Jennifer, is your meeting likely to be over by 11, and if so, Marcia, would 11 work for you?

Hi Randy and Marcia,

I have a Regulatory Contacts meeting at 10:00 and not sure how long it will last. If you need an answer right away, please meet without me and let me know the outcome. I'll call you when I get out of my meeting.

Jennifer

Lets talk tomorrow mid-morning. I think the time to search for and find an appropriate demonstration project would take more time than the benefit we're looking for. I'm available anytime in the morning.

I am meeting with Downey tomorrow morning to find out what she thinks the Secretary really needs from the public comments, given the indications I got that my initial codes were too complicated.

In addition, in doing on-and-off skimming of the comments on [regs.gov](https://www.regulations.gov), I am starting to get ideas on how to capture large blocks of individual letters expressing opinions but not providing information as if they were form letters. However, I still need a better sense of how the system works.

So - option 1, could I or we come to your office and see how it has worked with prior groups of comments, or manipulate prior comments along the lines I am thinking of - if you still have access to prior comments; or Option 2, are you both available for a call mid-morning Tuesday. Option 1 would be more useful, but I recognize it might not be technically possible.
