 Importance: High

Dear Katharine and Kathleen,

Greetings ! With the anticipation of the President's upcoming Executive Order, reportedly calling for the Interior Department to review recent National Monument designations, we wanted to bring to your attention the adverse impacts to North Star Minerals, who we represent. North Star has been engaged in unique, high-quality, clay quarrying operations since 1991, on mining claims in the Angeles National Forest in California. These operations directly employ about 60 people and are conducted under approved Forest Service plans of operations. However, the area was designated as part of the San Gabriel National Monument in 2014, potentially requiring a time-consuming "valid existing rights" (VER) determination by the Forest Service and BLM before the operations can continue expanding, as compelled by market trends and operational needs.

We know you are swamped, but we request a 30 minute meeting with you to brief you on this situation which is impeding the business plans of an ongoing mining operation. Thank you.

Best regards,

Tim
