U.S. DEPARTMENT OF THE INTERIOR
Certification of Position Approval
for Retirement
Under 5 USC § 8336(c) and § 8412(d)

[X] Approved under the Civil Service Retirement System, 5 USC § 8336(c)
[X] Approved under the Federal Employees Retirement System, 5 USC § 8412(d)

Category of Coverage: Secondary/Administrative (Firefighter)

Bureau: **Any DOI Bureau may use this Standard PD and must use the Standard PD Number**

Classification Title: Forestry Technician

Organization Title: Fire Operations and Prescribed Fire/Fuels Technician

Standard Position Number: FDI219B/FDI219A Series and Grade: GS-0462-06/07

RECOMMENDATION FOR COVERAGE: Secondary/Administrative Firefighter coverage is recommended under both CSRS and FERS.

The incumbent serves in a key fire management position in a field fire management organization as a Fire Operations and Prescribed Fire/Fuels Technician. This position is at the full performance level. Primary responsibilities of the position are (1) wildland fire preparedness and suppression; and, (2) preparing and implementing prescribed fire plans, manual and mechanical fuels treatments, and monitoring smoke, fire effects and mechanical fuels treatment effectiveness. **This is an administrative position in an organization having a firefighting mission, and is clearly in an established career path.** Prior firefighting experience, as gained by substantial service in a primary firefighter position or equivalent experience outside the Federal government is a MANDATORY PREREQUISITE for incumbents of this position.

**WILLIAM SIZEMORE**

**APPROVAL:** The position described above is approved for coverage under Firefighter or Law Enforcement (FF/LEO) Retirement retroactive to classification date. Approval is by DOI Secretary's Designee:

**AYANNA SEARS**

For: Deputy Assistant Secretary, Human Capital and Diversity
POSITION DESCRIPTION (Please Read Instructions on the Back)

1. Agency Position No. FDI219B

2. Reason for Submission
   - Redesigned
   - New
   - Other
   - Reestablishment

3. Service
   - Field
   - Other

4. Employing Office Location
   - Hdrts

5. Duty Station

6. OPM Certification No.

7. Fair Labor Standards Act
   - Exempt
   - Nonexempt

8. Financial Statements Required
   - Executive Personnel
   - Financial Disclosure

9. Position Status
   - Competitive
   - Excepted (Specify in Remarks)

10. Position Is
    - Supervisory
    - Managerial
    - Neither

11. Sensitivity
    - 1 - Not Sensitive
    - 2 - Noncritical Sensitive
    - 3 - Critical
    - 4 - Special Sensitive

12. Subject to IA Action
   - Yes
   - No

13. Competitive Level Code

14. Agency Use

15. Classified/Graded by

   a. Office of Personnel Management

   b. Department, Agency, or Establishment

   c. Second Level Review
   d. First Level Review
   e. Recommended by Supervisor or Initiating Office

   16. Organizational Title of Position (if different from official title)

   17. Name of Employee (if vacant, specify)

18. Department, Agency, or Establishment
   a. First Subdivision
   b. Second Subdivision
   c. Third Subdivision
   d. Fourth Subdivision
   e. Fifth Subdivision

19. Employee Review—This is an accurate description of the major duties and responsibilities of my position.

20. Supervisory Certification. I certify that this is an accurate statement of the major duties and responsibilities of this position and its organizational relationships, and that the position is necessary to carry out Government functions for which I am responsible. This certification is made with the knowledge that this information is to be used for statutory purposes relating to appointment and payment of public funds, and that false or misleading statements may constitute violations of such statutes or their implementing regulations.

   a. Typed Name and Title of Immediate Supervisor

   b. Typed Name and Title of Higher-Level Supervisor or Manager (optional)

   21. Classification/Job Grading Certification. I certify that this position has been classified/graded as required by Title 5, U.S. Code, in conformance with standards published by the U.S. Office of Personnel Management or, if no published standards apply directly, consistently with the most applicable published standards.

   a. Typed Name and Title of Official Taking Action
   b. Classification Program Manager

   22. Position Classification Standards Used in Classifying/Grading Position

   23. Position Review

   a. Employee (optional)
   b. Supervisor
   c. Classifier

   24. Remarks

   Full performance is at the GS-7 level.

25. Description of Major Duties and Responsibilities (See Attached)

   Information for Employees. The standards, and information on their application, are available in the personnel office. The classification of the position may be reviewed and corrected by the agency or the U.S. Office of Personnel Management. Information on classification/job grading appeals, and complaints on exemption from FLSA, is available from the personnel office or the U.S. Office of Personnel Management.

   Full performance is at the GS-7 level.
Instructions for Completing Optional Form 8

POSITION DESCRIPTION

In order to comply with the requirements of FPM Chapter 295, subchapter 3, and other provisions of the FPM, agencies must complete the items marked by an asterisk. Agencies may determine what other items are to be used.

**1.** Enter position number used by the agency for control purposes. See FPM Chapter 312, Subchapter 3.

**2.** Check one.

- "Redescription" means the duties and/or responsibilities of an existing position are being changed.
- "New" means the position has not previously existed.
- "Reestablishment" means the position previously existed, but had been cancelled.
- "Other" covers such things as change in title or occupational series without a change in duties or responsibilities.
- The "Explanation" section should be used to show the reason if "Other" is checked, as well as any position(s) replaced by position number, title, pay plan, occupational code, and grade.

**3.** Check one.

- *4.** Enter geographical location by city and State (or if position is in a foreign country, by city and country).

- *5.** Enter geographical location if different from that of #4.

**6.** To be completed by OPM when certifying positions. (See Item 15 for date of OPM certification.) For SES and GS-16/18 positions and equivalent, show the position number used on OPM Form 1390 (e.g., DAES0712).

**7.** Check one to show whether the incumbent is exempt or nonexempt from the minimum wage and overtime provisions of the Fair Labor Standards Act. See FPM Chapter 551.

**8.** Check box if statement is required. See FPM Chapter 73 for the Executive Personnel Financial Disclosure Report, SF 278. See FPM Chapter 735, Subchapter 4, for the Employment and Financial Interests Statement.

**9.** Check one to show whether identical Additional positions are permitted. See FPM Chapter 312, Subchapter 4. Agencies may show the number of such positions authorized and/or established after the "Yes" block.

**10.** Check one. See FPM Chapter 212 for information on the competitive service and FPM Chapter 213 for the excepted service. For a position in the excepted service, enter authority for the exception, e.g., "Schedule A-213.3102(d) for Attorney positions excepted under Schedule A of the Civil Service Regulations. SES (Gen) stands for a General position in the Senior Executive Service, and SES (CR) stands for a Career Reserved position.

**11.** Check one.

- A "Supervisory" position is one that meets the requirements for a supervisory title as set forth in current OPM classification and job-grading guidance. Agencies may designate first-level supervisory positions by placing "1" or "1st" after "Supervisory."

- A "Managerial" position is one that meets the requirements for such a designation as set forth in current OPM classification guidance.

**12.** Check one to show whether the position is non-sensitive, noncritical sensitive, critical sensitive, or special sensitive for security purposes. If this is an ADP position, write the letter "C" beside the sensitivity.

**13.** Enter competitive level code for use in reduction-in-force actions. See FPM Chapter 551.

**14.** Agencies may use this block for any additional coding requirement.

**15.** Enter classification/job grading action.

- For "Official Title of Position," see the applicable classification or job grading standard. For positions not covered by a published standard, see the General Introduction to "Position Classification Standards," Section III, for GS positions, or FPM Supplement 512-1, "Job Grading System for Trades and Labor Occupations," Part 1, Section III.

- For "Pay Plan code, see FPM Supplement 292-1, "Personnel Data Standards," Book III.

- For "Occupational Code," see the applicable standard; or, where no standard has been published, see the "Handbook of Occupational Groups and Series of Classes" for GS positions, or FPM Supplement 512-1, Part 3, for trades and labor positions. For all positions in scientific and engineering occupations, enter the two-digit functional classification code in parentheses immediately following the occupational code, e.g., "GS-1310(14)," The codes are listed and discussed in the General Introduction to "Position Classification Standards," Section VI.

**16.** Enter the organizational, functional, or working title if it differs from the official title.

**17.** Enter the name of the incumbent. If there is no incumbent, enter "vacancy."

**18.** Enter the organizational location of the position, starting with the name of the department or agency and working down from there.

**19.** If the position is occupied, have the incumbent read the attached description of duties and responsibilities. The employee's signature is optional.

**20.** This statement normally should be certified by the immediate supervisor of the position. At its option, an agency may also have a higher-level supervisor or manager certify the statement.

**21.** This statement should be certified by the agency official who makes the classification/job grading decision. Depending on agency regulations, this official may be a personnel office representative, or a manager or supervisor delegated classification/job grading authority.

**22.** Enter the position classification/job grading standard(s) used and the date of issuance, e.g., "Mail and File, GS-305, May 1977."

**23.** Agencies are encouraged to review periodically each established position to determine whether the position is still necessary and, if so, whether the position description is adequate and classification/job grading is proper. See FPM Letter 536-1 (to be incorporated into FPM Chapter 536). This section may be used as part of the review process. The employee's initials are optional. The initials by the supervisor and classifier represent recertifications of the statements in items #20 and #21 respectively.

**24.** This section may be used by the agency for additional coding requirements or for any appropriate remarks.

**25.** Type the description on plain bond paper and attach to the form. The agency position number should be shown on the attachment. See appropriate instructions for format of the description and for any requirements for evaluation documentation, e.g., "Instructions for the Factor Evaluation System," in the General Introduction to "Position Classification Standards," Section VII.
Forestry Technician
Fire Operations and Prescribed Fire/Fuels Technician
GS-462-06

Legacy SPD#: DOI119

I. INTRODUCTION

This is a standard wildland fire management position description intended for use in the Department of the Interior (DOI). As a developmental position, the incumbent is provided appropriate training and developmental assignments to assume the full performance position which is identified as a key fire management position in a field fire management organization as a Fire Operations and Prescribed Fire/Fuels Technician. This is a career ladder position. Full performance is at the GS-7 level.

Primary responsibilities of the position are (1) wildland fire preparedness and suppression; and, (2) preparing and implementing prescribed fire plans, manual and mechanical fuels treatments, and monitoring smoke, fire effects and mechanical fuels treatment effectiveness. The incumbent also conducts field surveys to determine the location and significance of hazardous fuel conditions.

II. MAJOR DUTIES

In a developmental capacity, the employee performs the following under the direction of senior staff:

Planning (40%)

Assists in wildland fire prevention and preparedness programs and activities. Follows standard procedures/checklists to ensure the readiness of wildland fire suppression equipment and personnel. Organizes fire caches, maintains inventory and accountable property, positions equipment and personnel for the most efficient response, evaluates equipment and personnel needs, and develops and prioritizes equipment and personnel funding requests.

Prepares and reviews plans and or plan components such as annual operating plans, fire danger rating plans, training plans, fire suppression plans, safety plans, and individual project plans.

Plans and conducts project assessments which determine the presence or absence of hazardous wildland fuels. Information on fuel conditions and predictions of fire behavior are collected through a variety of methods, including field surveys, computer modeling, and specific literature searches. Results are reported to the Prescribed Fire/Fuels Specialist and used in the determination and prioritization of prescribed fire, mechanical treatment, and other fuel treatment projects.

Reviews project plans and makes recommendations on appropriate levels of monitoring. Establishes study plots to assess fire and fire suppression impacts on the ecosystem. Develops
and refines plot characteristics, frequency of visits, subjects to be measured, and data storage and analysis techniques.

Participates in drafting prescribed fire/fuels management plans following the interagency template. This involves reviewing fuel treatment alternatives and may include preparing segments of a plan to support fire management program objectives.

Utilizes fire model applications to analyze fire behavior and fire effects observation data.

**Operations and Safety (60%)**

Participates in wildland fire suppression efforts in initial attack and in follow-up actions to safely and effectively control wildland fires in accordance with the identified/directed management response.

Implements components of the preparedness program such as detection, readiness, cooperative agreements, fire danger/behavior predictions, severity requests, and dispatching.

Participates in all aspects of the prescribed fire/fuels plan, ensuring that preparation, ignition, holding, mop-up, and repair/rehabilitation are completed to the standards specified.

During the implementation of prescribed fire plans, fuels projects, and managing wildfire plans, monitors fire behavior, evaluates fire effects, identifies potential problems and makes recommendations.

Identifies and recommends options for training needs to support prescribed fire and fuels management programs.

Participates in wildland fire and safety training in the techniques, practices, and methods of fire suppression and fuels management, and in the safe, efficient operation and use of tools, equipment, and vehicles used in fire and fuels management activities.

Participates in preparedness and fuels program reviews, proficiency checks and drills, safety sessions, and after action reviews. Ensures own and other's welfare and safety.

**OTHER SIGNIFICANT FACTS**

This position is subject to the qualifications and additional required training specified in the Interagency Fire Program Management (IFPM) Qualifications Standards and Guide.

This is an administrative position in an organization having a firefighting mission, and is in an established career path. Prior firefighting experience, as gained by substantial service in a primary firefighter position or equivalent experience outside the Federal government is a MANDATORY PREREQUISITE for incumbents of this position.

This position requires a valid state driver's license to operate a variety of motor vehicles to transport equipment, supplies, crewmembers, and others (as required).
May require certification to use/operate specialized fire equipment.

This is a Testing Designated Position (TDP) under the Department of the Interior Drug-Free and Alcohol-free Workplace Program.

Employee is subject to medical examination and must pass the work capacity test for arduous positions.

This position may involve performing strenuous activities under rigorous fieldwork conditions during emergency situations requiring above average physical performance, endurance and superior conditioning. Operation of some specialized fire equipment can place extended physical stress on incumbent during fire activities.

Performs other similar duties as assigned.

III. FACTOR LEVELS

Factor 1. Knowledge Required by the Position (Level 1-4, 550 points)

Knowledge of agency preparedness level V step-up planning policy, based on fire danger indices, sufficient to adjust anticipated suppression response workloads.

Specific technical firefighting knowledge such as, but not limited to, fire engine and pump operations, hose lays, handcrew operations and/or helicopter operations to enable the incumbent to function in assigned capacities and to instruct or supervise others in those duties if necessary.

Specialized knowledge and necessary certifications such as, chainsaw operation and repair, long line certification, rappelling, pump operation and water handling, use of specialized equipment used in response to wildland urban interface situations, and helicopter accessory equipment used in wildland fire management and prescribed burns.

Knowledge of wildland and urban interface fire suppression strategies and tactics.

Knowledge of and the ability to apply agency and departmental policies, directives, guidelines and practices regarding wildland fire suppression, and prescribed fire and fuels treatment operations.

Knowledge of the effects of fire on natural and cultural resources.

Understanding of fire ecology principles as they apply to local fuel and vegetation types, fire research methods and procedures, fire weather, smoke management, fire behavior and the methods used to monitor, describe, analyze and predict fire behavior.

Knowledge and experience in (1) wildland fire preparedness and suppression; and, (2) prescribed fire operations, including burning techniques, fuels inventory, preparation of burn plans,
prescriptions, firing procedures, holding strategies and site rehabilitation; and the effects of
wildland fire management and fire suppression activities and how they affect natural and cultural
resources. Prior wildland firefighting experience is a mandatory requirement.

Knowledge and skill in the care, maintenance, and utilization of wildland fire suppression and
prescribed fire and fuels treatment equipment.

Knowledge of accepted fire safety practices and procedures. Knowledge of fire behavior
prediction techniques and technologies.

Oral and written communication skills sufficient to record and transmit findings and
observations.

**Factor 2. Supervisory Controls**  
(Level 2-2, 150 points)

In a developmental training capacity, works under the direction of the supervisor and/or
appropriate fire management staff who provides instructions and explanations on assignments
and provides guidance on work in progress, moving from simple to more complex in nature
assignments as the employee gains experience. The employee is responsible for independently
carrying out recurring work assignments. Completed work is reviewed by the supervisor/senior
fire management staff for accuracy, adequacy, and compliance with instructions and procedures.

**Factor 3. Guidelines**  
(Level 3-2, 125 points)

General guidance can be found in agency and bureau published directives such as: wildland
fire/fuels operations manuals, safety regulations, handbooks, and guides.

Specific guidance is also contained in the prescribed fire and fuels treatment plans, job hazard
analysis, natural and cultural resource plans, interagency agreements, and memorandums of
understanding.

Since every possible situation cannot be anticipated and covered in training, the employee must
use judgment in applying knowledge, especially in situations where the supervisor is not
available for consultation.

**Factor 4. Complexity**  
(Level 4-2, 75 points)

In a developmental training capacity and working closely with the supervisor and/or appropriate
senior fire management staff, the employee works on routine assignments or projects that are
developmental in nature that will increase in complexity as the employee develops the
competencies required to perform the duties and responsibilities of the full performance SPD
which serves as a key position in the assigned fire management unit, providing technical
assistance in planning and implementing the full range of wildfire response, prescribed fire, and
fuels activities.
The employee must consider and evaluate factors such as fuel loading, ecosystem dynamics, fire history, fire situation and fire danger, resource availability, weather, smoke management issues, public safety, resources threatened, safety hazards, costs, and monitoring problems before determining, selecting and applying appropriate courses of action within established and standard practices. At times, the employee must identify, evaluate, and consider the interrelationships of the fire and physical environment in order to select the most appropriate methods from among alternatives. Deviations to standard practices must be raised to the supervisor/senior wildland fire management staff.

**Factor 5. Scope and Effect**

(Level 5-2, 75 points)

In a developmental training capacity and works independently on routine assignments involving the application of specific rules, regulations, or procedures and typically comprises a complete segment of an assignment or project of broader scope.

As the employee gains experience, assignments will move from simple to more complex in order to assume the full responsibilities described in the full performance SPD where the work involves performing complex fire management support work and to assist in the development of wildfire response, prescribed fire, and fuels treatment plans; to assist others in the implementation of these plans; and to collect information for scientifically based management of prescribed fire operations. The effect of the work performed is to minimize loss of natural resources, improvements, property or life as well as contribute to the design and execution of projects, the accuracy and acceptability of findings and recommendations, and provides an essential basis for management conclusions and plans.

**Factors 6 and 7. Personal Contacts and Purpose of Contacts**

(Level 2-b, 75 points)

Primary contacts are with wildland fire management, prescribed fire, and fuels treatment project personnel, and others in non-fire functions. Contacts are also frequently made with personnel from other local, state, federal, and tribal agencies. Other significant contacts include contractors, news media, local community leaders, cooperators, and the general public.

The primary purpose of contacts is to provide information, plan and conduct or manage wildland fire for resource benefit, prescribed fire, and fuels treatment projects. Contacts are also made to coordinate activities, ensure compliance with established safe practices, solve operational problems, resolve conflicts, and conduct training.

**Factor 8. Physical Demands**

(Level 8-3, 50 points)

Arduous: Duties involve rigorous fieldwork requiring above average physical performance, endurance and superior conditioning. Work requires prolonged standing, walking over uneven ground, and recurring bending, reaching, lifting and carrying of items weighing over 50 pounds and shared lifting and carrying of heavier items, and similar strenuous activities requiring at least average agility and dexterity.
Duties include demands for strenuous activities in emergencies under adverse environmental conditions and over extended periods of time. Operation of some specialized fire equipment can place extended physical stress on incumbent during fire activities.

**Factor 9. Work Environment (Level 9-3, 50 points)**

The work is primarily performed in forest and range environments in steep terrain where surfaces may be extremely uneven, rocky, covered with vegetation, and in smoky conditions.

Temperatures vary from above 100 degrees F to below freezing. Risks include smoke inhalation, fire entrapment, snake or insect bites and stings, exposure to excessive machinery noise, and falling and rolling material. Personnel must adjust and cope with exposure to adverse weather elements, dust and smoke, poor sleeping and eating conditions and unpredictable sets of circumstances. Incumbent may be required to live in backcountry camps for extended periods of time. The hazardous nature of the work requires that personal protective equipment be worn (boots, hardhat, gloves, flame resistant clothing, etc.). Work may require travel by light fixed-wing or rotor-wing aircraft.

POSITION DESCRIPTION

In order to comply with the requirements of FPM Chapter 295, subchapter 3, and other provisions of the FPM, agencies must complete the items marked by an asterisk. Agencies may determine what other items are to be used.

1. Enter position number used by the agency for control purposes. See FPM Chapter 312, Subchapter 3.

2. Check one.
   - "Redescription" means the duties and/or responsibilities of an existing position are being changed.
   - "New" means the position has not previously existed.
   - "Reestablishment" means the position previously existed, but had been cancelled.
   - "Other" covers such things as change in title or occupational series without a change in duties or responsibilities.
   - The "Explanatory" section should be used to show the reason if "Other" is checked, as well as any position(s) replaced by position number, title, pay plan, occupational code, and grade.

3. Check one.

4. Enter geographical location by city and State (or if position is in a foreign country, by city and country).

5. Enter geographical location if different from that of #4.

6. To be completed by OPM when certifying positions. (See Item 15 for date of OPM certification.) For SES and GS-10/15 positions and equivalent, show the position number used on OPM Form 1390 (e.g., DAES0012).

7. Check one to show whether the incumbent is exempt or nonexempt from the minimum wage and overtime provisions of the Fair Labor Standards Act. See FPM Chapter 551.

8. Check box if statement is required. See FPM Chapter 734 for the Executive Personnel Financial Disclosure Report, SF 278. See FPM Chapter 735, Subchapter 4, for the Employment and Financial Interests Statement.

9. Check one to show whether identical additional positions are permitted. See FPM Chapter 312, Subchapter 4. Agencies may show the number of such positions authorized and/or established after the "Yes" block.

10. Check one. See FPM Chapter 212 for information on the competitive service and FPM Chapter 213 for the excepted service. For a position in the excepted service, enter authority for the exception, e.g., "Schedule A-213.3102(d)" for Attorney positions, excepted under Schedule A of the Civil Service Regulations. SES (Gen) stands for a General position in the Senior Executive Service, and SES (CR) stands for a Career Reserved position.

11. Check one.
   - A "Supervisory" position is one that meets the requirements for a supervisory title as set forth in current OPM classification and job-grading guidance. Agencies may designate first-level supervisory positions by placing "1" or "1st" after "Supervisory."
   - A "Managerial" position is one that meets the requirements for such a designation as set forth in current OPM classification guidance.

12. Check one to show whether the position is non-sensitive, noncritical sensitive, critical sensitive, or special sensitive for security purposes. If this is an ADP position, write the letter "C" beside the sensitivity.

13. Enter competitive level code for use in reduction-in-force actions. See FPM Chapter 351.

14. Agencies may use this block for any additional coding requirement.

15. Enter classification/job grading action.
   - For "Official Title of Position," see the applicable classification or job grading standard. For positions not covered by a published standard, see the General Introduction to "Position Classification Standards," Section III, for GS positions, or FPM Supplement 512-1, "Job Grading System for Trades and Labor Occupations," Part I, Section III.
   - For "Pay Plan code, see FPM Supplement 292-1, "Personnel Data Standards," Book III.
   - For "Occupational Code," see the applicable standard; or, if none exists, see the "Handbook of Occupational Groups and Series of Classes" for GS positions, or FPM Supplement 512-1, Part 3, for trades and labor positions. For all positions in scientific and engineering occupations, enter the two-digit functional classification code in parentheses immediately following the occupational code, e.g., "GS-1310(14)." The codes are listed and discussed in the General Introduction to "Position Classification Standards," Section VI.

16. Enter the organizational, functional, or working title if it differs from the official title.

17. Enter the name of the incumbent. If there is no incumbent, enter "vacancy."

18. Enter the organizational location of the position, starting with the name of the department or agency and working down from there.

19. If the position is occupied, have the incumbent read the attached description of duties and responsibilities. The employee's signature is optional.

20. This statement normally should be certified by the immediate supervisor of the position. At its option, an agency may also have a higher-level supervisor or manager certify the statement.

21. This statement should be certified by the agency official who makes the classification/job grading decision. Depending on agency regulations, this official may be a personnel office representative, a manager, or supervisor delegated classification/job grading authority.

22. Enter the position classification/job grading standard(s) used and the date of issuance, e.g., "Mail and File, GS-305, May 1977."

23. Agencies are encouraged to review periodically each established position to determine whether the position is still necessary and, if so, whether the position description is adequate and classification/job grading is proper. See FPM Letter 536-1 (to be incorporated into FPM Chapter 536). This section may be used as part of the review process. The employee's initials are optional. The initials by the supervisor and classifier represent recertifications of the statements in items #20 and #21 respectively.

24. This section may be used by the agency for additional coding requirements or for any appropriate remarks.

25. Type the description on plain bond paper and attach to the form. The agency position number should be shown on the attachment. See appropriate instructions for format of the description and for any requirements for evaluation documentation, e.g., "Instructions for the Factor Evaluation System," in the General Introduction to "Position Classification Standards," Section VII.
Forestry Technician
Fire Operations and Prescribed Fire/Fuels Technician
GS-462-07

Legacy SPD#: DOI119

I. INTRODUCTION

This is a full performance level standard wildland fire management position description intended for use in the Department of the Interior (DOI). The incumbent serves in a key fire management position in a field fire management organization as a Fire Operations and Prescribed Fire/Fuels Technician. This position is at the full performance level.

Primary responsibilities of the position are (1) wildland fire preparedness and suppression; and, (2) preparing and implementing prescribed fire plans, manual and mechanical fuels treatments, and monitoring smoke, fire effects and mechanical fuels treatment effectiveness. The incumbent also conducts field surveys to determine the location and significance of hazardous fuel conditions.

II. MAJOR DUTIES

Planning (40%)

Assists in wildland fire prevention and preparedness programs and activities. Ensures readiness of wildland fire suppression equipment and personnel. Organizes fire caches, maintains inventory and accountable property, positions equipment and personnel for the most efficient response, evaluates equipment and personnel needs, and develops and prioritizes equipment and personnel funding requests.

Prepares and reviews plans and or plan components such as annual operating plans, fire danger operating plans, prevention plans, training plans, fire suppression plans, safety plans, and individual project plans.

Plans and conducts project assessments which determine the presence or absence of hazardous wildland fuels. Information on fuel conditions and predictions of fire behavior are collected through a variety of methods, including field surveys, computer modeling, and specific literature searches. Results are reported to the Prescribed Fire/Fuels Specialist and used in the determination and prioritization of prescribed fire, mechanical treatment projects, and other fuels treatments.

Reviews project plans and makes recommendations on appropriate levels of monitoring. Establishes study plots to assess fire and fire suppression impacts on the ecosystem. Develops and refines plot characteristics, frequency of visits, subjects to be measured, and data storage and analysis techniques.
Participates in drafting prescribed fire/fuels management plans following templates. This involves reviewing fuel treatment alternatives and may include preparing segments of a plan to support objectives of the fire management program.

Utilizes fire model applications to analyze fire behavior and fire effects observation data.

**Operations and Safety (60%)**

Directs and performs wildfire suppression efforts in initial attack and in follow-up actions to safely and effectively manage wildfires in accordance with the identified/directed management response.

Implements components of the preparedness program such as detection, readiness, cooperative agreements, fire danger/behavior predictions, severity requests, and dispatching.

Serves on prescribed fire and fuels projects in positions for which qualified. Technically administers all aspects of the prescribed fire/fuels plan, ensuring that preparation, ignition, holding, mop-up, and repair/rehabilitation are completed to the standards specified.

During the implementation of prescribed fire plans, fuels projects, and wildfire, monitors fire behavior, evaluates fire effects, identifies potential problems and makes recommendations.

Identifies and provides for training needs to support prescribed fire and fuels management programs.

Participates in wildland fire and safety training in the techniques, practices, and methods of wildfire suppression and in the safe, efficient operation and use of tools, equipment, and vehicles used in wildfire and fuels management activities.

Participates in preparedness and fuels reviews, proficiency checks and drills, safety sessions, and after action reviews. Ensures own and other's welfare and safety.

**OTHER SIGNIFICANT FACTS**

This position is subject to the qualifications and additional required training specified in the Interagency Fire Program Management (IFPM) Qualifications Standards and Guide.

This is an administrative position in an organization having a firefighting mission, and is in an established career path. Prior firefighting experience, as gained by substantial service in a primary firefighter position or equivalent experience outside the Federal government is a MANDATORY PREREQUISITE for incumbents of this position.

This position requires a valid state driver's license to operate a variety of motor vehicles to transport equipment, supplies, crewmembers, and others (as required).

May require certification to use/operate specialized fire equipment.
This is a Testing Designated Position (TDP) under the Department of the Interior Drug-Free and Alcohol-free Workplace Program.

Employee is subject to medical examination and must pass the work capacity test for arduous positions.

This position may involve performing strenuous activities under rigorous fieldwork conditions during emergency situations requiring above average physical performance, endurance and superior conditioning. Operation of some specialized fire equipment can place extended physical stress on incumbent during fire activities.

Performs other similar duties as assigned.

III. FACTOR LEVELS

Factor 1. Knowledge Required by the Position       (Level 1-4, 550 points)

Knowledge of agency preparedness level V step-up planning policy, based on fire danger indices, sufficient to adjust anticipated suppression response workloads.

Specific technical firefighting knowledge such as, but not limited to, fire engine and pump operations, hose lays, handcrew operations and/or helicopter operations to enable the incumbent to function in assigned capacities and to instruct or supervise others in those duties if necessary.

Specialized knowledge and necessary certifications such as, chainsaw operation and repair, long line certification, rappelling, pump operation and water handling, use of specialized equipment used in response to wildland urban interface situations, and helicopter accessory equipment used in wildland fire management and prescribed burns.

Knowledge of wildland and urban interface fire suppression strategies and tactics.

Knowledge of and the ability to apply agency and departmental policies, directives, guidelines and practices regarding wildfire suppression, and prescribed fire and fuels treatment operations.

Knowledge of the effects of fire on natural and cultural resources. Understanding of fire ecology principles as they apply to local fuel and vegetation types, fire research methods and procedures, fire weather, smoke management, fire behavior and the methods used to monitor, describe, analyze and predict fire behavior.

Knowledge and experience in (1) wildfire preparedness and suppression; (2) prescribed fire operations, including burning techniques, fuels inventory, preparation of burn plans, prescriptions, firing procedures, holding strategies and site rehabilitation; (3) fuels management; and (4) the effects of wildland fire/fuels management and fire suppression activities and how they affect natural and cultural resources. Prior wildland firefighting experience is a mandatory requirement.
Knowledge and skill in the care, maintenance, and utilization of wildfire suppression and prescribed fire and fuels treatment equipment.

Knowledge of accepted fire safety practices and procedures. Knowledge of fire behavior prediction techniques and technologies.

Oral and written communication skills sufficient to record and transmit findings and observations.

Factor 2. Supervisory Controls (Level 2-3, 275 points)

Supervisor defines objectives and sets priorities and deadlines. Incumbent is relied upon to independently carry assignments through to completion. Work plans for non-routine activities and controversial aspects of assignments are typically discussed with supervisor or the Fire Management Specialist. The supervisor is usually available for consultation and advice on new practices or significantly modified principles and practices. Completed work is reviewed for appropriateness and technical soundness. Methods are not typically reviewed in detail.

Factor 3. Guidelines (Level 3-2, 125 points)

General guidance can be found in agency and bureau published directives such as: wildland fire/fuels operations manuals, safety regulations, handbooks, and guides.

Specific guidance is also contained in the prescribed fire and fuels treatment plans, job hazard analysis, natural and cultural resource plans, interagency agreements, and memorandums of understanding.

Since every possible situation cannot be anticipated and covered in training, the employee must use judgment in applying knowledge, especially in situations where the supervisor is not available for consultation.

Factor 4. Complexity (Level 4-3, 150 points)

The incumbent's position has key responsibility for providing fire management technical assistance in planning and implementing the full range of wildfire, prescribed fire, and fuels activities. This involves considering and evaluating factors such as fuel loading, ecosystem dynamics, fire history, fire situation and fire danger, resource availability, weather, smoke management issues, public safety, resources threatened, safety hazards, costs, and monitoring problems. The incumbent must identify, evaluate, and consider the interrelationships of the fire and physical environment in order to select the most appropriate methods from among alternatives.

Factor 5. Scope and Effect (Level 5-3, 150 points)
The purpose of the incumbent's work is to perform complex fire management support work and to assist in the development of wildland fire for resource benefit, prescribed fire, and fuels treatment plans; to assist others in the implementation of these plans; and to collect information for scientifically based management of prescribed fire operations. The work directly affects the design and execution of projects, the accuracy and acceptability of findings and recommendations, and provides an essential basis for management conclusions and plans.

**Factors 6 and 7. Personal Contacts and Purpose of Contacts**  (Level 2-b, 75 points)

Primary contacts are with wildland fire management, prescribed fire, and fuels treatment project personnel, and others in non-fire functions. Contacts are also frequently made with personnel from other local, state, federal, and tribal agencies. Other significant contacts include contractors, news media, local community leaders, cooperators, and the general public.

The primary purpose of contacts is to provide information, plan and conduct wildland fire management for resource benefit, prescribed fire, and fuels treatment projects. Contacts are also made to coordinate activities, ensure compliance with established safe practices, solve operational problems, resolve conflicts, and conduct training.

**Factor 8. Physical Demands**  (Level 8-3, 50 points)

Arduous: Duties involve rigorous fieldwork requiring above average physical performance, endurance and superior conditioning. Work requires prolonged standing, walking over uneven ground, and recurring bending, reaching, lifting and carrying of items weighing over 50 pounds and shared lifting and carrying of heavier items, and similar strenuous activities requiring at least average agility and dexterity.

Duties include demands for strenuous activities in emergencies under adverse environmental conditions and over extended periods of time. Operation of some specialized fire equipment can place extended physical stress on incumbent during fire activities.

**Factor 9. Work Environment**  (Level 9-3, 50 points)

The work is primarily performed in forest and range environments in steep terrain where surfaces may be extremely uneven, rocky, covered with vegetation, and in smoky conditions.

Temperatures vary from above 100 degrees F to below freezing. Risks include smoke inhalation, fire entrapment, snake or insect bites and stings, exposure to excessive machinery noise, and falling and rolling material. Personnel must adjust and cope with exposure to adverse weather elements, dust and smoke, poor sleeping and eating conditions and unpredictable sets of circumstances. Incumbent may be required to live in backcountry camps for extended periods of time. The hazardous nature of the work requires that personal protective equipment be worn (boots, hardhat, gloves, flame resistant clothing, etc.). Work may require travel by light fixed-wing or rotor-wing aircraft.
