E-RATE APPLICATIONS

Competitive Bidding:

An eligible school or library identifies the services it needs and submits a request for competitive bids to USAC. USAC notifies providers of the bidding opportunity by posting the request on its website.

Application for Funding:

After reviewing bids, and selecting the most cost-effective offering, the school or library may submit a funding request to USAC during the applicable funding year’s filing window. USAC issues a funding commitment pursuant to its review of the request.

RHC PROGRAM REFORM ORDER

In August 2019, the Commission adopted an order that reforms the RHC Program to increase transparency, predictability and efficiency. The rules adopted by the Order:

- Target and prioritize funding to rural areas in the most need of health care services.
- Simplify urban and rural rate determinations by, among other things, directing the USF Administrator to create urban and rural rate databases.
- Reform competitive bidding in the RHC Program making it more productive for HCPs to identify and select cost-effective service offerings in their rural areas.
- Streamline the application process and align procedures between the E-rate and RHC Programs to ease the burden on participants.
- Strengthen safeguards against waste, fraud and abuse in the RHC Program.
