Subject: Re: Bears Ears Comments finished
Date: Wednesday, June 07, 2017 2:35:50 PM

Thank you, this is helpful. I am working on scheduling a meeting.

Hi Randy,

Thank you for your coordination! Here are some comments for your review:

- For comments that were part of a larger thread, I marked them in their relevant categories (such as opposes review and provides no new information) and also made a note/annotation saying “multiple comments”
- Will we still be receiving a handout with more information?
- We could get more information for how to categorize and define neutral comments
- We could get more information regarding what’s considered “new information,” because some information may not be necessarily completely new, but may still be worthwhile considering

I would be available to meet during the week of June 11, either in-person or over the phone.

Best,

Cindy

I've been notified by several team members that coding is completed - congratulations to all! This is well ahead of what I anticipated.

Please take some time to think about what you encountered while working on the comments and make some notes to yourself on ideas for the future, lessons learned here and related matters. Then, either later today or early next week, please send me your comments and ideas. Also, please be thinking about we can best address the next round of comments, which will cover multiple monuments and multiple subject issues.

We will have a conference call and - if enough of you can come to Main Interior - meeting early the week of June 11 - to discuss how best to address the comments on the other monuments. I will send some thoughts on what we need from those comments, which will be different from Bears Ears, next week.
