Bureau of Indian Affairs Case Tracking System (BIA-CTS)

<https://bia-cts.doi.gov>

Bureau of Indian Affairs

Customer POC:

Debbie McBride, BIA Central Office

debrah.mcbride@bia.gov

202.208.1605

The Bureau of Indian Affairs Case Tracking System is a brand new secure web application currently in the development phase that will provide BIA the ability to track information on two primary categories of work: Inquiries or Complaints by the Office of the Inspector General (OIG); and Audits. This will help the BIA Director report to Congress as necessary as well as other federal government entities, as mandated by law.

- Reusable components for authentication, database and UI design borrowed from IAB-CTS system.
- Secure persistent session management via Secure Socket Layer (SSL) encryption.
- Role-based and agency-based read/write access to specific areas of the system.
- Track IG claims as well as audits throughout the entire investigation/audit lifecycle.
- Automated status e-mail notification process aligned due dates to keep projects on track.
- Online Help Utility including an extensive User's Guide.
- Extensive reporting capabilities with export to Microsoft Word and Excel formats.

Bureau of Reclamation Services FAIRACT System

<https://fairbor.bc.doi.net>

Customer POC:

Steve Schmidt

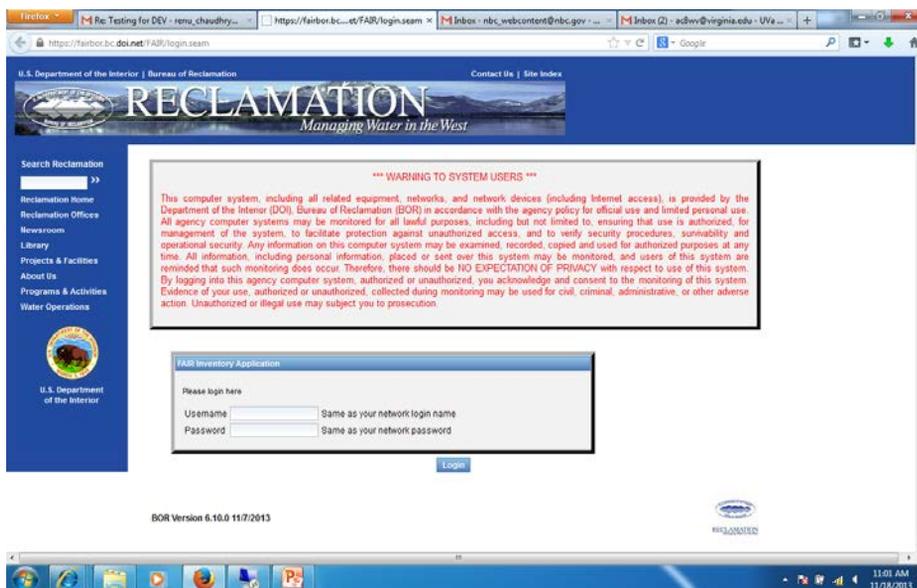

FAIR Program Branch Chief

303-445-2477

sschmidt@usbe.gov

BOR A -76 Federal Activities Inventory Reform (FAIR) Act Inventory system allows authorized BOR personnel to do online search and display of the FWS inventory. It is utilized by authorized BOR personnel to review and submit changes to the inventory. They can also add a new position.

The system provides a wide variety of administrative and reporting capabilities. Users can create reports by specifying criteria such as region, org, program or employee name. Once data is finalized, users can download reports and submit to OMB.

Compliance Sheriff – 508 Compliance Reporting System

<https://compliance.bc.doi.net>

Office of the Chief Information Officer

Customer POC:

Sid Sharma

Siddhartha_Sharma@ios.doi.gov

202-219-0963

Compliance reports are generated from a Web monitoring tool called Compliance Sheriff. The tool crawls Web pages hosted on any Web server. It provides reports on Web accessibility and features custom content checks for user-defined requirements on Web pages. Its testing also performs Site Quality and Privacy checks.

The screenshot displays the HiSoftware Compliance Sheriff web application. The interface is divided into several sections:

- Navigation:** A top menu bar includes 'Dashboard', 'Scans', 'Monitors', 'Checkpoints', 'Views' (selected), 'Notifications', 'Repair', 'Settings', and 'Admin'. A 'Sign out | Help' link is in the top right.
- Left Panel:** Contains a search bar for 'Name:' with 'CRAC' entered. Below it are tabs for 'Show scan results' and 'monitor results'. A list of scans is shown, including 'DOCL', 'DEPC', 'DMT', 'DMK Q4', 'DMK Q4 FY11', 'DMK-noPDF', 'DMK', 'DMK', 'DMK SafetyNet', 'DMK', 'DMK Q4', 'DMK Q4 FY11 - no PDFs', 'DMK-noPDF-Level3', 'DMK-FRM', 'DMK-EMERGENCY Mtg', and 'DMK-EM (AS CS)'. A 'Checkpoints groups' list is also visible, including 'Accessibility Statistics', 'Alt Text Quality Report', 'Link Validation', 'Privacy - 3rd Party Linking', 'Privacy - Data Collection', 'Privacy - PDP Usage', 'Privacy - Policy Compliance', 'Privacy - Visitor Tracking', 'Section 508', 'Section 508 - 1194.22(a)', 'Section 508 - 1194.22(b)', 'Section 508 - 1194.22(c)', and 'Section 508 - 1194.22(d)'. There are checkboxes for 'show all filters', 'Chart type: Page compliance', 'Show as: Pie chart', and 'Summary' options.
- Right Panel:** Shows a 'Page compliance' view for 'www.dotnetcharting.com'. It features a pie chart with a green segment representing 115 (94.3%) 'Passed' and a red segment representing 7 (5.7%) 'Failed'. Below the chart is a 'Statistics summary' table:

Result	# pages
Failed	7 (5.7%)
Warning	49 (40.2%)
Visual check	44 (36.1%)
Passed	22 (18.0%)
Total	122

Customer Agreement System (CAS)

<https://cas.nbc.gov>

Financial Budget Directorate, IBC

The Automated Customer Agreement application is a secure Internet-based suite of modules designed to improve the effectiveness of IBC operations. The Customer Agreement application standardizes electronic agreements as well as improves consistency between systems. Automated Customer Agreement Application Features are as follows:

- Secure persistent session management using Secure Socket Layer (SSL) and User Authentication
- Electronic User Registration
- Automatic generation of agreement number
- Customer Agreement Search Capability
- Web-enabled customer agreement, description of services and route list preparation with data validation to ensure data integrity
- Route for approval with email notification
- Audit trail and Status reports
- On-line help utility
- In compliance with DOI/IBC IT architecture
- Electronic Archives providing easy access to agreements

Welcome to the Automated Customer Agreement Application

The Automated Customer Agreement application is a secure Internet-based suite of modules developed by the Interior Business Center (IBC) to improve the effectiveness of IBC operations. One of the primary objectives of the IBC is to standardize and consolidate administrative functions, to improve their efficiency and effectiveness and to reduce the cost of these services to its customers. In order to be the leading provider of administrative products and services, the IBC is committed to conducting business consistently as a single entity with commonly held philosophies and standardized business practices.

To help achieve this goal, a business practice team was formed to develop a standard method for capturing indirect costs. Based upon the Indirect Cost Team's groundbreaking study and recommendations, other business practice teams were formed to standardize practices in related subject matter areas such as pricing, cost accounting, customer agreements, billing and billing systems, and budget. One of the Customer Agreements team recommendations was to develop an automated customer agreement system to promote standard electronic agreements and improve consistency between systems.

Automated Customer Agreement Application Features are as follows:

- Secure persistent session management using Secure Socket Layer (SSL) and User Authentication
- Electronic User Registration
- Automatic generation of agreement number
- Customer Agreement Search Capability
- Web-enabled customer agreement, statement of work and route list preparation with data validation to ensure data integrity
- Route for approval with email notification
- Audit trail and Status reports
- On-line help utility
- Integration with the IBC Federal Financial System
- In compliance with DOI/IBC IT architecture
- Electronic Archives providing easy access to agreements

Electronic FOIA Tracking System (EFTS)

<https://efoia.ios.doi.gov>

Office of the Secretary / Office of the Executive Secretariat

Customer POC:

Robert Howarth

Robert_Howarth@ios.doi.gov

202-208-4451

EFTS is the technology foundation that not only provides DOI with the capability to track and coordinate its FOIA requests, and litigations centrally, but also enables a distributed process across the DOI enterprise. EFTS allows DOI FOIA Officers to add, update, find, and track the FOIA and Privacy Act requests, litigations from their desks more efficiently, ensure consistency in responses, and facilitate preparation of the annual report to DOJ/Congress. Updates are immediately available to anyone who accesses data and will provide a complete, timely, and accurate account of individual FOIA requests and their status. The application also provides various reports and logs to better assist the DOI FOIA officers when working with their FOIA requests.

EFTS is a Java/J2EE web application system deployed within the DOI IT infrastructure. Users access EFTS via a web browser and have access to various parts of EFTS based on their user roles and privileges. All data for EFTS is tracked in a relational database that is normalized to provide data integrity and reduce data redundancy. It is designed to take advantage of the latest development environment using web-based, thin client solutions and the Department of the Interior's Intranet.

Environmental and Disposal Liability Reporting System

<https://ecl.doi.gov>

Office of Environmental Policy and Compliance

Customer POC:

William Lodder

William.Lodder@ios.doi.gov

202-208-7556

The Department of the Interior (Department) – composed of multiple Bureaus and Offices, must identify, address, and respond to Environmental and Disposal Liability issues on a diverse landscape of real property Sites and properties. Accurate financial reporting and effective managerial controls are imperative. Environmental Management Information System (EMIS) was designed to help the Office of Policy, Management, and Budget's (PMB's) Office of Environmental Policy and Compliance (OEPC) and Office of Financial Management (PFM) comply with federal laws and regulations in the areas of management and financial responsibility.

EMIS is a web-based database application managed by the Office of Environmental Policy and Compliance to track and manage data for both the Environmental and Disposal Liabilities (EDL) and the Central Hazardous Materials Fund (CHF) programs. The EDL module allows the Department to ensure EDL recording and reporting consistency among bureaus and to track changes in its liabilities. The CHF modules allow the Department to keep track of its mid - to long - term cleanups.

Headquarters Visitor Parking System

<https://parking.doi.gov>

Office of Facilities and Administrative Services

Customer POC:

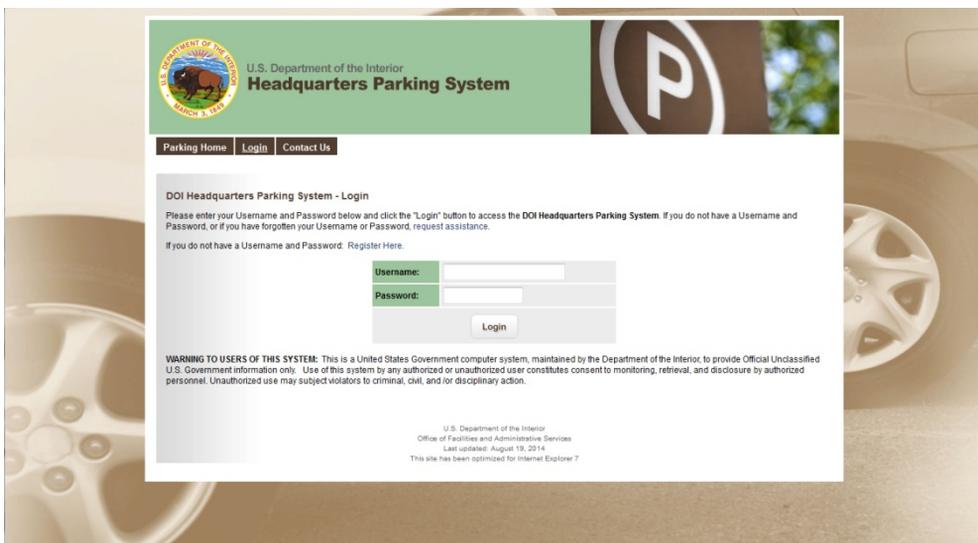

Roberta Richardson

roberta_richardson@ios.doi.gov

(202) 208-4938

The Department of the Interior – composed of multiple Bureaus and Offices, must identify, address, and respond to visitor parking requests for Main Interior Building, South Interior Building and Federal Reserve Building. The Headquarters Visitor Parking System helps the Office of Facilities and Administrative Services to manage the incoming requests. The Headquarters Visitor Parking System services DOI bureaus, offices and field personnel to request visitor parking online.

The Headquarters Visitor Parking System automates the daily operations of the Interior Complex Parking Program. It allows parking team members to consistently view and assign requests. It also allows the DOI to consistently evaluate and record parking requests requested by different bureaus.

Indian Affairs Performance Management System (IAPMS)

<https://iapms.doi.gov>

Bureau of Indian Affairs

Customer POC:

Melvin Gilchrist

Melvin.Gilchrist@bia.gov

703-390-6483

IAPMS provides Indian Affairs Management with a tool for reporting and analyzing data collected to provide an indication of the effectiveness and efficiency of Indian Affairs programs. Additionally, the system provides reports to management on Indian Affairs' progress in meeting the Department's overall strategic direction as outlined in the strategic plan.

This system provides information to all employees on how their work contributes to the Department's overall strategic direction, and enables analysis of how the Department can improve on service delivery or program effectiveness. This system collects, manages and analyzes performance data for different regions and offices under Indian Affairs. The system is utilized for the reporting of results against strategic plan measures, as well as bureau-specific measures.

Internal Affairs Branch Case Tracking System

<https://iab.doi.gov>

Office of Law Enforcement and Security

Customer POC:

Adolph Benavidez

adolph_benavidez@ios.doi.gov

(202) 430-0335

One of the primary responsibilities of Office of Law Enforcement and Security-Internal Affairs Bureau (OLES-IAB) is to provide oversight of the bureau Internal Affairs Units (IAU). IAB does this by conducting annual compliance reviews and receiving case notification from the IAUs concerning openings, extensions and closings. This information is used to provide reports to the bureaus, Office of the Secretary, Office of the Inspector General, Deputy Assistant Secretary – Law Enforcement and Security, Director – OLES, Congress and others.

The Internal Affairs Branch Case Tracking System (IAB-CTS) services DOI bureaus, offices and field personnel (as permitted by law and court order) involved in investigating and or providing oversight of internal investigations involving DOI law enforcement personnel and non-law enforcement supervisors or managers who have nexus to the law enforcement program.

The system provides a consolidated central repository for DOI law enforcement internal affairs cases, It implements common processes and best practices for the tracking and control of editing cases, close cases and request extension, The system provides an easy fast way to notify IAB about a case opening, extension request or case closing. It is a primary case tracking system for IAUs. It allows the IAU to run reports concerning their bureau. The system allows the ability to Search for DOI cases by Department Case number, IA Case number, IG Case number, closing and initiation dates.

PILT Application

<http://www.doi.gov/pilt>

Office of Budget

Customer POC:

Dionna Kiernan

dionna_kiernan@ios.doi.gov

(202) 513-7783

"Payments in Lieu of Taxes" (or PILT) are Federal payments to local governments that help offset losses in property taxes due to nontaxable Federal lands within their boundaries. PILT payments help local governments carry out such vital services as firefighting and police protection, construction of public schools and roads, and search-and-rescue operations.

PILT website provides payments information for the states and counties. Users can search for the payments by state or county. The website also provides historical information.

The screenshot shows the top portion of a web browser displaying the U.S. Department of the Interior website. The header includes the department's logo, name, and social media icons. The main heading is "Payment in Lieu of Taxes". Below this is a navigation menu with links for Home, SAM Bulletin, Chapter 69, Regulations, and Resources. The main content area contains a paragraph explaining that PILT payments are Federal payments to local governments to offset property tax losses on non-taxable Federal lands. It references Public Law 94-565 and Public Law 97-258, and notes that the law is codified at Chapter 69, Title 31 of the United States Code. A second paragraph describes how PILT payments help fund vital services like firefighting and police protection. A final paragraph states that the DOI Office of the Secretary has administrative authority over the PILT program and distributes funds according to established formulas, with applicable regulations published as a final rule in the Federal Register on December 7, 2004.

Sustainable Practices Database

<https://www.nbc.gov/spreport>

Office of Environmental Policy and Compliance

Customer POC:

Kathleen Bartholomew

[Kathleen Bartholomew@ios.do.gov](mailto:Kathleen_Bartholomew@ios.do.gov)

202-208-3721

Sustainable Practices database responds to a memorandum calling for reports issued by the Office of the Federal Environmental Executive and the Office of Management and Budget. This reporting tool is utilized by representatives of facilities within the Department of the Interior Bureaus and Offices. The data is submitted regarding their facility's progress in implementing:

Section 6002 of the Resource Conservation and Recovery Act
Farm Security And Rural Investment Act (FSRIA)

E.O. 13423 - Strengthening Federal Environmental, Energy, and Transportation Management

System is utilized by facility personnel to input data for the Solid Waste Prevention and Green Purchasing. Once the data has been entered and finalized by the facility users, it is forwarded to the Regional users for the review and approval. Once the data has been approved by the Regional managers, it is forwarded to the bureau level managers for the review and approval. At this time, the data is ready to be used in the Sustainable Practices report. The Office of Management and Budget uses the report submitted by the Department of the Interior when it complies its report to Congress.

The IBC employee website provides upcoming events and guidance to IBC employees across the IBC. Employees can explore IBC policies across different directorates and can also access collaborative workspace.

The screenshot shows the IBCnet website interface. At the top, there is a search bar and a navigation menu. The main content area is divided into several sections: a sidebar with various links, a central area with news and announcements, and a right-hand side with a calendar and other utility widgets. The 'Your Role in the IBC Email Migration' section is highlighted, providing information about the migration process and contact details for the Customer Support Center.

Ocean, Coasts and Great Lakes Activities Website

This web site uses Perceptive Search, indexing software that assists users in searching for cases decided by the Office of Hearing and Appeals and other Department of the Interior authorities. Decisions and other reference materials are grouped into databases, e.g., "A" and "M" Decisions (1920-1970), *IBIA Decisions (1970-Present)*, and *IBLA Decisions (1970-Present)*.

Office of Hearing and Appeals

Search Database

This web site uses ISYS, indexing software that assists you in searching for cases decided by the Office of Hearing and Appeals and other Department of the Interior authorities. ISYS displays a decision in portable document format (PDF).

How Are Decisions Organized?

Decisions and other reference materials are grouped into databases, e.g., "A" and "M" Decisions (1920-1970), *IBIA Decisions (1970-Present)*, and *IBLA Decisions (1970-Present)*. Each search page has a list showing the different databases available.

Note that while the decisions in most of the databases are precedential and may be cited as authority in future cases, decisions of the Hearings Divisions are not.

What Are My Search Options?

There are four ways to search a database. The most basic is the Quick Search option to the right on this page. Simply enter the term you wish to search for, select the database you wish to search from the drop-down list, and hit the "Enter" key on your keyboard. Note that, if you search on the term *mining claim* (without quotation marks), ISYS will find any case that contains the word *mining* and also the word *claim*, whether the two words are together or not. If you search on the term "*mining claim*" (with quotation marks), ISYS will find any case that contains the phrase *mining claim*.

Three other search options are available. The most user friendly is the Menu Assisted query. This query page combines most of the ISYS query tools on one easy-to-use page. The Natural Language query, as its name implies, uses a simple statement or sentence as a platform to query and retrieve database matches. The Advanced Search query allows users who are familiar with ISYS search language to customize individual searches. To assist users with the different ISYS query tools, Help pages are provided to the right on this page.

May I Search More Than One Database Simultaneously?

Yes. The Advanced Search query, Menu Assisted query, and Natural Language query options allow you to search multiple databases at the same time by checking the box next to each database that you wish to search. However, due to formatting differences from one database to another, the display of search results may be more useful if you run your search separately for each database.

Office of Insular Affairs Website

<http://www.doi.gov/oia>

Office of Insular Affairs

Customer POC:

Tanya Joshua

Tanya_Joshua@ios.doi.gov

202-208-6816

The Office of Insular Affairs is the Executive Branch's liaison organization with four of the five principal U.S. insular areas (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and the U.S. Virgin Islands) and the three freely associated states (the Marshall Islands, the Federated States of Micronesia and Palau). OIA also exercises certain residual responsibilities in two of the nine smaller U.S. insular areas, Palmyra and Wake Atolls.

OIA website is a very active website and captures all the recent developments and latest news in the insular areas and has information on OIA initiatives, OIA financial assistance, reports and press releases.

The site uses Drupal Content Management System.

SafetyNet Website

The Department of the Interior's Occupational Health and Safety Program supports the Department's Mission to protect and provide access to our Nation's natural and cultural heritage by:

- Keeping employees and volunteers well,
- Keeping employees and volunteers on the job, and
- Reducing accident related losses.

IN FOCUS

Presidential Safety, Health and Return to Employment SCORECARD - First and Second Quarter, FY 2009

BREAKING NEWS

As part of this year's DOI Safety and Health Week, the Main and South Interior Building's "Safest Bureau" office inspection contest was held with offices from BIA, BOR, BUM, FWS, MMS, NPS, OSM, and USGS participating. Each submitted an "office," consisting of five to eight work stations for the competition. During the course of inspections, offices were allowed and encouraged to abate any safety hazards that were found. The competition included employee awareness about ergonomics, emergency readiness, and fire safety issues. This year's winner, Office of Surface Mining received the Heinrich Pyramid Trophy at their annual safety staff meeting.

Each year, the office that wins the DOI Safest Bureau contest will earn the right to keep and display this trophy, the "Heinrich Pyramid," for one year. This award is named after Herbert William Heinrich, the American safety pioneer who developed the "accident pyramid" model back in the 1930s. After analyzing over 500,000 occupational accidents, Heinrich found that there is a constant ratio between fatal, lost, and near accidents that
