Great American Outdoors Act

National Parks and Public Land Legacy Restoration Fund

Photo Credit: NPS

The Great American Outdoors Act National Parks and Public Land Legacy Restoration Fund (GAOA LRF) is a commitment to protecting and sustaining our public lands.

Established on August 4, 2020, GAOA LRF allocated over \$1.6 billion annually from fiscal years (FY) 2021 through 2025 to the Department of the Interior (Interior) to address priority deferred maintenance and repair needs on public lands and Bureau of Indian Education-funded schools. With GAOA LRF funding, Interior bureaus are:

- Funding 396 projects across 50 states, the District of Columbia, and multiple territories
- Addressing nearly \$6 billion in deferred maintenance and repair
- Improving the condition of over 3,800 Interior assets

GAOA LRF Impacts Across America*

Repairing over **1,000** recreational and visitor experience assets

Improving ADA accessibility in nearly **50%** of GAOA LRF projects

Each year of GAOA LRF funding is estimated to support an average of **17,000** jobs and contribute **\$1.9 billion** to the U.S. economy

Improving facilities used by nearly **2,300** students and faculty at BIE-funded schools each year

Deferred Maintenance and Repair in Wyoming

In Wyoming, the total deferred maintenance and repair (DM&R) backlog for the four Interior GAOA LRF bureaus is \$1,918,842,000**.

Bureau	DM&R**
Bureau of Indian Education (BIE)	\$8,269,000
Bureau of Land Management (BLM)	\$324,639,000
National Park Service (NPS)	\$1,525,828,000
U.S. Fish and Wildlife Service (FWS)	\$60,106,000

GAOA LRF in Wyoming

With the full five years of funding, GAOA LRF will invest nearly **\$560.3 million** towards improving over **100** assets across **29** projects in Wyoming.

As of December 2025, Maintenance Action Teams have completed work at **1** FWS location in Wyoming.

● GAOA LRF Projects ● Completed Maintenance Action Team Activities

Assets improved in Wyoming:

Housing Assets

Water Infrastructure and Other Utilities

Recreational and Visitor Experience Assets

* These numbers are estimates and include FY21 - FY25 GAOA LRF-funded projects.

** DM&R estimates represent a point in time, reported as of 9/30/2025, rounded to the nearest thousand. DM&R is calculated based on asset repair needs in FRPP, which does not include assets with a status indicator of Report of Excess Submitted, Report of Excess Accepted, Determination to Dispose, Disposed, Cannot Currently be Disposed, or Surplus.

GAOA LRF Projects, Locations, and Funding in Wyoming

Bureau	Unit Name	Project Title	Funding [†] as of Dec. 2025
BLM	High Desert District	Little Robber Dam Repair	\$1,000,000

Gooseberry Recreation Site

Wind River / Bighorn Basin District

Completed construction work on Gooseberry trail.

Photo Credit: BLM

The Gooseberry Recreation site in Wyoming offers hiking, wildlife viewing, photography, and geology opportunities for visitors. The natural trail and boardwalk at the site had erosion and public safety concerns. This project stabilized the existing natural trail, replaced washed out culverts, and repaired the existing boardwalk. The boardwalk repairs help mitigate trip and fall hazards, stabilize the foundation, and improve accessibility.

Replace the Yellowstone River Bridge

Yellowstone National Park

View of the new, replaced Yellowstone River Bridge.

Photo Credit: NPS

Yellowstone National Park, established in 1872 as the nation's first national park, encompasses unique hydrothermal and geological features such as Old Faithful and about half the world's active geysers. This project replaced the 604-linear-foot, structurally deficient Yellowstone River Bridge, located between Tower Junction and the Yellowstone River Picnic area, with a new steel girder bridge. The original bridge provided the only access point to the gateway community of Cooke City, Montana and was deemed too deteriorated to rehabilitate. The new bridge is designed to be significantly more seismically resistant, minimizing traffic safety concerns, and protecting residents and visitors.
