

U.S. DEPARTMENT OF THE INTERIOR
Certification of Position Approval
for Retirement
Under 5 USC § 8336(c) and § 8412(d)

[X] Approved under the Civil Service Retirement System, 5 USC § 8336(c)

[X] Approved under the Federal Employees Retirement System, 5 USC § 8412(d)

Category of Coverage: Secondary/Administrative (Firefighter)

Bureau: Any DOI Bureau may use this Standard PD and must use the Standard PD Number

Classification Title: Forestry Technician

Organization Title: Assistant Interagency Hotshot Crew Superintendent

Standard Position Number: FDI0217 Series and Grade: GS-0462-08

RECOMMENDATION FOR COVERAGE: Secondary/Administrative Firefighter coverage is recommended under both CSRS and FERS.

The incumbent serves in a field fire management organization as the Assistant Superintendent of an Interagency Hotshot Crew (IHC). As an Assistant Superintendent of an IHC, responds to wildland fire emergencies and provides day-to-day fire line supervision. IHC resources are available for national and international wildland fire suppression, prescribed fire, and other emergency all-risk assignments with cooperating agencies. Serves as IHC Superintendent in the absence of the Superintendent as qualified. This position is in the firefighting field and is in an organization having a firefighting mission. Prior firefighting experience, as gained by substantial service in a primary firefighter position or equivalent experience outside the Federal government is a MANDATORY PREREQUISITE for incumbents of this position.

Instructions for Completing Optional Form 8

POSITION DESCRIPTION

In order to comply with the requirements of FPM Chapter 295, subchapter 3, and other provisions of the FPM, agencies must complete the items marked by an asterisk. Agencies may determine what other items are to be used.

- *1. Enter position number used by the agency for control purposes.
See FPM Chapter 312, Subchapter 3.
- *2. Check one.
 - "Redescription" means the duties and/or responsibilities of an existing position are being changed.
 - "New" means the position has not previously existed.
 - "Reestablishment" means the position previously existed, but had been cancelled.
 - "Other" covers such things as change in title or occupational series without a change in duties or responsibilities.
 - The "Explanation" section should be used to show the reason if "Other" is checked, as well as any position(s) replaced by position number, title, pay plan, occupational code, and grade.
3. Check one.
- *4. Enter geographical location by city and State (or if position is in a foreign country, by city and country).
- *5. Enter geographical location if different from that of #4.
6. To be completed by OPM when certifying positions. (See Item 15 for date of OPM certification.) For SES and GS-16/18 positions and equivalent, show the position number used on OPM Form 1390 (e.g., DAES0012).
- *7. Check one to show whether the incumbent is exempt or nonexempt from the minimum wage and overtime provisions of the Fair Labor Standards Act. See FPM Chapter 551.
8. Check box if statement is required. See FPM Chapter 734 for the Executive Personnel Financial Disclosure Report, SF 278. See FPM Chapter 735, Subchapter 4, for the Employment and Financial Interests Statement.
9. Check one to show whether identical additional positions are permitted. See FPM Chapter 312, Subchapter 4. Agencies may show the number of such positions authorized and/or established after the "Yes" block.
10. Check one. See FPM Chapter 212 for information on the competitive service and FPM Chapter 213 for the excepted service. For a position in the excepted service, enter authority for the exception, e.g., "Schedule A-213.3102(d)" for Attorney positions excepted under Schedule A of the Civil Service Regulations. SES (Gen) stands for a General position in the Senior Executive Service, and SES (CR) stands for a Career Reserved position.
11. Check one.
 - A "Supervisory" position is one that meets the requirements for a supervisory title as set forth in current OPM classification and job-grading guidance. Agencies may designate first-level supervisory positions by placing "1" or "1st" after "Supervisory."
 - A "Managerial" position is one that meets the requirements for such a designation as set forth in current OPM classification guidance.
12. Check one to show whether the position is non-sensitive, noncritical sensitive, critical sensitive, or special sensitive for security purposes. If this is an ADP position, write the letter "C" beside the sensitivity.

13. Enter competitive level code for use in reduction-in-force actions.
See FPM Chapter 351.
14. Agencies may use this block for any additional coding requirement.
- *15. Enter classification/job grading action.
 - For "Official Title of Position," see the applicable classification or job grading standard. For positions not covered by a published standard, see the General Introduction to "Position Classification Standards," Section III, for GS positions, or FPM Supplement 512-1, "Job Grading System for Trades and Labor Occupations," Part 1, Section III.
 - For "Pay Plan code, see FPM Supplement 292-1, "Personnel Data Standards," Book III.
 - For "Occupational Code," see the applicable standard; or, where no standard has been published, see the "Handbook of Occupational Groups and Series of Classes" for GS positions, or FPM Supplement 512-1, Part 3, for trades and labor positions. For all positions in scientific and engineering occupations, enter the two-digit functional classification code in parentheses immediately following the occupational code, e.g., "GS-1310(14)." The codes are listed and discussed in the General Introduction to "Position Classification Standards," Section VI.
16. Enter the organizational, functional, or working title if it differs from the official title.
17. Enter the name of the incumbent. If there is no incumbent, enter "vacancy."
- *18. Enter the organizational location of the position, starting with the name of the department or agency and working down from there.
19. If the position is occupied, have the incumbent read the attached description of duties and responsibilities. The employee's signature is optional.
- *20. This statement normally should be certified by the immediate supervisor of the position. At its option, an agency may also have a higher-level supervisor or manager certify the statement.
- *21. This statement should be certified by the agency official who makes the classification/job grading decision. Depending on agency regulations, this official may be a personnel office representative, or a manager or supervisor delegated classification/job grading authority.
22. Enter the position classification/job grading standard(s) used and the date of issuance, e.g., "Mail and File, GS-305, May 1977."
23. Agencies are encouraged to review periodically each established position to determine whether the position is still necessary and, if so, whether the position description is adequate and classification/job grading is proper. See FPM Letter 536-1 (to be incorporated into FPM Chapter 536). This section may be used as part of the review process. The employee's initials are optional. The initials by the supervisor and classifier represent recertifications of the statements in items #20 and #21 respectively.
24. This section may be used by the agency for additional coding requirements or for any appropriate remarks.
- *25. Type the description on plain bond paper and attach to the form. The agency position number should be shown on the attachment. See appropriate instructions for format of the description and for any requirements for evaluation documentation, e.g., "Instructions for the Factor Evaluation System," in the General Introduction to "Position Classification Standards," Section VII.

**Forestry Technician
Assistant Interagency Hotshot Crew Superintendent
(Assistant IHC Superintendent)
GS-0462-08**

LEGACY SPD#: DOI117

I. INTRODUCTION

This is a standard wildland fire management position description intended for use in the Department of the Interior (DOI). The employee serves in a field fire management organization as the Assistant Superintendent of an Interagency Hotshot Crew (IHC). This position is at the full performance level.

An IHC is composed of a minimum of 18 personnel with a mission of wildland fire suppression. The IHCs are a highly skilled component of the national wildland fire management program. IHCs provide an organized, mobile, and skilled handcrew for wildfire suppression, preparedness, prevention, monitoring, hazardous fuels reduction, and prescribed burning. This resource is available for national and international wildland fire suppression, prescribed fire, and other emergency all-risk assignments with cooperating agencies.

This position is in an organization having a firefighting mission, and is in an established career path. Prior firefighting experience, as gained by substantial service in a primary firefighter position or equivalent experience outside the Federal government is a MANDATORY PREREQUISITE for incumbents of this position.

II. MAJOR DUTIES

Project Management (40%)

Determines preparedness and suppression needs, facilitates procurement, formulates and prepares project plans for the IHC. Assists with the formulation of the annual IHC budget and maintains a system of accounts to track program expenditures.

Manages assigned property by procuring, maintaining and inventorying tools and equipment to meet individual crew needs, including hand tools, chainsaws, firing equipment, food and water provisions, and personal protective equipment, to ensure assigned personnel meet fire readiness standards on a daily basis. Exercises procurement authority by executing blanket purchase agreements, field purchase orders, GSA requisitions, and charge card purchases.

Assists in coordinating repairs and scheduling maintenance with approved maintenance facilities, securing temporary replacement of vehicles as needed.

Assists with organizational training needs assessment. Develops and implements both technical and agency specific training program for the IHC (e.g., Incident Command System (ICS), fire suppression principles, general fire suppression procedures, fireline construction, fire mop-up

techniques, small and large fire suppression, communications, use of water, physical conditioning, operation of power saws and portable pumps, safety procedures, and first aid training.).

Assists the IHC Superintendent in the planning, development and implementation of fire management projects, for example prescribed fire projects, hazardous fuel mitigation projects, and other land management projects. Develops, coordinates, and presents training courses.

Assists in the development of fuels management projects and work plans (e.g., burn plan segments, mechanical fuel reduction), collects data and completes fuels inventories, assesses fire risks and hazards, and performs pre attack planning.

Applies appropriate agency incident business and resource management objectives, practices, and policies to meet objectives.

Operations (40%)

Serves as Assistant Superintendent of an IHC which primarily responds to wildland fire emergencies and provides day-to-day fireline supervision. Crew may function as an intact crew or in multiple modules. The incumbent is responsible for making on-site evaluations of incident conditions, making tactical decisions, and determining appropriate responses. Recognizes, reacts to and communicates changes in weather and fire behavior, topography and fuel types, and adapts planned strategies and tactics to identify and relocate firelines, escape routes and safety zones. May also lead the IHC in responding to wildland urban interface/intermix situations.

Executes prescribed burn plans for complex burn projects in a wide variety of fuel types and executes complex firing operations on wildfire incidents.

Supervisory duties (20%)

Exercises delegated supervisory authorities and responsibilities 20% of the time. The duties of this position are as a first-level supervisor of firefighters in primary/rigorous positions. These authorities exceed those typical of work leaders and include assigning and reviewing work daily, weekly, or monthly; assuring that production and accuracy requirements are met.

Plans work to be accomplished by subordinates, sets and adjusts short-term priorities, and prepares schedules for completion of work, and approves leave. Assigns work to subordinates based on priorities, selective consideration of the difficulty and requirements of assignments, and the capabilities of employees. Coordinates within the unit to ensure that timeliness, form, procedure, accuracy, quality and quantity standards are met. Engages or participates in hiring process for subordinate employees. Evaluates work performance of subordinates, setting standards, monitoring, and final evaluating of subordinate performance. Effects minor disciplinary measures, such as verbal warnings, cautions, and reprimands. May certify time and attendance, and approve travel authorizations and vouchers.

May supervise a crew in the performance of work such as buildings and grounds maintenance; cleaning and repairing recreation facilities, buildings, roads; and thinning or pruning timber stands, planting trees, and piling debris.

May be assigned to other fireline supervisory positions for which qualified, or other incident command system or prescribed fire positions. Identifies and analyzes suppression tactics and strategies employed on the fires, and revises and/or develops alternatives in view of such factors as fuels, weather, topography and values at risk.

Responsible for the on-the-job safety and health of all employees supervised. Provides leadership, allocates resources, and implements activities to accomplish DOI's multicultural organization direction and Equal Opportunity requirements, goals, policies, and objectives. Ensures all communication (written, oral, visual, signed) is non-discriminatory and is sensitive to all employees and the public. Creates a work environment that respects, appreciates, and accepts the contributions and perspectives of all employees.

The employee is responsible for actively supporting and implementing the Equal Opportunity Program as specified in bureau guidance and affirmative action plans. This includes ensuring equal opportunity for all supervised employees and selections for training and education programs, promotions and awards, as well as fair and impartial recruitment and selection of new employees.

Serves as IHC Superintendent in the absence of the Superintendent as qualified.

Other Significant Facts

The qualification requirements specified in the Standards for Interagency Hotshot Crew Operations must be met prior to entrance into this position.

Prior wildland firefighting experience on the fireline is a mandatory requirement

Employee is subject to medical examination and must pass the work capacity test for arduous positions.

This is a testing designated position (TDP) under the Department of the Interior Drug-Free Workplace Program.

This position requires a valid state driver's license.

Performs other similar duties as assigned.

III. FACTOR LEVELS

Factor 1 - Knowledge Required by the Position

(Level 1-5, 750 points)

Technical knowledge of a wide variety of (federal, state, tribal and local cooperators) wildland

fire management practices and suppression tactics, procedures and objectives to include fuel types and fire behavior, fire preparedness, pertinent to initial attack, large fire suppression actions. Additionally the position requires a practical knowledge of wildland fire urban interface/intermix situations and wildland firefighting methods and practices as performed on the fire line.

Diverse technical knowledge of land use and resource management practices and policies. This includes sufficient knowledge of fuels management practices and policies to independently gather, and interpret data used for both fuels treatments, burn plans and complete prescribed burn projects.

Knowledge of project management, budget, procurement, and property policies, procedures, regulations, and guidelines.

Knowledge of supervisory policies, procedures and methods in order to manage a diverse workforce.

Knowledge of processes and sources of training, agency/interagency qualifications and certification standards and procedures.

Skill in coordinating, facilitating, and instructing wildland fire suppression and prescribed fire training.

Thorough knowledge of fire safety practices and procedures to prevent injury, property damage, and loss of life.

Knowledge of incident business management regulations and procedures (e.g., reporting unsafe conditions, reporting on-the-job injuries, work/rest guidelines) and incident command system organization.

Oral and written communication skills sufficient to effectively interact with people at all levels, internal and external to the organization, including the public.

Factor 2 - Supervisory Controls

(Level 2-3, 275 points)

The supervisor initially provides direction on the priorities, objectives, and/or deadline for types of work covered by precedent. New or unusual assignments may be accompanied with a general background discussion

The employee identifies the work to be done to fulfill project requirements and objectives, plans and carries out the procedural and technical steps required, seeks assistance as needed, and independently coordinates work efforts with outside parties.

The employee's work is evaluated for judgement and methods used in solving problems, and meeting project objectives and deadlines. During fire or incident assignments review is provided by a variety of supervisory personnel from the incident to which the employee's unit has been assigned.

Factor 3 - Guidelines**(Level 3-3, 275 points)**

Assignments are undertaken within the framework of new or changing guidelines which are general in nature and not always directly applicable to assignments to be performed.

Guidelines can include federal regulations, policies, and directives with an understanding of the agencies' missions. Employee uses judgment in application of guidance found in manuals, publications, fire management plans, cooperative agreements, technical publications, and operations and mobilization guides.

The employee uses personal judgement in selecting and applying guidelines, adapting guidelines to situations not specifically addressed, and solving daily problems without assistance.

Factor 4 - Complexity**(Level 4-3, 150 points)**

Project management duties require different and unrelated processes and methods such as coordinating the work of the crew with the fire and fuels management program; property, procurement; training and instruction; the implementation of fuels management projects; the preparation of work plans, and the preparation of prescribed burn plan segments. These projects have well established administrative requirements, procedures, methods, and timeframes.

The employee is responsible for the leadership of an IHC that is subject to dispatch to any part of the United States or foreign countries following mobilization standards. Incident Management Teams typically use IHCs in the most critical portion of the fireline and expect these crews to operate in a variety of intense and constantly changing conditions.

The employee's primary responsibility on incidents and prescribed fire projects is to be aware of environmental influences and fire behavior and make judgements and adjust tactics as conditions change. Complex variables such as weather, fuels (type and condition), topography, fire behavior, management objectives and resource protection concerns, strategies and tactics, resource availability and capability, employee and public safety, etc., must be considered by the incumbent in making critical decisions under pressure during emergency situations.

The complexity of the work is reflected in the interagency coordination required, the number of people involved at all levels of the program, and the intricacies of managing a balanced program.

Factor 5 - Scope and Effect**(Level 5-3, 150 points)**

The employee has ongoing day-to-day direct oversight and responsibility of the 18 employees which comprise the IHC. This includes supervising firefighters performing highly specialized fire suppression and fire management support work, including coordination with the others outside the immediate unit in the development, implementation and execution of wildfire suppression response plans. Assignments can be local, national, or international. The workforce is multi-functional and accomplishes a broad range of resource related projects.

In addition to minimizing the loss of natural resources, property or life, the work of the employee affects the adequacy of existing staffing and programs, equipment systems, and both current and

future long range operational work plans of the wildland fire management program.

Factors 6 & 7 - Personal and Purpose of Contacts

(Level 2b, 75 points)

Primary contacts are with subordinates, co-workers, incident management team personnel, and personnel in non-fire functions. Contacts are also frequently made with personnel from other federal, state, tribal, geographic, and local fire management agencies. Other significant contacts include contractors, news media, local community leaders, emergency coordinators, and the general public.

Contacts are often made in uncontrolled situations such as in extreme fire behavior conditions where communications are difficult, and where the incumbent's role may be unclear to others. Many contacts occur under stressful and emotionally demanding situations such as with property owners in emergency situations.

The primary purpose of contacts is to plan and coordinate emergency work efforts, supervise subordinates, coordinate projects, ensure compliance with established safe firefighting practices, solve operational problems, resolve conflicts, conduct training, exchange information, and provide assistance.

Factor 8 - Physical Demands

(Level 8-3, 50 points)

Essential functions require arduous exertion for protracted periods of time such as, but not limited to, extensive running, walking, climbing, kneeling, stooping, pulling hoses, jumping and twisting.

Duties involve fieldwork requiring above average physical performance, endurance and superior conditioning. Work requires prolonged standing, walking over uneven ground, and recurring bending, reaching, lifting and carrying of items weighing over 50 pounds and shared lifting and carrying of heavier items, and similar activities requiring at least average agility and dexterity. Duties include demands for strenuous activities in emergencies under adverse environmental conditions and over extended periods of time. Operation of some specialized fire equipment can place extended physical stress on employee during fire activities.

Factor 9 - Work Environment

(Level 9-3, 50 points)

The work is primarily performed in forest, range and desert environments in steep terrain where surfaces may be extremely uneven, rocky, covered with vegetation, and in smoky conditions, etc. Temperatures vary from above 100 degrees F to below freezing. Risks include smoke inhalation, fire entrapment, snake or insect bites and stings, exposure to excessive machinery noise, and falling and rolling material. Employee must adjust and cope with exposure to adverse weather elements, dust and smoke, poor sleeping and eating conditions and unpredictable sets of circumstances. Employee may be required to live in backcountry camps for extended periods of time. The hazardous nature of the work requires that personal protective equipment be worn (boots, hard hat, gloves, flame resistant clothing, etc.). Work may require travel by fixed-wing or rotor-wing aircraft.

Evaluation Summary	Final Level	Points
