The Great American Outdoors Act National Parks and Public Land Legacy Restoration Fund (GAOA LRF) is a commitment to protecting and sustaining our public lands.

Established on August 4, 2020, GAOA LRF allocated over \$1.6 billion annually from fiscal years (FY) 2021 through 2025 to the Department of the Interior (Interior) to address priority deferred maintenance and repair needs on public lands and Bureau of Indian Education-funded schools. With GAOA LRF funding, Interior bureaus are:

- Funding 396 projects across 50 states, the District of Columbia, and multiple territories
- Addressing nearly \$6 billion in deferred maintenance and repair
- Improving the condition of over 3,800 Interior assets

GAOA LRF Impacts Across America*

Repairing over **1,000** recreational and visitor experience assets

Improving ADA accessibility in nearly **50%** of GAOA LRF projects

Each year of GAOA LRF funding is estimated to support an average of **17,000** jobs and contribute **\$1.9 billion** to the U.S. economy

Improving facilities used by nearly **2,300** students and faculty at BIE-funded schools each year

Repair, Rehabilitation, and Reconstruction of Roads and Parking

Chickamauga and Chattanooga National Military Park

The Chickamauga and Chattanooga National Military Park commemorates two major battles of the American Civil War. The current roads, which follow transportation routes used during the 1863 Battle of Chickamauga, have reached the end of their lifecycle, and further deterioration without repair could create dangerous driving conditions. This project is repairing, rehabilitating, and reconstructing deteriorating roads and parking areas, including resurfacing pavement, stabilizing shoulders, and repairing drainage structures to enable the long-term preservation of the military park and ensure safe conditions for park visitors.

Replace Administrative and Visitor Center

Okefenokee National Wildlife Refuge

The Okefenokee National Wildlife Refuge, world renowned for its amphibian populations, is the headwaters of the Suwannee and St. Marys rivers and provides habitat for threatened and endangered species. This project is replacing the Administrative Headquarters and Visitor Center facility, to provide increased recreational, educational, and sportsman access opportunities.
