Letter from the Special Trustee

I am pleased to present the FY 2009 Tribal and Other Trust Funds and Individual Indian Monies Trust Funds audited financial statements which are managed by the Office of the Special Trustee for American Indians (OST). This letter provides information about what our office has accomplished in the fulfillment of the Department of the Interior’s fiduciary trust responsibilities.

At OST, our day-to-day work is guided by our Indian trust management mission statement—"to perform our fiduciary trust responsibilities to American Indian tribes, individual Indians, and Alaska Natives by incorporating a beneficiary focus and beneficiary participation while providing effective, competent stewardship and management of trust assets."

Interior’s Comprehensive Trust Management Plan (CTM) guides and describes the vision, goals and objectives of fiduciary trust management and operations of the trust for all bureaus and offices within Interior. Achieving the goals in the plan will result in enhanced beneficiary services, reliable ownership information, and quality administrative services; improved management of all trust fund assets; and increased support for Indian self-governance and self-determination.

OST supports its goal to fulfill Indian fiduciary trust responsibilities by implementing the following strategies:

**Improve Indian Fiduciary Trust Beneficiary Services** by continuing to provide timely, accurate account performance statements and convenient access to trust account services; communicating with beneficiaries and facilitating beneficiary involvement in trust management.

**Support Indian Self-Governance and Self-Determination** by fostering expansion of self-governance compacts and self-determination contracts.

**Improve Indian Trust Ownership and Other Information** through prompt distribution of financial trust assets to heirs after the Office of Hearing and Appeals renders probate decisions and ensuring accuracy of data maintained in offices and accounting systems.

**Manage Trust Fund Assets for Timely and Productive Use** through managing and investing funds held on behalf of individual Indians and tribes and receipting, disbursing, and accounting for funds timely and accurately.

**Improve Management of Land and Natural Resource Assets** by providing appraisal information as requested on trust and restricted lands for tribal and individual Indian owners and exploring solutions to reduce the number of fractionated ownership interests in land.

The following are a few of OST’s FY 2009 accomplishments that improved services to trust beneficiaries:

- Processed a total of $520.8 million of receipts through the centralized commercial lockbox and posted 76.75 percent to beneficiaries’ accounts within two days of receipt.
- Disbursed more than $750 million to individual Indian and tribal beneficiaries.
- Recovered addresses on 31 percent of the Whereabouts Unknown accounts identified as of October 1, 2008. This represented 26,225 accounts totaling $27.5 million.
- Distributed funds for 8,502 completed probates which closed 9,447 estate accounts.
- Awarded a contract for the Youpee Escheat distribution and closure project. Distributed $1,405,828.
- Assisted the Bureau of Indian Affairs (BIA) with the distribution of $232,708 in appealed range rate receipts from 168 aged special deposit accounts through the TAAMS invoicing and distribution module.
- Implemented Check 21, which electronically clears checks received from lessees.
- Mailed to beneficiaries more than 770,000 quarterly performance statements that provide sources of funds, encumbrance information (who is leasing their trust property, duration of the lease, and payment terms) and listings of trust property owned.
- Provided tribal account statements on CD-ROM to approximately 100 tribes and provided tribes online account access.
- Continued to emphasize debit card and direct deposit options in lieu of paper checks, increasing the total number of accountholders who have chosen these options to over 26,500.
- Handled over 243,000 beneficiary inquiries.
- Provided 3,864 outreach events to beneficiaries, which included wills clinics and financial skills training.
- Conducted 334 investment meetings with tribal representatives.
- Maintained Self-Governance and Self-Determination agreements with 33 tribes for the real estate appraisals and individual Indian beneficiary trust functions.
Continued improvement of the Office of Appraisal Services’ workload management, reduced the appraisal backlog by 93% between March and June 2009. Transmitted 8,000 appraisal products to clients throughout FY 2009 and implemented a clearer and more effective definition of backlog.

Collected and moved 13,647 boxes of records to the American Indian Records Repository (AIRR). Indexed 12,690 boxes.

Provided support to the BIA Ft. Berthold Agency by researching oil and gas development activities, providing updated National Indian Oil & Gas Evaluation & Management System (NIOGEMS) maps identifying new well site locations, developing lease well production data to track producing wells, and designing a field monitoring process for lease well management.

Provided technical support for conversion of the Royalty Distribution and Reporting System (RDRS) to the TAAMS oil and gas royalty management module, including the implementation of a new simplified Explanation of Payments.

Received the Intertribal Monitoring Association’s report of Indian country’s suggested solutions to fractionation.

Awarded the Cannon Financial Institute Certified Indian Fiduciary Trust Specialist designation to 16 OST, three BIA and one tribal employee.

Provided records management training to 711 BIA and OST records contacts and 272 tribal employees.

Helped fund and support programs at the National Indian Programs Training Center, based in Albuquerque, New Mexico.

Developed public service announcements in native languages.

Provided information to beneficiaries on their accounts and available services by producing and distributing booklets, brochures and statement inserts.

Conducted 64 Indian Trust Evaluations.

Performed 19 records assessments and issued 21 record assessment reports to identify improvements to OST and BIA Records Management Programs.

Submitted to Congress an annual report, as required by the 1994 Act.

OST has improved service to trust beneficiaries even as we face challenges managing this unique trust. In keeping with the CTM, OST will pursue the following priorities during FY 2010:

1. Employee Engagement
   - Implement Telework
   - Enhance the Training Program
   - Establish a Wellness Program
   - Improve Internal Communications
   - Assess Skill Requirements
   - Establish a Student Loan Repayment Program

2. Money Management
   - Convert to New Lockbox Contract
   - Implement Pay.Gov
   - Partner with the Treasury for Direct Deposit of Treasury Disbursed Per Capita Payments
   - Establish and Implement a Short Term Investment Fund
   - Expand Use of Direct Deposit and Debit Cards

3. Project Data
   - Reconcile Discrepancy Reports
   - Reconcile Historic Suspense Accounts
   - Establish TAAMS Reports Required by OST
   - Reconcile Post-conversion Issues of the TAAMS O&G System
   - Resolve Public Domain Property Issues

4. Automation
   - Enhance Imaging Capabilities
   - Minimize Manual Postings to the Trust Funds Accounting System (TFAS)
   - Enhance the Secure Trust Accounting Records System (STARS)
   - Explore BIA Access to the Trust Beneficiary Call Center System
   - Implement Electronic Disbursements for Tribal Credit Payments
   - Provide BIA Beneficiaries Online Account Access

5. Geospatial
   - Initiate a Pilot Project

I hope you find this year’s audited financial statements informative and useful. We welcome your help, comments, or suggestions for continued improvement.

Donna M. Erwin
Acting Special Trustee for American Indians
INDEPENDENT AUDITORS’ REPORT ON THE TRIBAL AND OTHER TRUST FUNDS FINANCIAL STATEMENTS FOR FY2009 AND FY2008

OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

Memorandum

To: Special Trustee for American Indians

From: Kimberly Elmore  
Assistant Inspector General for Audits, Inspections and Evaluations

INTRODUCTION

This memorandum transmits the KPMG LLP’s (KPMG) auditors’ report of the Office of the Special Trustee for American Indians (OST) financial statements for fiscal years (FYs) 2009 and 2008. The OST financial report contains financial statements and notes for Tribal and Other Trust Funds (Tribal).

The American Indian Trust Fund Management Reform Act of 1994 requires an audit of the Tribal financial statements. Under a contract issued by OST and monitored by the Office of the Inspector General (OIG), KPMG, an independent public accounting firm, performed an audit of the OST FY2009 and FY2008 financial statements. The contract required that the audit be performed in accordance with auditing standards generally accepted in the United States of American and the “Government Auditing Standards” issued by the Comptroller General of the United States.

RESULTS OF INDEPENDENT AUDIT

In its audit report, dated November 10, 2009, KPMG issued a qualified opinion on the Tribal financial statements because KPMG was unable to satisfy themselves as to the fairness of trust fund balances due to certain parties, for whom OST holds assets in trust disagreeing with the balances recorded by OST and/or having requested an accounting of their trust funds with certain of these parties having filed claims against the United States Government.

In addition, KPMG identified one significant deficiency in internal controls over financial reporting. The deficiency addresses prior period unresolved trust account balances. KPMG found no instances where OST did not comply with laws and regulations.
EVALUATION OF KPMG AUDIT PERFORMANCE

To fulfill our monitoring responsibilities, the OIG:

- reviewed KPMG’s approach and planning of the audit;
- evaluated the qualifications and independence of the auditors;
- monitored the progress of the audit at key points;
- attended periodic meetings with OST management and KPMG to discuss audit progress, findings, and recommendations;
- reviewed KPMG’s audit report; and
- performed other procedures we deemed necessary.

KPMG is responsible for the attached auditors’ report dated November 10, 2009, and the conclusions expressed. We do not express an opinion on OST financial statements, internal controls, or compliance with laws and regulations.

REPORT DISTRIBUTION

The legislation, as amended, creating the OIG requires semiannual reporting to Congress on all audit reports issued, actions taken to implement audit recommendations, and recommendations that have not been implemented. Therefore, we will include the information in the attachment in our next semiannual report. The distribution of the report is not restricted, and copies are available for public inspection.

The OIG appreciates the courtesies and cooperation extended to KPMG and our staff during this audit. If you have any questions regarding the report, please contact me at 202–208–5512.

Financial Statements

September 30, 2009 and 2008

(With Independent Auditors’ Report Thereon)
Independent Auditors’ Report on Financial Statements

The Special Trustee for American Indians
U.S. Department of the Interior Office of the Special Trustee for American Indians; and
U.S. Department of the Interior Office of Inspector General:

We have audited the accompanying statements of assets and trust fund balances – cash basis of the Tribal and Other Trust Funds managed by the U.S. Department of the Interior Office of the Special Trustee for American Indians (OST) as of September 30, 2009 and 2008, and the related statements of changes in trust fund balances – cash basis for the years then ended. These financial statements are the responsibility of management of OST. Our responsibility is to express an opinion on these financial statements based on our audits.

Except as discussed in the fourth paragraph of this report, we conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting of the Tribal and Other Trust Funds managed by OST. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in note 2, these financial statements were prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

It was not practicable to extend our auditing procedures sufficiently to satisfy ourselves as to the fairness of trust fund balances in the accompanying financial statements as of September 30, 2009 and 2008 due to the effects of certain parties for whom OST holds assets in trust disagreeing with balances recorded by OST and/or having requested an accounting of their trust funds, and of which certain of these parties have filed claims against the United States Government. Trust fund balances enter into the determination of financial position and changes in trust fund balances.
In our opinion, except for the effects on the financial statements of such adjustments, if any, as might have been determined to be necessary had we been able to apply adequate procedures to determine the fairness of trust fund balances and related changes in trust fund balances, as discussed in the preceding paragraph, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of the Tribal and Other Trust Funds managed by OST as of September 30, 2009 and 2008, and the changes in trust fund balances for the years then ended in conformity with the basis of accounting described in note 2.

In accordance with Government Auditing Standards, we have also issued our report dated November 10, 2009 on our consideration of internal control over financial reporting and on our tests of Tribal and Other Trust Funds’ compliance with certain provisions of laws, regulations and other matters of the Tribal and Other Trust Funds managed by OST. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in assessing the results of our audits.

(1) Background and Description of the Trust Funds

(a) Overview of the Trust Funds

Establishment and Management of the Trust Funds – The legislation that authorizes the Secretary of the United States Department of the Interior (Secretary) to manage the Tribal and Other Trust Funds recognizes the unique trust relationship that exists between the Indian tribes, individual Indians, and the United States Government (U.S. Government). Agreements between the U.S. Government and the various Indian tribes, many of these in the form of treaties, recognize the sovereignty of tribes. During the course of the United States' history and the U.S. Government’s evolving policies toward Indian tribes, the trust relationship has retained characteristics based upon tribal sovereignty. The United States Congress has designated the Secretary as the trustee delegate with responsibility for the financial and nonfinancial resources held in trust on behalf of American Indian tribes, individual Indians, and other trust funds. In carrying out the management and oversight of the Indian trust assets, the Secretary has a fiduciary responsibility to ensure monies are received for the use of Indian lands and the extraction of natural resources from Indian lands, distribute such monies collected to the appropriate beneficiaries, ensure that trust accounts are properly maintained and invested, and ensure that accurate and complete reports are provided to the trust beneficiaries in accordance with applicable law.

The balances that have accumulated in the Tribal and Other Trust Funds have resulted generally from judgment awards, settlement of claims, land use agreements, royalties on natural resource depletion, other proceeds derived directly from trust resources, and investment income.

The accompanying financial statements include only the financial assets held in trust by the Office of the Special Trustee for American Indians (OST) for trust beneficiaries and do not include: (i) the operating account balances of OST (e.g., Fund Balance with Treasury; Property, Plant, and Equipment; etc.) or (ii) other Indian trust assets, including but not limited to, Indian lands, buildings, or other nonfinancial assets managed by the United States Department of the Interior (the Department).

The Reform Act – The American Indian Trust Fund Management Reform Act of 1994 (Public Law 103-412) (the Reform Act) authorized the establishment of OST, which is headed by the Special Trustee for American Indians (Special Trustee) who reports to the Secretary. Under this legislation, the Special Trustee is responsible for oversight, reform, and coordination of the policies, procedures, systems, and practices used by various bureaus and offices of the Department, including but not limited to OST, the Bureau of Indian Affairs (BIA) (a component of Indian Affairs (IA)), the Minerals Management Service (MMS), and the Bureau of Land Management (BLM), in managing Indian trust assets.

Office of the Special Trustee for American Indians – Indian trust assets, including the Tribal and Other Trust Funds, are primarily managed under the delegated authority of OST and BIA. Management of Indian trust assets on behalf of the trust beneficiaries is dependent upon the processing of trust-related transactions within certain information systems of the Department, including but not limited to OST, BIA, MMS, and other Departmental bureaus and offices. BIA and
TRIBAL AND OTHER TRUST FUNDS
MANAGED BY THE U.S. DEPARTMENT OF THE INTERIOR
OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

Notes to Financial Statements
September 30, 2009 and 2008

other Departmental bureaus and offices are responsible for managing the natural resources located within the boundaries of Indian reservations and trust lands, as well as the processing of data regarding the ownership and leasing of Indian lands. The allocation of receipts and disbursements by OST to trust beneficiaries are significantly dependent and reliant upon the receipt of timely and accurate information derived from records maintained by BIA, MMS, and other Departmental bureaus and offices (see note 8).

Regional Offices – OST and BIA maintain staff at regional offices located throughout the United States.

Agency and Field Offices – OST and BIA maintain staff at agency and field offices located throughout the United States, which are generally located near the tribes and individual Indians served. OST and BIA personnel located at most of the agency and field offices perform various functions related to trust fund activities.

(b) Description of the Trust Funds

Certain of the Tribal and Other Trust Funds are subject to legal, regulatory, budgetary, court-ordered, or other restrictions (see note 7). A brief description of the Tribal and Other Trust Funds follows:

• Tribal Trust Funds – As of September 30, 2009 and 2008, approximately 2,700 accounts comprise the Tribal Trust Funds, which totaled approximately $2,788,229,000 and $2,703,275,000, respectively.

Tribal Trust Funds realize receipts from a variety of sources, including judgment awards, settlement of claims, land use agreements, royalties on natural resource depletion, other proceeds derived directly from trust resources, and investment income.

• Other Trust Funds – Other Trust Funds are comprised of those funds classified as Held by the Department of the Interior and considered to be U.S. Government funds (see note 7). Other Trust Funds totaled approximately $309,400,000 and $299,897,000 as of September 30, 2009 and 2008, respectively.

Other Trust Funds realize receipts from a variety of sources including leases, rights-of-way, judgment awards, settlement of Indian claims, donations and bequests, and investment income.

(c) Investment of Trust Funds

Authorizing legislation and a substantial body of case law specify how Indian trust funds should be managed and which financial instruments constitute appropriate investments for Indian trust funds. The Tribal and Other Trust Funds are invested in U.S. Government securities, including U.S. Department of the Treasury (U.S. Treasury) issues, U.S. Government agency issues, and U.S. Government-sponsored entity issues.
(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

OST uses the cash basis of accounting for the Tribal and Other Trust Funds, which is a comprehensive basis of accounting other than generally accepted accounting principles. The cash basis of accounting differs from generally accepted accounting principles in that receivables and payables are not accrued and premiums and discounts on investments are not amortized or accreted. Receipts are recorded when received and disbursements are recorded when issued. Investments are stated at historical cost. Interest received on invested funds reported in the statements of changes in trust fund balances reflects interest received during the fiscal year.

(b) Cash and Cash Equivalents

Management considers all highly liquid financial instruments with maturities of three months or less when purchased to be cash equivalents.

(c) Investments

The Tribal and Other Trust Funds are invested in U.S. Government securities, as mandated by 25 USC 162a.

(d) Receipts

Receipts from various leasing activities, mineral royalties and sales of extracted minerals, timber and other forest products, fees and fines, and the granting of easements are generated from a variety of nonfinancial assets that are held in trust by the U.S. Government and managed by BIA and other Departmental bureaus and offices on behalf of tribes. Receipts on hand at the regional and agency offices, and/or in-transit at September 30, 2009 and 2008, if any, awaiting deposit to the U.S. Treasury, are not included in the accompanying financial statements.

Receipts also include payments from the U.S. Government for judgment awards and the settlement of claims.

(e) Disbursements

Payments disbursed from the Tribal and Other Trust Funds consist of accumulations of funds from various income-producing activities such as leasing, royalty receipts, minerals extraction, timber and other forest product sales, judgment awards, settlement of claims, and investment income. Under certain conditions, tribes disburse per capita payments to their enrolled members.
Public Law 103-412 specifically allows for the voluntary withdrawal of judgment awards and settlement of claims funds from the Tribal and Other Trust Funds. Except where prohibited by statute, an Indian tribe may submit a plan to withdraw some or all funds held in trust for the tribe in accordance with 25 CFR 1200.

(f) **Use of Estimates**

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets at the date of the financial statements and the reported amounts of increases and decreases in trust fund balances during the reporting period. Actual results could differ from those estimates.

(g) **Subsequent Events**

Subsequent events are evaluated by management through the date that the financial statements are available to be issued, which is November 10, 2009.

(h) **Fair Value Measurements**

Financial Accounting Standards Board’s Accounting Standards Codification (ASC) Topic 820 *Fair Value Measurements and Disclosure* (ASC Topic 820) establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. ASC Topic 820 applies only to fair value measurements already required or permitted by other accounting standards and does not impose requirements for additional fair value measures. ASC Topic 820 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and is applied on a prospective basis. Since the Tribal & Other Trust Funds use the cash basis of accounting (see note 2(a)), the adoption of ASC Topic 820 on October 1, 2008 only affects note disclosures related to fair value.

(3) **Cash and Cash Equivalents**

Cash equivalents of approximately $375 million and $513 million at September 30, 2009 and 2008, respectively, consist of overnight investments with the U.S. Treasury.
(4) Investments

The historical cost, gross unrealized holding gains, gross unrealized holding losses, and fair value of investment securities by major class of security at September 30 were as follows (amounts exclude investments in U.S. Treasury overnight securities discussed in note 3):

<table>
<thead>
<tr>
<th></th>
<th>Historical cost</th>

<td><strong>31,194</strong></td>
<td><strong>(19,099)</strong></td>
<td><strong>2,495,831</strong></td>
</tr>
</tbody>
</table>

The investments above held by the Tribal and Other Trust Funds at September 30, 2009 and 2008 consist of fixed income securities, some of which are mortgaged-backed debt securities, issued by the U.S. Treasury, U.S. Government agencies, or U.S. Government-sponsored entities. All of these securities are either explicitly or implicitly backed by the U.S. Government. Given the backing by the U.S. Government, current market conditions have not had a significant adverse impact on the fair value of these securities.
Maturities of investment securities were as follows at September 30, 2009:

<table>
<thead>
<tr>
<th>Maturity</th>
<th>Historical cost (In thousands)</th>
<th>Fair value (In thousands)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Due in one year or less</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$2,718,999</strong></td>
<td><strong>2,799,549</strong></td>
</tr>
</tbody>
</table>

(5) **Fair Value Disclosure Measurements**

ASC Topic 820 defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the principal or most advantageous market for the asset or liability. For measuring fair value ASC Topic 820 establishes a hierarchy that places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority on unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- **Level 1**: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Tribal and Other Trust Funds have the ability to access as of the measurement date.
- **Level 2**: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- **Level 3**: Significant unobservable inputs that reflect the Tribal and Other Trust Funds own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. All of the investment securities held by the Tribal and Other Trust Funds at September 30, 2009 are valued using Level 2 inputs.

The carrying value of cash and cash equivalents reflected in the statements of assets and trust fund balances approximates fair value. The fair value of investment securities disclosed in note 4 represent the best estimate of prices that the securities could be sold for in the open market as of September 30, 2009 and 2008. Those fair values are measured using pricing services, pricing models, or broker quotes. Inputs into the pricing models include the securities par value, interest rate and maturity date. If broker quotes are used to value investment securities the fair value is estimated as the average of three broker quotes.
The fair value methods described above may produce fair value disclosures that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes that the valuation methods used on the Tribal and Other Trust Funds are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the disclosed fair value of investment securities could result in a different fair value measurement at the reporting date.

(6) Contingencies

Certain Indian tribes for whom OST holds assets in trust do not agree with balances recorded by OST and/or have requested an accounting of their trust funds, and certain of these Indian tribes have filed claims against the U.S. Government for failure to fulfill its fiduciary responsibilities and for other related items. Ninety-eight tribal trust cases, brought by sixty-seven different tribes, currently are pending in various federal district courts and the U.S. Court of Federal Claims. The cases involve claims for trust fund and asset mismanagement, accounting, and other declaratory relief. A substantial number of the cases are stayed pending settlement negotiations or discovery. In addition, in many of these cases, the court does not have jurisdiction to grant monetary relief. Neither OST nor the Office of the Solicitor for the Department can presently determine the outcome of these actions nor the total amount, responsibility, and funding source of the potential liability. Any settlement resulting from an adverse outcome of the claims described above is not expected to be satisfied with trust fund balances. No amounts have been recorded in the accompanying Tribal and Other Trust Funds’ financial statements for potential claims from the U.S. Government.

(7) Trust Fund Balances

Trust fund balances are the aggregation of financial assets held in trust and represent the amounts owed to beneficiaries as of September 30, 2009 and 2008 for which OST has a fiduciary responsibility.

The Tribal and Other Trust Funds contain the following trust fund balance categories for U.S. Government budget purposes, which are reflected as separate components in the accompanying financial statements:

- **Held for Indian tribes** – These represent funds held on behalf of Indian tribes. These funds are considered non-U.S. Government monies.

- **Held by the Department of the Interior and considered to be U.S. Government funds** – These represent funds, some of which will be transferred to the Held for Indian tribes category provided certain conditions are satisfied, and for others, the corpus of the fund may be nonexpendable. These funds are considered U.S. Government monies.

A portion of trust fund balances represents estimated payments on production-type leases for which certain tribes and individual Indians hold an interest. When certain adjustments to production are identified, estimated payments received in excess of production are returned to the depositor or adjusted for in future payments.
(8) Related-Party Transactions with Other Government Organizations

(a) U.S. Department of the Interior Bureau of Indian Affairs

BIA is responsible for the collection of certain monies resulting from the management and use of Indian trust lands and other trust resources. Upon receipt, OST records the deposit of trust funds to trust accounts based on the information received from BIA.

(b) U.S. Department of the Interior Minerals Management Service

For certain trust leases, MMS is responsible for the collection of royalty payments on behalf of Indian tribes and individual Indians holding mineral rights. MMS deposits the royalty payments with the U.S. Treasury and electronically transfers to OST the related accounting information, generally the next business day. The accounting information received from MMS provides OST an allocation of 100% tribally owned lease royalties, enabling OST to record trust deposits directly into tribal accounts. For tribally/individually co-owned leases and individually owned leases, allocation and accounting data is forwarded, generally twice a month, to OST via electronic interface through the Royalty Distribution Reporting System that is maintained by BIA. Pursuant to established procedure and appropriate authorization, the data is recorded by OST. MMS and BLM both perform verification and other monitoring procedures of mineral assets. Oil and gas companies sometimes forward payments to MMS based on estimated mineral production in order to comply with the Federal Oil and Gas Royalty Management Act of 1982 that requires timely distribution of royalties. These estimated payments may be disbursed by OST to the beneficiaries. Typically, the oil and gas companies adjust future payments for excess or shortfall amounts, if any, based on actual production.

(c) Other

The U.S. Treasury holds cash and certain investments and in certain instances disburses for OST. The Department’s Office of the Solicitor serves as legal counsel for OST.
(9) Transfers of Trust Funds

Certain per capita disbursements authorized by tribes result in transfers from the Tribal and Other Trust Funds to the Individual Indian Monies (IIM) Trust Funds while certain oil and gas distributions may result in transfers to/from the IIM Trust Funds from/to the Tribal and Other Trust Funds. Net transfers of trust funds from the Tribal and Other Trust Funds to the IIM Trust Funds totaled approximately $56.7 million and $75.7 million during the years ended September 30, 2009 and 2008, respectively. These transfers are reflected as disbursements in the accompanying statements of changes in trust fund balances. In addition, pursuant to information provided by BIA, OST historically utilized special deposit accounts maintained within the IIM Trust Funds for both tribal and IIM beneficiaries as suspense accounts, whereby funds are temporarily posted when allocation information is not provided when the funds are received. Following receipt of allocation information from BIA, the funds are transferred from the special deposit accounts to the designated tribal and/or IIM account(s). Special deposit accounts totaled approximately $29 million and $31 million as of September 30, 2009 and 2008, respectively. The special deposit account monies held in the IIM Trust Funds relate to historical balances and has not been distributed because the ultimate disposition of the funds has not been determined. Since the ultimate disposition is unknown at September 30, 2009, the portion attributable to the Tribal and Other Trust Funds is unknown.
INDEPENDENT AUDITORS’ REPORT ON THE
INDIVIDUAL MONIES TRUST FUNDS
FINANCIAL STATEMENTS
FOR FY2009 AND FY2008

OFFICE OF THE SPECIAL TRUSTEE FOR
AMERICAN INDIANS

Memorandum

To: Special Trustee for American Indians

From: Kimberly Elmore
Assistant Inspector General for Audits, Inspections and Evaluations

INTRODUCTION

This memorandum transmits the KPMG LLP’s (KPMG) auditors’ report of the Office of the Special Trustee for American Indians (OST) financial statements for fiscal years (FYs) 2009 and 2008. The OST financial report contains financial statements and notes for Individual Indian Monies (IIM) trust funds.

The American Indian Trust Fund Management Reform Act of 1994 requires an audit of the IIM financial statements. Under a contract issued by OST and monitored by the Office of the Inspector General (OIG), KPMG, an independent public accounting firm, performed an audit of the OST FY2009 and FY2008 financial statements. The contract required that the audit be performed in accordance with auditing standards generally accepted in the United States of American and the “Government Auditing Standards” issued by the Comptroller General of the United States.

RESULTS OF INDEPENDENT AUDIT

In its audit report, dated November 10, 2009, KPMG issued a qualified opinion on the IIM financial statements because KPMG could not satisfy themselves as to the fairness of trust fund balances in the financial statements due to certain parties for whom OST holds assets in trust having filed a class action lawsuit for an accounting of the individuals’ trust funds.

In addition, KPMG identified one significant deficiency in internal controls over financial reporting. The deficiency addressed prior period unresolved trust account balances. Further, KPMG found no instances where OST did not comply with laws and regulations.

EVALUATION OF KPMG AUDIT PERFORMANCE

To fulfill our monitoring responsibilities, the OIG:
• reviewed KPMG’s approach and planning of the audit;
• evaluated the qualifications and independence of the auditors;
• monitored the progress of the audit at key points;
• attended periodic meetings with OST management and KPMG to discuss audit progress, findings, and recommendations;
• reviewed KPMG’s audit report; and
• performed other procedures we deemed necessary.

KPMG is responsible for the attached auditors’ report dated November 10, 2009, and the conclusions expressed. We do not express an opinion on OST financial statements, internal controls, or compliance with laws and regulations.

REPORT DISTRIBUTION

The legislation, as amended, creating the OIG requires semiannual reporting to Congress on all audit reports issued, actions taken to implement audit recommendations, and recommendations that have not been implemented. Therefore, we will include the information in the attachment in our next semiannual report. The distribution of the report is not restricted, and copies are available for public inspection.

The OIG appreciates the courtesies and cooperation extended to KPMG and our staff during this audit. If you have any questions regarding the report, please contact me at 202–208–5512.

Financial Statements

September 30, 2009 and 2008

(With Independent Auditors’ Report Thereon)
Independent Auditors’ Report on Financial Statements

The Special Trustee for American Indians
U.S. Department of the Interior Office of the Special Trustee for American Indians; and
U.S. Department of the Interior Office of Inspector General:

We have audited the accompanying statements of assets and trust fund balances – modified cash basis of the Individual Indian Monies Trust Funds managed by the U.S. Department of the Interior Office of the Special Trustee for American Indians (OST) as of September 30, 2009 and 2008, and the related statements of changes in trust fund balances – modified cash basis for the years then ended. These financial statements are the responsibility of management of OST. Our responsibility is to express an opinion on these financial statements based on our audits.

Except as discussed in the fourth paragraph of this report, we conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting of the Individual Indian Monies Trust Funds managed by OST. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in note 2, these financial statements were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

It was not practicable to extend our auditing procedures sufficiently to satisfy ourselves as to the fairness of trust fund balances in the accompanying financial statements as of September 30, 2009 and 2008 due to the effects of certain parties for whom OST holds assets in trust having filed a class action lawsuit for an accounting of the individuals’ trust funds. Trust fund balances enter into the determination of financial position and changes in trust fund balances.

In our opinion, except for the effects on the financial statements of such adjustments, if any, as might have been determined to be necessary had we been able to apply adequate procedures to determine the fairness of trust fund balances and related changes in trust fund balances, as discussed in the preceding paragraph, the financial statements referred to in the first paragraph above present fairly, in all material respects, the financial position of the Individual Indian Monies Trust Funds managed by OST as of September 30, 2009 and 2008, and the changes in trust fund balances for the years then ended in conformity with the basis of accounting described in note 2.
In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2009 on our consideration of internal control over financial reporting and on our tests of Individual Indian Monies Trust Funds’ compliance with certain provisions of laws, regulations, and other matters of the Individual Indian Monies Trust Funds managed by OST. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in assessing the results of our audits.

(1) Background and Description of the Trust Funds

(a) Overview of the Trust Funds

Establishment and Management of the Trust Funds – The legislation that authorizes the Secretary of the United States Department of the Interior (Secretary) to manage the Individual Indian Monies Trust Funds (IIM Trust Funds) recognizes the unique trust relationship that exists between the Indian tribes, individual Indians, and the United States Government (U.S. Government). Agreements between the U.S. Government and the various Indian tribes, many of these in the form of treaties, recognize the sovereignty of tribes. During the course of the United States’ history and the U.S. Government’s evolving policies toward individual Indians and Indian tribes, the trust relationship has retained characteristics based upon tribal sovereignty. The United States Congress has designated the Secretary as the trustee delegate with responsibility for the financial and nonfinancial resources held in trust on behalf of American Indian tribes, individual Indians, and other trust funds. In carrying out the management and oversight of the Indian trust assets, the Secretary has a fiduciary responsibility to ensure monies are received for the use of Indian lands and the extraction of natural resources from Indian lands, distribute such monies collected to the appropriate beneficiaries, ensure that trust accounts are properly maintained and invested, and ensure that accurate and complete reports are provided to the trust beneficiaries in accordance with applicable law.

The balances that have accumulated in the IIM Trust Funds have resulted generally from land use agreements, royalties on natural resource depletion, other proceeds derived directly from trust resources, receipt of judgment and tribal per capita distributions, settlement of claims, and investment income.

The accompanying financial statements include only the financial assets held in trust by the Office of the Special Trustee for American Indians (OST) for trust beneficiaries and do not include: (i) the operating account balances of OST (e.g., Fund Balance with Treasury; Property, Plant, and Equipment; etc.) or (ii) other Indian trust assets, including but not limited to, Indian lands, buildings, or other nonfinancial assets managed by the United States Department of the Interior (the Department).

The Reform Act – The American Indian Trust Fund Management Reform Act of 1994 (Public Law 103-412) (the Reform Act) authorized the establishment of OST, which is headed by the Special Trustee for American Indians (Special Trustee) who reports to the Secretary. Under this legislation, the Special Trustee is responsible for oversight, reform, and coordination of the policies, procedures, systems, and practices used by various bureaus and offices of the Department, including but not limited to OST, the Bureau of Indian Affairs (BIA) (a component of Indian Affairs (IA)), the Minerals Management Service (MMS), and the Bureau of Land Management (BLM), in managing Indian trust assets.
Office of the Special Trustee for American Indians – Indian trust assets, including the IIM Trust Funds, are primarily managed under the delegated authority of OST and BIA. Management of Indian trust assets on behalf of the trust beneficiaries is dependent upon the processing of trust-related transactions within certain information systems of the Department, including but not limited to OST, BIA, MMS, and other Departmental bureaus and offices. BIA and other Departmental bureaus and offices are responsible for managing the natural resources located within the boundaries of Indian reservations and trust lands as well as the processing of data regarding the ownership and leasing of Indian lands. The allocation and distribution of receipts and disbursements by OST to trust beneficiaries are significantly dependent and reliant upon the receipt of timely and accurate information derived from records maintained by BIA, MMS, and other Departmental bureaus and offices (see note 8).

Regional Offices – OST and BIA maintain staff at regional offices located throughout the United States.

Agency and Field Offices – OST and BIA maintain staff at agency and field offices located throughout the United States, which are generally located near the tribes and individual Indians served. OST and BIA personnel located at most of the agency and field offices perform various functions related to trust fund activities.

(b) Description of the Trust Funds

The IIM Trust Funds are comprised of approximately 384,000 and 378,000 accounts, held primarily for the benefit of individual Indian account holder beneficiaries and tribal entities, as of September 30, 2009 and 2008, respectively. Included within the IIM Trust Funds are certain special deposit accounts that are subject to legal, regulatory, budgetary, court-ordered, or other restrictions that may ultimately result in funds being distributed to tribal and/or other entities.

The IIM Trust Funds are primarily funds on deposit for individual Indians with a beneficial interest in those funds. IIM account holders realize receipts primarily from land use agreements, royalties on natural resource depletion, other proceeds derived directly from trust resources, judgment and tribal per capita distributions, settlement of claims, and investment income.

(c) Investment of Trust Funds

Authorizing legislation and a substantial body of case law specify how Indian trust funds should be managed and which financial instruments constitute appropriate investments for Indian trust funds. The IIM Trust Funds are pooled and invested in U.S. Government securities, including U.S. Department of the Treasury (U.S. Treasury) issues, U.S. Government agency issues, and U.S. Government-sponsored entity issues.
(2) **Summary of Significant Accounting Policies**

(a) **Basis of Accounting**

OST uses the cash basis of accounting with certain modifications for the IIM Trust Funds, which is a comprehensive basis of accounting other than generally accepted accounting principles. Receipts are recorded when received with the exception of interest earned on invested funds (including discount accretion and premium amortization), and disbursements are recorded when issued. Investments are stated at amortized cost. Accrual adjustments to reflect interest earned but not received, and to record any applicable accretion of discounts and amortization of premiums over the terms of the investments, have been recorded in the accompanying financial statements. Interest income reported in the statements of changes in trust fund balances reflects interest earned, net of any premium amortization or discount accretion recognized during the fiscal year.

(b) **Cash and Cash Equivalents**

Management considers all highly liquid financial instruments with maturities of three months or less when purchased to be cash equivalents.

(c) **Investments**

Investment securities at September 30, 2009 and 2008 consist of U.S. Treasury issues, U.S. Government agency issues, and U.S. Government-sponsored entity issues. IIM Trust Funds are pooled and invested. Investment securities are recorded at amortized cost, adjusted for the amortization or accretion of premiums or discounts. Premiums and discounts are amortized or accreted over the expected life of the related investment security as an adjustment to yield using the effective-interest method. Investment income is recognized when earned.

The IIM Trust Funds are invested in U.S. Government securities, as mandated by 25 USC 162a.

(d) **Receipts**

Receipts from various leasing activities, mineral royalties and sales of extracted minerals, timber and other forest products, fees and fines, and the granting of easements are generated from a variety of nonfinancial assets that are held in trust by the U.S. Government and managed by BIA and other Departmental bureaus and offices on behalf of individual Indians. Receipts on hand at the regional and agency offices, and/or in-transit at September 30, 2009 and 2008, if any, awaiting deposit to the U.S. Treasury, are not included in the accompanying financial statements.

Receipts also include payments from the U.S. Government for judgment awards and the settlement of claims.
(e) **Disbursements**

Payments disbursed from the IIM Trust Funds consist of accumulations of funds from various income-producing activities such as leasing, royalty receipts, mineral extraction, timber and other forest product sales, judgment awards, tribal per capita distributions, settlement of claims, and investment income.

(f) **Use of Estimates**

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets at the date of the financial statements and the reported amounts of increases and decreases in trust fund balances during the reporting period. Actual results could differ from those estimates.

(g) **Subsequent Events**

Subsequent events are evaluated by management through the date that the financial statements are available to be issued, which is November 10, 2009.

(h) **Fair Value Measurements**

Financial Accounting Standards Board’s Accounting Standards Codification (ASC) Topic 820 *Fair Value Measurements and Disclosure* (ASC Topic 820) establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. ASC Topic 820 applies only to fair value measurements already required or permitted by other accounting standards and does not impose requirements for additional fair value measures. ASC Topic 820 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and is applied on a prospective basis. Since the IIM Trust Funds use the cash basis of accounting with certain modifications (see note 2(a)), the adoption of ASC Topic 820 on October 1, 2008 only affects note disclosures related to fair value.

(3) **Cash and Cash Equivalents**

Cash equivalents of approximately $28 million and $41 million at September 30, 2009 and 2008, respectively, consist of overnight investments with the U.S. Treasury.
(4) **Investments**

The amortized cost, gross unrealized holding gains, gross unrealized holding losses, and fair value of investment securities by major class of security at September 30 were as follows (amounts exclude investments in U.S. Treasury overnight securities discussed in note 3):

<table>
<thead>
<tr>
<th>Amortized cost</th>
<th>Gross unrealized holding gains</th>
<th>Gross unrealized holding losses</th>
<th>Fair value</th>
</tr>
</thead>

</tr>
<tr>
<td><strong>Total</strong></td>
<td>$391,792</td>
<td>3,047</td>
<td>(2,104)</td>
</tr>
</tbody>
</table>

The investments above held by the IIM Trust Funds at September 30, 2009 and 2008 consist of fixed income securities, some of which are mortgaged-backed debt securities, issued by the U.S. Treasury, U.S. Government agencies, or U.S. Government-sponsored entities. All of these securities are either explicitly or implicitly backed by the U.S. Government. Given the backing by the U.S. Government, current market conditions have not had a significant adverse impact on the fair value of these securities.

Maturities of investment securities were as follows at September 30, 2009:

<table>
<thead>
<tr>
<th>Amortized cost</th>

</tr>
<tr>
<td>Due after ten years</td>
<td>305,014</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>$ 420,535</td>
</tr>
</tbody>
</table>
(5) **Fair Value Disclosure Measurements**

ASC Topic 820 defines fair value as the price that would be received from the sale of an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the principal or most advantageous market for the asset or liability. For measuring fair value ASC Topic 820 establishes a hierarchy that places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority on unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the IIM Trust Funds have the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the IIM Trust Funds own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. All of the investment securities held by the IIM Trust Funds at September 30, 2009 are valued using Level 2 inputs.

The carrying value of cash and cash equivalents and accrued interest receivable reflected in the statements of assets and trust fund balances approximates fair value. The fair value of investment securities disclosed in note 4 represent the best estimate of prices that the securities could be sold for in the open market as of September 30, 2009 and 2008. Those fair values are measured using pricing services, pricing models, or broker quotes. Inputs into the pricing models include the securities par value, interest rate and maturity date. If broker quotes are used to value investment securities the fair value is estimated as the average of three broker quotes.

The fair value methods described above may produce fair value disclosures that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes that the valuation methods used on the IIM Trust Funds are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the disclosed fair value of investment securities could result in a different fair value measurement at the reporting date.
(6) **Contingencies**

Certain parties for whom OST holds funds in trust filed a class action lawsuit in 1996, seeking an accounting of their individual trust funds. Although plaintiffs sought $58 billion from the District Court in lieu of the accounting, the District Court awarded them $456 million. However, in July 2009 the Court of Appeals reversed and vacated that judgment. The plaintiffs may seek to have the case reviewed by the United States Supreme Court. Neither OST nor the Office of the Solicitor for the Department can presently determine the outcome of that potential appeal to the Supreme Court, if it is taken. Nor can they presently determine the total amount, responsibility, or funding source of the potential liability. Any future judgment award, or settlement that could result from negotiations, is not expected to be satisfied with individual trust funds. No amounts have been recorded in the accompanying IIM Trust Funds’ financial statements for potential claims from the U.S. Government.

(7) **Trust Fund Balances**

Trust fund balances are the aggregation of financial assets held in trust and primarily represent the amounts owed to beneficiaries as of September 30, 2009 and 2008 for which OST has a fiduciary responsibility.

As of September 30, 2008, the net total of the balances reflected in the IIM account holders subsidiary detail of account holders’ balances exceeded the trust fund balances reported in the accompanying financial statements by approximately $6 million. During fiscal year 2009, OST received authority via the Omnibus Appropriations Act of 2009 to use up to $6 million in un-obligated funds to resolve historical accounting differences. Therefore, as of September 30, 2009 after the posting of adjusting entries the balances reflected in the IIM account holders subsidiary detail of account holders’ balances equal the trust fund balances in the accompanying financial statements.

The subsidiary detail of IIM account balances contains approximately 11,000 special deposit accounts with balances totaling approximately $29 million and $31 million as of September 30, 2009 and 2008, respectively. The majority of the special deposit account monies held in the IIM Trust Funds relates to historical balances and has not been allocated because the allocation information for the funds has not been provided by BIA. Since the ultimate allocation is unknown at September 30, 2009, the portion attributable to the IIM Trust Funds is unknown.

The subsidiary detail of IIM account balances contains certain oil and gas holding accounts with balances totaling approximately $7.7 million and $11.3 million as of September 30, 2009 and 2008, respectively, which have not been distributed to beneficiaries. Upon receipt of the allocation and accounting data, to be provided by MMS and BIA, the monies will be distributed to IIM account holders’ accounts (see note 8).

A portion of trust fund balances represents estimated payments on production-type leases for which certain individual Indians and tribes hold an interest. When certain adjustments to production are identified, estimated payments received in excess of production are returned to the depositor or adjusted for in future payments.
(8) Related-Party Transactions with Other Government Organizations

(a) U.S. Department of the Interior Bureau of Indian Affairs

BIA is responsible for the collection of certain monies resulting from the management and use of Indian trust lands and other trust resources. Upon receipt, OST records the deposit of trust funds to trust accounts based on the information received from BIA.

(b) U.S. Department of the Interior Minerals Management Service

For certain trust leases, MMS is responsible for the collection of royalty payments on behalf of Indian tribes and individual Indians holding mineral rights. MMS deposits the royalty payments with the U.S. Treasury and electronically transfers to OST the related accounting information, generally the next business day. For tribally/individually co-owned leases and individually owned leases, the allocation and accounting data to distribute the monies to the proper IIM account is forwarded, generally twice a month, to OST via electronic interface through the Royalty Distribution Reporting System that is maintained by BIA. Pursuant to established procedure and appropriate authorization, the data is recorded by OST. MMS and BLM both perform verification and other monitoring procedures of mineral assets. Oil and gas companies sometimes forward payments to MMS based on estimated mineral production in order to comply with the Federal Oil and Gas Royalty Management Act of 1982 that requires timely distribution of royalties. These estimated payments may be disbursed by OST to the beneficiaries. Typically, the oil and gas companies adjust future payments for excess or shortfall amounts, if any, based on actual production.

(c) Other

The U.S. Treasury holds cash and certain investments and in certain instances disburses for OST.

The Department’s Office of the Solicitor serves as legal counsel for OST.

(9) Transfers of Trust Funds

Certain per capita disbursements authorized by tribes result in transfers from the Tribal and Other Trust Funds to the IIM Trust Funds while certain oil and gas distributions may result in transfers to/from the IIM Trust Funds from/to the Tribal and Other Trust Funds. Net transfers of trust funds to the IIM Trust Funds from the Tribal and Other Trust Funds totaled approximately $56.7 million and $75.7 million during the years ended September 30, 2009 and 2008, respectively. These transfers are reflected as receipts in the accompanying statements of changes in trust fund balances. In addition, pursuant to information provided by BIA, OST historically utilized special deposit accounts (see note 7) maintained within the IIM Trust Funds for both tribal and IIM beneficiaries as suspense accounts, whereby funds are temporarily posted when allocation information is not provided when the funds are received. Following receipt of allocation information from BIA, the funds are transferred from the special deposit accounts to the designated tribal and/or IIM account(s).

Independent Auditors’ Report on Internal Control over
Financial Reporting and on Compliance and Other Matters

September 30, 2009
Independent Auditors’ Report on Internal Control over
Financial Reporting and on Compliance and Other Matters

The Special Trustee for American Indians
U.S. Department of the Interior Office of the Special Trustee for American Indians; and
U.S. Department of the Interior Office of Inspector General:

We have audited the statements of assets and trust fund balances – cash basis of the Tribal and Other Trust Funds as of September 30, 2009 and 2008, and the related statements of changes in trust fund balances – cash basis for the years then ended, managed by the U.S. Department of the Interior Office of the Special Trustee for American Indians (OST), and have issued our report thereon dated November 10, 2009. The objective of our audit was to express an opinion on the fair presentation of the Tribal Trust Funds Financial Statements. In connection with our fiscal year 2009 audit, we also considered internal control over financial reporting for the Tribal and Other Trust Funds managed by OST and tested compliance with certain provisions of applicable laws and regulations that could have a direct and material effect on the Tribal Trust Funds Financial Statements.

Summary

Our audit report on the Tribal Trust Funds Financial Statements was qualified because it was not practicable to extend our auditing procedures sufficiently to satisfy ourselves as to the fairness of trust fund balances in the Tribal Trust Funds Financial Statements as of September 30, 2009 and 2008 due to the effects of certain tribal parties for whom OST holds assets in trust disagreeing with the balances recorded by OST, and/or having requested an accounting of their trust funds, and of which certain of these parties have filed, or are expected to file, claims against the United States Government. Trust fund balances enter into the determination of financial position and changes in trust fund balances.

Our audit report states that the Tribal Trust Funds Financial Statements are prepared in accordance with a basis of accounting that is a comprehensive basis of accounting other than generally accepted accounting principles, as described in note 2 to the Tribal Trust Funds Financial Statements.

Our consideration of internal control over financial reporting resulted in a condition related to unresolved trust funds financial reporting matters from prior periods being identified as a significant deficiency.

The results of our tests of compliance with certain provisions of laws and regulations disclosed no instances of noncompliance or other matters that are required to be reported herein under Government Auditing Standards, issued by the Comptroller General of the United States.

The following sections present an overview of the Tribal Trust Funds Financial Statements, and discuss our consideration of internal control over financial reporting for the Tribal and Other Trust Funds managed by OST, our tests of compliance with certain provisions of applicable laws and regulations for the Tribal and Other Trust Funds managed by OST, and management’s and our responsibilities.
Overview – Tribal Trust Funds Financial Statements

The United States Congress has designated the Secretary of the United States Department of the Interior (the Secretary) as the trustee delegate with responsibility for the financial and nonfinancial resources held in trust on behalf of American Indian tribes and other trust funds. In carrying out the management and oversight of the Indian trust assets, the Secretary has a fiduciary responsibility to ensure monies are received for the use of Indian lands and the extraction of natural resources from Indian lands, distribute such monies collected to the appropriate beneficiaries, ensure that trust accounts are properly maintained and invested, and ensure that accurate and complete reports are provided to the trust beneficiaries in accordance with applicable law.

The American Indian Trust Fund Management Reform Act of 1994 (Public Law 103-412) (the Reform Act) authorized the establishment of OST, which is headed by the Special Trustee for American Indians (Special Trustee) who reports to the Secretary. Under this legislation, the Special Trustee is responsible for oversight, reform, and coordination of the policies, procedures, systems, and practices used by various bureaus and offices of the Department of the Interior (Department), including but not limited to OST, the Bureau of Indian Affairs (BIA) (a component of Indian Affairs (IA)), the Minerals Management Service (MMS), and the Bureau of Land Management (BLM), in managing Indian trust assets.

The Tribal Trust Funds are dependent upon the processing of trust-related transactions within certain information systems of the Department, including but not limited to OST, BIA, MMS, and other Departmental bureaus and offices. BIA and other Departmental bureaus and offices are responsible for managing the natural resources located within the boundaries of Indian reservations and trust lands as well as the processing of data regarding the ownership and leasing of Indian lands. The allocation and distribution of receipts and disbursements by OST to trust beneficiaries are significantly dependent and reliant upon the receipt of timely and accurate information derived from records maintained by BIA, MMS, and other Departmental bureaus and offices.

Internal Control over Financial Reporting

Our consideration of the internal control over financial reporting was for the limited purpose described in the Responsibilities section of this report and was not designed to identify all deficiencies in the internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies in internal control, that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected in a timely basis.

In our fiscal year 2009 audit, we consider the following deficiency to be a significant deficiency as a result of historical internal control matters over financial reporting. This significant deficiency did not originate in the current internal control environment:

Unresolved Trust Funds Financial Reporting Matters from Prior Periods

Indian trust assets, including the Tribal and Other Trust Funds, are primarily managed under the delegated authority of OST and BIA. Management of Indian trust assets on behalf of the trust beneficiaries is dependent upon the processing of trust-related transactions within certain information systems of the Department, including but not limited to OST, BIA, MMS, and other Departmental bureaus and offices.
BIA and other Departmental bureaus and offices are responsible for managing the natural resources located within the boundaries of Indian reservations and trust lands, as well as the processing of data regarding the ownership and leasing of Indian lands. The allocation of receipts and disbursements by OST to trust beneficiaries are significantly dependent and reliant upon the receipt of timely and accurate information derived from records maintained by BIA, MMS, and other Departmental bureaus and offices.

The financial information systems and internal control procedures used in the processing of Indian trust transactions have suffered historically from a variety of system and procedural internal control weaknesses. In addition, current management is burdened with the ongoing impact of decades of accumulated discrepancies in the accounting records. Furthermore, certain Indian trust beneficiaries do not agree with the Indian trust balances and/or have requested an accounting of the Indian trust funds. The Department has invested a significant amount of resources identifying historical records, isolating and working to resolve historical differences and balances, and preparing an accounting of the Indian trust fund balances and will continue with this historical accounting effort.

As of September 30, 2009, certain financial reporting matters from prior periods have not been resolved. These items have an effect on the Tribal Trust Funds Financial Statements as of September 30, 2009 and 2008, and for the years then ended. These matters from prior periods, which have not been resolved, include the following:

**Cash**

As of September 30, 2009 and 2008, there were 4 and 12 accounts, respectively, in the Trust Funds Accounting System (TFAS) with negative balances totaling approximately $382,000 and $721,000, respectively. As of September 30, 2009 and 2008, 4 and 11 of these balances, respectively were carried forward from the previous trust funds accounting system prior to the conversion to TFAS.

**Special Deposit Accounts**

As of September 30, 2009 and 2008, there were approximately 10,600 and 11,000 special deposit accounts, respectively, reflected in the Individual Indian Monies (IIM) subsidiary ledger in TFAS with balances totaling approximately $29 million and $31 million, respectively. In accordance with Title 25 of the Code of Federal Regulations and as directed by BIA, historically OST recorded receipts into special deposit accounts within the IIM subsidiary ledger when the recipient trust fund account was unknown at the time of receipt. When BIA determines the appropriate trust fund account(s), OST transfers the amount from the special deposit account(s) to the designated trust fund account(s) in accordance with BIA instructions. Beginning in fiscal year 2003, the Office of Historical Trust Accounting (OHTA) began working with OST and BIA to distribute funds in special deposit accounts that were opened on or before December 31, 2002. At September 30, 2009 and 2008, the number of special deposit accounts represents historical balances that continue to require resolution and OHTA management is actively pursuing the resolution of these accounts.

**Recommendation**

We recommend that management of OST continue to work to resolve the unresolved Tribal Trust Funds balances as soon as practicable. In situations where actions or inputs from Department officials are needed to resolve a matter, we recommend management of OST continue to work with appropriate Department officials such that all matters are resolved as soon as practical.

**OST Management’s Response**

Management does not concur that the findings above are a significant deficiency individually or collectively. Based on Office of Management and Budget (OMB) Bulletin 06-03, a Significant Deficiency
is defined as: “...a deficiency in internal control, or combination of deficiencies, that adversely affects the entity’s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity’s financial statements that is more than inconsequential will not be prevented or detected.” The historical conditions that resulted in the findings have been corrected through internal controls that mitigate the risk of recurrence. These controls are in place and operating effectively, therefore, there is no impact on the current financial internal control environment.

Additionally, management does not agree that the Special Deposit Accounts issue should be included above as these balances are a part of the IIM Trust Fund balance. Policy has dictated that unidentified monies that have been receipted into special deposit accounts are IIM funds until identified and as such are invested as a part of the IIM pool of assets.

**Auditors’ Response to Managements’ Response**

As summarized above, management had not: (i) resolved certain financial reporting matters from prior periods as of September 30, 2009, and (ii) a significant amount of special deposit accounts remained undistributed as of September 30, 2009, of which some of the monies may or may not belong to the Tribal and Other Trust Funds. Therefore, we continue to believe that the deficiencies identified constitute a significant deficiency.

**Compliance and Other Matters**

The results of our tests of compliance as described in the Responsibilities section of this report disclosed no instances of noncompliance or other matters that are required to be reported herein under Government Auditing Standards.

We noted other matters that we have reported to OST management in a separate letter dated November 10, 2009.

**Responsibilities**

**Management’s Responsibilities**

The Reform Act requires that the Secretary shall cause to be conducted an annual audit on a fiscal year basis of all funds held in trust by the U.S. Government for the benefit of an Indian tribe that are deposited or invested pursuant to the Act of June 24, 1938 (25 U.S.C. 162a).

Management is responsible for the Tribal Trust Funds Financial Statements, including:

- Preparing the financial statements in conformity with the basis of accounting described in note 2 of the Tribal Trust Funds Financial Statements;
- Establishing and maintaining effective internal control; and
- Complying with laws and regulations applicable to the Tribal and Other Trust Funds managed by OST.

**Auditors’ Responsibilities**

Our responsibility is to express an opinion on the fiscal year 2009 and 2008 Tribal Trust Funds Financial Statements based on our audit. Except as discussed in the fourth paragraph of our auditors’ report, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform
the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting of the Tribal and Other Trust Funds managed by OST. Accordingly, we express no such opinion.

An audit also includes:

- Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements;
- Assessing the accounting principles used and significant estimates made by management; and
- Evaluating the overall financial statement presentation.

We believe that our audit provides a reasonable basis for our opinion.

In planning and performing our fiscal year 2009 audit, we considered internal control over financial reporting for the Tribal and Other Trust Funds managed by OST by obtaining an understanding of the internal controls, determining whether internal controls had been placed in operation, assessing control risk, and performing tests of controls as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements. We limited our internal control testing to those controls necessary to achieve the objectives described in Government Auditing Standards. We did not test all internal controls relevant to operating objectives as broadly defined by the Federal Managers’ Financial Integrity Act of 1982. The objective of our audit was not to provide an opinion on internal control over financial reporting for the Tribal and Other Trust Funds managed by OST. Accordingly, we do not express an opinion on the effectiveness of the Tribal Trust Funds’ internal control over financial reporting.

As part of obtaining reasonable assurance about whether the fiscal year 2009 Tribal Trust Funds Financial Statements are free of material misstatement, we tested compliance with certain provisions of laws and regulations for the Tribal and Other Trust Funds managed by OST, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. We limited our tests of compliance to the provisions described in the preceding sentence, and we did not test compliance with all laws and regulations applicable to the Tribal and Other Trust Funds managed by OST. However, providing an opinion on compliance with laws and regulations was not an objective of our audit, and accordingly, we do not express such an opinion.

* * * * * * *

We did not audit managements’ responses to the findings identified above and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Department’s management, the U.S. Department of the Interior Office of Inspector General, Office of Management and Budget, the U.S. Government Accountability Office, and the U.S. Congress, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors’ Report on Internal Control over Financial Reporting and on Compliance and Other Matters

September 30, 2009
Independent Auditors’ Report on Internal Control over Financial Reporting and on Compliance and Other Matters

The Special Trustee for American Indians
U.S. Department of the Interior Office of the Special Trustee for American Indians; and

U.S. Department of the Interior Office of Inspector General:

We have audited the statements of assets and trust fund balances – modified cash basis of the Individual Indian Monies Trust Funds (IIM Trust Funds) as of September 30, 2009 and 2008, and the related statements of changes in trust fund balances – modified cash basis for the years then ended, managed by the U.S. Department of the Interior Office of the Special Trustee for American Indians (OST), and have issued our report thereon dated November 10, 2009. The objective of our audit was to express an opinion on the fair presentation of the IIM Trust Funds Financial Statements. In connection with our fiscal year 2009 audit, we also considered internal control over financial reporting for the IIM Trust Funds managed by OST and tested compliance with certain provisions of applicable laws and regulations that could have a direct and material effect on the IIM Trust Funds Financial Statements.

Summary

Our audit report on the IIM Trust Funds Financial Statements was qualified because it was not practicable to extend our auditing procedures sufficiently to satisfy ourselves as to the fairness of trust fund balances in the IIM Trust Funds Financial Statements as of September 30, 2009 and 2008 due to the effects of certain parties for whom OST holds financial assets in trust having filed a class action lawsuit for an accounting of the individuals’ trust funds. Trust fund balances enter into the determination of financial position and changes in trust fund balances.

Our audit report states that the IIM Trust Funds Financial Statements are prepared in accordance with a basis of accounting that is a comprehensive basis of accounting other than generally accepted accounting principles, as described in note 2 to the IIM Trust Funds Financial Statements.

Our consideration of internal control over financial reporting resulted in a condition related to unresolved trust funds financial reporting matters from prior periods being identified as a significant deficiency.

The results of our tests of compliance with certain provisions of laws and regulations disclosed no instances of noncompliance or other matters that are required to be reported herein under Government Auditing Standards, issued by the Comptroller General of the United States.

The following sections present an overview of the IIM Trust Funds Financial Statements, and discuss our consideration of internal control over financial reporting for the IIM Trust Funds managed by OST, our tests of compliance with certain provisions of applicable laws and regulations for the IIM Trust Funds managed by OST, and management’s and our responsibilities.
Overview – IIM Trust Funds Financial Statements

The United States Congress has designated the Secretary of the United States Department of the Interior (the Secretary) as the trustee delegate with responsibility for the financial and nonfinancial resources held in trust on behalf of individual Indians. In carrying out the management and oversight of the Indian trust assets, the Secretary has a fiduciary responsibility to ensure monies are received for the use of Indian lands and the extraction of natural resources from Indian lands, distribute such monies collected to the appropriate beneficiaries, ensure that trust accounts are properly maintained and invested, and ensure that accurate and complete reports are provided to the trust beneficiaries in accordance with applicable law.

The American Indian Trust Fund Management Reform Act of 1994 (Public Law 103-412) (the Reform Act) authorized the establishment of OST, which is headed by the Special Trustee for American Indians (Special Trustee) who reports to the Secretary. Under this legislation, the Special Trustee is responsible for oversight, reform, and coordination of the policies, procedures, systems, and practices used by various bureaus and offices of the Department of the Interior (Department), including but not limited to OST, the Bureau of Indian Affairs (BIA) (a component of Indian Affairs (IA)), the Minerals Management Service (MMS), and the Bureau of Land Management (BLM), in managing Indian trust assets.

The IIM Trust Funds are dependent upon the processing of trust-related transactions within certain information systems of the Department, including but not limited to OST, BIA, MMS, and other Departmental bureaus and offices. BIA and other Departmental bureaus and offices are responsible for managing the natural resources located within the boundaries of Indian reservations and trust lands as well as the processing of data regarding the ownership and leasing of Indian lands. The allocation and distribution of receipts and disbursements by OST to trust beneficiaries are significantly dependent and reliant upon the receipt of timely and accurate information derived from records maintained by BIA, MMS, and other Departmental bureaus and offices.

Internal Control over Financial Reporting

Our consideration of the internal control over financial reporting was for the limited purpose described in the Responsibilities section of this report and was not designed to identify all deficiencies in the internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies in internal control, that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis.

In our fiscal year 2009 audit, we consider the following deficiency to be a significant deficiency as a result of historical internal control matters over financial reporting. This significant deficiency did not originate in the current internal control environment:

Unresolved Trust Funds Financial Reporting Matters from Prior Periods

Indian trust assets, including the IIM Trust Funds, are primarily managed under the delegated authority of OST and BIA. Management of Indian trust assets on behalf of the trust beneficiaries is dependent upon the processing of trust-related transactions within certain information systems of the Department, including but not limited to OST, BIA, MMS, and other Departmental bureaus and offices. BIA and other Departmental bureaus and offices are responsible for managing the natural resources located within the boundaries of
Indian reservations and trust lands, as well as the processing of data regarding the ownership and leasing of Indian lands. The allocation of receipts and disbursements by OST to trust beneficiaries are significantly dependent and reliant upon the receipt of timely and accurate information derived from records maintained by BIA, MMS, and other Departmental bureaus and offices.

The financial information systems and internal control procedures used in the processing of Indian trust transactions have suffered historically from a variety of system and procedural internal control weaknesses. In addition, current management is burdened with the ongoing impact of decades of accumulated discrepancies in the accounting records. Furthermore, certain Indian trust beneficiaries do not agree with the Indian trust balances and have requested an accounting of the Indian trust funds. The Department has invested a significant amount of resources identifying historical records, isolating and working to resolve historical differences and balances, and preparing an accounting of the Indian trust fund balances and will continue with this historical accounting effort.

As of September 30, 2009, certain financial reporting matters from prior periods have not been resolved. These items have an effect on the IIM Trust Funds Financial Statements as of September 30, 2009 and 2008, and for the years then ended. These matters from prior periods, which have not been resolved, include the following:

**Special Deposit Accounts**

As of September 30, 2009 and 2008, there were approximately 10,600 and 11,000 special deposit accounts, respectively, reflected in the IIM subsidiary ledger in the Trust Funds Accounting System (TFAS) with balances totaling approximately $29 million and $31 million, respectively. In accordance with Title 25 of the Code of Federal Regulations and as directed by BIA, historically OST recorded receipts into special deposit accounts within the IIM subsidiary ledger when the recipient trust fund account was unknown at the time of receipt. When BIA determines the appropriate trust fund account(s), OST transfers the amount from the special deposit account(s) to the designated trust fund account(s) in accordance with BIA instructions. Beginning in fiscal year 2003, the Office of Historical Trust Accounting (OHTA) began working with OST and BIA to distribute funds in special deposit accounts that were opened on or before December 31, 2002. At September 30, 2009 and 2008, the number of special deposit accounts represents historical balances that continue to require resolution and OHTA management is actively pursuing the resolution of these accounts.

**Trust Fund Balances**

An historical “undistributed interest” house account of approximately $1,205,000 existed at September 30, 1990. The balances as of September 30, 2009 and 2008 were approximately $2,500,000 and $2,400,000, respectively. Interest earned on these funds is recorded in the house account. The allocation of these funds has not been determined.

During fiscal years 2002 and 2004, approximately $922,000 and $375,000, respectively, was transferred from certain special deposit accounts to “undistributed interest” house accounts in connection with the review of certain special deposit accounts performed by OST, together with BIA and a contractor. Interest earned on these funds was recorded in current IIM accounts through September 30, 2005. Beginning October 1, 2005, interest earned on these funds was recorded in the respective undistributed interest accounts. The balances as of September 30, 2009 were approximately $1,115,000 and $493,000, respectively, and as of September 30, 2008 were approximately $1,062,000 and $470,000, respectively. The allocation of these funds has not been determined.
During fiscal year 2009, the following financial reporting difference from previous years was resolved:

*Lack of Reliable Balance*

The TFAS control account for the IIM Trust Funds represents the aggregate net balance of trust funds held on behalf of IIM account holders, as well as house/suspense accounts, as reflected in the detailed subsidiary ledger of IIM accounts (subsidiary ledger) also in TFAS. The control account balance had historically not agreed to the sum of the balances from the subsidiary ledger and it could not be determined which balance, if either, was correct. Historically, the amount invested for IIM was based on the IIM control account balance in TFAS. Consequently, the balance of funds invested for IIM may not have been correct, which in turn would affect interest earnings. As of September 30, 2008, the balance of all subsidiary ledger account balances exceeded the IIM control account balance in TFAS by approximately $6,000,000. During 2009, OST received authority via the *Omnibus Appropriations Act of 2009* to use up to $6 million in un-obligated funds to resolve historical accounting differences. As a result, as of September 30, 2009 after the posting of adjusting entries the control account balance agreed to the sum of balances from the subsidiary ledger.

*Recommendation*

We recommend that management of OST continue to work to resolve the unresolved IIM Trust Funds financial reporting balances as soon as practicable. In situations where actions or inputs from Department officials are needed to resolve a matter, we recommend management of OST continue to work with appropriate Department officials such that all matters are resolved as soon as practical.

*OST Management’s Response*

Management does not concur that the findings above are a significant deficiency individually or collectively. Based on Office of Management and Budget (OMB) Bulletin 06-03, a Significant Deficiency is defined as: “…a deficiency in internal control, or combination of deficiencies, that adversely affects the entity’s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity’s financial statements that is more than inconsequential will not be prevented or detected.” The historical conditions that resulted in the findings have been corrected through internal controls that mitigate the risk of recurrence. These controls are in place and operating effectively, therefore, there is no impact on the current financial internal control environment.

*Auditors’ Response to Managements’ Response*

As summarized above, management had not resolved certain financial reporting matters from prior periods as of September 30, 2009. Therefore, we continue to believe that the deficiencies identified constitute a significant deficiency.

*Compliance and Other Matters*

The results of our tests of compliance as described in the Responsibilities section of this report disclosed no instances of noncompliance or other matters that are required to be reported herein under *Government Auditing Standards*.

We noted other matters that we have reported to OST management in a separate letter dated November 10, 2009.
Responsibilities

**Management’s Responsibilities**

The Reform Act requires that the Secretary shall cause to be conducted an annual audit on a fiscal year basis of all funds held in trust by the U.S. Government for the benefit of an individual Indian that are deposited or invested pursuant to the Act of June 24, 1938 (25 U.S.C. 162a).

Management is responsible for the IIM Trust Funds Financial Statements, including:

- Preparing the financial statements in conformity with the basis of accounting described in note 2 of the IIM Trust Funds Financial Statements;
- Establishing and maintaining effective internal control; and
- Complying with laws and regulations applicable to the IIM Trust Funds managed by OST.

**Auditors’ Responsibilities**

Our responsibility is to express an opinion on the fiscal year 2009 and 2008 IIM Trust Funds Financial Statements based on our audit. Except as discussed in the fourth paragraph of our auditors’ report, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting of the IIM Trust Funds managed by OST. Accordingly, we express no such opinion.

An audit also includes:

- Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements;
- Assessing the accounting principles used and significant estimates made by management; and
- Evaluating the overall financial statement presentation.

We believe that our audit provides a reasonable basis for our opinion.

In planning and performing our fiscal year 2009 audit, we considered internal control over financial reporting for the IIM Trust Funds managed by OST by obtaining an understanding of the internal controls, determining whether internal controls had been placed in operation, assessing control risk, and performing tests of controls as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements. We limited our internal control testing to those controls necessary to achieve the objectives described in *Government Auditing Standards*. We did not test all internal controls relevant to operating objectives as broadly defined by the *Federal Managers’ Financial Integrity Act of 1982*. The objective of our audit was not to provide an opinion on internal control over financial reporting for the IIM Trust Funds managed by OST. Accordingly, we do not express an opinion on the effectiveness of the IIM Trust Funds’ internal control over financial reporting.
As part of obtaining reasonable assurance about whether the fiscal year 2009 IIM Trust Funds Financial Statements are free of material misstatement, we tested compliance with certain provisions of laws and regulations for the IIM Trust Funds managed by OST, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. We limited our tests of compliance to the provisions described in the preceding sentence, and we did not test compliance with all laws and regulations applicable to the IIM Trust Funds managed by OST. However, providing an opinion on compliance with laws and regulations was not an objective of our audit, and accordingly, we do not express such an opinion.

* * * * * * *

We did not audit managements’ responses to the findings identified above and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Department’s management, the U.S. Department of the Interior Office of Inspector General, Office of Management and Budget, the U.S. Government Accountability Office, and the U.S. Congress, and is not intended to be and should not be used by anyone other than these specified parties.
