

My name is Joseph Miller, I am a council member of the Stockbridge-Munsee Tribe of Wisconsin. Twice now to my knowledge and may be more, DOI. BIA. has issued guidance memorandum with out consulting with the Tribes, most recently with respect to land-to-trust adding even more regulation and field work to an already painful labor intensive time consuming process. WTF is going on here? Your Boss, the President, stated his intent to expedite the land-to-trust process, now you are doing the exact opposite! Do we need to send audiologist to D.C. to clean out your ears so you can hear? You asked for our input, now you got it!
