Good morning Randy.

Thanks very much for setting this up.

Will plan on our group meeting at 1:45 at the C st lobby.

I have the DepSec conference room, 6122 Main Interior, from 2-4. Plan is for the coding discussion to be first, with the analysis system up on the screen so we can illustrate and possibly even try suggestions on approaches. You and anyone from your group is welcome to this; I expect it would go no more than 45 minutes and more likely 30. The coding group likely would leave/disconnect at that point.

We may need to discuss some other issues on our review, none of which are now apparent, and then would go into the meeting with you. I presume there will be a few curious members of the overall review team that would stay for that, but most would likely bail out at that point, leaving us with more or less the same group as at the last meeting. Jeff will have a substitute.

Because we will be in the Secretary's corridor, it would be easier if everyone can meet in the C St lobby a few minutes early. I will then escort you in. Everyone will need their ID to get into the building, and then to display it again to get into the Secretary's corridor. If any or all are coming only for the second part I should be able to arrange for someone to sign them in and bring them up to the conference room.
