Closure of Federal public waters of the Kuskokwim River to the harvest of Chinook and Chum salmon by Federally qualified subsistence users.

The Federal In-season Manager has closed Federal public waters of the Kuskokwim River to Federally qualified subsistence users effective immediately. This closure will be in place until run assessment suggests a harvest opportunity for Chinook and chum salmon can be provided to Federally qualified subsistence users on the Federal public waters.

On June 1, the Federal Subsistence Board closed Federal public waters of the Kuskokwim River drainage to the harvest of Chinook and Chum salmon except by Federally qualified subsistence users identified in the Alaska National Interest Lands Conservation Act, Section 804 Subsistence User Prioritization analysis. Federally qualified subsistence users will include residents of the Kuskokwim River drainage and the villages of Chefornak, Kipnuk, Kwigillignok, and Kongiganek.

For species other than Chinook and chum salmon, subsistence fishing with gillnets is closed in the Kuskokwim River and select tributaries under State regulations, following State Emergency Order 3-S-WR-01-16.

This restriction has been implemented by Federal Emergency Special Action (**3-KS-01a-16**) under the delegated authority of the Federal Subsistence Board.

Access up-to-date information on fishing opportunities by calling 907-543-1037 or visit the Yukon Delta National Wildlife Refuge [Facebook](#) page or [website](#). **Questions?** call the Refuge at (907) 543-3151 or at (800) 621-5804.

Additional information on the Federal Subsistence Management Program may be found on the web at www.doi.gov/subsistence or by visiting www.facebook.com/subsistencealaska.
