Description:

All: Because of the number of people on this invitation, I have identified Dan, Jeannette, Hilary, Jamie, and myself as "required" participants. Everyone else has been marked as optional. I believe that the 5 of us can accomplish Agenda: Ensure DON, DOI, NOAA, and USDA are working toward the same goals and objectives regarding the RBP for Micronesia and Hawaii. Agree on a path forward for updating the RPB Attachment N and addressing the 6 regional priorities identified by the Micronesia Regional Invasive Species Council (RISC). Dan, Jeannette, Hilary, and Jamie: if the proposed date and time of May 24, at 3:00 PM does not work for you, please provide an alternative date and time. I believe we should strive to hold this meeting during the month of May. I will provide an actual room information and access into the building when we have confirmed the date and time. I look forward to meeting with everyone.

Unfortunately the meeting had to be changed to May 25. We hope this not a inconvenience to you. Hello - If you are able to participate in person. Please tell security you are here for a meeting with Scott Cameron. Our phone number is (202) 208-1927. If you are unable to participate in person. Please use the conference line . Attendees: Veronica Villalobos Catherin Saphos Dorothy Aronson Deborah Ray Jennifer McDannell Dr. Vicki Brown Robyn Rees Suzanne Tufts Towanda Brooks Scott Cameron Dear Team Members, First of all, thank you for volunteer to work with Dorothy and me on this team. I would like to schedule our kick-off meeting before Memorial Day weekend. Cathy or Jean of my staff will be in touch with you about scheduling the meeting. Our first meeting place will be here at Interior. To start our planning process, I would like to float the following topics as our scope of work, subject to your input and our group discussion, of course. 1. Promote SES movement across government by creating an on-line "job board" where agency ERBs could post SES vacancies where they would be open to considering hires from outside their own agency, and where SES interested in making a move could identify those agencies open to bring in outsiders. 2. Define a continuing education program for SESers. We'd work with SEA and maybe the Partnership for Public Service on this. 3. Pursue a legislative authority for 10 year term appointments to give agencies more workforce management flexibility, particularly in STEM occupations. 4. Leverage social media or other technology to help civilian agencies identify and share examples of career paths so their ambitious junior employee can have a sense of what their careers might look like if they want to stay in government and become an executive. DOD does this very well, I understand. 5. Develop strategies/assessment tools so that first line supervisors are more likely to be selected for their emerging leadership skills rather than their technical skills. I look forward to working with you to improve the productivity of the federal workforce and employee engagement! Thanks, Scott Scott J.
