It appears the NOAA GC addressed the (b) (5) DPP, (b) (5) ACP issue, but not the first one

I have never seen the prior Admin memo, but for simplification have created a new document that shows the apparent conflicts I am concerned about. I have the paragraph in question from our memo followed by one from the NOAA report of a few weeks ago, with the discrepancies in red. There are 2 issues, so for simplicity in reviewing have a set of paragraphs on each page.

Randy - The discussion in my draft was taken verbatim out of the Jewell/Pritzker memo. Which paragraph in my draft causes you concern? I'll compare it again to the NOAA memo (I have it). Thanks.

Ann, some thing was trickling along below the conscious thought level since our discussion this morning, and it finally dawned on me - (b) (5) DPP, (b) (5) ACP

This was the end of a long email string on other issues, which I have deleted. I appear to have given my copy of the NE Fishery Management Council comment to either Rick or you, since I can't find it on my desk, so I can't check this myself.

Hi Randy.

Here is the information re: NE Canyons commercial fishing. Excerpted from our report.

I think that does it.

Thanks,

Michael
