALE OF INDIAN LANDS.

The acts of Congress approved May 27, 1902 (32 Stat. L., 245), March 1, 1907 (34 Stat. L., 1015), May 29, 1908 (35 Stat. L., 444), June 25, 1910 (36 Stat. L., 855), and February 14, 1913 (37 Stat. L., 678), provide for the sale of allotted and inherited Indian lands. During the fiscal year 317 sales have been made, involving 31,576.74 acres, consideration \$692,413.28.

Some criticism has been made by purchasers of Indian land on account of delay in the approval of sales. The chief cause of delay is the complications which arise over the heirs of the deceased allottee. In many cases the determination of the heirs is a difficult and complex question. Recently changes have been made in the departmental practice in sales cases, which will permit of sales being approved more expeditiously than formerly. It is believed that this will have a tendency to increase prices and to popularize sales of Indian lands.

#### MINING ON INDIAN LANDS.

Oil and gas mining operations on Indian lands in Oklahoma have been increasingly active during the year. A productive oil pool discovered near Cushing, Okla., stimulated leasing in the Five Civilized Tribes to approximately 50 per cent over last year. Many leases of allotted lands under the Sac and Fox, Ponca, Pawnee, and Kiowa Agencies have been taken, and some development work has been done. The price of crude oil advanced from 70 cents per barrel on July 16, 1912, to a maximum of 88 cents per barrel on June 30, 1913.

Discovery of oil in the State of Washington has resulted in the filing of many applications for permission to negotiate leases of lands on the Quinalt Reservation. A thorough investigation in connection with the acquiring of leases in this field was begun, pending which the approval of leases was suspended. At the present stage of development, prospects for finding oil in paying quantities on this reservation can only be conjectured.

Lands on the Shoshone Reservation in Wyoming have been leased for oil and gas purposes for several years, and some wells have been brought in. Development has been slow and small returns derived from this source, owing largely to the lack of proper transportation facilities.

The production of oil and gas in the territory of the Five Civilized Tribes is referred to under that head.

#### OIL AND GAS MINING LEASES ON OSAGE RESERVATION.

During the year there were leased 24,561 acres of the so-called unleased portion of the Osage Reservation (consisting of approximately 800,000 acres) for oil and gas mining purposes under regulations raising the rate of royalty for the Indians from one-eighth to one-sixth, and providing for competitive bidding for Indian oil and gas leases. By the provisions of the act of June 28, 1906 (34 Stat. L., 539), all the minerals under the lands within the Osage Reservation were reserved to the tribe for a period of 25 years from April 8, 1906.

In the early part of 1912 the Osage tribal council authorized the principal chief to execute four leases of about 200,000 acres each, covering the entire unleased part of the reservation. Notwithstanding the absence of departmental regulations on the subject, as required by law, the four leases were presented to the department in the spring of 1912 by the Osage tribal council, with the request that they be approved. They were promptly disapproved by the Secretary on June 14, 1912, on the ground that they were not in accord with the best interests of the Indians and contained some provisions which were thought to be illegal.

The department on July 3, 1912, prescribed regulations as required by the act of June 28, 1906. These regulations provided for offering the lands to the highest bidder under sealed bids. Approximately 107,000 acres were advertised for lease and the bids opened on November 11, 1912. The bids covered 42,210 acres, the bonus offered aggregating \$143,438.65, an average of about \$3 per acre. While the lands were under advertisement, the Uncle Sam Oil Co. continued its efforts to have the lease executed in its favor approved in spite of the previous definite disapproval by the department. The Osage council passed a resolution rejecting all the bids received by it under the advertisement made in accordance with the approved regulations of July 3, 1912, and refused to reconsider its action, despite a petition signed by a majority of the male adults in which the council was asked to accept the highest bids.

The action of the council and the circumstances surrounding the execution of the four leases were such that the department ordered a special investigation of the entire matter, and on receiving the report, the department issued an order removing the entire Osage tribal

council. A suit was instituted against the Secretary of the Interior by one of the deposed councilmen in the Supreme Court of the District of Columbia, questioning the right of the Secretary to remove him. The court rendered a decision in which the action of the Secretary was upheld, and that decision was affirmed on appeal to the court of appeals. After the dismissal of the tribal council, a special election was held on January 22, 1913, which resulted in practically the unanimous election of new tribal officials. The bids rejected by the old council were reconsidered by the new council, the highest accepted, and the principal chief authorized to execute leases to the successful bidders.

The regulations of July 3, 1912, prohibited pipe-line companies from bidding. Some of the best bids received on November 11, 1912, were made by the Gypsy Oil Co. On account of its close affiliation with the Gulf Pipe Line Co., the department held that the Gypsy Oil Co. was not eligible and refused to approve leases executed in its favor by the principal chief of the Osage Tribe. Eight leases in favor of parties shown conclusively not to be interested in pipe-line transportation, covering 24,561 acres, were approved by the department in the early part of March, 1913.

On January 9, 1913, the regulations were amended so as to permit leases and assignments to be approved to pipe-line companies provided that no right, claims, or equities as against future action by or under authority of Congress respecting oil or gas pipe line companies should be predicated upon such approval.

#### INHERITANCE CASES.

The act of June 25, 1910 (36 Stat. L., 855, 856), devolved upon the Secretary of the Interior the duty of determining the heirs of deceased Indians, but failed to make an appropriation to carry out this work. As already said, there are approximately 40,000 Indian heirship cases pending at the various agencies, representing inherited property, valued at more than \$60,000,000, which can not be sold or otherwise disposed of until the heirs are determined. The adjudication of these cases is one of the most important duties confronting the Indian Service. This work has been greatly handicapped by the lack of appropriation and, consequently, by lack of a sufficient number of employees to handle it. The Indian appropriation act for the fiscal year 1914 has partially removed this impediment by an appropriation of \$50,000.

There is a provision that upon the determination by the Secretary of the Interior of the heirs of a deceased Indian, the sum of \$15 from the proceeds of the estate shall be paid into the Treasury, to cover the cost of determining the heirs.

During the year over 10,000 cases have been received pertaining to heirship matters. This includes not only cases where the

determination of heirs is the sole object, but also includes wills and petitions for sales and all miscellaneous correspondence in connection therewith.

Special attention was given the determination of heirs at the Shoshone and the Uintah and Ouray Reservations in order to safeguard the water rights of the Indians. Each of 28 agencies reports from 100 to 1,200 undetermined inheritance cases. An adequate appropriation available for both field and office work should be provided by Congress so that the Indian Bureau can be able to clear up, at the earliest possible date, the tangled condition of the estates of deceased Indians, in order that the lands not needed by the Indians may be leased or sold and the proceeds used to improve and farm the allotments of the heirs.

#### THE FLORIDA SEMINOLES.

For hundreds of years the Seminoles of Florida have made their homes in the Everglades, and have obtained a living by hunting, trapping, and fishing.

On account of the various drainage projects now being constructed for the reclamation of the Everglades, and the diminishing swamp area which has been their home and hunting ground these Indians are rapidly being deprived of the game upon which they have heretofore subsisted. They are in no sense agriculturists but are natural hunters and trappers, making fully 75 per cent of their expenses of living from alligator skins. In addition to the restriction of their hunting grounds, during the past year the tanneries have discontinued the purchase of alligator skins, the main source of their income.

An appropriation of \$10,000 for their relief was reappropriated and made available in the Indian appropriation act for the current year (37 Stat. L., 518), and on March 1, 1913, Mr. Lucius A. Spencer, of Florida, was commissioned as a special commissioner to these Indians. It was not deemed advisable, taking into consideration the traditions and history of this remnant of Osceola's band, to place a Government official in charge of them as the term is usually applied to Western reservations, as they are extremely suspicious of the good intentions of any representative of the Government; but their condition required some action in order to prepare them for the inevitable change which must in a few years come to them.

There are about 400 of these Indians who live in camps surrounded by vast tracts of uninhabited swamps and morasses. They are splendid types of the physical man, and are nearer the aboriginal Indian in habits and customs than almost any other band.

The Florida State Legislature in 1889 set aside 36 townships as a Seminole Reservation, but while the law apparently has not been repealed, nearly all the land has been obtained by private persons.

A bill to set aside 15 townships in Monroe County, Fla., was introduced in the legislature of that State in 1911, but failed to become law.

During the period from 1895 to 1900, from funds provided by Congress, 23,061.72 acres lying in T<sub>s</sub>. 47 and 48 S., R<sub>s</sub>. 32, 33, and 34 E., were purchased for the Seminole Indians. On November 22, 1897, there were withdrawn for them approximately 480 acres lying in T<sub>s</sub>. 50 and 51 S., R<sub>s</sub>. 40 and 41 E.

All efforts for their education on the part of the State and Federal Governments and missions have been unsuccessful, because of the severe penalty inflicted by the tribal laws on any Seminole who learns to read and write.

#### TRUST PLAN FOR PUEBLOS.

It has been proposed that the lands of the Pueblo Indians shall be deeded by them to the Government to be held in trust for their benefit for a period of 25 years.

There are 20 Pueblos in New Mexico, with a total population of about 6,000 Indians, Laguna, with about 1,000, being the largest.

The land grants to these Indians were in most cases made by the King of Spain in 1691, or later, and these titles have been confirmed to them by Congress or by the Court of Private Land Claims and patented since the American occupation after the Mexican War. These Indians have lost considerable land through their own improvidence, the encroachments of white settlers, and the adverse decisions of the courts, and there are now pending before the courts suits involving the title to much of it.

Owing to the gradual loss of land, and the difficulty of maintaining schools and otherwise administering the affairs of these Indians because of the lack of jurisdiction over their lands, the department, in 1911, recommended to Congress the enactment of legislation which would permit the Secretary to accept, on behalf of the United States, as trustee, all such lands as might be conveyed by any of the communities of Pueblo Indians. The bills making this provision were introduced in the Sixty-second Congress as H. R. 22528 and S. 6085.

Representatives of 11 of the Pueblos made a trip to Washington last February, accompanied by their special attorney, to urge upon the department the acceptance of trust deeds and to petition Congress to enact legislation authorizing the Secretary of the Interior to accept the trust. These Indians appeared before the Senate Committee on Indian Affairs in connection with the hearing on Senate bill 6085, where they argued that if their property is to be conserved it will be necessary for the United States to hold it in trust for the next 25 or more years, and until the coming generation may have an opportunity to become educated.

Although by the Territorial law the Pueblo lands were exempted from taxation, and this same exemption is provided in the constitution of New Mexico, the decision of Judge Pope on July 22, 1912 (198 Fed. Rep., 539), holds that the separate provisions of the State constitution which contain the compact with the United States that the Pueblo lands are Indian country is unconstitutional, and therefore the lands are subject to taxation and to sale for nonpayment of taxes, in accordance with the provisions of the State law.

#### OPPOSITION OF PUEBLOS TO EDUCATION.

The Federal Government has made appropriations from time to time to maintain schools among the Pueblo Indians; nevertheless, the Indians have refused to lease buildings for school purposes in their villages, in some instances making it necessary for the Government to institute condemnation proceedings to procure land on which to erect permanent day-school plants. Out of 18 pueblos under Albuquerque and Santa Fe schools, 13 sites have been procured in this manner.

There was also opposition to the erecting of school buildings among the Pueblo Indians. At San Domingo the Indians at one time showed some actual resistance to employees undertaking to build a school-house. This resistance, however, was insignificant and the construction work has proceeded without any interruption, although the Indians showed considerable resentment. If handled discreetly and tactfully, it is believed the opposition will soon disappear and the advantages of having in their midst a trained teacher and a well-equipped day-school plant will be recognized by the Indians.

The threatened taxation of their lands and their utter inability to meet such payments have awakened the Pueblo Indians to the need of an adjustment to the conditions which surround them, and many of them are now willing and anxious to receive the aid of the Government, so that their children may have opportunity to adopt the customs of white communities which they have refused for themselves.

The Indians are generally favorable to education and anxious to enroll their children in school. Some of the Hopis, however, refused to enroll their children. They were put into school, against the wish of the parents, and the superintendent was authorized to retain them in his boarding school during the summer vacation unless the parents would agree to return them to school at the opening in September, 1913.

**RELEASE OF APACHE PRISONERS OF WAR.**

The survivors of Geronimo's band of Apaches and their descendants, who for many years have been living at Fort Sill, Okla., as prisoners of war, have been released, some going to the Mescalero Apache Reservation in New Mexico, and others remaining in Oklahoma. On April 2, 1913, 183 of these Indians in charge of Maj. Geo. W. Goode, United States Army, went to Mescalero, where they are now living with this branch of their kindred, under the supervision of the superintendent of the Mescalero Reservation. The transfer of these Indians was made with their consent and under the terms of the act of Congress passed at the last session making the necessary appropriations for the purpose. There were 78 of the band who elected to remain in Oklahoma, where they will be permanently located on allotments provided for them.

**FIVE CIVILIZED TRIBES.**

The tribal work pertaining to the Five Civilized Tribes is performed under the direct supervision of the Commissioner to the Five Civilized Tribes acting under instructions from the department, through this office. The details of the work performed by him during the past year are set forth in his annual report to the Secretary of the Interior.

The affairs of individual Indians after allotments are made, especially of the restricted class remaining under the supervision of the department, are handled through the office of the superintendent of the Union Agency under direction of this office.

There are 101,216 persons enrolled as members of the Five Tribes, of which number 32,939 are what is known as "restricted" Indians, which means that they are still wholly or partially under the supervision of the Government. The citizenship rolls were closed by operation of law on March 4, 1907. There were 1,238 applications for the removal of restrictions made during the year ended June 30, 1913, making a total to that date of 9,594.

The work of allotment is practically completed, although there remains considerable work in connection with the closing of final records and other details and the disposition of the remaining tribal property.

The work at the Union Agency, in connection with the Indians after allotment, includes the making of oil and gas and other leases by Indians under supervision of the department, the collection, supervision, and disbursement of royalties, removal of restrictions, leasing of land, and the handling of money derived from sales of land, all of which required the handling of \$3,215,989.71 by the agency during the year ended June 30, 1913. During that time there were filed at the Union Agency 28,526 leases of which 26,846 were for oil and

gas; 3,522 oil and gas leases were approved; 49,176,000 barrels of oil were sold. There were collected during the year for individual Indians from oil and gas leases \$1,301,326.99, and for the Choctaw and Chickasaw tribes as royalty from coal and asphalt leases \$217,226.61. The proceeds of lands sold for Indians under the supervision of the agency aggregated \$502,406.36.

Under existing law the probate courts of the State have jurisdiction in probate matters affecting minor Indians, and during the year reports have demonstrated that such matters are not in a satisfactory condition, principally because of the vast amount of business handled by such courts and the inadequate statutes affecting probate procedure. A bill seeking to remedy existing evils was introduced in the last Legislature of the State of Oklahoma, and although its passage was urged by the Government and the entire Oklahoma delegation in Congress it failed of enactment.

**LEGISLATION.**

The Indian appropriation act for the fiscal year 1913 was not approved until August 24, 1912. It therefore became necessary for the appropriation act of the previous year to be extended, which was done by joint resolutions of July 1 and August 1, 1912.

For the fiscal year 1910 the Indian appropriation act carried about \$11,800,000. The act for 1911 carried about \$9,200,000, for 1912 \$8,800,000, and for 1913 \$8,900,000. The estimates for the Indian Service for the fiscal year 1914 amounted to \$11,303,316.53. The Indian appropriation act for the fiscal year 1914, which failed of passage at the regular session of the last Congress, but was enacted at the special session of the present Congress and approved by the President June 30, 1913, after very extensive hearings by the Senate and the House Committees on Indian Affairs, carries an appropriation of \$9,401,819.67.

In addition to the usual items and appropriations, the act of June 30, 1913, carries an appropriation of \$50,000 for the purpose of determining the heirs of deceased Indian allottees, pursuant to the act of June 25, 1910 (36 Stat. L., 855); an appropriation of \$100,000 (reimbursable) for the purpose of encouraging industry among the Indians and to aid them in the culture of crops; and an appropriation of \$25,000 for a joint commission of three members of the Senate and three members of the House of Representatives for the purpose of making inquiry into the conduct and management of the Bureau of Indian Affairs. This act for 1914 also ratified an agreement dated May 10, 1911, with the Wiminuche Band of Southern Ute Indians, which agreement relates to the exchange of certain lands; an appropriation of \$100,000 was made to provide school facilities for the children of the Navajo Indians; and provision was also made

for the appointment of a commission consisting of two persons to make a roll of the Chippewa Indians allotted within the White Earth Reservation in the State of Minnesota.

This act also provides for a commission consisting of two members of the Senate and two members of the House of Representatives for the purpose of investigating the necessity and feasibility of establishing, equipping, and maintaining a tuberculosis sanatorium in New Mexico for the treatment of tuberculous Indians; also to investigate the necessity and feasibility of procuring impounded waters for the Yakima Reservation, or the construction of an irrigation system upon said reservation, to impound the waters of the Yakima River for the reclamation of the lands within the reservation.

There was also appropriated \$150,000 for the purchase of allotments for the individual members of that portion of the Wisconsin band of Pottawatomie Indians now residing in the States of Wisconsin and Michigan.

Section 26 of the act provides for the installation of a system of bookkeeping in the Bureau of Indian affairs which will afford a ready analysis of expenditures by appropriations and allotments and by units of the service, showing for each class of work or activity carried on, the expenditures for the operation of the service, for purchase and construction of additional property, for repair and preservation of property, salaries and wages of employees, and for other expenditures and purposes; but it carries no appropriation to make the provision effective.

The most important general legislation passed during the fiscal year, other than that contained in the Indian appropriation act, is as follows:

By the act of July 1, 1912, the Secretary of the Interior is authorized, when the amount of tribal funds due the Winnebagoes in Wisconsin shall have been ascertained in accordance with the enrollment as provided by law, to expend the funds for their benefit in such manner, including the purchase of lands for said Indians, as he may deem proper, or, in his discretion, to distribute the funds, or any part thereof, per capita among the Winnebago Indians in Wisconsin.

The act of July 19, 1912, authorized the Secretary of the Interior, in his discretion, to approve maps showing right of way and definite location of proposed drainage districts and assessments, made under the laws of Oklahoma, upon the allotments of certain Absentee Shawnee and Citizen Potawatomi allottees in the Little River drainage district in Pottawatomie County, Okla., and upon the allotments of certain Sac and Fox allottees in Deep Fork drainage district in Lincoln County, Okla.

By the act of March 4, 1913 (37 Stat. L., 1007), the Secretary of the Interior is authorized, in his discretion, to request of the present

claimant under any railroad land grant a relinquishment or reconveyance of any lands situated within the States of Arizona, New Mexico, or California, passing under the grant, which are shown to have been occupied for five years or more by an Indian entitled to receive the tract in allotment under existing law, but for the grant to the railroad; and, upon the execution and filing of such relinquishment or reconveyance, the land shall thereupon become available for allotment and the company relinquishing or reconveying shall be entitled to select, within the period of three years after the approval of the act, and have patented to it, other vacant, nonmineral, non-timbered surveyed public lands of equal area and value, situated in the same State, as may be agreed upon by the Secretary of the Interior under the terms of the act.

The Secretary of the Interior is authorized by the act of March 4, 1913 (37 Stat. L., 1007), under rules and regulations to be prescribed by him, to grant to the operator of any coal mine in the State of Oklahoma, the right to lease additional acreage from the unleased segregated coal lands of the Choctaw and Chickasaw Nations in Oklahoma, not to exceed in any case 640 acres of land, under certain conditions named in the act.

The act of February 14, 1913 (37 Stat. L., 678), very materially broadens the scope of section 2 of the act of June 25, 1910 (36 Stat. L., 855), relating to the disposition of trust property of Indians by will. Under the original law only allotments held in trust could be disposed of by will by the allottee with the approval of the Secretary of the Interior. The act of February 14, 1913, authorizes any Indian 21 years of age to dispose of any right, title, or interest in any allotment held under trust or other patent containing restrictions on alienation, or individual Indian moneys or other property held in trust by the United States, with the approval of the Secretary of the Interior and under such regulations as he may prescribe.

The act of February 14, 1913 (37 Stat. L., 675), authorizes the sale and disposition of the surplus unallotted lands in the Standing Rock Indian Reservation in the States of North Dakota and South Dakota.

#### TRADERS' CLAIMS AGAINST INDIANS.

Superintendents were directed on December 28, 1910, to forward to the Indian Office all claims for goods furnished and services rendered to individual Indians prior to December 17, 1909. Claims amounting to \$1,706,196.82 were submitted. The greater part of these claims were against Indians in Oklahoma, South Dakota, Montana, Wisconsin, and Nebraska. After compiling records in this office of the claims submitted, they were returned to the superintendents with a circular letter under date of October 12, 1912, instructing them to audit each claim with the view to determining the

reasonableness of the charges, and then to call in the debtors and creditors and endeavor to liquidate the indebtedness in so far as the funds of the Indian debtor might permit without depriving the Indians and their families of a means of support. Sixty-two reservations and about 2,500 traders are involved in the outstanding indebtedness.

During the year authorities for the settlement of 206 claims were granted, and the Indian traders themselves adjusted 57 of their accounts.

#### INDIAN ART.

The blanket industry among the Navajo Indians of Arizona and New Mexico is perhaps the most profitable of the native industries. The actual number of Indians engaged in this industry is unknown, but it is estimated that between \$600,000 and \$700,000 worth of blankets were produced during the year. The women usually do the weaving. Plans have been formulated to award prizes ranging from \$50 to \$100 at Indian fairs and exhibitions this coming fall, for the best blankets made in sizes of not less than 4½ by 6½ feet from wool clipped from native sheep. The whole purpose of these plans is to discourage inferior work and the making of the smaller sizes.

Many of the tribes are still more or less extensively engaged in the making of baskets, beadwork, and pottery. At Pima about 1,200 Indians made baskets during the year. About 9,000 baskets were made, valued at \$14,500. The Indians at this reservation also made about 16,500 pieces of pottery, valued at \$4,300. At Moqui about 100 baskets, valued at \$1,000, and 100 pieces of pottery at approximately the same value were made. At Camp Verde the Indian women wove some excellent willow baskets ranging in value from \$1 to \$30 apiece.

At Red Moon, Okla., about \$220 worth of bead work was done for the Mohonk Lodge, and about \$200 worth was sold to the Indian traders.

At La Jolla, Cal., the Sybil Carter Lace Association has a lace teacher who brings supplies to the Indian women and buys from them the lace manufactured. At Rincon, Cal., 11 Indian women are receiving instructions in lace making from a teacher under the auspices of the Redlands Indian Association.

#### INCREASE IN OFFICE WORK.

The policy of individualization in Indian affairs and of individual allotment of reservation lands has greatly increased the work of the bureau during the last few years, and will continue to increase it for several years to come.

Each allotment made may also involve any or all of the following questions: The sale of timber, a patent in fee, a hearing to determine the heirs of the deceased allottee, the opening of a bank account for the handling of the segregated trust funds, and the erection of improvements upon the restricted land.

As already said, the single item of the determination of heirs of deceased allottees has very greatly increased the work of the office since the passage of the act of June 25, 1910, and the need of increased office help for this class of work is pressing. The increased effort put forth to get each able-bodied Indian settled upon and started in farming his own allotment, or equipped for some other occupation in which he may become self-supporting, has largely increased the labor of handling individual Indian money, with a corresponding increase in the number of requests for authority to approve checks against Indian bank accounts.

During the fiscal year 1912 a total of 222,187 communications was received in this office; in the year 1913, as before noted, the number was 275,452—an increase of 23.9 per cent. In the fiscal year 1912, the total number of letters written and transmitted was 201,271, and in 1913 was 255,261—an increase of 26.4 per cent.

#### COOPERATION WITH BUREAU OF MINES.

In February of this year the department placed upon the Bureau of Mines the duty of inspecting the physical operations under leases for mining purposes which covered Indian lands. Prior to that time complaints had been filed to the effect that much gas and oil was being wasted, particularly in the State of Oklahoma, by reason of the lack of scientific methods in drilling. Representatives of the Bureau of Mines were detailed to Oklahoma and their efforts to instruct operators and drillers as to the proper manner in which to drill so as to conserve the oil and gas during the drilling operations have met with gratifying success, have been appreciated by the operators, and have resulted in the saving of many thousands of dollars' worth of gas heretofore wasted. The enormity of the waste which has been going on year after year can best be understood from a report of the Bureau of Mines which indicates that there was a daily waste in a single oil field of about 300,000,000 cubic feet of gas, or about \$75,000 a day.

#### RIGHTS OF WAY.

*Railway construction.*—Railway construction on Indian lands during the past year has not been as active as it has in former years. The Minneapolis, St. Paul & Sault Ste. Marie Railway Co., and the Great Northern Railway Co. have been authorized to construct lines across

the Fort Berthold Reservation. These new lines will materially enhance the value of the lands in that vicinity, and give new incentive to industry on the part of these Indians, who, heretofore, because of the lack of railway facilities, have been out of reach of a market for their farm products.

The Great Northern Railway Co. has agreed to complete and put into operation by December 31, 1913, its entire line from Wenatchee to Oroville, along the Okanogan and Columbia Rivers, in the State of Washington, for which right of way was acquired almost three years ago. This line will undoubtedly stimulate the development of lands under the Okanogan reclamation project, heretofore without convenient transportation facilities.

*Pipe lines.*—To furnish an outlet for the great production of oil from the new Cushing field, located within the Creek Reservation in Oklahoma, about 8 or 9 miles east of the town of Cushing, the following companies have been granted pipe-line rights of way across Sac and Fox and Creek lands: Creek County Oil & Gas Co., Jane Oil & Gas Co., Chanute Refining Co., Charles B. Shaffer, Gulf Pipe Line Co., the Texas Co., and the Prairie Oil & Gas Co.

#### PATENTS IN FEE.

The act of May 8, 1906 (34 Stat. L., 182), provides for the issuance of patents in fee to Indian allottees who are shown to be competent.

In 1907 and 1908, when the issuance of fee patents under this act was in the experimental stage, a very large percentage of Indians who received patents in fee sold their lands and now have nothing to show for the proceeds of sale.

The Indians receiving patents in fee during the later years have been more successful in the care of their property, the superintendents in the field having learned, through experience, how to judge more accurately the competency of the Indian applicant.

During the past year 90 per cent of the fee patents which have issued cover land allotted to Indians of one-half blood and less. While it is true that the fact of being a mixed blood does not of itself constitute or prove competency, yet it is undoubtedly true that the mixed blood, both by reason of his inherited capacities, and because of his somewhat more advanced home environment, is, as a rule, better able to care for his property without supervision than is the full blood.

During the fiscal year 779 applications for fee patents were received, 259 of which were denied, and 520 approved. The area patented embraced 67,477.49 acres.

#### ALLOTMENTS.

During the year allotments to 4,262 Indians, covering 1,159,585 acres, were approved, and within the same period 5,141 allotments were made in the field but not approved, embracing an aggregate area of 591,772 acres. These allotments were made on the various reservations, as follows:

*Colorado River, Ariz.*—Allotments of 10 acres each of irrigable land to 510 Indians, under the provisions of the act of March 3, 1911. There is no authority for the disposal of any of the surplus lands within this reservation, but bills have been pending under which the surplus irrigable land there, approximately 100,000 acres, would be turned over to the State for disposal under the Carey acts.

*Colville, Wash.*—Approximately 79,018 acres were allotted to 601 Indians. This work, it is expected, will be completed in the near future and the surplus lands classified and appraised prior to disposal in accordance with the provisions of the act of March 22, 1906 (34 Stat. L., 80).

*Fort Berthold, N. Dak.*—The allotment work on this reservation, under the act of June 1, 1910 (36 Stat. L., 455), is being brought to a close by the superintendent in charge. During the fiscal year just ended there were allotted 17,280 acres to 61 Indians. The surplus lands, other than those classified as coal, lying north and east of the Missouri River have heretofore been opened in accordance with the act mentioned.

*Fort Hall, Idaho.*—During the year some 76,760 acres were allotted to 441 Indians. Of this, 72,160 acres were grazing lands and 4,600 acres irrigable lands. This completes the work on this reservation, 1,859 Indians having been allotted 39,280 acres of irrigable and 305,040 acres of grazing land. There is no authority under existing law for the disposal of the surplus lands—some 100,000 acres, mostly mountainous or arid.

*Lummi, Wash.*—Allotments to 28 Indians, under the treaty of January 22, 1855 (12 Stat. L., 927), covering 974 acres, were made during the year, which exhausts the available land within this reservation.

*Pine Ridge, S. Dak.*—Under the act of March 2, 1889 (25 Stat. L., 888), and supplemental acts, 152,341 acres were allotted to 640 Indians. Owing to the large number of Indians within this reservation, at least 12 months longer will be required within which to complete the allotment work. A part of this reservation was opened by the act of May 27, 1910 (36 Stat. L., 440), but there is no authority for the disposal of the remainder other than by allotment.

*Truckee-Carson, Nev.*—Allotments of 10 acres each were made to four Indians within the seven and one-quarter sections heretofore

withdrawn for allotment purposes under the Truckee-Carson irrigation project, making a total of 3,640 acres allotted to 360 Indians.

*Quinaielt, Wash.*—Approximately 14,400 acres of agricultural and grazing land within this reservation were allotted during the year to 180 Indians. A large part of this reservation is heavily timbered and should be administered for the benefit of the tribe at large. There is no authority for the disposal of any of the lands within this reservation except by allotment. Every available acre will probably be required for allotment purposes.

*Standing Rock, N. and S. Dak.*—During the year 193 Indians were allotted 65,401.89 acres. The act of February 14, 1913 (Public, 380), provides for the disposal of the remaining lands within this reservation.

*White Earth, Minn.*—Allotments on this reservation are being made by the superintendent in charge and 8,326 acres were allotted to 112 Indians during the fiscal year just ended. Desirable lands for allotment purposes within this reservation are becoming very scarce and it is doubtful whether sufficient land will be found to provide for all Indians entitled.

*Wind River, Wyo.*—A number of the Indians within this reservation were allotted during 1905-6. In the early spring of 1913 a special allotting agent was directed to continue the work there. Prior to June 30, he made allotments in the field covering 12,650 acres to 148 Indians. Owing to the quantity of work on hand, at least 12 months will be required to finish it.

*Yakima, Wash.*—On June 30, 1913, allotments in the field to 241 Indians, embracing 37,240 acres, had been made. This work will be completed during the present fiscal year and possibly the surplus lands placed on the market as authorized by the act of December 21, 1904. (33 Stat. L., 595.)

On the public domain 32 allotments were approved during the year, covering 4,709.41 acres, and 982 applications, covering 122,240 acres, were filed at various local land offices in the States of Arizona, New Mexico, Montana, North Dakota, Washington, and California. The Indian appropriation act of June 30 prohibits the use in Arizona or New Mexico of any part of the sum available for survey and allotment work. This necessitated the practical suspension of field operations in these States and will prevent any further active field work there with a view to aiding Indians to obtain allotments on the public domain during the present fiscal year.

#### CONCLUSION.

In conclusion I wish to say that I am emphasizing in every possible way the industrial education of Indian pupils and the industrial development of the Indian population generally, and every effort is being made to improve the efficiency of the employees of the

Indian Service in order to accomplish more successfully the work along these lines.

I am also emphasizing the need of and doing everything possible to obtain for the Indians more sanitary homes, more adequate school facilities for Indian children, supplying sick Indians with medical attention and taking precautionary methods to prevent disease, adjusting more equitably the cost of irrigation projects constructed out of reimbursable funds, making larger use of the timber resources of the Indians for their industrial and social advancement, taking advantage of the valuable grazing lands of the Indians to build up tribal herds as well as promoting among individual Indians a larger and more profitable cattle, sheep, and horse industry, and utilizing in every practicable way the resources of the Indians, both tribal and individual, in promoting their more complete civilization and economic independence.

It is my fixed purpose to bring about the speedy individualizing of the Indians, and to this end I shall continue to devote my best efforts.

Very truly yours,

CATO SELIS,  
Commissioner.

The SECRETARY OF THE INTERIOR.

TABLE 7.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment, to Nov. 3, 1915.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
ARIZONA.		
Camp McDowell..... (Under Salt River School.) Tribe: Mohave Apache.	Acres. 21,971	Executive order, Sept. 15, 1903; act of Apr. 21, 1904, vol. 33, p. 211. (See Ann. Rept. 1905, p. 98.)
Colorado River..... (Under Colorado River School.) Tribe: Chemehuevi, Kawaia, Cocopa, Mohave.	112,610	Act of Mar. 3, 1865, vol. 13, p. 559; Executive orders, Nov. 22, 1873, Nov. 16, 1874, and May 15, 1876. (See sec. 25, Indian appropriation act, approved Apr. 21, 1904, vol. 33, p. 224.) Act of Apr. 30, 1908 (35 Stat., 77); act of Apr. 4, 1910 (36 Stat., 273); act of Mar. 3, 1911 (36 Stat., 1003); act of Aug. 24, 1912 (37 Stat., 523).
Fort Apache..... (Under Fort Apache School.) Tribe: Chiricahua, Chiricahua, Coyotero, Mimbreno, Mogolon Apache.	11,681,929	Executive orders, Nov. 9, 1871, July 21, 1874, Apr. 27, 1876, Jan. 28 and Mar. 31, 1877; act of Feb. 20, 1885, vol. 27, p. 469; agreement made Feb. 25, 1896, approved by act of June 10, 1896, vol. 29, p. 358. (See act of June 7, 1897, vol. 30, p. 64.)
Fort Mojave..... (Under Fort Mojave School.) Tribe: Apache.	31,328	Executive orders, Dec. 1, 1910 and Feb. 2, 1911. See II, act June 25, 1910 (36 Stat., 855-859). Lands now being allotted. See 18570-1910. Area original military reservation, 14,000 acres.
Gila Bend..... (Under Pima School.) Tribe: Papago.	10,231	Executive orders, Dec. 12, 1882, and Jan. 17, 1909. (See 4106, 1909.)
Gila River..... (Under Pima School.) Tribe: Maricopa and Pima.	366,309	Act of Feb. 23, 1850, vol. 11, p. 401; Executive orders, Aug. 31, 1876, Jan. 10, 1879, June 14, 1879, May 5, 1882, and Nov. 15, 1883; Mar. 22, May 8, July 31, 1911; Dec. 16, 1911; and June 2, 1913.
Havasupai (Supai)..... (Under Havasupai School.) Tribe: Havasupai.	518	Executive orders, June 8 and Nov. 23, 1880, and Mar. 31, 1882.
Hopi (Moqui)..... (Under Moqui School.) Tribe: Hopi (Moqui) and Navajo.	2,472,329	Executive order, Dec. 16, 1882. Act of Mar. 1, 1907 (34 Stat. I., 1021). See 45096-1910.
Kalbar..... (Under Kalbar School.) Tribe: Kalbar and San Juan Paiute.	138,240	Secretary's withdrawal, Oct. 15, 1907. (See 73684-1907.) Executive order, June 11, 1913.

<sup>1</sup> Partly in California.

<sup>2</sup> Outboundaries surveyed.

<sup>3</sup> Surveyed.

<sup>4</sup> Not on reservation.

TABLE 7.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment, to Nov. 3, 1915.—Continued.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
ARIZONA—continued.		
Navajo..... (Under Leupp, Navajo, Western Navajo, San Juan and Pueblo Bonito Schools.) Tribe: Navajo.	Acres. 11,887,793	Treaty of June 1, 1868, vol. 15, p. 687, and Executive orders, Oct. 29, 1878, Jan. 6, 1880, two of May 17, 1884, and Nov. 19, 1892. 1,769,600 acres in Arizona and 967,600 acres in Utah were added to this reservation by Executive order of May 17, 1884, and 46,080 acres in New Mexico restored to public domain, but again reserved by Executive orders, Apr. 24, 1880, Jan. 8, 1900, and Nov. 14, 1901. Executive order of Mar. 10, and May 15, 1905, 61,823 acres added to reservation, and by Executive order of Nov. 9, 1907, as amended by Executive order of Jan. 28, 1908, 2,972,160 acres were added. 2,004 Indians have been allotted 1,328,963 acres under the act of Feb. 8, 1887 (24 Stat., 389), as amended. By Executive order of Dec. 30, 1908, and Jan. 10, 1911, the surplus lands, approximately 1,541,180 acres, in that part of the extension in New Mexico restored to the public domain (see 26 Stat. L., 457 and 787). (See 1277-9.) Act of May 27, 1902 (32 Stat., 264.) Executive order May 24, 1911, Feb. 17, 1912 (2), Feb. 10, 1912 (2), and May 6, 1913.
Papago..... (Under San Xavier School.) Tribe: Papago.	114,348	Executive order, July 1, 1874, and act of Aug. 5, 1882, vol. 22, p. 291. 41,600 acres allotted to 201 Indians, and 14 acres reserved for school site, the residue, 27,583 acres, unallotted. (See letter book 208, p. 408.) Executive order June 16, 1911, and May 28, 1912.
Salt River..... (Under Salt River School.) Tribe: Maricopa and Pima.	22,317	Executive orders, June 14, 1879, and Oct. 30, 1910; Sept. 28 and Oct. 23, 1911. See 26731-1910. (See Senate Doc. 90, 58th Cong., 2d sess.) 804 Indians allotted 24,403 acres under general allotment act.
San Carlos..... (Under San Carlos School.) Tribe: Arivaipa, Chilkon, Chiricahua, Coyotero, Mimbreno, Mogolon, Mohave, Pinal, San Carlos, Tonto, and Yuma Apache.	1,834,240	Executive orders, Nov. 9, 1871, Dec. 14, 1872, Aug. 5, 1873, July 21, 1874, Apr. 27, and Oct. 30, 1876; Jan. 26 and Mar. 21, 1877; act of Feb. 20, 1885, vol. 27, p. 469; agreement made Feb. 25, 1896, approved by act of June 10, 1896, vol. 29, p. 358. (For fuller text see Misc. Indian Doc., vol. 39, p. 3591c.) (See act of June 7, 1897, vol. 30, p. 64; act of Mar. 2, 1901, vol. 31, p. 952.) Executive order of Dec. 22, 1902.
Walapai..... (Under Frixton Cañon School.) Tribe: Walapai.	730,940	Executive orders, Jan. 4, 1883, Dec. 22, 1898, May 14, 1900, June 2, 1911, May 29, 1912, and July 18, 1913.
Total.....	19,417,875	
CALIFORNIA.		
Digger..... (Under a farmer.) Tribe: Digger.	370	Act of Mar. 3, 1893 (27 Stat., 612), provides for purchase of 330 acres; not allotted. 40 acres were reserved by order of the Secretary of the Interior, Oct. 28, 1908, for Digger Indians. (See 46527-1907, 71801-1908, 32245-1909.)
Hoopa Valley..... (Under Hoopa Valley School.) Tribe: Hunasatung, Hupa, Klamath River, Mikut, Redwood, Salar, Bernalton, and Tishamaton.	1,090,031	Act of Apr. 8, 1864, vol. 13, p. 33; Executive orders, June 23, 1876, and Oct. 16, 1891. There have been allotted to 639 Indians 29,143.35 acres, reserved to 3 villages 68.74 acres, and opened to settlement under act of June 17, 1892 (27 Stat., p. 32), 15,096.11 acres of land (formerly Klamath River Reservation). (Letter book 213, p. 96; 352, p. 480; 353, p. 170.)
Mission (23 reserves)..... (Under Martinez, Sobobo, Pechanga, Malki, Campo and Volcan Schools.) Tribe: Diegueno, Kawiya, San Luis Rey, Serranos, and Teicucula.	181,524	Executive orders, Jan. 31, 1870, Dec. 27, 1875, May 15, 1876, May 3, Aug. 25, Sept. 29, 1877, Jan. 17, 1880, Mar. 2, Mar. 9, 1881, June 27, July 24, 1882, Feb. 5, June 1, 1883, Jan. 25, Mar. 27, 1886, Jan. 29, Mar. 14, 1887, and May 6, 1889. 270.24 acres allotted to 17 Indians and for church and cemetery purposes on Squaw Reserve (letter book 303, p. 287), and 119.99 acres allotted to 15 Indians on Pala Reserve (letter book 303, p. 67), 1,299.47 acres allotted to 85 Teicucula Indians 4.76 acres reserved for school purposes (letter book 351, p. 312). Proclamations of President of Apr. 18, 1901, vol. 42, p. 1970, and May 29, 1902, vol. 32, p. 2005; act of Feb. 11, 1903, vol. 32, p. 822. Warner's ranch of 3,353 acres purchased. (See authority 7071; also letter book 690, p. 112. Deed recorded in misc. record book No. 6, p. 181.) 1,272.28 acres allotted to 162 Pala Indians. 6,887.51 acres have been purchased under act of June 21, 1900 (34 Stat., 326-333), and act of Mar. 1, 1907 (34 Stat., 1015-1022). Deeds recorded misc. record book No. 6. Area subject to change by additions under above acts. 174,236.73 acres patented by the Government to various bands under acts of Jan. 12, 1891 (26 Stat. L., 712), and Mar. 1, 1907 (34 Stat. L., 1015-1022). See misc. tract book 36.

<sup>1</sup> Partly in New Mexico. (See Table 8.)

<sup>2</sup> Surveyed.

<sup>3</sup> Partly surveyed.

OKLAHOMA—continued.		
Chickasaw (Under Union Agency). Tribe: Chickasaw. Total.	Acres. 7,839.00 101.03 7,940.03	Treaty of June 22, 1835, vol. 11, p. 611; agreement of Apr. 23, 1847, ratified by act of June 26, 1866, vol. 30, p. 555; act of July 1, 1902, vol. 32, p. 641, ratifying agreement of Mar. 21, 1902; act of Apr. 21, 1904, vol. 33, p. 209; act of Apr. 26, 1904, vol. 33, p. 511. 10,935 Indians have been allotted 5,509,989.91 acres; sold, 439,500.32 acres; unallotted area, 104.05 acres, not including 7,539.43 acres segregated coal and asphalt lands.
Choctaw (Under Union Agency). Tribe: Choctaw.	1,721.107	Treaty of June 22, 1835, vol. 11, p. 611. Same as Chickasaw. Approximately 26,730 Indians have been allotted 4,297,365.99 acres; sold, 697,736.20 acres; unallotted, 1,286,257.84 acres; which includes 1,278,753 acres of timber land in the Choctaw Nation, but does not include 424,745 acres in the Choctaw Nation, which added to 7,539 acres in the Chickasaw Nation, makes a total of 832,484 acres of the segregated coal and asphalt land belonging to the Choctaw and Chickasaw Nations jointly.
Creek (Under Union Agency). Tribe: Creek.	270	Treaties of Feb. 14, 1833, vol. 7, p. 417, and June 14, 1866, vol. 11, p. 743, and the deficiency appropriation act of Aug. 5, 1882, vol. 22, p. 265. (See Ann. Rept., 1882, p. 117.) Agreement of Jan. 19, 1886, ratified by the act of Mar. 1, 1889, vol. 25, p. 757; President's proclamation, Mar. 23, 1889, vol. 25, p. 1214; agreement of Sept. 27, 1907, ratified by act of June 25, 1909, vol. 30, p. 511; agreement of Mar. 8, 1900, ratified by act of Mar. 1, 1901, vol. 31, p. 861; President's proclamation of June 25, 1901, vol. 32, p. 1971; supplemental agreement of June 30, 1902, vol. 32, p. 1999; President's proclamation of Aug. 8, 1902, vol. 32, p. 2921. (See act of May 27, 1902, vol. 32, p. 255; act of Apr. 21, 1901, vol. 33, p. 201.) Approximately 18,716 Indians have been allotted 2,998,927.14 acres; sold, 678,779 acres; Executive order, Aug. 15, 1883; agreement May 20, 1900, ratified by act of Feb. 13, 1901, vol. 26, p. 753. 8,600 acres allotted to 104 Indians; 20 acres held in common for church, school, etc.; the residue opened to settlement. Proclamation of President, Sept. 18, 1891, vol. 27, p. 959. (See Ann. Rept., 1891, p. 677 and letter book 227, p. 261.)
Iowa (Under See and Fox School). Tribe: Iowa and Tonkawa.		Act of June 5, 1872, vol. 17, p. 228; 200 acres reserved for cemetery, school, and town site. Remainder, 90,644 acres, allotted to 217 Indians; act of July 1, 1902, vol. 32, p. 638, ratifying agreement, not dated. Act Mar. 3, 1909. (35 Stat., 778.)
Kickapoo (Under Shawnee School). Tribe: Mexican Kickapoo.		Executive order, Aug. 15, 1883; agreement June 21, 1891; ratified by act of Mar. 9, 1890, vol. 27, p. 537. 72,050 acres allotted to 290 Indians; 479.72 acres reserved for mission, agency, and school purposes; residue opened to settlement by proclamation of the President May 18, 1895, vol. 29, p. 868; act of Mar. 3, 1905, vol. 32, p. 1001. June 21, 1900. (34 Stat., 392.)
Kiowa and Comanche (Under Kiowa Agency). Tribe: Apache, Comanche, Delaware, and Kiowa.		Treaty of Oct. 21, 1867, vol. 15, pp. 581 and 589; agreement made Oct. 6, 1892; ratified by act of June 6, 1900, vol. 31, p. 676, ceding 2,488,863 acres, of which 445,000 acres have been allotted to 3,444 Indians; 11,973 acres reserved for agency, school, religious, and other purposes. The residue, 2,033,863 acres, opened to settlement (letter books 456, p. 480; 458, p. 478). President's proclamation of July 4, 1901, vol. 32, p. 1976; June 23, 1902, vol. 32, p. 2407; Sept. 4, 1902, vol. 32, p. 2026, and Mar. 20, 1904, vol. 33, p. 2240. Of the 480,000 acres grazing land set apart under act of June 6, 1900, 1,841.92 acres were reserved for town sites under act of Mar. 25, 1906 (34 Stat. L., 1011); 33,058.58 acres were allotted to 513 Indians under act of June 5, 1906 (34 Stat. L., 213), and 480 acres allotted to 3 Indians under act of June 5, as amended by act Mar. 1, 1907 (34 Stat. L., 1018). The General Land Office reports the sale and entry of approximately 401,468.92 acres under act of June 5, and of 21,351.75 acres under act of June 26, 1906, to June 20, 1911. (See 75344-1906.) Under act May 29, 1908 (35 Stat., 471), and act June 25, 1910 (36 Stat., 801), 20,493 acres allotted to 190 Indians.
Modoc (Under Seneca School). Tribe: Modoc.		Agreement with Eastern Shawnees made June 23, 1874 (see Ann. Rept., 1882, p. 271), and confirmed in Indian appropriation act approved Mar. 3, 1875, vol. 18, p. 447, and all allotted—3,486 acres allotted to 68 Indians; 3 acres reserved for church and cemetery purposes, 2 acres for school, and 24 acres for timber. (Letter book 220, p. 102.) Act Mar. 3, 1909. (35 Stat., 782.)

<sup>1</sup> Surveyed.

<sup>2</sup> Partly surveyed.

TABLE 7.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment, to Nov. 3, 1913—Continued.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
OKLAHOMA—continued.		
Oakland (Under Ponca School). Tribe: Tonkawa and Upan.	Acres.	Act of May 27, 1878, vol. 20, p. 54. (See Ann. Rept. for 1882, p. LXII.) (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 476.) (See deed from Nes Perce, May 22, 1883, vol. 6, Indian Deeds, p. 504.) 11,456 acres allotted to 73 Indians; 100.50 acres reserved for government and school purposes. The residue, 79,276.00 acres, opened to settlement. (Letter book 237, p. 240.) Agreement made Oct. 21, 1891, ratified by Indian appropriation act approved Mar. 3, 1903, vol. 27, p. 644. (For text, see Ann. Rept., 1891, p. 524.)
Oage (Under Oage School). Tribe: Great and Little Oage.		Article 16, Cherokee treaty of July 19, 1866, vol. 14, p. 804; order of Secretary of the Interior, Mar. 27, 1871; act of June 5, 1872, vol. 17, p. 228. (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 432.) (See act of June 25, 1909 (34 Stat., 539), act of Mar. 3, 1909 (35 Stat., 787), and Public Resolution No. 51, approved Feb. 28, 1909.) 2,230 Indians have been allotted 1,863,131.31 acres (see section). Since July 1, 1909, these 2,230 Indians have been allotted 1,463,330 acres from surplus lands, and 5,178.53 acres have been reserved for church, town-site, and railroad purposes. Act Mar. 3, 1909. (35 Stat., 778.)
Otoe (Under Otoe School). Tribe: Oto and Missouri.		Act of Mar. 3, 1891, vol. 21, p. 381; order of the Secretary of the Interior, June 25, 1881. (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 419.) Under act of Feb. 5, 1887 (24 Stat., 358); Feb. 28, 1891 (26 Stat., 794), and Apr. 21, 1904 (33 Stat., 190), 128,251 acres were allotted to 514 Indians (885 allotments—see letter book 929, p. 236), 730 acres were reserved for agency, school, church, and cemetery purposes, and 640 acres set aside for tribal uses; Treaty of Feb. 23, 1867, vol. 15, p. 513. 6,298 acres were allotted to 100 Indians; 537.95 acres were authorized to be sold by act of Mar. 3, 1891 (vol. 26, p. 989). The residue, 1,597.25 acres, unallotted. (Letter book 229, p. 115.)
Ottawa (Under Seneca School). Tribe: Ottawa of Blanchard's Fork and Roche de Boeuf.	11,587	Act of Apr. 10, 1876, vol. 19, p. 29. Of this, 230,014 acres are Cherokee and 33,096 acres are Creek lands. (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 470.) 112,701 acres allotted to 830 Indians; 840 acres were reserved for school, agency, and cemetery purposes; the residue, 109,320 acres, opened to settlement. (Letter books 201, p. 383, and 203, p. 5.) Agreement made Nov. 23, 1892, ratified by act of Mar. 3, 1903, vol. 27, p. 644. (For text see Ann. Rept., 1893, p. 526.)
Pawnee (Under Pawnee School). Tribe: Pawnee.		Treaty of Feb. 23, 1867, vol. 15, p. 513. 43,334 acres allotted to 218 Indians. The residue, 6,313.27 acres, sold under act of May 27, 1902. (32 Stat., 245.)
Ponca (Under Ponca School). Tribe: Ponca.	1,330	Acts of Aug. 15, 1876, vol. 19, p. 192; Mar. 3, 1877, vol. 19, p. 267; May 27, 1878, vol. 20, p. 76; and Mar. 3, 1881, vol. 21, p. 422. (See deed dated June 14, 1883, from Cherokee, vol. 6, Indian Deeds, p. 473.) There have been allotted to 782 Indians 100,731 acres, and reserved for agency, school, mission, and cemetery purposes 523.56 acres (leaving unallotted and unreserved 50 acres. (Letter books 302, p. 311, and 313, p. 401.) Indian appropriation act approved Apr. 21, 1904, vol. 33, p. 217.
Potawatomi (Under Shawnee School). Tribe: Absentee Shawnee and Potawatomi.		Treaty of Feb. 27, 1867, vol. 15, p. 531; act of May 23, 1877, vol. 17, p. 156. (222,716 acres are Creek ceded lands; 465,851 acres are Seminole lands.) Agreements with citizens Potawatomi June 25 and Absentee Shawnees June 26, 1890; ratified and confirmed in the Indian appropriation act of Mar. 3, 1891, vol. 26, pp. 1016-1021. 215,674.42 acres allotted to 1,480 Potawatomi, and 70,791.47 acres allotted to 663 Absentee Shawnees, and 510.63 acres reserved for Government purposes; the residue opened to settlement by the President's proclamation of Sept. 16, 1891, vol. 27, p. 680. (See letter book 222, pp. 442, 444, and Ann. Rept. for 1891, p. 677.)
Quapaw (Under Seneca School). Tribe: Quapaw.		Treaties of May 15, 1833, vol. 7, p. 424, and of Feb. 23, 1867, vol. 15, p. 513. (66,231 acres allotted to 918 Indians; 400 acres reserved for school and 40 acres for church purposes. (Letter book 335, p. 230.) Agreement of Mar. 22, 1893, ratified in Indian appropriation act approved Mar. 2, 1893, vol. 26, p. 907. Agreement of Jan. 3, 1899, ratified in Indian appropriation act approved Mar. 3, 1901, vol. 31, p. 1067. Act of Mar. 3, 1903, vol. 27, p. 987.

TABLE 7.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment, to Nov. 3, 1913.—Continued.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
OKLAHOMA—continued.		
Sauk and Fox (Under Sac and Fox School). Tribes: Ottawa, Sauk and Fox of the Mississippi.	Acres.	Treaty of Feb. 18, 1867, vol. 15, p. 495; agreement June 17, 1890, ratified by act of Feb. 13, 1891, vol. 26, p. 749. 87,483.61 acres allotted to 518 Indians, and 800 acres reserved for school and agency purposes; the residue opened to settlement by the President's proclamation Sept. 18, 1891, vol. 27, p. 897. (See letter book 227, p. 169, and Ann. Rept. for 1891, p. 677.)
Seminole (Under Union Agency). Tribe: Seminole.	150	Treaties of Mar. 21, 1866, vol. 11, p. 755. (See Creek agreement of Feb. 11, 1881, Ann. Rept. 1882, p. 54, and definition of agency act of Aug. 5, 1882, vol. 24, p. 265.) Agreement of Mar. 16, 1889. (See Indian appropriation act approved Mar. 2, 1889.) Agreement recorded in the treaty book, vol. 3, p. 35; agreement made Dec. 16, 1897, ratified by the act of July 1, 1898, vol. 30, p. 567; agreement of Oct. 7, 1899, ratified by act of June 2, 1900, vol. 31, p. 250. Approximately 3,119 Indians have been allotted 359,696.93 acres; sold, 4,223.74 acres.
Seneca (Under Seneca School). Tribe: Seneca.		Treaties of Feb. 28, 1831, vol. 7, p. 348; of Dec. 29, 1832, vol. 7, p. 411, and of Feb. 23, 1867, vol. 15, p. 613. 41,813 acres allotted to 435 Indians; 104.22 acres reserved for Government, church, and school purposes. Agreement of Dec. 2, 1891, ratified by act of May 27, 1902, vol. 34, p. 293.
Shawnee (Under Seneca School). Tribe: Seneca and Eastern Shawnee.		Treaties of July 20, 1831, vol. 7, p. 351; of Dec. 29, 1832, vol. 7, p. 411; of Feb. 23, 1867, vol. 15, p. 613, and agreement with Mohecs, made June 21, 1874 (see Ann. Rept., 1882, act approved, Mar. 2, 1883, vol. 18, p. 447. 12,745 acres allotted to 117 Indians; 86 acres reserved for agency purposes (letter books 208, p. 266, and 233, p. 207); the residue, 2,543 acres, sold (agreement of Dec. 2, 1901, ratified by act of May 27, 1902, vol. 34, p. 292).
Wichita (Under Kiowa Agency). Tribe: Kiow, Caddo, Comanche, Delaware, Towa, and Wichita.		(See treaty of July 4, 1869, with Delaware, art. 4, vol. 14, p. 794. Unratified agreement, Oct. 19, 1872. (See Ann. Rept., 1872, p. 101.) Agreement made June 4, 1891, ratified by act of Mar. 2, 1893, vol. 28, p. 655. 152,714 acres allotted to 957 Indians; 4,181 acres reserved for agency, school, religious, and other purposes. The residue, 356,464 acres, opened to settlement (letter book 490, p. 20). President's proclamation of July 4, 1901, vol. 32, p. 1975. Unoccupied Chickasaw and Choctaw leased lands west of the North Fork of the Red River. Act of May 4, 1896, vol. 29, p. 113. President's proclamation, Mar. 16, 1896, vol. 29, p. 678. Act of June 6, 1900 (31 Stat., 650).
Wyandot (Under Seneca School). Tribe: Wyandot.	1,545	Treaty of Feb. 23, 1867, vol. 15, p. 513. 20,942 acres allotted to 244 Indians, 16 acres to churches, etc., leaving 534.72 acres unallotted (letter book 227, p. 372).
Total.	1,733,020.05	
OREGON.		
Grande Ronde (Under Siletz Agency). Tribe: Kalapuya, Clackamas, Cow Creek, Lakminit, Mays River, Molala, Nestucca, Rogue River, Santiam, Shasta, Timwater, Umpqua, Wapato, and Yamhill.		Treaties of Jan. 22, 1855, vol. 10, p. 1143, and of Dec. 21, 1855, vol. 12, p. 982; Executive order June 30, 1857. 440 acres reserved for Government use and 32,683 acres allotted to 229 Indians. (See letter book 210, p. 325.) Act of Apr. 29, 1904, vol. 33, p. 567, amending and ratifying agreement of June 27, 1901 (33 L. D., 596).
Klamath (Under Klamath School). Tribe: Klamath, Modoc, Paiute, Pit River, Wapato, and Yahoskin Band of Snake (Shoshoni).	1,811,502	Treaty of Oct. 14, 1864, vol. 16, p. 707. Act June 10, 1866 (29 Stat., 321). Act of May 27, 1902 (32 Stat., 200). 207,373 acres allotted to 1,345 Indians; 1,044.71 acres reserved for agency, school, and church purposes. Indian appropriation act approved Apr. 21, 1904, vol. 33, p. 202; act of Mar. 3, 1905, vol. 33, p. 1033, and act of June 21, 1906 (34 Stat., 567). (See act of Mar. 2, 1909 (35 Stat., L., 793), removal of Modocs in Oklahoma to Klamath and allotments thereto.) Boundary Dispute (see 9831-1911).
Siletz (Under Siletz Agency). Tribe: Alsea, Conville, Kusan, Kwatani, Rogue River, Skoton, Shasta, Saluska, Slu-slaw, Tututni, Umpqua, and 13 others.	3,200	Unratified treaty, Aug. 11, 1856; Executive orders Nov. 9, 1855, and Dec. 21, 1858, and act of Mar. 3, 1875, vol. 18, p. 446; agreement Oct. 21, 1862, ratified by act of Aug. 15, 1894, vol. 28, p. 323. 44,469 acres allotted to 651 Indians. Residue, 177,563.66 acres (except 5 sections), ceded to United States. (See letter book 281, p. 398.) President's proclamation, May 16, 1895, vol. 29, p. 866. Acts of May 31, 1900, vol. 31, p. 233, and Mar. 3, 1901, vol. 31, p. 1088. Act of May 13, 1910 (36 Stat., 367).

TABLE 7.—General data for each Indian reservation, under what agency or school, tribes occupying or belonging to it, area not allotted or specially reserved, and authority for its establishment, to Nov. 3, 1913.—Continued.

Name of reservation and tribe.	Area (unallotted).	Date of treaty, law, or other authority establishing reserve.
OREGON—continued.		
Umatilla (Under Umatilla School). Tribe: Cayuse, Umatilla, and Wallawalla.	Acres. 174,232	Treaty of June 9, 1855, vol. 12, p. 945, and act of Aug. 5, 1882, vol. 24, p. 297; Mar. 3, 1885, vol. 24, p. 340, and sec. 8 of act of Oct. 17, 1888, vol. 25, p. 659. (See orders Secretary of Interior, Dec. 4, 1888, Ann. Rept., 1891, p. 682.) 82,542.15 acres allotted to 1,110 Indians, 980 acres reserved for school and mission purposes. (See letter book 255, p. 132.) Act of July 1, 1907, vol. 32, p. 750.
Warm Springs (Under Warm Springs School). Tribe: Des Chutes, John Day, Paiute, Fenno, Warm Springs, and Wascoco.	1,322,760	Treaty of June 25, 1855, vol. 12, p. 963. 140,044 acres allotted to 965 Indians, and 1,193 acres reserved for church, school, and agency purposes. The residue, 322,168 acres, unallotted and unreserved (letter book 334, p. 235).
Total.	1,211,994	
SOUTH DAKOTA.		
Crow Creek and Old Wilmabago (Under Crow Creek School). Tribe: Lower Yankton, Lower Brule, Miniconjou, and Two Kettle Sioux.	1,29,366	Order of department, July 1, 1863 (see Ann. Rept., 1863, p. 315); treaty of Apr. 29, 1868, vol. 16, p. 632, and Executive order, Feb. 27, 1885 (see President's proclamation of Apr. 17, 1885, annulling Executive order of Feb. 27, 1885; Ann. Rept., 1885, p. 411); act of Mar. 2, 1886, vol. 25, p. 888; President's proclamations, Feb. 10, 1890, vol. 26, p. 1554. There have been allotted to 1,348 Indians 254,656.82 acres, and reserved for agency, school, and religious purposes 1,078.00 acres, leaving a residue of 117,711 acres (letter books 302, p. 443; 372, p. 453; 373, p. 347). Lands are now in process of allotment.
Lake Traverse (Under Sisseton School). Tribe: Sisseton and Wahpeton Sioux.		Treaty of Feb. 19, 1867, vol. 15, p. 505; agreement, Sept. 20, 1872, confirmed in Indian appropriation act approved June 29, 1874, vol. 18, p. 467. (See pp. 328-337, Comp. Indian Laws.) Agreement, Dec. 12, 1890, ratified by act of Mar. 3, 1891, vol. 26, pp. 1035-1038. 308,838 acres allotted to 2,600 Indians, 32,840.25 acres reserved for State school purposes, 1,347.01 acres for church and agency purposes; the residue, 674,678.40 acres, opened to settlement. (See President's proclamation, Apr. 11, 1892, vol. 27, p. 1017.)
Cheyenne River (Under Cheyenne River School). Tribe: Blackfeet, Miniconjou, Sans Arce, and Two Kettle Sioux.	340,540	Treaty of Apr. 29, 1868, vol. 16, p. 638, and Executive orders, Jan. 11, Mar. 10, and May 20, 1875, and Nov. 28, 1876; agreement ratified by act of Feb. 28, 1877, vol. 19, p. 254, and Executive orders, Aug. 9, 1879, and Mar. 20, 1884. Unratified agreement of Oct. 17, 1882. (For modification see sundry civil appropriation act approved Mar. 3, 1883, vol. 22, p. 624; for text see Misc. Indian Docs., vol. 14, p. 305.) Act of Apr. 30, 1889, vol. 25, p. 94, not accepted. Act of Mar. 2, 1890, vol. 25, p. 888. President's proclamation of Feb. 10, 1890, vol. 25, p. 1354. (See act of Feb. 20, 1896, vol. 29, p. 10.) President's proclamations of Feb. 7, 1903, vol. 32, p. 2035, and Mar. 30, 1904, vol. 33, p. 2340. 900,067.14 acres have been allotted to 4,184 Indians. (See L. D. 823, p. 321.) Act of May 25, 1908 (35 Stat., L., 460). Under President's proclamation of Aug. 19, 1909 (36 Stat., 2500), 1,138,010 acres were opened to settlement, leaving unallotted and unreserved 340,540 acres.
Lower Brule (Under Lower Brule School). Tribe: Lower Brule and Lower Yankton Sioux.	1,52,159	Treaty of Apr. 29, 1868, vol. 16, p. 638, and Executive orders, Jan. 11, Mar. 10, and May 20, 1875, and Nov. 28, 1876; agreement ratified by act of Feb. 28, 1877, vol. 19, p. 254, and Executive orders, Aug. 9, 1879, and Mar. 20, 1884. Unratified agreement of Oct. 17, 1882. (For modification see sundry civil appropriation act approved Mar. 3, 1883, vol. 22, p. 624; for text see Misc. Indian Docs., vol. 14, p. 305.) Act of Apr. 30, 1889, vol. 25, p. 94, not accepted. Act of Feb. 10, 1890, vol. 25, p. 888. President's proclamation of Feb. 10, 1890, vol. 25, p. 1354. (See act of Feb. 20, 1896, vol. 29, p. 10.) Agreement made Mar. 1, 1898, ratified by act of Mar. 3, 1899, vol. 30, p. 1262, ceding 120,000 acres to the United States. 187,916 acres allotted to 777 Indians, and religious purposes, leaving unallotted and unreserved 175,470.78 acres. (See letter book 498, p. 338. (See act of Apr. 21, 1906, 34 Stat., 102 and 1048, and President's proclamations of Aug. 12, 1907, and Sept. 24, 1913.)

WYOMING.		
Wind River (Under Shoshone School.) Tribe: Northern Arapaho and Eastern Band of Shoshoni.	1,608,521.06	Treaty of July 3, 1868, vol. 15, p. 673; acts of June 22, 1874, vol. 18, p. 166, and Dec. 15, 1874, vol. 18, p. 791; Executive order, May 21, 1887. Agreement made Apr. 21, 1866, amended and accepted by act of June 7, 1866 (vol. 30, p. 89); amendment accepted by Indians July 10, 1867. (See Land Office letter book 359, p. 468.) Act of Mar. 3, 1906, ratifying and amending agreement with Indians of Apr. 21, 1904. (See vol. 33, p. 1016.) President's proclamation, June 2, 1906, opening ceded lands to settlement. It contained 1,472,544.16 acres. (See letter book 866, p. 157.) Reserved for Mail Camp, 120 acres; reserved for Mall Camp Park, 40 acres; reserved for bridge purposes, 40 acres. Subject to disposition under President's proclamation, 1,430,633.96 acres, 223,236 acres were allotted to 3,151 Indians, and 1,792.06 acres were reserved for agency, school, church, and cemetery purposes, under acts of Feb. 8, 1887 (24 Stats., 386), as amended by act of Feb. 25, 1891 (26 Stats., 794), and treaty of July 3, 1868 (15 Stats., 673), leaving unallotted and unreserved 608,526.06 acres.

<sup>1</sup> Some of the figures in this table as printed prior to 1896 were taken from reports of the superintendent of Indian schools. As revised, they are all taken from the reports of the Commissioner of Indian Affairs. Prior to 1882 the figures include the New York schools.  
<sup>2</sup> Indian children in public schools under contract are included in the average attendance, but the schools are not included in the number of schools.  
<sup>3</sup> Includes Five Tribes boarding schools.

<sup>1</sup> Act of Mar. 3, 1909 (35 Stat. L., 731).  
<sup>2</sup> Act of May 27, 1908 (35 Stat. L., 312); by departmental approval.

Act of Congress dated May 27, 1908 (35 Stat. L., 312), removing restrictions from all lands of later-married whites, freedmen, and Indians of less than half Indian blood, and from all lands, except homesteads, of Indians having half or more than half and less than three-quarters Indian blood, operated to remove restrictions from the lands of 70,000 Indians, who held 3,000,000 acres.

TABLE 44.—Certificates of competency issued during fiscal year ended June 30, 1913, under act of June 25, 1910 (36 Stat. L., 855), to Indians holding fee patents with restrictions as to alienation.
