Talked with Jennifer - she has already done a fdms extract for July 10-20 to ocver later-rriving items she posted, that had only a little over 600; she will do another when she gets a chance.

2) she and Julie are finding significant omissions in the grad student count - i.e they didn't report on many attachments, She showed me one spreadsheet page that had a 74,000 items one and plus others missed in the original review.

I am trying to look at some of the attachments to determine if they are petitions, form letters or other.. I found the first Pew trust attachment on the sheet with no problem, and other groups, but the first 2 sierra club ones turned up individual comments, not attachments. Can you check on these.
