

2015 FEDERAL BIKE CHALLENGE

Department of the Interior Results

(Based on data provided by Cascade Bicycling Club)

Introduction

Congratulations to 2015 Federal Bike Challenge teams and riders from the Department of the Interior. The number of DOI bicyclists grew from 20 bicyclists in 2012, to 826 active bicyclists in 2013, 890 in 2014, and 934 in 2015. DOI participants represented more than a third of the 2,170 federal riders in the Challenge. Our employees bicycled 9,114 round trips totaling 106,102 miles, which is equivalent to reducing 90,281 pounds of CO2 emissions from car travel, and burning 4,514,028 calories. Thank you for exemplifying the Department's commitment to reducing our carbon footprint and encouraging physical activity.

New DOI bicycle commuters results (52 new bicycle commuters):

There were 52 new bicycle commuters who started cycling to work as part of the challenge. Congratulations to you for trying commuting by bicycle. One of the goals of the challenge is to introduce to employees bicycling as a way of commuting. Hopefully you enjoyed it and will continue to cycle to and from work.

Bureau and Office Participation in the 2015 Federal Bike Challenge:
