I have most of the order figured out. Still need to plug the SO 3356 into the parts that fit for the monuments. Sorry I have to run... but do what you can and send back to me and I can finish in the morning if your not able to wrap it up.

Peace,

Timothy J Fisher, Program Lead

BLM National Monuments - Planning Priorities List

12/11/17

Introduction

The BLM manages 27 National Monuments. Twelve have existing Resource Management Plans (RMP), 4 have RMP's that are in development, three have no RMP's, and eight have RMP's with amendments in process.

Background

Executive Order 13792, "Presidential Executive Order on the Review of Designations Under the Antiquities Act," dated April 26, 2017, (Order or EO 13792) directed the Secretary to conduct a review of certain Presidential designations made under the Act, to determine if the designations conformed to the policies set forth in the Order. The Order instructed that two reports summarizing the review be provided:

- a. an Interim Report within 45 days, addressing the Bears Ears National Monument established by Proclamation No. 9558, dated December 28, 2016, and "other such designations as the Secretary determines to be appropriate for inclusion"; and
- b. a Final Report within 120 days, summarizing the findings of the review for all other monument designations covered by the Order.

The Interim Report was issued on June 10, 2017. On December 4th the President issued the Presidential Proclamation Modifying the Grand Staircase-Escalante National Monument and the Presidential Proclamation Modifying the Bears Ears National Monument. The Proclamation Modifying the Bears Ears National Monument modifies the boundaries of the 1.35 million acres of Federal lands to 2 areas: the Shash Jaa area and the Indian Creek area; and excludes from its designation and reservation approximately 1,150,860 acres. The Proclamation Modifying the Grand Staircase-Escalante National modifies the boundaries of the 1.7 million acres of Federal lands to 3 units: the Grand Staircase, Kaiparowits, and Escalante Canyons units of the monument (1,003,863 acres). On December 5th, in accordance with the Executive Order, Secretary Zinke released the final report outlining the recommendations he made to the President on national monument designations under the Antiquities Act.

In addition to the Bears Ears and Grand Staircase-Escalante National Monuments, the final report included recommendations to modify the boundaries and management of Cascade-Siskiyou and Gold Butte National Monuments.

The results of the review addressed the Broadly and Arbitrarily Defined "Objects"; Landscape Area Designations; Traditional Uses Limited; Concerns of State, Tribal, and Local Governments; Enforcement and Protection Concerns .

Another layer to monument review is looking at the management of the monuments to address Secretarial Order 3356, to “amend National Monument Management Plans to include or expand hunting, recreational shooting, and fishing opportunities to the extent practicable under the law.” The BLM is developing an action plan to identify recommendations to amend or develop National Monument Management Plans to expand opportunities; and to identify potential actions that would further enhance hunting, fishing, and recreational shooting opportunities within National Monuments.

Priority List

In order to respond to the changes made from the Proclamations for Bears Ears and Grand Staircase-Escalante and any changes that occur from the December 5th Final Report with limited resources, each of BLM’s monuments were prioritized. The following table shows the monument, current planning status, the issue that needs to be addressed, and the range of options to address the issue. The amending of any additional proclamations and or revising boundaries identified in the 09/05/17 Secretarial Report are outside the BLM’s authority. The BLM will coordinate with the Department through standard procedure as those recommendations are implemented. In addition, the BLM will work with the Department to coordinate with the Departments of Homeland Security and Defense for applicable recommendations.

TABLE 1. BLM NATIONAL MONUMENTS							
#	National Monument and State	Existing Land Use Plan	Existing Planning Status	Recommendations identified in 09/05/17 Secretarial Report	Option 1 and Rationale	Option 2 and Rationale	Option 3
1	Bears Ears, Utah	Monticello RMP, 2008.	NOI drafted and is being reviewed before entering into DTS.	Proclamation amended on 12/05/17	Develop monument management plan for the BENM with priority given to protecting objects while enhancing public access; infrastructure upgrades, repair, and maintenance; traditional uses;	Coordinate with state fish and wildlife agencies to identify key access, infrastructure, and habitat needs to improve hunting and fishing opportunities.	Coordinate with counties and public interest groups to identify key access and infrastructure needs. Coordinate with holders of valid existing rights to determine if there are
