## Federal Subsistence Board News Release

**For Immediate Release:**

January 22, 2014

**Contact:**

Trevor Fox  
(907) 786-3400 or (800) 478-1456  
trevor\_fox@fws.gov

The Federal Subsistence Board has approved a winter moose season with a harvest limit of one antlered bull on the portions of Unit 17C within the Togiak National Wildlife Refuge from January 22 to February 4, 2014. The additional season will provide opportunity for rural residents of Unit 17, Goodnews Bay, Levelock, Nondalton, and Platinum who were unable to harvest moose earlier in the regulatory year due to poor weather conditions.

Federally qualified subsistence users may harvest one antlered bull on Togiak National Wildlife Refuge lands in Unit 17C until the end of the season on February 4, 2014, or earlier if the season is closed by a subsequent announcement. A Federal registration permit is required and will be issued by the Togiak National Wildlife Refuge. Harvest reports must be submitted within 24 hours of harvesting an antlered bull. Unsuccessful hunters or those who did not hunt must submit their report within 15 days after the close of season. Federally qualified subsistence users who already harvested a moose may not participate in this season, unless they are participating under designated hunter regulations.

If you have questions regarding this action, please contact Trevor Fox at (907) 786-3400. For information regarding the issuance of the Federal registration permit, please contact the Togiak National Wildlife Refuge Office at (907) 842-1063 or (907) 842-8406.

Information on the Federal Subsistence Management Program can be found at <http://www.doi.gov/subsistence/index.cfm>.
