

**Southeastern Gates Survey Area Counts**

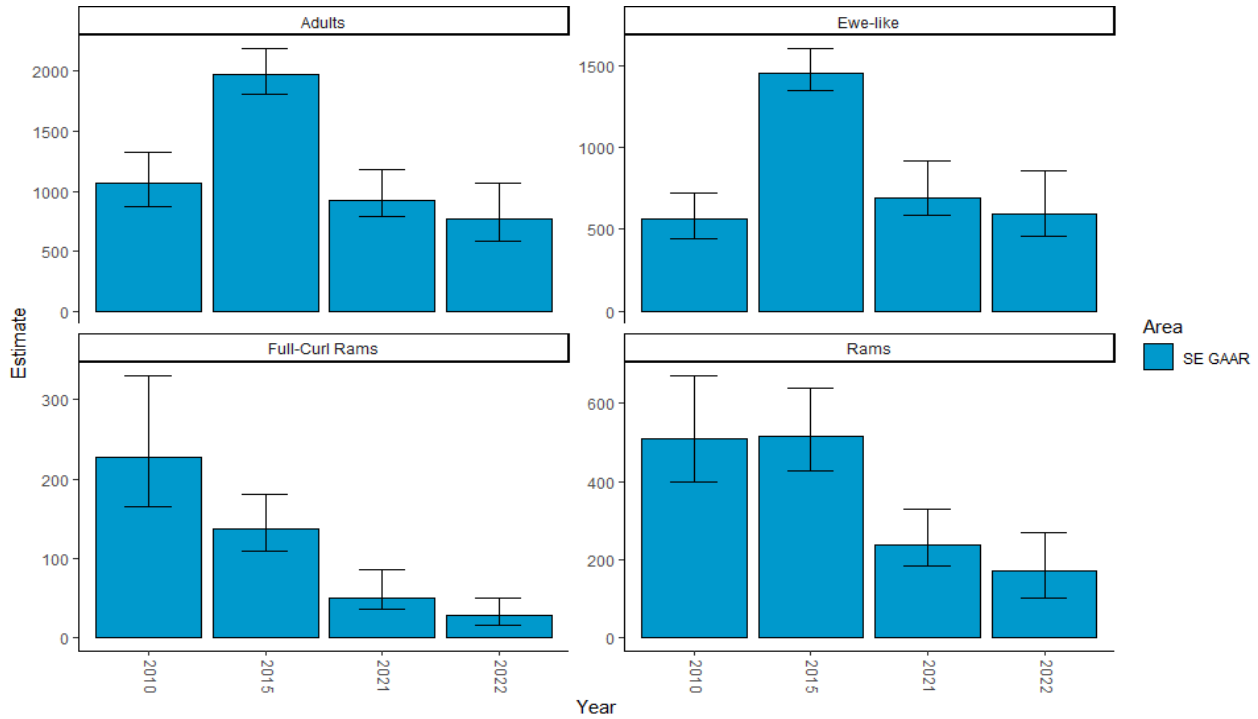

Figure 6 This is a bar graph showing number estimates for each category of sheep type - adults, ewe-like, full-curl rams, and non full-curl rams. The bottom of the graphs show the years that the surveys were conducted.

**Southeastern Gates Survey Area Ratios**

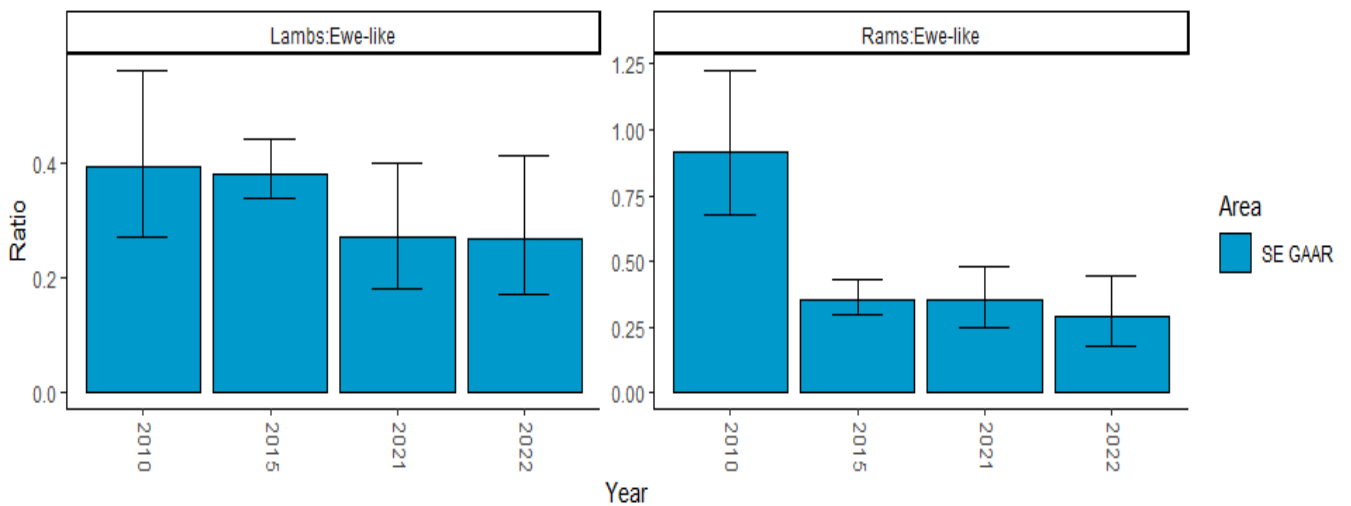

Figure 7 This is a bar graph that shows number of lambs per ewe-like sheep (left) and the number of rams per ewe-like sheep (right) which creates a ratio number. The bottom of the graphs show the years that the surveys were conducted.
