

(See Unit 25 Fort Yukon map)

Unit 25 consists of the Yukon River drainage upstream from (but excluding) the Hamlin Creek drainage; and excluding drainages into the south bank of the Yukon River upstream from the Charley River.

Unit 25A consists of the Hodzana River drainage upstream from the Narrows; the Chandalar River drainage upstream from (and including) the East Fork drainage; the Christian River drainage upstream from Christian; the Sheenjek River drainage upstream from (and including) the Thluichohnjik Creek; the Coleen River drainage; and the Old Crow River drainage.

Unit 25B consists of the Little Black River drainage upstream from (but excluding) the Big Creek drainage; the Black River drainage upstream from (and including) the Salmon Fork drainage; the Porcupine River drainage upstream from the confluence of the Coleen and Porcupine

ivers; and drainages into the north bank of the Yukon River upstream from Circle, including the islands in the Yukon River.

Unit 25C consists of drainages into the south bank of the Yukon River upstream from Circle to the Unit 20E boundary; the Birch Creek drainage upstream from the Steese Highway bridge (milepost 147); the Preacher Creek drainage upstream from (and including) the Rock Creek drainage; and the Beaver Creek drainage upstream from (and including) the Moose Creek drainage.

Unit 25D consists of the remainder of Unit 25.

Special Provisions

- The **Dalton Highway Corridor Management Area** is closed to the use of motorized vehicles, except aircraft and boats, and to licensed highway vehicles, snowmobiles, and firearms except as provided below. The Dalton Highway Corridor Management Area consists of those portions of Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway from the Yukon River to Prudhoe Bay. The use of snowmobiles is authorized only for the subsistence taking of wildlife by residents living within the Dalton Highway Corridor Management Area. The use of licensed highway vehicles is limited only to designated roads within the Corridor Management Area. The use of firearms within the Corridor Management Area for subsistence taking of wildlife is authorized only for the residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Dalton Highway Corridor Management Area.
- The taking of bull moose outside the seasons provided in this part for food in memorial potlatches and traditional cultural events is authorized in Unit 25D west provided that:
 - The person organizing the religious ceremony or cultural event contact the Yukon Flats National Wildlife Refuge manager prior to taking or attempting to take bull moose and provide the name of the decedent, the nature of the ceremony or cultural event, number to be taken, the general area in which the taking will occur. Each person who takes a bull moose under this section must submit a written report to the Yukon Flats National Wildlife Refuge manager, not more than 15 days after the harvest specifying the harvester’s name and address, and the date(s) and location(s) of the taking(s).
 - No permit or harvest ticket is required for taking under this section. However, the harvester must

be an Alaska rural resident with customary and traditional use in Unit 25D west. Any moose taken under this provision counts against the annual quota of 60 bulls.

- Hunting Dall Sheep within the **Arctic Village Sheep Management Area** is restricted to residents of Arctic Village, Chalkyitsik, Fort Yukon, Kaktovik, and Venetie. The Arctic Village Sheep Management Area, north and west of Arctic Village, is bounded on the east by the East Fork Chandalar River beginning at the confluence of Red Sheep Creek and proceeding southwesterly downstream past Arctic Village to the confluence with Crow Nest Creek; continuing up Crow Nest Creek, through Portage Lake, to its confluence with the Junjik River; then down the Junjik River past Timber Lake and a larger tributary, to a major, unnamed tributary, northwesterly, for approximately 6 miles where the stream forks into two roughly equal drainages; the boundary follows the easternmost fork, proceeding almost due north to the headwaters and intersects the Continental Divide; the boundary then follows the Continental Divide easterly, through Carter Pass; then easterly and northeasterly approximately 62 miles along the divide to the head waters of the most northerly tributary of Red Sheep Creek; then follows southerly along the divide designating the eastern extreme of the Red Sheep Creek drainage; and then to the confluence of Red Sheep Creek and the East Fork Chandalar River.
- You may use bait to hunt black bear between April 15 and June 30 and between Aug. 1 and Sept. 25; you may use bait to hunt wolves on FWS and BLM lands.
- Caribou and moose may be taken from a boat moving under power in Unit 25.
- **You must leave all edible meat on the bones of the front quarters, hind quarters, and ribs of caribou and moose harvested in Unit 25 until you remove the meat from the field or process it for human consumption.**

Hunting / Unit 25

Fort Yukon

Special Provisions (continued)

- **National Park Service (NPS) areas**—For subsistence use, national parks and monuments are open only to NPS qualified subsistence users. Subsistence users must be local rural residents of NPS areas. For more information, contact the NPS office in Anchorage at (907) 644-3509.

CUSTOMARY & TRADITIONAL USE DETERMINATION	HARVEST LIMITS	OPEN SEASONS
