2017 PARKING REVIEW
PARKING CATEGORY INFORMATION

PARKING CATEGORIES:

H - Handicapped: Disabled employee in need of accessible parking. This includes an employee who has a severe, permanent impairment which for all practical purposes precludes the use of public transportation, or an employee who is unable to operate a car as a result of permanent impairment who is driven to work by another.

A – Heads of Bureau of Offices. Each head of bureau and office is allocated one category A permit.

C - Carpools. Applicant is a permanent, full-time Interior employee with a duty station at the Udall or South Interior Buildings; lives at least one mile from his/her duty station; and has at least three regular riders.

Applications will be categorized and assessed a point value based on the number of riders; how many are DOI employees; how many are employees at other Federal agencies; number of miles one-way; number of one-way trips per pay period; number of telework days per pay period.

V - Vanpools. Applicant is a permanent, full-time Interior employee with a duty station at the Udall or South Interior Buildings; lives at least one mile from his/her duty station; and must have at least eight regular members.

B – Individuals required to work considerably beyond their official duty hours and/or work unusual hours on a regular basis may be consider for this category. This category of parking requires a justification and certification by the head of the Bureau/Office.

R - Regionals are bureau/office heads not located in either the Udall or South Interior Buildings, but who frequently come to headquarters to conduct business.

E - Employees whose duties require them to be “on-call” during and after duty hours for essential operation of Interior Complex, or those expected to respond to Interior Complex-related emergencies. This may include employees who have responsibilities in support of Udall and South Interior law enforcement, facilities, OCIO and the Continuity of Operations and Continuity of Government Plans.

CF / HFE (Clean Fuel and High Fuel Efficiency) – In an effort to benefit the environment, support sustainability and promote energy efficiency, limited parking spaces are dedicated to CF and HFE vehicles. This includes hybrid and alternative fueled
