

U.S. Department of the Interior
OFFICE OF INSULAR AFFAIRS

TECHNICAL ASSISTANCE PROGRAM (TAP)
Catalog of Federal Domestic Assistance (CFDA) Number: 15.875

FISCAL YEAR 2020 APPLICATION INSTRUCTIONS

I. Program Description

The Office of Insular Affairs (OIA) is requesting proposals for its Technical Assistance Program (TAP) which provides grant funding for short-term projects intended to meet the immediate needs of the insular areas. Funding priorities include, but are not limited to, projects that foster the development of the insular areas in the following categories:

- *Accountability, financial management, economic development, education, energy production, management control initiatives, disaster assistance, natural and cultural resources, capacity building, public safety/emergencies, information technology, health initiatives, and invasive species management.*

TAP grants are not intended to supplant local funding of routine operating expenses of an insular government or organization or to be used for construction projects. "Routine operating expenses" include the purchase of office supplies and equipment upgrades, such as new computers, that are not necessitated as part of a broader project, such as the installation of new financial management software. TAP grants are not intended to fund the salaries of local, existing, employees (see Section D. Application Restrictions) though they may be utilized to provide temporary short term expertise if approved in the proposal budget. TAP funding is not intended for purchase of standard or routine vehicles though specialized vehicles, such as ambulance or fire trucks, may be considered. Finally, TAP funding is generally not provided for food, meals, or nonessential conference/training meeting materials.

** Costs associated with providing training should be limited to permanent career staff. OIA's limited grant funding should not, in general, be used to fund the training costs, including travel costs, of insular area political officials with limited terms or appointments.*

II. Eligible Applicants

Eligible applicants are non-federal entities such as local government agencies (including local hospitals/health centers and local utilities) and institutions of higher education in Guam, American Samoa, the U.S. Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau; and any non-profit organizations whose mission directly benefits the seven insular areas in accordance with regulations contained in 2 CFR 200.
