YUKON AREA GILLNET CLOSURE IN COASTAL DISTRICT, DISTRICTS 1 & 2

EMERGENCY SPECIAL ACTION

Under Authority of: 36 CFR 242.10 and .19
50 CFR 100.10 and .19

Emergency Special Action No: 2-KS-05-25

Issued at: Fairbanks, Alaska, June 10, 2025

Effective Date: Monday, June 16, 2025, 8:00 p.m. for Coastal District and District 1
Wednesday, June 18, 2025, 8:00 p.m. for District 2
Expiration Date: Thursday, July 3, 2025, 8:00 p.m. for Coastal District and District 1;
Saturday, July 5, 2025, 8:00 p.m. for District 2, unless superseded by subsequent special action

EXPLANATION:

This Emergency Special Action closes the Federal public waters between the latitude of Point Romanof and the latitude of the westernmost point of the Naskonat Peninsula including those waters draining into the Bering Sea (the Coastal District), and Federal public waters of Yukon Districts 1 and 2 to the use of gillnets of any size for a period when the bulk of the Chinook salmon run is projected to be in these sections of the river. All gillnets must be removed from the water during this gillnet closure period.

This Emergency Special Action adds an *additional gear restriction* to Temporary Special Action **2-KS-01-25** that closed the Coastal District and Yukon Districts 1 and 2 to the subsistence harvest and retention of Chinook and summer chum salmon. When Emergency Special Action **2-KS-05-25** expires, fishing for nonsalmon only may resume with gillnets limited to 4-inch and smaller, 60 feet maximum length, operated as a set net near shore.

REGULATION:

Pursuant to **2-KS-01-25**, in Federal public waters of the following areas, subsistence salmon fishing is currently closed to all users, and gillnets of 4-inch and smaller may be used to target nonsalmon.

50 CFR 100.27(e)(3) Subsistence taking of fish—Yukon-Northern Area is further amended to read:

(ii) **In Federal public waters of the following areas:**

Coastal District and District 1:

Effective 8 p.m. Monday, June 16 until 8 p.m. Thursday, July 3, all gillnets must be removed from the water (all users). Fishing for non-salmon is still allowed during this period,

but it is limited to non-lethal gears including hook and line with a rod or pole, dip net, beach seine, hand line, longline, fyke net, lead, and spear. Pink and sockeye salmon may be retained. Chinook and chum salmon must be released alive.

District 2:

Effective 8 p.m. Wednesday, June 18 until 8 p.m. Saturday, July 5, all gillnets must be removed from the water (all users). Fishing for non-salmon is still allowed during this period, but it is limited to non-lethal gears including hook and line with a rod or pole, dip net, beach seine, hand line, longline, fyke net, lead, and spear. Pink and sockeye salmon may be retained. Chinook and chum salmon must be released alive.

JUSTIFICATION:

The drainage-wide Chinook salmon outlook is for a run size of about 72,000 fish, and the Canadian-origin Chinook salmon outlook is about 30,000 fish. Escapement goals are unlikely to be met for Chinook salmon and closures will likely be required for the duration of their migration. Pursuant to Section 816 of ANILCA, this Temporary Special Action (**2-KS-05-25**) closes all gillnet fishing in the Federal public waters of the Yukon River Coastal District and Districts 1 and 2 based on recent average run timing for Chinook salmon due to concerns about the viability of the population. These gillnet closures will ensure no incidental harvest of this species in lethal gillnets will occur between the first quarter point and third quarter point of the run to protect the bulk of the migrating Chinook salmon. These closures will be implemented up river based on fish migration timing.

CONSULTATION AND OUTREACH:

The Yukon River salmon outlooks and management strategies were discussed at a public hearing; the Eastern Interior, Western Interior, and Yukon Kuskokwim Delta Regional Advisory Council meetings; the Yukon River Drainage Fisheries Association (YRDFFA) annual Preseason Fisheries Meeting; at the Yukon River Panel and at the Yukon River Intertribal Fish commission meeting. The Federal manager offered formal Government-to-Government Tribal Consultation meetings with Yukon River drainage Tribal Governments upon request. The Federal fishery outlook and management strategy was sent to all Yukon Tribal and City governments on May 23. Approximately 3,500 copies of the ADF&G and USFWS Preseason Outlook flier were mailed to Yukon River fishing households in May.

This action was taken following coordination with the ADF&G fishery managers. The fishing schedules and/or restrictions announced here match those issued concurrently by the ADF&G in state waters (Summer Fishery Advisory Announcement #6). The Federal Subsistence Regional Advisory Council Chairs for the Yukon-Kuskokwim Delta, Eastern Interior, Western Interior, and Seward Peninsula Regional Advisory Councils were notified as was the Chair and vice-chair of the Yukon River Intertribal Fish Commission. Review was provided by the Office of Subsistence Management.

See Below for Detailed Maps of Federal Public Waters in the Yukon River Drainage:

Communities and streams adjacent to the boundary of Federal lands are part of Federal waters, even on the opposite side of the river.

Yukon River Drainage Area -
Lower River Fishing Districts: Coastal, 1, 2, and 3
 — Fishing Districts
 Federal Public Waters Jurisdiction

In the Coastal area: Hooper Bay, Chevak and Scammon Bay communities are in Federal waters. However, bays and coastal marine waters are State-managed. In District 2, all communities are in Federal waters. In District 3, only Russian Mission is in Federal waters. Holy Cross and Shageluk (in the Innoko Drainage) are in State waters.

DISTRIBUTION:

- Anthony Christianson, Chair, Federal Subsistence Board
- Sara Boario, Alaska Regional Director, USFWS
- Jackie Cleveland, Chair, Yukon-Kuskokwim Delta Subsistence Regional Advisory Council
- Jack Reakoff, Chair, Western Interior Subsistence Regional Advisory Council
- Charlie Wright, Chair, Eastern Interior Subsistence Regional Advisory Council and chair of Yukon River Intertribal Fish Commission
- Louis Green Jr, Chair, Seward Peninsula Subsistence Regional Advisory Council
- Phet Souphanya, Assistant Special Agent in Charge, LE Division, USFWS
- Crystal Leonetti, Director, Office of Subsistence Management
- Scott Ayers, Deputy Director, Office of Subsistence Management
- Justin Koller, Supervisory Regulations Specialist, Office of Subsistence Management
- Vivian Korthius, Executive Director, Association of Village Council Presidents

Dorothea Adams, Executive Director, Council of Athabascan Tribal Governments
Bruce Thomas, Director, Natural Resources Council of Athabascan Tribal Governments
Ben Mulligan, Deputy-Commissioner, Alaska Department of Fish and Game
Mark Burch, Asst. Director, Wildlife Conservation, Alaska Department of Fish and Game
Jill Klein, Alaska Regional Subsistence Coordinator, USFWS
Boyd Blihovde, Refuge Supervisor, USFWS
Diloola Erickson, Tanana Chiefs Conference
Deena Jallen, Summer Area Management Biologist, Alaska Department of Fish and Game
Mathew Olson, Fall Area Management Biologist, Alaska Department of Fish and Game
Eva Patton, Regional Subsistence Program Manager, National Park Service
Kevin Pendergast, State Director, Bureau of Land Management

Also distributed to Tribal and City Governments and any interested parties. If you didn't receive this directly and want to, please reach out to Holly Carroll.
