NISC·ISAC
NATIONAL INVASIVE SPECIES COUNCIL · INVASIVE SPECIES ADVISORY COMMITTEE
SECRETARIAT

Management Plan Report Card
PROTECTING WHAT MATTERS · WE CAN DO THIS...

N/A = No longer applicable

	I. Provide Institutional Leadership and Set Priorities	
1.1	Review of the 2001 and 2008 National Invasive Species Management Plans	N/A
1.2	Review of E.O. 13112	EO 13751: Complete
1.3	Guidance for strengthening NISC institutionalization	Pending NISC Action
1.3.1	Terms of reference for NISC operations	Pending NISC Action
1.3.2	Mechanism for promoting inter-agency coordination/reporting	Pending NISC Action
1.3.3	Process for assessing and coordinating NISC prioritization	Pending NISC Action
1.4	National EDRR Task Force	N/A
1.5	Implementation Plan for National EDRR Program	Ongoing

	II. Facilitate Effective Coordination and Cost Efficiency	
2.1	Tools and training for NISC member Departments/Agencies	• US Arctic Invasive Species Working Group: Complete/Ongoing • Community of Practice Series: Complete/Ongoing • Podcasts: Complete • Training Courses (World Conservation Congress and US Territories): Complete • NISC website update: Complete/Ongoing • Regulated Non-native Species List: Ongoing • BISON Database Tools: Ongoing
2.2.1	NISC Crosscut budget	• FY2016: Complete • FY2017: Complete • FY2018: Suspended
2.2.2	Assessment of Federal investments, resource needs, and resource opportunities for implementing emerging priorities and NISC Management Plans	Pending NISC Action
2.3	Cost-benefit analyses of EDRR programs (Montana)	Montana Pilot Project: Complete
2.4	Guidelines for data standards	Paper: Complete

2.5.1	Recommendations for improving coordination with the states/territories	• ISAC White Paper: Complete • US Territories Invasive Species Coordinating Committee: Complete
2.5.2	Recommendations for improving coordination with the Federally-recognized tribes, as well as Alaskan Native Corporations and Hawaiian natives	ISAC White Paper: Complete
2.5.3	North American Invasive Alien Species Strategy and Action Plan	• North American Project/Initiatives: Complete • Data Matters Contractor's Report: Complete
2.5.4	EDRR pilot projects	• Montana: Complete • Wyoming: Complete • Invader Detectives: Complete
2.6	Arctic Invasive Alien Species Strategy and Action Plan	• Policy: Complete • Data Matters Contractor's Report: Complete
2.7	Training courses on institutionalizing invasive species programs	• US Territories: Complete • World Conservation Congress: Complete
2.8.1	Invasive species specifically addressed in TTIP	N/A
2.8.2	Information sharing with EU relevant to invasive species and trade	N/A

III. Raise Awareness and Motivate High-Impact Actions

3.1.1	Conceptual framework for awareness raising initiatives	Internal Tool: Complete/Ongoing
3.1.2	Documentary film	Ongoing
3.2	Plan for NISC communications platforms	Internal Tool: Complete/Ongoing
3.2.1	Highly impactful NISC website	Revision/Update: Complete
3.2.2	Invasive species stories	• Success Stories: Complete • Popular Press Essays: Complete
3.2.3	Electronic communications toolkit (Podcasts)	Podcasts: March 2019
3.2.4	Invasive species webinars	Webinars: Complete/Ongoing
3.2.5	NISC annual report	Report Card: Complete/Ongoing
3.2.6	Stakeholder database	Internal Database: Complete/Ongoing

IV. Remove Barriers

4.1	Invasive species NEPA guidance	COP Discussion and Advice
4.1.1	NEPA annex on use of native seed/plants in restoration	N/A
4.1.2	NEPA annex on movement of watercraft among water bodies	N/A
4.1.3	NEPA annex on reducing risk of biological invasion through managed relocation	ISAC White Paper: Complete
4.2.1	Case studies of invasive species impacts on infrastructure	• ISAC White Paper: Complete • Infrastructure Report: Complete

4.2.2	Recommendations for addressing invasive species that impact infrastructure	• ISAC White Paper: Complete • Infrastructure Report: Complete
4.3.1	Case studies of invasive species impacts on wildlife health	ISAC White Paper: Complete
4.3.2	Recommendations for addressing invasive species that impact wildlife health	ISAC White Paper: Complete

V. Assess and Strengthen Federal Capacities

5.1	Published assessments of EDRR capacities in the US	Assessment Series: Ongoing
5.1.1	Assessment of Federal EDRR programs capacities	Assessment Series: Ongoing
5.1.2	Assessment of US legal authority capacities for EDRR	Assessment Series: Ongoing
5.1.3	Assessment of US risk analysis and horizon scanning capacities	Assessment Series: Ongoing
5.1.4	Assessment of US capacity to rapidly report the identity (taxonomy) of potential invasive species	• Assessment Series: Ongoing • Contractor's Report: Complete
5.1.5	Assessment of relevant information systems to provide data for risk analyses	Assessment Series: Ongoing
5.1.6	Assessment of the capacity of tools and technology for invasive species EDRR	• Assessment Series: Ongoing • Contractor's Report: Complete
5.1.6	Electronic catalog of EDRR tools and technologies for invasive species	• Assessment Series: Ongoing • Contractor's Report: Complete
5.1.7	Assessment of US inventory and monitoring capacities for application to the EDRR of invasive species	Assessment Series: Ongoing

VI. Foster Innovation

6.1	Mechanism(s) for fostering development, adoption, and sharing of decision support tools	• Assessment Series: Ongoing • BISON Database Tools: Ongoing
6.2	Annual "Innovation Summit" and Digital Makerspace (Outcome of 2016 Innovation Summit)	• Innovation Summit Report: Complete • Digital Makerspace: Complete
6.3.1	Assessment of cost-benefits of gene editing technologies for addressing invasive species	ISAC White Paper: Complete
6.3.2	Guidance for the use of gene editing technologies for addressing invasive species	• ISAC White Paper: Complete • COP Discussion and Advice
6.4	Guidance for utilizing commercial harvest programs for managing invasive species	COP Discussion and Advice
