Bureau of Indian Affairs NEPA Tracker 2.0

<https://bianepatracker2.doi.gov>

Bureau of Indian Affairs

NEPA Tracking System is a web-based database application managed by the Indian Affairs to track and manage data for NEPA projects. The Branch of Environmental and Cultural Resources Management (BECRM) in the Bureau of Indian Affairs (BIA) is responsible for tracking NEPA Actions – and overseeing and coordinating Bureau's compliance with National Environmental Policy Act (NEPA).

Bureau of Reclamation Services FAIRACT System

<https://fairbor.bc.doi.net>

Bureau of Reclamation

BOR A -76 Federal Activities Inventory Reform (FAIR) Act Inventory system allows authorized BOR personnel to do online search and display of the FWS inventory. It is utilized by authorized BOR personnel to review and submit changes to the inventory. They can also add a new position.

The system provides a wide variety of administrative and reporting capabilities. Users can create reports by specifying criteria such as region, org, program or employee name. Once data is finalized, users can download reports and submit to OMB.

DOI LE Portal

<https://leportal.doi.net>

Office of the Law Enforcement and Security

The DOI LE Portal is the primary interface between the DOI's law enforcement community and the IMARS application, as well as a resource for implementing law enforcement policy, procedures, and business processes. The portal will also provide DOI-wide content management, crime analysis, and reporting views for incident information. Portal is available to all LE components of the various bureaus of DOI. The users will be able to share information among the bureaus of the Department through the DOI LE Portal.

Environmental Management Information System (EMIS)

<https://ecl.doi.gov>

Office of Environmental Policy and Compliance

The Department of the Interior (Department) – composed of multiple Bureaus and Offices, must identify, address, and respond to Environmental and Disposal Liability issues on a diverse landscape of real property Sites and properties. Accurate financial reporting and effective managerial controls are imperative. Environmental Management Information System (EMIS) was designed to help the Office of Policy, Management, and Budget's (PMB's) Office of Environmental Policy and Compliance (OEPC) and Office of Financial Management (PFM) comply with federal laws and regulations in the areas of management and financial responsibility.

EMIS is a web-based database application managed by the Office of Environmental Policy and Compliance to track and manage data for both the Environmental and Disposal Liabilities (EDL) and the Central Hazardous Materials Fund (CHF) programs. The EDL module allows the Department to ensure EDL recording and reporting consistency among bureaus and to track changes in its liabilities. The CHF modules allow the Department to keep track of its mid - to long - term cleanups.

Headquarters Parking System

<https://parking.doi.gov>

Office of Facilities and Administrative Services

The Department of the Interior – composed of multiple Bureaus and Offices, must identify, address, and respond to visitor parking requests for Main Interior Building, South Interior Building and Federal Reserve Building. The Headquarters Visitor Parking System helps the Office of Facilities and Administrative Services to manage the incoming requests. The Headquarters Visitor Parking System services DOI bureaus, offices and field personnel to request visitor parking online.

The Headquarters Visitor Parking System automates the daily operations of the Interior Complex Parking Program. It allows parking team members to consistently view and assign requests. It also allows the DOI to consistently evaluate, and record parking requests requested by different bureaus.

Indian Arts and Crafts Board (IACB) Source Directory Database

<https://iacbsd.doi.net>

Office of Indian Arts and Crafts Board

Indian Arts and Crafts Board (IACB) Database is a web-based database application managed by the IACB to track businesses listed in the Source Directory. These businesses include Indian arts and crafts cooperatives and tribal arts and crafts enterprises; businesses and galleries privately owned and operated by individuals, designers, artists, and artisans who are enrolled members of federally recognized Tribes; and a few nonprofit organizations, managed by enrolled members of federally recognized Tribes, that develop and market art and craft products. Purpose of this database is to improve overall processing time and enhance processing efficiency.

Indian Affairs Performance Management System (IAPMS)

<https://iapms.doi.gov>

Bureau of Indian Affairs

IAPMS provides Indian Affairs Management with a tool for reporting and analyzing data collected to provide an indication of the effectiveness and efficiency of Indian Affairs programs. Additionally, the system provides reports to management on Indian Affairs' progress in meeting the Department's overall strategic direction as outlined in the strategic plan.

This system provides information to all employees on how their work contributes to the Department's overall strategic direction and enables analysis of how the Department can improve on service delivery or program effectiveness. This system collects, manages and analyzes performance data for different regions and offices under Indian Affairs. The system is utilized for the reporting of results against strategic plan measures, as well as bureau-specific measures.

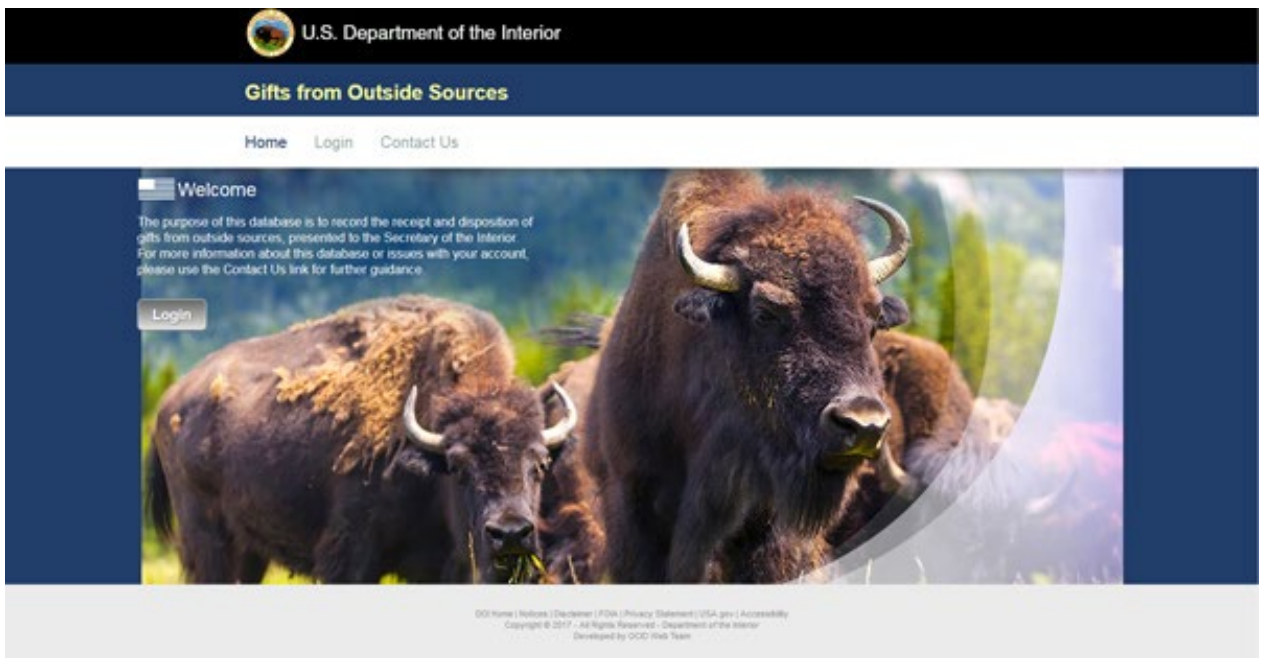

Office of the Secretary Gift Database

<https://osgifts.doi.net/>

Office of the Secretary

The database is used by the Office of the Secretary to record the receipt and disposition of gifts from outside sources, presented to the Secretary of the Interior.

OLES Internal Security Division Administrative Database

<https://isdadmincontrols.doi.net/>

Office of Law Enforcement and Security

OLES Internal Security Division (ISD) Administrative Control Database is a web-based database application managed by the Office of Law Enforcement and Security to track and report timely processing of various administrative functions. Purpose of this database is to improve overall processing time and enhance processing efficiency.

Purpose of this database is to improve overall processing time and enhance processing efficiency.

OSMRE State Program Amendments Tracking Database

<https://spatracking.doi.net/>

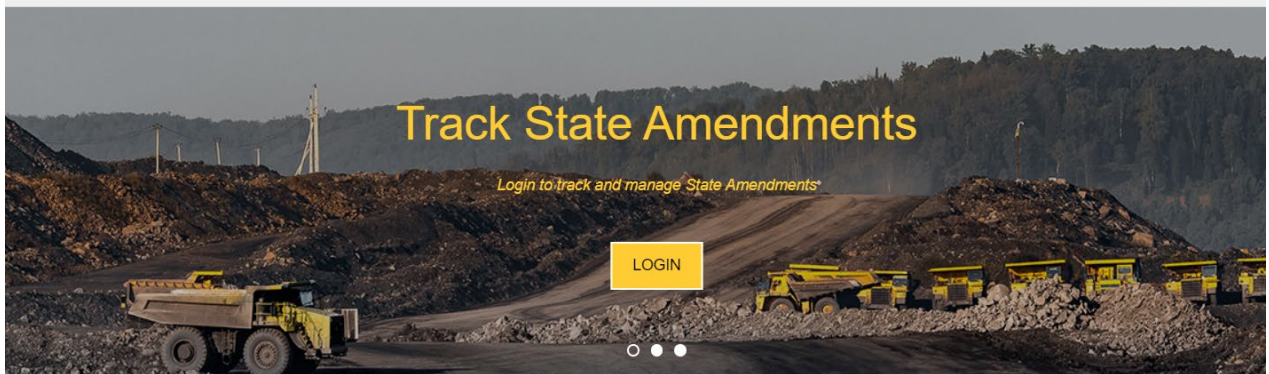

Office of Office of Surface Mining Reclamation
and Enforcement

State Program Amendments Tracking Database is a web-based database application managed by the Office of Surface Mining Reclamation and Enforcement to track and report timely processing of State program amendments, State reclamation plan amendments, and cooperative agreement amendments. Purpose of this database is to improve overall processing time and enhance processing efficiency. This system provides detailed task and assignment tracking within defined workflow processes; assign due dates and identify overdue tasks resulting in alerts; generate reports denoting SPAs topics, progress, status, and timeliness; store project information in active and archive statuses; and organize projects by OSMRE Region and State.

PILT Application

<https://www.doi.gov/pilt>
Office of Budget

"Payments in Lieu of Taxes" (or PILT) are Federal payments to local governments that help offset losses in property taxes due to nontaxable Federal lands within their boundaries. PILT payments help local governments carry out such vital services as firefighting and police protection, construction of public schools and roads, and search-and-rescue operations.

PILT website provides payments information for the states and counties. Users can search for the payments by state or county. The website also provides historical information.

The screenshot shows the U.S. Department of the Interior website. The header includes the department's name and social media links. The main heading is "Payment in Lieu of Taxes". Below this is a navigation bar with links: Home, SAM Bulletin, Chapter 69, Regulations, and Resources. The main content area contains a paragraph explaining that PILT payments are Federal payments to local governments to offset property tax losses on non-taxable federal lands. It mentions Public Law 94-565 and Public Law 97-258. A second paragraph states that PILT payments help fund vital services like firefighting and police protection. A third paragraph notes that the DOI Office of the Secretary has administrative authority over the PILT program and that applicable regulations were published in the Federal Register on December 7, 2004.

Solid Waste Management Database

<https://swmanagement.doi.gov/>

Office of Environmental Policy and Compliance

Solid Waste Management database responds to a memorandum calling for reports issued by the Office of the Federal Environmental Executive and the Office of Management and Budget. This reporting tool is utilized by representatives of facilities within the Department of the Interior Bureaus and Offices.

System is utilized by facility personnel to input data for the Solid Waste and chemicals management practices. Once the data has been entered and finalized by the facility users, it is forwarded to the Regional users for the review and approval. Once the data has been approved by the Regional managers, it is forwarded to the bureau level managers for the review and approval. At this time, the data is ready to be used in the Solid Waste Management report. The Office of Management and Budget uses the report submitted by the Department of the Interior when it compiles its report to Congress.

Armed Forces Retirement Home
Gulfport Campus
This new Home is a wonder in modern engineering and senior health and housing. It is the result of great talent, firm resolve, and keen patriotism. A comfortable retirement here is the ultimate payoff for the sacrifices our residents made in serving America. After all, we are bound by law to uphold that original Promise to care for eligible service members and to preserve the Home's heritage.
The new Home is located on 47 acres of prime waterfront land on the Mississippi Sound. It features a new multi-tower complex with full amenities such as dining, social, recreational, and therapeutic

Washington Campus
Modernizing the Washington Campus
Established in 1851, AFRH Washington has seen many changes in two centuries. Built on farm land atop a hill overlooking the US Capitol, the Washington campus has been home to thousands of former enlisted military. The buildings include historic quarters and facilities and the large more modern residences built within the last 60 years - LaGarde and Sheridan buildings.
To keep pace with changing needs in senior care, like complying with the American Disability Act requirements, much needed improvements will make our entire facility more vibrant and functional.

[DOI Home](#) [PMB](#) [OHA](#)

Office Of Hearings And Appeals Search Database

This website uses Perceptive Enterprise Search (formerly ISYS Query) indexing software that assists you in searching for cases decided by the Office of Hearings and Appeals and other Department of the Interior authorities. Perceptive Enterprise Search displays a decision in portable document format (PDF).

How Are Decisions Organized?

Decisions are grouped into databases, e.g., "*A*" and "*M*" *Decisions (1920-1970)*, *IBIA Decisions (1970-Present)*, and *IBLA Decisions (1970-Present)*. Each search page has a list showing the different databases available. The decisions in these databases are further described at <https://www.doi.gov/library/collections/law/decisions>.

Note that while the decisions in most of the databases are precedential and may be cited as authority in future cases, decisions of the Hearings Division and IBLA Final Orders are not.

What Are My Search Options?

There are four ways to search a database. The most basic is the Quick Search option on the right hand side of this page. Simply enter the term you wish to search for, select the database you wish to search from the drop-down list, and hit the "Enter" key or "Search" button on your keyboard. Note that if you search on the term *mining claim* (without quotation marks), Perceptive Enterprise Search will find any case that contains the word *mining* and also the word *claim*, whether the two words are together or not. If you search on the term "*mining claim*" (with quotation marks), Perceptive Enterprise

Please input your search criteria
