The Honorable Ryan Zinke  
Secretary  
U.S. Department of the Interior  
1849 C Street, N.W.  
Washington, D.C. 20240

Dear Secretary Zinke:

*Hafa Adai!* Pursuant to U.S. Public Law 106-504, Section 2, and as incorporated in Public Law 108-188, I present to you Guam's Fiscal 2017 *Impact of the Compacts of Free Association on Guam*. We have found that the Government of Guam spent \$147.3 million in local dollars in Fiscal Year 2017 to provide educational and social services to citizens from the Freely Associated States (FAS) who have migrated to Guam under the provisions of the Compacts of Free Association (COFA). The total Compact Impact costs for FY 2004 through FY 2017 is \$1.2 billion in accrued costs.

This report also includes Guam's *Compact Impact Reconciliation* showing the un-reimbursed Compact Impact costs were over \$269 million from FY 1987 through FY 2003. Aside from declining Guam's request for \$200 million in debt-relief pursuant to U.S. Public Law 108-188, we continue to identify and record the accrued and un-reimbursed costs resulting from demands placed on our education and social service departments and agencies by migrants from the Federal States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

In the years since the signing of the Compacts of Free Association, we continue to see a substantial growth of regional migrants to the territory. With over a billion dollars in accrued costs, which continue to grow, total reimbursement is critical so that Guam can continue to provide the health care, education, and social programs to COFA migrants.

I look forward to your support to reimburse Guam's costs incurred for services provided to COFA migrants.

*Senseramente,*

# **IMPACT OF THE COMPACTS OF FREE ASSOCIATION ON GUAM**

## **FY 2004 through FY 2017**

### **Overview**

Since 1947, the United Nations Trusteeship was entered between the United States and the district islands in the Pacific administered by the Department of the Navy and then by the Department of the Interior. Formerly known as the Trust Territory of the Pacific Islands, the district islands developed into three sovereign nations, the Federated States of Micronesia (FSM), the Republic of the Marshall Islands (RMI), and the Republic of Palau (Palau). These nations entered into a relationship known as the Compact of Free Association with the United States to be given financial assistance and commitments in exchange for international defense authority.

The Compact of Free Association Act of 1985 (P.L.99-239), implemented in 1986, establishes the relationship between the United States, FSM and RMI. The Compact of Free Association Act of 1985 (P.L.99-658), implemented in November 1994, establishes the relationship between the United States and the Republic of Palau. The Compact of Free Association Amendments Act of 2003 (P.L.108-188) renewed the original Compact of Free Association (P.L. 99-239) between the United States, FSM and RMI. Compact immigration provisions authorize unrestricted immigration into the United States, its territories and possessions, enabling citizens of these nations to enter into, lawfully engage in occupations, and establish residence as non-immigrant aliens.

In recognition of the possible adverse impact to Guam's economy of providing health care, education, job training and public assistance to the peoples of foreign nations not domiciled on Guam, Congress promised to appropriate sums to cover costs incurred by Guam resulting from any increased demands placed on educational and social services by immigrants from FSM, RMI, and Palau (collectively known as the Freely Associated States, or FAS). Pursuant to Public Law 106-504, annual reports are to be submitted to the Secretary of the Department of the Interior who "shall review and forward any such reports to the Congress with the comments of the Administration." Guam has been providing annual reports to the Department of Interior since 1987.

A provision in Public Law 108-188 authorized the President of the United States, at the request of the Governors of Guam and the Commonwealth of the Northern Mariana Islands (CNMI), to release, reduce, or waive, in whole or in part, any amounts owed to the United States Government as an offset for past un-reimbursed Compact impact costs by their respective governments. Guam's Compact Impact Reconciliation Report and the verification by an independent accounting firm were submitted to the Department of the Interior on April 13, 2004. The un-reimbursed Compact Impact cost for the period FY 1987 to FY 2003 totaled \$269 million. The un-reimbursed costs include \$178 million for education, \$48 million for health, welfare and labor, and \$43 million for public safety. Guam's request for \$200 million in debt-

relief was declined.

This report also examines the amount of assistance provided to citizens of the Freely Associated States by Guam for the period FY 2004 through FY 2017 and provides an update to the Compact Impact Reconciliation Report. The Government of Guam finds that the currently identified locally funded cost incurred for providing educational and social services to citizens of the Freely Associated States was \$33.2 million in FY 2004, \$33.6 million in FY 2005, \$43.3 million in FY 2006, \$46.5 million in FY 2007, \$56.0 in FY 2008, \$64.0 million in FY 2009, \$71.8 million in FY 2010, \$99.6 million in FY 2011, \$99.6 million in FY 2012, \$115.5 million in FY 2013, \$130 million in FY 2014, \$136.8 in FY 2015, \$140.2 million in FY 2016, and \$147.3 in FY 2017 for a total of **\$1.2 billion** (unaudited) for the past fourteen fiscal years. Refer to Table 1.

Pursuant to the Compact Impact reimbursement provisions of the Compact of Free Association Act of 2003, Compact Impact Assistance Grants awarded to Guam for FY 2004 to FY 2017 totaled \$214.3 million. In addition to appropriated compact impact funds, discretionary Compact Impact funding is also distributed to “offset educational service and infrastructure costs incurred by the affected jurisdictions” for services to the regional migrants. Since 2012, Guam received Compact Impact supplemental discretionary funds. From 2012 to 2013, the Guam Department of Education (GDOE) received \$2.8 million annually in compact impact supplemental discretionary funds. Supplemental discretionary funds to the Guam Department of Education dropped 11 percent from \$1.7 million in 2014 to \$1.5 million in 2015. Funding under the Compact Impact Discretionary further declined from \$1.49 million in 2016 to \$1.48 million in 2017. The government of Guam also coordinated with local government agencies to identify federal assistance extended to regional migrants and their children. In FY 2017, federal assistance extended to the FAS migrants and their children living on Guam totaled \$85.6 million. Refer to Table 26.

This fiscal year, the Government of Guam is reporting law enforcement services from the Department of Agriculture’s Law Enforcement Section who are responsible for ensuring the island’s natural resources are protected from illegal hunting and fishing.

The Government of Guam continues to work towards providing a comprehensive report on compact impact. This report does not include taxpayer information as the island’s Revenue and Taxation does not collect data on ethnicity or other information that could be used to identify Earned Income Tax Credit (EITC) paid to FAS citizens. According to the November 2011 Compacts of Free Association Improvements Needed to Assess and Address Growing Migration report, GAO-12-64, estimates showed that “compact migrant workers paid \$971 less (68 percent less) per capita in taxes than other workers in 2009<sup>1</sup>.” The report further stated that “compact migrant workers are much less likely to be employed in Guam’s higher paying public sector. The remaining difference results from the higher number of exemptions that compact migrant workers could claim, on average, for family members when filing taxes.” According to the Guam Office of Public Accountability’s audit of the Government of Guam’s finances for FY 2014, EITC claimed by taxpayers has substantially increased since 2000<sup>2</sup>. In tax year 2000,

EITC payments represented 11 percent of total tax refunds paid. In tax year 2013, 46 percent of tax refunds were EITC payments. In tax year 2014, \$56.8 million dollars, or 43 percent of all tax reimbursements, were EITC payments. In tax year 2015, \$58.8 million dollars, or 45 percent of all tax reimbursements, were EITC payments. EITC is an unfunded federal mandate which requires the Government of Guam to pay for the tax reimbursements without reimbursement to the General Fund. Currently, the Government of Guam mirrors the federal tax code.

On January 10, 2018, Guam’s Congresswoman, Madeleine Bordallo, along with Congresswomen Colleen Hanabusa and Tulsi Gabbard of Hawai’i and Congressman Gregorio Kilili Camacho Sablan, re-introduced the Compact Impact Relief bill to the 115<sup>th</sup> Congress, U.S. House of Representatives, to “provide additional federal resources to Guam, Hawaii, the CNMI, American Samoa, and other jurisdictions affected by the migrants from the Freely Associated States”. This measure would require the federal government to provide assistance to these jurisdictions to improve services to the migrants from the FAS in the areas such as job and vocational training, food stamps, and healthcare delivery.

The government continues to extend various services to FAS citizens who migrate to the island and continues to service FAS citizens who have made Guam their home. The GAO-16-550T report indicates that “the FSM and RMI have faced a number of critical challenges that could affect their ability to achieve the compacts’ long-term development goals”<sup>3</sup>. The report further stated in 2011, the DOI reported to Congress that due to the lack of economic prospects in the FSM and RMI and a decline in U.S. grant assistance could lead to a decline in living standards or migration to the United States. With the compact impact grant funding scheduled to end in 2023, Guam anticipates continued migration of FAS citizens.

For FY 2017, the GDOE reported an average daily membership of 30,017, an increase of less than 1 percent from the previous year. The total FAS student enrollment for FY 2017 was 8,145, a 5 percent increase from FY 2016.

Figure 1 shows the Guam Department of Education’s average daily membership of Guam student population for the School Years 2011-2012 to 2016-2017. A total student count from the Freely Associated States continues to rise from less than 5,000 students in SY 2003-2004 to 8,145 students in SY 2016-2017. Total FAS student population has risen steadily for the past six years from 23.1 percent in SY 2011-2012 to 27.1 percent of Guam’s public school population in SY2016-2017.

#### 4. Department of Military Affairs, Office of Civil Defense

The Department of Military Affairs is tasked with controlling the operations of the Guam Army and Air National Guard and protecting Guam and the United States of America in time of war, rebellion, riot, imminent danger or any state of emergency. Guam Public Law 24-298 consolidated the Office of Veterans Affairs and Office of Civil Defense with the Department of Military Affairs. The Department now includes responsibilities for the administration of veterans programs and services for citizens who served in the Armed Forces. The Department is also tasked with planning and development of programs that provide for the safety and protection of life and property in the event of natural disasters such as typhoons, earthquakes, floods and seismic waves as well as Homeland Security.

The Guam Homeland Security/Office of Civil Defense (GHS/OCD) is responsible for managing and coordinating the island's response to all natural and man-made emergencies/disasters and to facilitate all Government of Guam, Military, and Federal Liaison Response Agencies and their resources in mitigating, preparing, responding and recovering from any and all types of emergencies in order to protect the lives, environment, and property of the island of Guam.

The cost of providing services by the Office of Civil Defense (OCD) to Guam's FAS population was calculated by dividing OCD's total FY expenditures by the de facto population of Guam (including visitors), and multiplying the result by the percentage of FAS citizens (with the baseline of 2,413 persons subtracted) residing on Guam. In FY 2004, the cost for OCD protective services for FAS citizens was \$8,659. For FY 2005, the cost of OCD protective services for FAS citizens was \$2,432. For FY 2006, the cost for OCD protective services for FAS citizens was \$31,421. For FY 2007, the cost for OCD protective services for FAS citizens was \$33,022. For FY 2008 through FY 2014, OCD expended no local funds. GHS/OCD has purview over locally declared disasters with costs associated with providing services to the Freely Associated States citizens for FY 2015. Funds were used to cover operations, equipment, supplies (sandbags, meals, water, tents, cots, receptacles, etc.) and contractual services in support and recovery from disaster-related events. For FY 2015, the cost for services for disaster related events to the FAS citizens was \$220,343. For FY 2016 and FY 2017, the OCD reported that no local or federal funds were expended to provide direct services to FAS citizens.

##### *Cumulative Costs*

The total cost of Office of Civil Defense protective services for FAS citizens was \$295,877 for the past fourteen fiscal years.

#### 5. Guam Fire Department

The Guam Fire Department is responsible for fire prevention and suppression and related hazards. Guam Fire Department services are provided to all Guam residents, irrespective of citizenship or residency status, including visitors and military personnel and their dependents when they

are on civilian lands.

The cost of providing services to Guam's FAS population was calculated by dividing GFD's total FY expenditures by the de facto population of Guam (including visitors), and multiplying the result by the percentage of FAS citizens (with the baseline of 2,413 persons subtracted) residing on Guam. In FY 2004, the cost for GFD protective services for FAS citizens was \$1,299,767. For FY 2005, the cost was \$1,494,096. For FY 2006, the cost was \$1,711,719. For FY 2007, the cost was \$1,883,952. For FY 2008, the cost was \$2,028,699. For FY 2009, the cost was \$2,037,617. For FY 2010, the cost was \$2,521,192. For FY 2011, the cost was \$2,914,771. For FY 2012, the cost was \$3,059,850. For FY 2013, the cost was \$3,289,997. For FY 2014, the cost was \$3,950,432. For FY 2015, the cost was \$4,276,026. For FY 2016, the cost was \$4,430,977, a 3.6 percent increase from FY 2015. For FY 2017, the cost was \$4,454,716, less than 1.0 percent increase from FY 2016.

In FY 2004 the cost for police protective services for FAS citizens was \$1,299,530. For FY 2005, the cost was \$1,795,103. For FY 2006, the cost was \$1,668,399. For FY 2007, the cost was \$1,630,995. For FY 2008, the cost was \$2,023,200. For FY 2009, the cost was \$2,159,702. For FY 2010, the cost was \$2,173,712. For FY 2011, the cost was \$2,626,306. For FY 2012, the cost was \$2,763,880. For FY 2013, the cost was \$3,192,024 and \$3,629,974 for FY 2014. In FY 2015, GPD reported expenses for general protective services, law enforcement services (arrests) and emergency disaster assistance at a total cost for services to FAS population at \$7,213,850. In FY 2016, GPD reported expenses for general protective services and law enforcement services (arrests) at a total cost for services to FAS population at \$7,363,780. Since FY 2014, the cost for law enforcement (arrests) for services to the FAS population rose from \$4.8 million in FY 2014 to \$6.9 million in FY 2017. The total cost for services to the FAS population for general protection and arrests increased 25 percent from \$7.4 million in FY 2016 to \$9.2 million in FY 2017. In FY 2017, GPD reported expenses for general protective services and law enforcement services (arrests) to the FAS population at a total cost of

\$9,174,642, a 24.6 percent increase from FY 2016.

Table 9 shows FAS arrested persons and minors taken into custody for FY 2017. There was a total of 2,795 arrested persons of which there were 1,186 FAS arrestees (or 42.4 percent) with the baseline of 38 FAS arrested subtracted from the total FAS arrested in 2017. For information purposes, there were 2,413 FAS population residing in Guam prior to the implementation of the Compacts of Free Association. The 2,413 FAS persons represent the 1.35 percent of the total population in Guam (de facto) in FY 2017. The 38 baseline arrests are calculated by multiplying the 1.35 percent by the total arrests, or 2,795 arrests, in FY 2017. The 38 baseline arrests are reduced from the 1,224 FAS arrested persons in FY 2017 to result in 1,186 FAS arrests.

As illustrated in the table, the Chuukese population represents 82 percent of all FAS persons arrested in 2017. About 6 percent of FAS arrested persons are minors taken into custody. Of the \$16,168,763 expended by GPD for law enforcement services to the community, \$6,860,406 was used for services to the FAS in FY 2017. While the total number of arrests went down from 4,140 arrests in 2016 to 2,795 arrests in 2017, the FAS arrested persons (less baseline) accounted for 42.4 percent of all arrests in 2017 as compared to 30.6 percent in 2016.

# TRANSPORTATION

## 1. Guam Regional Transit Authority (GRTA)

The Guam Regional Transit Authority is a government entity created by Public Law 30-05. GRTA is responsible for providing island-wide public transportation services for Guam’s population with fixed route and paratransit services. The existing system operates with five (5) buses serving seven (7) fixed routes and additional six (6) buses for paratransit services for persons with disabilities. The transit buses runs six (6) days a week and closes on Sundays and designated holidays.

GRTA reports that about 50-percent of fixed route ridership is from the FAS population. The total fee per ride is \$9.37 for FY 2011 to FY 2015; however, \$1.00 is paid by passengers. Of the \$8.37, \$4.98 represents the local ridership costs. The calculation cost for FAS ridership expense is obtained by multiplying the fixed ridership by 0.50 and then multiplying the result by \$4.98. For FY 2011, GRTA expended \$402,240 for FAS fixed route ridership. In FY 2012, FAS fixed ridership cost was \$397,255. For FY 2013, GRTA expended \$454,002 for FAS fixed route ridership. GRTA reported an 11 percent increase in expenditures from \$428,096 in FY 2014 to \$474,619 in FY 2015. In FY 2016, the total fee per ride increased from \$8.37 in FY 2015 to \$9.08 in FY 2016, of which \$5.40 represents the local ridership costs. While the local ridership fee per ride increased by 8 percent, the number of total fixed route ridership decreased by 16 percent from FY 2015 to FY 2016. The decrease in ridership resulted in a 9 percent decrease in local expenditures which totaled \$429,608. This report amends prior compact impact reporting and reflects local expenditures only. The GRTA reported an increase in local ridership costs from \$5.40 in FY 2016 to \$9.96 in FY 2017. The total ridership increased 13.7 percent from 159,114 in FY 2016 to 180,955.

The total cumulative cost to the Guam Regional Transit Authority for providing island-wide public transportation for the FAS population is \$3,486,979 for the past seven years. Refer to Table 15.

## 2. Guam Memorial Hospital Authority

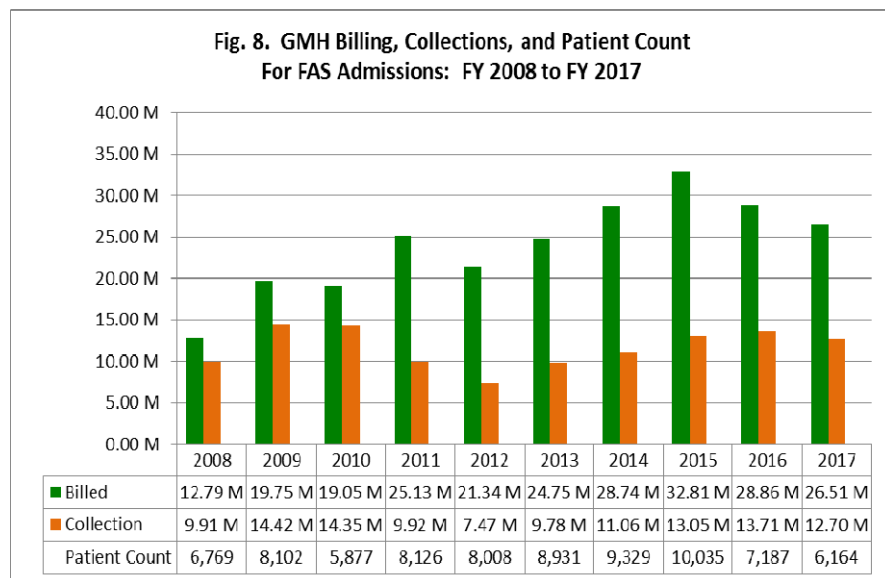

Guam Memorial Hospital Authority (GMHA) is a governmental, non-profit institution serving the people of Guam. As the sole hospital on the island, no patient is denied hospital care and services by reason of place of residence or ability to pay. Prior to the Compacts, citizens of what are now the Freely Associated States (FAS) were Trust Territory of the Pacific Islands (TTPI) citizens, and as such, received medical care from Department of Defense at the Naval Regional Medical Center.

Calendar Year 2015 was a Strategic Planning and Implementation year for GMHA. From successfully opening the new Emergency Department and Critical Care Unit/Intensive Care Unit (CCU/ICU) to implementing plans for operating a hospital-based Urgent Care Unit, GMHA made extensive strides towards improvements and meeting its mission “to provide quality patient care in a safe environment.”

For Fiscal Year 2017, the GMHA worked collaboratively with other government and private sector agencies to successfully finance their Family Birth Center Renovation Project, packaging GMHA’s Formal Invitation for bid for Construction Services, and developing their Facility Master Plan and Business Modernization Plan to demolish and replace the hospital’s 50+ year old Z-Wing.

### 3. Department of Integrated Services for Individuals with Disabilities

The Department of Integrated Services for Individuals with Disabilities (DISID) was established under Guam P.L. 24-16 in March 26, 1997 as the designated single point of entry agency that provides, promotes and ensures a full continuum of lifelong programs and services that allows for independence, productivity and inclusion of people with disabilities into the community.

The Division of Vocational Rehabilitation (DVR) is a program that provides services to help individuals with a physical or mental disability, to prepare for, gain, or retain employment. DVR is supported by funds from the state and federal government. VR is committed to helping people with disabilities find meaningful careers.

The Division of Vocational Rehabilitation is funded with 78.7 percent federal funds from the U.S. DOE, Rehabilitation Services Administration with a local cash match of 21.3 percent. Of the 770 program participants under DVR in FY 2013, there were 62 FAS program participants served representing a total of \$13,262 in local expenditures. In FY 2014, there were 532 program participants of which there were 37 FAS program participants served representing a total of \$12,194 in local expenditures. In FY 2015, there were 563 participants in the program of which there were 42 FAS program participants served representing the local compact cost of \$8,688. In FY 2016, DVR serviced 670 participants of which 58 or 9 percent were FAS participants. DVR expended \$23,249 in local expenditures. In FY 2016, DVR reported a 38 percent increase in participants served from the previous fiscal year. DISID's DVR program reported a 66 percent decrease of expenditures from \$23,249 in FY 2016 to \$7,919 in FY 2017. In FY 2017, there were 708 participants in the program of which there were 52 FAS participants served representing a total of \$7,919 in local expenditures.

## HOUSING

### 1. Guam Housing Corporation

Founded in 1965, the Guam Housing Corporation (GHC) was established for the purpose of providing mortgage financing for first time homeowners in the low to moderate income range, borrowers whom may otherwise not be able to obtain financing.

In addition to provide mortgage financing, the GHC owns and operates 125 single family homes and 24 apartment units for providing rental opportunities to low to moderate income families.

In 1988, the GHC Board of Directors introduced the establishment of an “Emergency Housing Fund” to provide housing assistance to individuals or families who are victims of disasters, home fires, flooding, or other calamities that have displaced them from their homes. GHC is the designated Government of Guam agency to provide emergency housing for those in need.

In more recent years, GHC has taken several measures to assist the Government of Guam in addressing the increased homeless population on the island. In 2013, GHC formally dedicated five (5) rental units to be used as temporary shelters for homeless individuals and families under their Homeless Housing/Sheltering. GHC works with the Guam Housing & Urban Renewal Authority (GHURA) and non-governmental organizations to provide supportive services and coordinate mainstream services and other available programs.

For FY 2014, GHC provided emergency housing to 8 families, 3 of which were FAS families which comprised of 19 FAS household members. Emergency housing services provided to 3 FAS families totaled \$2,964. In FY 2014, GHC also provided homeless sheltering to a total of 4 families, 2 of which were FAS families which comprised of 13 FAS household members. Homeless sheltering services provided to 2 families totaled \$5,674. The average household size for FAS families served through GHC in FY 2014 was 6.4. In FY 2015, GHC provided emergency housing to 6 families, 3 of which were FAS families which comprised of 23 FAS household members. Emergency housing services provided to 3 families totaled \$2,964 in FY 2015. GHC also provided homeless sheltering services to 19 families in FY 2015, of which 7 were FAS families. The 7 FAS families assisted with Homeless sheltering comprised of 49 household members. Homeless sheltering services to 7 families in FY 2015 totaled \$10,747. The average household size for FAS families served through GHC in FY 2015 was 7.2. For FY 2016, the GHC provided emergency housing to 3 FAS families which comprised of 20 household members. Total cost incurred to provide emergency housing to 3 families was \$3,118. In FY 2016, GHC also provided homeless housing to 5 FAS families which comprised of 22 household members. GHC expended \$16,903 to provide homeless housing assistance to homeless FAS families. These costs include loss of rent, utilities cost, maintenance and repair. The average household size for FAS families served through GHC in FY 2016 was 5.3. In FY 2017, the GHC provided emergency housing

to 2 FAS families which comprised of 10 household members. The total cost to provide emergency housing to the 2 FAS families totaled \$5,080. Homeless housing/sheltering services were also provided to 1 FAS family which comprised of 6 household members. The cost to provide homeless housing/sheltering for just 1 FAS family totaled to \$10,678 in FY 2017. The average household size for FAS families served by GHC's emergency and homeless housing for FY 2017 was 5.3. Refer to Table 25.

## SUPPLEMENTAL DATA

### 1. Population of Guam

Impact cost calculations requiring the use of the defacto or de jure population of Guam are based on Tables 26.1 – 26.4.

### 2. FAS Population on Guam

The Freely Associated States (FAS) population estimates based on the 2000 Census of Population and Housing: Guam, the 2003 Census of Micronesians, the 2008 Survey of Compact of Free Association (COFA) Migrants, the 2010 Census of Population and Housing: Guam, and the 2013 Estimates of Compact of Free Association (COFA) Migrants. Refer to Tables 27.1 – 27.3.

### 3. Compact Impact Assistance Grant Projects (P.L. 108-188)

This table shows all Capital Improvement Grant Projects funded by Compact Impact reimbursement funds for FY 2004 through FY 2017 under U.S. Public Law 108-188.

### 4. Compact Impact Reconciliation– FY 1987 to FY 2003

Pursuant to U.S. Public Law 108-188, Guam's Compact Impact Reconciliation Report found that the un-reimbursed Compact Impact cost for the period FY 1987 to FY 2003 totaled \$269 million. The un-reimbursed cost includes \$178 million for education, \$48 million for health, welfare and labor, and \$43 million for public safety. This table shows the un-reimbursed cost as identified by Government of Guam departments and agencies.

### 5. Compact Impact Supplemental Discretionary Funds: FY 2012 to FY 2017

Discretionary compact impact funds supplement the \$30.0 million permanently appropriated for the affected areas such as Guam, CNMI, Hawaii, and American Samoa. From FY 2012 to FY 2017, discretionary funds have been used to offset educational service and infrastructure costs incurred due to the migration of qualified FAS citizens. Much like the permanent appropriation, discretionary funds are distributed amongst the affected areas based on a ratio allocation to each affected government on the basis of the most recent enumeration. Discretionary compact impact funds totaled \$11,755,700 for the period of FY 2012 to FY 2017.
