This email has been received from outside of DOI - Use caution before clicking on links, opening attachments, or responding.

None of these proposals are necessary as they do not balance the user groups.
Regulating trappers without regulating recreational users is trying to prevent possible conflict, not responding to a need or problem.
Trapping has been part of Ak life from the beginning.
Lethal traps are exactly that, allowing dogs to roam through trapping areas is irresponsible ownership.
Requiring registration of free ranging dogs to use federal lands would be a better solution.
