Will send shortly. For now, I did receive these comments on the cover pictures. Please let me know if you have questions.

- We like the offshore rig picture, but think we should have both an onshore and offshore picture given the report covers both.
- Is there an orphaned or abandoned well photo, or a photo of methane being flared?
- Are there any pictures of schools or homes near a drill site, or living with an orphaned well on their property?
- Can you include a picture of Chaco Canyon, Arctic tundra in the NPR-A, or underwater canyons?

Hi Alexandra,

I'm following up on my email from earlier today.

Please send the Oil & Gas Report info to me directly today at your earliest convenience. Also, please provide the date that we can expect final text next week so that we can plan accordingly.

Thank you,

John

Good Morning Alexandra,

Yes, please do resend if you have any chart or graphic info in advance.

Much appreciated,

John

Thank you! I thought I had sent info along earlier this week. I can take a look in a bit and resend. Also, I wanted to let you know that the report is delayed so we don't expect to have the text over to you until next week, unfortunately.

Let me know if this is ok for your scheduling purposes.

Thanks,

Alex

Good Afternoon Alexandra,

Hope this finds you well.

Sorry it took so long to get this to you, but you asked me to identify the source and subject matter of

all photos used on the **Interim Report on the Federal Oil & Gas Leasing and Permitting Programs – Summer 2021**

Attached is a PDF with that info next to each photo. Hope this helps.

Also please send along any charts, Infographics, etc. so that we can get a head start on creating those while we wait for the Final Text document.

Thank you,

John

Thanks, Alex!

I agree with Steve (b) (5). I also agree that we should have both an onshore and offshore picture, and think the oil rig from the beach works well for the offshore pic.

Is there an orphaned or abandoned well photo? I think that would be great to include, as well as a photo of methane being flared.

I also agree that if we use a people shot, (b) (5)

Peace,

Marissa

Subject: RE: Report cover comps with sources

I like the design of page 2 the best (that's the oil rig from the beach), but I think we need both offshore and onshore represented on the cover. I like page 4 the most of the multi-photo layouts, but the pics, while gorgeous, have very little to do with O&G. I like the idea of representing people on the cover. (b) (5)

Page 6 is probably my 3rd favorite layout, although I'd try the DOI logo/name on the bottom right to

balance it a bit better. (b) (5)

Knodel, Marissa S shared a file with you

Hello all,

Here is the draft summary of feedback for the interim report. It's probably too long and may be too general, so I welcome edits and feedback.

Peace,

Marissa

Hello Scott and Lars!

Laura asked if you are available today to discuss with me and Cara Lee any thoughts you may have and also to get an update on the status of Option 1 for SCRR.

Let me know what times could work for you – 12 eastern and 3 eastern work for me. Just 30 minutes are needed.

Thanks,
Alex

Where I could resolve/address an SOL comment I did that and removed it from the tally and the document. A couple more that I think can go once you review, Alex – tagged you for those.

Sanchez, Alexandra L shared a file with you

Sending a draft where I've highlighted 48 items we need to resolve. Some are quick and easy, others, need discussion. Let me know if you have any questions, and if any of these are easily resolved before the meeting, let me know, or address in the comments. If I should just share this with the whole group now, let me know and I

will do that.

Thanks,

Alex

Thank you!

Alex

This is super helpful! Thank you for doing. I think we should introduce it as a helpful tool - esp for our comms and leadership teams - when we talk tomorrow.

Subject: Draft rough summary of policy issues

I wanted to make sure I could keep track of the specific policy calls that are mentioned in the current iteration of the report, so I tried to summarize in the attached doc by breaking them down between Onshore and Offshore, and in Onshore breaking them down between ones that could be done administratively in the short-term (generally easier sharp policy calls), administratively in the longer term (“considerations”, or steps that would require significant rethinking by BLM), or that need legislation. And then I’ve added a few others policies not mentioned in the report that I thought we should consider.

I thought this might be helpful for tracking what readers of the report will take away from it and what additional policy options or direction we may need to include. I also noticed in putting this together is that (b) (5) [REDACTED]

Anyway, hope this is helpful.
