# YUKON AREA SALMON FISHERY CLOSURE IN THE TANANA RIVER (DISTRICT 6)

## TEMPORARY SPECIAL ACTION

Under Authority of: 36 CFR 242.10 and .19  
50 CFR 100.10 and .19

---

**Temporary Special Action No: 2-KS-09-25**

Issued at: Fairbanks, Alaska, June 16, 2025

Effective Date: Wednesday, June 25, 2025, 8:00 p.m. for Subdistrict 6A  
Tuesday, July 1, 2025, 8:00 p.m. for Upper Tanana

Expiration Date: Wednesday, December 31, 2025, 8:00 a.m. unless superseded by subsequent special action

### **EXPLANATION:**

This Temporary Special Action closes the Federal public waters of Yukon District 6, which includes the communities of Northway and Nabesna and waters in Denali National Park, Tetlin National Wildlife Refuge, and Wrangell-St. Elias National Park and Preserve to the subsistence harvest and retention of Chinook and summer chum salmon to all users. This closure also prohibits gillnets larger than 4-inch stretched mesh and longer than 60 feet. Small mesh gillnets for nonsalmon must be operated as setnets only. There is not a conservation concern for nonsalmon species, so fishing opportunities for nonsalmon are not limited to Federally-qualified subsistence users. If salmon are caught while fishing for nonsalmon, they should be released alive but may be legally retained if dead. The use of fish wheels is not allowed during these closures.

### **REGULATION:**

Subsistence fishing is currently open 24 hours a day, seven days per week with 7.5-inch or smaller mesh gillnets in District 6.

50 CFR 100.27(e)(3) Subsistence taking of fish—Yukon-Northern Area is amended to read:

(ii) **In Federal public waters of the following areas:**

**District 6A** (including waters in Denali National Park):

**Effective 8 p.m. Wednesday, June 25, salmon fishing is closed to all users. Fish wheels and gillnets larger than 4-inch are not allowed. Gillnets of 4-inch or smaller mesh may be used to target nonsalmon and are restricted to 60-feet or less in length and must be operated as a set net near shore.**

**Upper Tanana** (including Northway and Nabesna and waters in Tetlin National Wildlife Refuge and Wrangell-St. Elias National Park and Preserve):

**Effective 8 p.m. Tuesday, July 1, salmon fishing is closed to all users. Fish wheels and gillnets larger than 4-inch are not allowed. Gillnets of 4-inch or smaller mesh may be used to target nonsalmon and are restricted to 60-feet or less in length and must be operated as a set net near shore.**

**Dip nets, beach seines, and hook and line gear may be used for nonsalmon; however, Chinook and summer chum salmon must be released alive.**

If you are catching Chinook or summer chum salmon in a 4-inch gillnet, please move it to avoid catching these species. Later in the season, the use of 4-inch gillnets will be closed between the first and third quarter points, in order to reduce any incidental catch of Chinook salmon.

**JUSTIFICATION:**

The drainage-wide Chinook salmon outlook is for a run size of about 72,000 fish, and the Canadian-origin Chinook salmon outlook is about 30,000 fish. Escapement goals are unlikely to be met for Chinook salmon and closures will likely be required for the duration of their migration. The summer chum salmon outlook is for a run size of 1.1 million fish. While the drainage-wide escapement goal of 500,000–1.2 million summer chum salmon could be met, closures are warranted until run projections indicate goals will be met and a surplus is available for subsistence harvest. Pursuant to Section 816 of ANILCA, this Temporary Special Action (**2-KS-09-25**) closes fishing for Chinook and summer chum salmon in the Federal public waters of the Yukon River District 6 due to concerns about the viability of these populations. Large mesh gillnet closures are likely throughout the summer season to avoid incidental harvest of Chinook salmon. Salmon fishing closures are issued based on the historical timing of Chinook salmon arrival in the area. These closures will be implemented up river based on fish migration timing.

**CONSULTATION AND OUTREACH:**

The Yukon River salmon outlooks and management strategies were discussed at a public hearing; the Eastern Interior, Western Interior, and Yukon Kuskokwim Delta Regional Advisory Council meetings; the Yukon River Drainage Fisheries Association (YRDFFA) annual Preseason Fisheries Meeting; at the Yukon River Panel and at the Yukon River Intertribal Fish commission meeting. The Federal manager offered formal Government-to-Government Tribal Consultation meetings with Yukon River drainage Tribal Governments upon request. The Federal fishery outlook and management strategy was sent to all Yukon Tribal and City governments on May 23. Approximately 3,500 copies of the ADF&G and USFWS Preseason Outlook flier were mailed to Yukon River fishing households in May.

This action was taken following coordination with the ADF&G fishery managers. The fishing schedules and/or restrictions announced here match those issued concurrently by the ADF&G in state waters (Summer Fishery Advisory Announcement #11). The Federal Subsistence Regional Advisory Council Chairs for the Yukon-Kuskokwim Delta, Eastern Interior, Western Interior, and Seward Peninsula Regional Advisory Councils were notified as was the Chair and vice-chair of the Yukon River Intertribal Fish Commission. Review was provided by the Office of Subsistence Management.

**See Below for Detailed Maps of Federal Public Waters in the Yukon River Drainage:**

Communities and streams adjacent to the boundary of Federal lands are part of Federal waters, even on the opposite side of the river.

In District 6 (Tanana River) Northway and Nabesna are in Federal waters. Manley, Minto, Nenana, Fairbanks, North Pole, Delta Junction, Dot Lake, Tanacross, Tok, and Tetlin are in State waters.

**DISTRIBUTION:**

- Anthony Christianson, Chair, Federal Subsistence Board
- Sara Boario, Alaska Regional Director, USFWS
- Jackie Cleveland, Chair, Yukon-Kuskokwim Delta Subsistence Regional Advisory Council
- Jack Reakoff, Chair, Western Interior Subsistence Regional Advisory Council
- Charlie Wright, Chair, Eastern Interior Subsistence Regional Advisory Council and chair of Yukon River Intertribal Fish Commission
- Louis Green Jr, Chair, Seward Peninsula Subsistence Regional Advisory Council
- Phet Souphanya, Assistant Special Agent in Charge, LE Division, USFWS
- Crystal Leonetti, Director, Office of Subsistence Management
- Scott Ayers, Deputy Director, Office of Subsistence Management
- Justin Koller, Supervisory Regulations Specialist, Office of Subsistence Management
- Vivian Korthius, Executive Director, Association of Village Council Presidents
- Dorothea Adams, Executive Director, Council of Athabascan Tribal Governments

Bruce Thomas, Director, Natural Resources Council of Athabascan Tribal Governments  
Ben Mulligan, Deputy-Commissioner, Alaska Department of Fish and Game  
Mark Burch, Asst. Director, Wildlife Conservation, Alaska Department of Fish and Game  
Jill Klein, Alaska Regional Subsistence Coordinator, USFWS  
Boyd Blihovde, Refuge Supervisor, USFWS  
Diloola Erickson, Tanana Chiefs Conference  
Deena Jallen, Summer Area Management Biologist, Alaska Department of Fish and Game  
Mathew Olson, Fall Area Management Biologist, Alaska Department of Fish and Game  
Eva Patton, Regional Subsistence Program Manager, National Park Service  
Kevin Pendergast, State Director, Bureau of Land Management

**Also distributed to Tribal and City Governments and any interested parties. If you didn't receive this directly and want to, please reach out to Holly Carroll.**
