### Department of Environmental Quality Office of Environmental Services Air Permits Division

#### Suspension of Stage II Vapor Recovery Systems Requirements for Control of Vehicle Refueling Emissions at Gasoline Dispensing Facilities (LAC 33:III.2132)

On May 16, 2012, the EPA published a notice in the *Federal Register* (77 FR 28772) stating the EPA administrator signed a notice of final rulemaking determining that onboard refueling vapor recovery systems are in widespread use throughout the motor vehicle fleet. Therefore, the EPA administrator exercised her authority to waive the statutory requirements that ozone nonattainment areas adopt and implement EPA programs requiring stage II gasoline vapor recovery systems at certain gasoline dispensing facilities. (1211Pot1)

Notice is given that the Department of Environmental Quality (DEQ) is hereby suspending the requirements under LAC 33:III.2132 to install CARB-approved stage II vapor recovery systems in newly constructed motor vehicle fuel

dispensing facilities (MVFD) after May 16, 2012 in the affected parishes of Ascension, East Baton Rouge, Iberville, Livingston, Pointe Coupee, and West Baton Rouge.

The suspension of these requirements only applies to:

1. any new MVFD that began construction on or after May 16, 2012 and has not begun dispensing fuel, and would otherwise be required under LAC 33:III.2132 to install CARB approved stage II vapor recovery systems;

2. any new MVFD that has not begun dispensing fuel - which began construction before May 16, 2012, and which can certify that stage II equipment has not begun to be installed at the facility;

3. any existing MVFD that becomes subject to Stage II requirements due to an increase in throughput as specified in LAC 33:III.2132 on or after May 16, 2012 and would otherwise be required to install stage II vapor recovery systems.

MVFDs currently equipped with stage II systems must continue to comply with existing stage II requirements in LAC 33:III.2132. Also, MVFDs that meet the requirements of this directive must continue to comply with the stage I requirements in LAC 33:III.2131. A violation of effective regulations may subject the violator to enforcement.

DEQ will continue to evaluate the stage II regulations and the state implementation plan for possible withdrawal of stage II systems requirements in LAC 33:III.2132 pursuant to EPA guidance. Please be advised that any discretion exercised by the department is not necessarily representative of any action the EPA or any third parties may initiate.

If you have questions, please call Vivian Aucoin at (225) 219-3389 or Gilberto Cuadra at (225) 219-3419, or via email to [vivian.aucoin@la.gov](mailto:vivian.aucoin@la.gov) or to [gilberto.cuadra@la.gov](mailto:gilberto.cuadra@la.gov).

### Department of Public Safety and Corrections Oil Spill Coordinator's Office

#### Deepwater Horizon Oil Spill; Draft Phase II Early Restoration Plan and Environmental Review Notice Correction

**Action:** Notice of availability and request for comments; correction.

The Louisiana Oil Spill Coordinator's Office published a Notice of Availability and request for comments in the October 2012 Louisiana Register on pages 2670-2671 providing information related to the *Deepwater Horizon* Oil Spill and proposed early restoration. This correction notice corrects and amends the information provided in the October Register notice:

The correct title of the document released for public comment is the "Draft Phase II Early Restoration Plan and Environmental Review" ("Phase II DERP/ER"). All

reference to the "Draft Phase II Early Restoration Plan and Environmental Assessment" or "Phase II DERP/EA" are hereby deleted and replaced with "Draft Phase II Early Restoration Plan and Environmental Review" or "Phase II DERP/ER", as appropriate.

The Phase II DERP/ER was released on November 6, 2012.

**Comment Due Date:** Public comments on the Phase II DERP/ER received on or before December 10, 2012 will be considered.

**Addresses**

**Obtaining Documents:** You may download the Phase II DERP/ER at <http://losco-dwh.com/>.

Alternatively, you may request a CD of the Phase II DERP/ER (see *for further information contact*). You may also review hard copies of the Phase II DERP/ER at the public repositories listed at <http://losco-dwh.com/>.

**Submitting Comments:** You may submit comments on the Phase II DERP/ER by one of the methods listed in the Phase II DERP/ER or any of the following:

Via the Web: <http://losco-dwh.com/EarlyRestorationPlanning.aspx>

For electronic submission of comments containing attachments, email: [Karolien.Debusschere@la.gov](mailto:Karolien.Debusschere@la.gov)

U.S. Mail: Louisiana Oil Spill Coordinator's Office, P.O. Box 66614, Baton Rouge, LA 70806 or U.S. Fish and Wildlife Service, P.O. Box 2099, Fairhope, AL 36533.
