

Fisheries Resource Monitoring Program

The mission of the Monitoring Program is to identify and provide information needed to sustain subsistence fisheries on Federal public lands, for rural Alaskans...

Overview

The Fisheries Resource Monitoring Program (Monitoring Program) is unique to Alaska. It was established in 1999 under Title VIII of ANILCA and is run by the Office of Subsistence Management. The Monitoring Program is a competitive funding source for studies on subsistence fisheries that are intended to expand the understanding of subsistence harvest (Harvest Monitoring), traditional knowledge of subsistence resources (Traditional Ecological Knowledge), and the populations of subsistence fish resources (Stock Status and Trends). Gathering this information improves the ability to manage subsistence fisheries in a way that will ensure the continued opportunity for sustainable subsistence use by rural Alaskans on Federal public lands.

Funding Regions

Funding for the Monitoring Program is separated into six regions: the *Northern Region*, which includes the North Slope, Northwest Arctic, and Seward Peninsula Regional Advisory Councils; the *Yukon Region* includes the Yukon-Kuskokwim Delta, Western Interior, and Eastern Interior Regional Councils; the *Kuskokwim Region* includes the Western Interior and Yukon-Kuskokwim Delta Regional Advisory Councils; the *Southwest Region* includes the Bristol Bay and Kodiak/Aleutians Regional Advisory Councils; the *Southcentral Region* includes the Southcentral Regional Advisory Council; and, the *Southeast Region* includes the Southeast Regional Advisory Council.

Table 1. Regional Advisory Councils represented within each of the six Funding Regions for the Fisheries Resource Monitoring Program.

Funding Region	Regional Advisory Councils
1. Northern	North Slope, Northwest Arctic, and Seward Peninsula
2. Yukon	Yukon-Kuskokwim Delta, Western Interior, and Eastern Interior
3. Kuskokwim	Western Interior and Yukon-Kuskokwim Delta
4. Southwest	Bristol Bay and Kodiak/Aleutians
5. Southcentral	Southcentral
6. Southeast	Southeast

Subsistence Resource Concerns

For each of the six funding regions Federal Subsistence Regional Advisory Councils and other stakeholders have identified subsistence fishery resource concerns (Priority Information Needs). These are used by the Monitoring Program to request project proposals that will provide managers with the information needed to address those resource concerns.

In the coming year there will be at least two opportunities for Regional Advisory Councils and other stakeholders to discuss subsistence fishery resource concerns for their Monitoring Program funding regions. These discussions will occur at each of the winter 2014 and fall 2015 Regional Advisory Councils meetings. Resource concerns identified during these discussions will be used to direct the request for proposals for studies on subsistence fisheries during the 2016 funding cycle.

Funding Cycles

Every two years the Monitoring Program requests proposals for studies on subsistence issues such as subsistence harvest (Harvest Monitoring), traditional knowledge of subsistence resources (Traditional Ecological Knowledge), and the populations of subsistence fish resources (Stock Status and Trends). The most recent funding cycle for the Monitoring Program occurred in 2014. The request for proposals was announced in spring of 2013 and funding decisions were made in winter of 2014. Projects selected to receive funding in 2014 will last from one to four years depending on the duration of the proposed study. The next funding cycle will begin with a request for proposals in spring of 2015 and funding decisions (Monitoring Plan) announced in 2016.

Funding Recommendations

Project proposals received by the Office of Subsistence Management are summarized by staff biologists and social scientists in preparation for a Technical Review Committee. The Technical Review Committee made up of members of five Federal Agencies and three representatives from Alaska Department of Fish and Game. This committee reviews and then makes recommendations on whether the project is appropriate to receive funding (Fund), needs some modifications in order to be recommended for funding (Fund with Modification), or is not an appropriate proposal to receive funding from the Monitoring Program (Do Not Fund). Funding recommendations made by the Technical Review Committee are based on how well the project would meet Strategic Priorities for the region, whether the project has sound Technical-Scientific Merit, the Ability and Resources of the researchers, and, how well the project would support Partnership-Capacity building for future projects in the region. The Technical Review Committee's funding recommendation is called the Draft Monitoring Plan.

During the fall Federal Subsistence Regional Advisory Council Meetings the Draft Monitoring Plan is reviewed by Regional Advisory Council members and a ranking of projects within the funding region is made for projects proposed within each of the six funding regions.

Following the fall Regional Advisory Council meetings and prior to the Federal Board Meeting, a second ranking of projects for the Draft Monitoring Plan is made by an Interagency Staff Committee consisting of members of each of the five federal agencies involved in subsistence management in Alaska.

The final funding recommendation is made during the Federal Subsistence Board Meeting when the Board reviews the draft Monitoring Plan and subsequent ranking recommendations made by the Regional Advisory Councils, and Interagency Staff Committee. The funding recommendation made by the Federal Subsistence Board is considered to be the final Monitoring Plan for the funding cycle. This Monitoring Plan is then approved by the Assistant Regional Director of the Office of Subsistence Management and funds are awarded to each of the projects recommended for funding in the final Monitoring Plan.

The Partners for Fisheries Monitoring
Call for Funding 2016-2019

The Office of Subsistence Management (OSM), Partners for Fisheries Monitoring Program invites proposals from eligible applicants for funding to support fishery biologist, anthropologist, and educator positions in their organization. Proposals from all geographic areas throughout Alaska will be considered; however, direct involvement in OSM's funded Fisheries Resource Monitoring Program projects is mandatory. Organizations that have the necessary technical and administrative abilities and resources to ensure successful completion of programs may submit proposals. Eligible applicants include: Regional Native Non-Profit Organizations, Federally recognized Tribal Governments and Native Corporations, and other non-profit organizations.

OSM will develop cooperative agreements to support these positions. Proposals may focus exclusively on supporting fishery biologist, anthropologists, or educator positions as principal and/ or co-investigators, or a combination of all or any of them, as long as they are coordinated with project(s) within the Fisheries Resource Monitoring Program. Positions may be full or part-time within a calendar year. Requests for funding for fishery biologist, anthropologists, or educator positions may be up to four years, but must not exceed the duration of projects approved under the Monitoring Program. \$150,000 was the maximum yearly award for the last call for proposals.

The Partner hired will live in the community where the funded organization has their base. Partners work to ensure that the highest priority Federal subsistence information needs are addressed by developing and implementing projects in the Fisheries Resource Monitoring Program (Monitoring Program) and/ or implementing rural student education and internship programs for these projects. They work directly with constituent communities to disseminate information regarding fisheries research and to answer questions regarding subsistence fisheries resources. They communicate project results to various audiences such as regional organizations and their members, the Federal Subsistence Board, Regional Advisory Councils, and government agencies.

Timeline:

The next call for proposals: November 2014 (exact date to be announced).

Proposal due date to OSM: May 2015 (exact date to be announced).

Call for Proposals to Change Federal Subsistence Fish and Shellfish Regulations

The Federal Subsistence Board is accepting proposals through March 28, 2014, to change Federal regulations for the subsistence harvest of fish and shellfish for the 2015-2017 regulatory years (April 1, 2015-March 31, 2017).

The Board will consider proposals to change Federal fishing seasons, harvest limits, methods of harvest, and customary and traditional use determinations. The Board will also accept proposals for individual customary and traditional use determinations from residents of national park and national monument resident zone communities, or those who already hold a Section 13.440 subsistence use permit.

Federal public lands include national wildlife refuges; national parks, monuments and preserves; national forests; national wild and scenic rivers; and national conservation and recreation areas. Federal public lands also include Bureau of Land Management areas that are not part of the national conservation system. Federal subsistence regulations do not apply on State of Alaska lands, private lands, military lands, Native allotments, or Federal lands selected by the State of Alaska or Native corporations.

Submit proposals:

- **By mail or hand delivery**
Federal Subsistence Board
Office of Subsistence Management -- Attn: Theo Matuskowitz
1011 East Tudor Road, MS-121
Anchorage, AK 99503
- **At any Federal Subsistence Regional Advisory Council meeting**
See the Meetings and Deadlines page of the Federal Subsistence Management Program's website for dates and locations of Council meetings.
<http://www.doi.gov/subsistence/index.cfm>

- **On the Web at <http://www.regulations.gov>**

Search for FWS-R7-SM-2013-0065, which is the docket number for this proposed rule.

You may call the Office of Subsistence Management at 1-800-478-1456 or email subsistence@fws.gov with your questions.

Additional information on the Federal Subsistence Management Program can be found at <http://www.doi.gov/subsistence/index.cfm>

Call for 2015-2017 Federal Subsistence Fish and Shellfish Regulatory Proposals

The Office of Subsistence Management is accepting proposals through March 28, 2014 to change Federal regulations for the subsistence harvest of fish and shellfish on Federal public lands. Proposed changes are for April 1, 2015 through March 31, 2017.

Please submit the information on the back side of this page to propose changes to harvest limits, season dates, methods and means of harvest, or customary and traditional use determinations. Submit a separate proposal for each change you propose. If you live in a resident zone community of a national park or national monument, or if you already hold a Section 13.440 subsistence use permit issued by a National Park Service superintendent, you may apply for an individual customary and traditional use determination.
