The Department of the Interior (Department) – composed of multiple Bureaus and Offices, must identify, address, and respond to Environmental and Disposal Liability issues on a diverse landscape of real property Sites and properties. Accurate financial reporting and effective managerial controls are imperative. Environmental Management Information System (EMIS) was designed to help the Office of Policy, Management, and Budget’s (PMB’s) Office of Environmental Policy and Compliance (OEPC) and Office of Financial Management (PFM) comply with federal laws and regulations in the areas of management and financial responsibility.

EMIS is a web-based database application managed by the Office of Environmental Policy and Compliance to track and manage data for both the Environmental and Disposal Liabilities (EDL) and the Central Hazardous Materials Fund (CHF) programs. The EDL module allows the Department to ensure EDL recording and reporting consistency among bureaus and to track changes in its liabilities. The CHF modules allow the Department to keep track of its mid - to long - term cleanups.
The Department of the Interior – composed of multiple Bureaus and Offices, must identify, address, and respond to visitor parking requests for Main Interior Building, South Interior Building and Federal Reserve Building. The Headquarters Visitor Parking System helps the Office of Facilities and Administrative Services to manage the incoming requests. The Headquarters Visitor Parking System services DOI bureaus, offices and field personnel to request visitor parking online.

The Headquarters Visitor Parking System automates the daily operations of the Interior Complex Parking Program. It allows parking team members to consistently view and assign requests. It also allows the DOI to consistently evaluate and record parking requests requested by different bureaus.
Indian Affairs Performance Management System (IAPMS)

Customer POC:
Melvin Gilchrist
Melvin.Gilchrist@bia.gov
703-390-6483

IAPMS provides Indian Affairs Management with a tool for reporting and analyzing data collected to provide an indication of the effectiveness and efficiency of Indian Affairs programs. Additionally, the system provides reports to management on Indian Affairs' progress in meeting the Department's overall strategic direction as outlined in the strategic plan.

This system provides information to all employees on how their work contributes to the Department's overall strategic direction, and enables analysis of how the Department can improve on service delivery or program effectiveness. This system collects, manages and analyzes performance data for different regions and offices under Indian Affairs. The system is utilized for the reporting of results against strategic plan measures, as well as bureau-specific measures.

Solid Waste Management database responds to a memorandum calling for reports issued by the Office of the Federal Environmental Executive and the Office of Management and Budget. This reporting tool is utilized by representatives of facilities within the Department of the Interior Bureaus and Offices.

System is utilized by facility personnel to input data for the Solid Waste and chemicals management practices. Once the data has been entered and finalized by the facility users, it is forwarded to the Regional users for the review and approval. Once the data has been approved by the Regional managers, it is forwarded to the bureau level managers for the review and approval. At this time, the data is ready to be used in the Solid Waste Management report. The Office of Management and Budget uses the report submitted by the Department of the Interior when it complies its report to Congress.
