Subject: Jeffco Airtanker Base Temporary Relocation to Ft. Collins/Loveland

Area of Concern: Airtanker Operations

Discussion: The Jeffco Airtanker Base located at the Rocky Mountain Metropolitan Airport (BJC) has temporarily been relocated to the Fort Collins/ Loveland Airport (FNL) until approximately July 5th, due to resurfacing of the main runway at BJC. The temporary base is located in the commercial airline terminal and ramp of the airport on the north east side of the airfield. The USFS has received an overweight waiver (155,000 max load) for Large Airtankers (including MAFFS) to operate from FNL for the 2014 season. **The diagonal/ High-speed Taxiways A2 and A3 are unusable to Large Airtankers except in case of emergency.**

Base Frequency: 123.725

Base Phone Number: 970-461-9310

Base Address: 4826 Earhart Dr. Loveland CO, 80538
