Indirect Cost Services

The Interior Business Center performs services on behalf of the Department of the Interior and other federal funding cognizant agencies for indirect costs. We also provide incurred costs and other contract audit related services.

Our federal government staff accountants and auditors have years of experience negotiating indirect cost rates and performing contract incurred cost audit services. Our work is accomplished with various non-federal entities to include state and local government, Tribes, nonprofit organizations, and federal contractors.

**OUR SERVICES**

- Negotiate indirect cost rate agreements with non-federal grantees
- Provide indirect cost rate proposal and development training
- Conduct incurred cost audits on contractors with Federal Acquisition Regulation (FAR) flexibly priced/cost reimbursable contracts

Our mission supports the federal financial assistance and contracting community and ensures the indirect or incurred costs paid by the U.S. government are reasonable, allocable and allowable.
