

Planning, Analysis, & Competitiveness (PAC) Subcommittee
Friday, October 26, 2018
11:00am-12:30pm EST
Meeting Summary

WELCOME AND DOI UPDATE

- Now is the time to start working on those recommendations so we can have them a month before the meeting.
- Nomination period is currently open and will be open for open more week, please spread the word.

WORKING GROUP RECOMMENDATIONS:

Coal

- Call a few weeks ago, there may be a few recommendations on the valuation side. There may also be a leasing recommendation that maybe for January. They are also looking at AML fee which is expiring in several years to develop a new framework on how it should look.

Studies

- RPC's earlier recommendation for BOEM to conduct studies is in progress.

Onshore

- There are several recommendations that are being considered and they will be working on improving the recommendation that was sent back to the subcommittee.

Non Fossil Fuels/Renewable

- Looking for speakers for the work group and will be working on coming up with recommendations over the next few weeks

Offshore

- There are a couple of possible recommendations that may be considered for development for January.

Alaska

- Haven't met in several weeks, however things in Alaska are going well and leases are getting worked quickly by BLM

ROLL CALL
