In the NE memo? It's at NOAA for review, particularly on that point.

At this point I am not working on anything else. However, was just about finished typing a new message, including NOAA information, on the dollar amounts in the memo. I am concerned that cumulative totals may be presented as annual revenues. Will send in about 30 seconds.

Thanks, Randy. I'd like to review anything else that's produced on the marine monuments and Katahdin - any other briefing papers, talking points, etc. - before they are finalized.

Thanks. Ann and I talked earlier on the NE memo - we agreed to disagree. I think - although we did not discuss this - that is based on our differing individual understandings of what the purpose of the memo is.

Here is what I sent to Downey. Subsequently, while talking on the phone about my concerns over the NE Canyons and Seamounts memo - which I will also forward, as I don't know what she decided on that - she said the Pap bullets were "perfect" and she would send them to Earl momentarily. See the brackets in both the bullets and recommendation sections.

I think the PMNM bullets are ready to go to Earl.

I also found 2 minor wording issues, in red, on the New England bullets. I have several concerns on the New England memo and will send those shortly.
