This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

I would like to include my comment for issue WCR26-02. The closure for non-federally qualified users should be retained. The harvest should remain a priority to the locals to hunt first because the moose harvest is a livelihood for us. I would not be able to afford purchasing meat from the stores every winter if I was not able to process a moose with my family each year. By modifying or rescinding this closure the chances of locals obtaining food security would decline.

Thank you for considering my comment,  
Janie Jensen
