1:30 tomorrow is fine, and your question re packaging is part of what I still don't know. We were talking by phone and she had to go into a meeting before I could ask follow-up questions.

DOD said they would have comments in by July 10, and knowing them I doubt it will be any earlier than that. However, I will ask their guy here on status.

Ok, how is 1:30 tomorrow.

Did you ever get, or maybe this is part of the answer, clarity on any preference re: how we package the our respective pieces?

Also, have you received any input from DOD as of yet?

Thanks

How about tomorrow? As soon as I hit "send" I realized I need to get a clarification on one point from Downey to address what I expect will be your first question after my report, and I am with her in a briefing 3-4 today. As usual, she was interrupted before we finished yesterday afternoon.

Here is a letter from Rep. Tsongas supporting NE Seamounts. I think this is the last incoming we have as of yesterday. We should talk again this week, as some developments here. I am tied up 3-4 today, 9:30-10:30 and 2:30 -3 Friday.
